- ***House Bill 4052:*** The secretary apologized to the Board for not providing the required letter to the Representatives regarding the Board's opposition to the Bill. The draft will be presented to the Board at the next scheduled meeting. Mr. Preuss will attend a meeting later today regarding this issue and will report back to the Board at its next scheduled meeting with an update relating to the Bill.
- ***MI Rail:*** Mr. Capers stated electrical inspections have been made at specific sites on the project. However, the Electrical Contractor *DES*, has not been at the job site, and the general contractor is calling for the inspections. Mr. Capers stated he notified *DES* they will have to have a representative at the jobsite for future inspections.  
Further discussion revealed that a proposed 60-80% of the overhead cantenary system will be removed in favor of a new railcar with a larger battery capacity with charging stations, and bids for the new railcar have been approved.
