QUESTIONS

- **Which stories from this process really rose to the top in conversation?**
- **What ideas do you have for highlighting stories?**
 - **Walking history tours?**
 - **Music tribute events?**

FEEDBACK

- Residents would like to see everyday neighborhood leaders recognized as well as prominent leaders. We asked residents to provide names of individuals they feel should be recognized. Many mentioned social, art, and justice themes and creating living spaces that incorporate genealogy into the spaces. They'd like children to participate in this.
- They are interested in sidewalk paving, statues, and markers. Residents also felt that there should be some sort of app that takes you to sites in the neighborhood so that you could learn more about the stories mentioned through this process.
- Residents are also interested in programming that is tied around Arts + Heritage in the neighborhood on the Dexter corridor.
