

Land Based Projects:

A Path to Purchase, Permit and Design

PLEASE JOIN US FOR A WORKSHOP!

We have heard that the process for purchasing vacant lots can be difficult. The City of Detroit is working to clarify and simplify the process for purchasing and permitting land based projects in 2019 and want to hear from you and provide you with updates on our progress. This workshop will include hands-on input with work in progress!

WHAT IS A LAND BASED PROJECT?

A "land based project" uses land for urban agriculture, gardening, beautification and other productive uses, whether for profit or as a community-based activity.

With your input, we will clarify and simplify the process for people to acquire and use land for gardening, urban agriculture and other community-based and entrepreneurial ventures. These changes will ensure land based projects are good neighbors in neighborhoods across Detroit.
