

The **Detroit Water and Sewerage Department (DWSD)** will be seeking contractors for its Capital Improvement Program projects slated to begin in April 2019.

DWSD will be using a new construction contract document, new Standard Specifications, and new Standard Details to replace the documents currently being used. The Engineers Joint Contract Documents Committee (EJCDC) is the new document.

DWSD is hosting a workshop that will include an overview of the EJCDC document, upcoming contract opportunities, implementation of Executive Order 2016-1, and opportunities for networking.

A circular inset image showing construction workers in hard hats and safety gear working on a site. A yellow excavator is visible in the background. The image is overlaid with a teal tint.

DWSD Contractor Workshop

15 JANUARY 2019
