Council President Pro Tem Cushingberry, Jr., on behalf of Council President Brenda Jones, moved for adoption of the following resolutions: Resolution of the City Council of the City of Detroit.

By Council Member Cushingberry, Jr.:

WHEREAS, The recent tragic mauling death of a very young child by unlicensed pit bull dogs is only the latest example of vicious attacks by dogs of this breed; and

WHEREAS, The main issue in this regard is enforcement, and primarily the resources required to adequately enforce the City's Animal Control ordinance; and

WHEREAS, It is extremely urgent that City government act immediately to provide sufficient funds and other available resources to implement a comprehensive strategy to prevent such attacks;

WHEREAS, The administration may wish to evaluate and implement a complaint-driven licensing and enforcement protocol by widely advertising the initiative to Detroit citizens through local media

outlets, particularly using the City's cable television channels to disseminate the requirement that dog licensing in the City is mandatory, and enhance public education about the fact that unlicensed dogs, particularly large, menacing breeds, pose known health risks;

NOW THEREFORE BE IT RESOLVED, That Council urges the administration to immediately allocate more funds to the animal control budget by proposing an appropriate budget amendment forthwith, in an amount, and with specific declared and identified purposes in terms of staffing, training and implementation, sufficient to provide reasonably adequate safeguards against such attacks.

TESTIMONIAL RESOLUTION FOR

**The Life, Legacy and Music of
HENRY K. KAILIMAI, SR.**

By COUNCIL PRESIDENT JONES:

WHEREAS, It is with great pleasure and privilege that we, members of the Detroit City Council, recognize and bestow homage upon the late great, Henry K. Kailimai, a famous Hawaiian musicians extraordinaire and patriarch of the Kailimai Family; and

WHEREAS, In 1882, Henry Kailimai was born in Oahu, Hawaii, the son of William Henry and Kaaipelana Kailimai. He became an accomplished musician and teacher of music. Henry was a respected member of the Latter-Day Saints (LDS) Mormon Church and played the organ for church services. In 1902, he married Louisa Opu. To this union, eight children were born – six boys and two girls; Henry Jr., John, Bailey, Solomon, William, Kokokanakaelua (Togo), Lois and Ruth. Music was his life and over the years, Henry's talent for writing songs and making music brought him island fame, ultimately earning him an international reputation. It is speculated that he wrote many more songs during his lifetime than he is given credit for. It is known that he wrote "Little Honolulu Lou," "Sweet Brown Maid of Kaimuki," "Paradise Isle," and his most popular song, "On the Beach at Waikiki," which was composed in 1915 with lyrics by Dr. G.H. Stover, but rewritten and arranged by Sonny Cunha. The song was first presented at the 1915 Panama-Pacific International Exposition in San Francisco, California and became a tremendous success. That year, "On the Beach at Waikiki," was copyrighted and published by the Bergstrom Music Company. The song was also featured in the 1940 Shirley Temple movie, "The Young People." It was reputed to be the biggest money-maker of all Hawaiian songs in those days. This year, 2015, marks the centennial of the exposition,

which was held to celebrate the rebuilding of San Francisco after the Great Earthquake; and

WHEREAS, Henry Ford, the automobile manufacturer and Founder/president of the Ford Motor Company, was so enraptured by Henry Kailimai's musical talents that he extended an invitation to Detroit, Michigan to become Ford's resident musician. The other members of the quintet were also invited to join Henry. These four gentlemen, with Henry as their leader would soon become known as the 'Ford Hawaiian Quintet.' They provided entertainment at Ford Motor Company social events for many years. The quintet was very much in demand for engagements at the Detroit Athletic Club, the Knights of Columbus Hall and the Arcadia Auditorium, all considered to be "high" places for entertainment during those years. Through Henry Ford, each of Henry Kailimai's sons was given a formal education and served an apprenticeship with Ford Motor Company, with the promise of guaranteed employment. It is said that the young sons loved music. They developed this love through training from their father. Henry was a tough taskmaster and required his sons to have classical studies on various instruments and music genres. As a result, each son became an accomplished musician in his own right. The daughters were said to be musically inclined also, however, Lois died in early womanhood and records or knowledge of her musical inclinations have been lost. Ruth was a singer and accomplished dancer. She and her husband, Levi Smith, eventually gained recognition in Detroit as superb tap dancers. And so, the Kailimai Family established permanent residence in Detroit and the first generation to grow to adulthood on the mainland started families of their own; and

WHEREAS, During 1916, Henry Kailimai, Sr. became a teacher of the ukulele, mandolin and guitar. He was known as Professor Kailimai, Master Musician. On October 21, 1916, Henry and his quintet received an invitation to perform for Thomas Edison and his wife in Orange, New Jersey. They were a big hit, not only with Mr. and Mrs. Edison, but also with everyone around the plant who heard them perform. Soon after, some of the original members of the quintet began expressing the desire to return to Honolulu. One by one, they started to leave. By December 4, 1917, the 'Ford Hawaiian Quintet' had disbanded. Afterwards, Henry was employed at various occupations such as autoworker, clerk, musician and music teacher. Henry Kailimai, Sr. was truly passionate about music and the education of the next generation of young musicians.

NOW, THEREFORE BE IT

RESOLVED, That the Detroit City Council and office of Council President Brenda Jones, hereby joins with family and friends in posthumously honoring the legacy of Henry Kailimai, Sr. and his outstanding musical achievements.

Re: Robert Dybowski vs. City of Detroit Public Lighting Department, File No.: 14810 (CM).

On January 27, 2015, your Honorable Body adopted a resolution authorizing payment of \$9,999.00 to settle the workers compensation claim of Robert Dybowski. Re: Request to Amend the Official Compensation Schedule.

Recommendation is submitted to

amend the 2015-2016 Official Compensation Schedule to increase the pay range for the classification of Senior Associate Surveyor.

Title

Senior Associate Surveyor (12-23-36)

Current

\$51,900 - \$59,600

New

\$51,900 - \$62,400

Step Code

R

The rate adjustment requested is based on internal equity analysis of other subordinate senior staff. At one time the salaries of the Senior Associate Surveyor and Senior Associate Civil Engineer were equivalent, but the union representing the diminishing numbers of survey personnel was not able to secure the same wage adjustments that the much larger engineer unions received over time and the gap between the salaries has grown wider.

The ability to attract and retain essential personnel performing such work of comparable scope and complexity is critical to the impact of operations and customer service. Field survey is required before most construction projects can proceed and to settle problems in the field that arise with construction activities. The Department needs to maintain the field survey services that are critical for the construction projects and those activities need to be coordinated by a Registered Surveyor.

Whereas, The taxable value of the property proposed to be exempt plus the aggregate taxable value of property already exempt under the Act and under Public Act 146 of 2000 does not exceed 5% of the total taxable value of property in the City of Detroit; and

Whereas, The Applicant is not delinquent in any taxes related to the facility; and

and location of the Public Hearing, and the opportunity to be heard;

Now Therefore Be It

Resolved, That it is hereby found and determined that the granting of an Obsolete Property Rehabilitation Exemption Certificate, considered together with the taxable value of Obsolete Property Rehabilitation Exemption Certificates and Industrial Facilities Exemption Certificates if previously granted and currently in force, will not have the effect of substantially impeding the operation of the local governmental unit or impairing the financial soundness of any other taxing unit which levies an ad valorem property tax within the City of Detroit; and be it further

Resolved, That it is hereby found and determined that the Applicant has complied with the requirements of the Act; and be it further

DIVISION 4. PARKING METERS AND PARKING ZONES

Sec. 55-4-62. Parking meter zones; limitation on use of parking meters; parking rate categories, parking

zones, parking zone sectors, maximum time limits; City Council approval required for certain new parking zones or charges.

(a) The Department of Public Works is hereby authorized and directed to establish, from time to time, where, in its opinion, traffic conditions warrant the same, zones to be known as parking meter zones, upon such streets of the City as are selected by the department for the location of such zones, and shall cause parking meters to be installed and parking meter spaces to be designated as provided in this article. Such parking meters may be used only to aid the enforcement of the applicable regulations in this division.

(b) To improve traffic flow, increase availability of parking spaces, and provide flexibility in the parking system, parking rates shall be designated as a "Normal Demand Parking Meter Rate" or "Premium Demand Parking Meter Rate" or "Special Events Parking Meter Rate" based on use and demand. The Municipal Parking Department shall promulgate rules to establish the boundaries of parking zone sectors, set maximum time limits and apply the schedule of rates set forth in Sec. 55-4-63 to each parking zone and each parking zone sector.

Campau Street, as extended to the Detroit River, but excluding any area within parking Zone 1; and

(3) Parking Zone 3 includes any area within the City of Detroit that is outside of Parking Zones 1 and 2.

(4) When a portion of a street or highway forms a boundary between two parking zones, both sides of that boundary street or highway shall be deemed to be within the parking zone with the lower number.

(d) The Municipal Parking Department

may by promulgated rule further subdivide the parking zones set forth in subsection (c) into parking zone sectors based on land use, proximity to points of interest, and any other factors deemed relevant to improve traffic flow, increase availability of parking spaces, and provide flexibility in the parking system.

(e) Information relative to the parking zones and parking zone sectors shall be set forth on the City's website, on parking meters and in appropriate on-street signage.

(f) The Municipal Parking Department shall not establish a new parking zone in any area of the city that has not been subject to entered charges for street parking within the previous year, unless approved by resolution of the City Council. If an area of the city that has not been subject to metered charges for street parking within the previous year is within an existing parking zone, the Municipal Parking Department shall create a parking zone sector for such area and shall not charge or establish a Parking Rate Level other than Parking Meter Rate Level O (free or open parking) for that parking zone sector unless approved by resolution of the City Council.

**RESOLUTION
OPPOSING INCREASED AIR
POLLUTION PERMIT LIMITATIONS
FOR**

MARATHON PETROLEUM REFINERY
By THE CITY COUNCIL OF THE CITY OF DETROIT:

WHEREAS, The Marathon Petroleum corporation refinery in southwest Detroit has long been a major source of chemical air pollutants, odors and particulate emissions; and

WHEREAS, The 48217 ZIP Code area in southwest Detroit where the Marathon refinery is located has long been the most heavily contaminated geographical community in the State of Michigan, with extensive adverse public health effects from a large number of sources located nearby; and

WHEREAS, Marathon is currently seeking a revised emissions permit that would allow it to emit more pollution; and

WHEREAS, Detroit has some of the highest asthma rates in the state, where city-wide nearly 1 in 6 Detroiters suffer from asthma, and children's asthma rate is nearly 50% higher than in other Michigan cities, while the incidence is even worse in southwest Detroit; and

WHEREAS, Southwest Detroit is nevertheless a thriving district, home to some of Detroit's most robust neighborhoods; in 48217 alone, there are more than 7,000 residents, 25% of whom are under the age of 19; and

WHEREAS, Marathon's emissions aggravate the already-serious asthma problem in the host community, but the health effects of air pollution are not limited to asthma; they also include heart disease, stroke, and cancer — diseases that are also more common in Detroit than elsewhere;

WHEREAS, In May 2014, the Michigan Department of Environmental Quality (DEQ) revised the emissions permit for Severstal Steel (the former Rouge Steel Corp.) in the adjacent community of south Dearborn to allow for some toxic pollutants such as lead, carbon monoxide, and PM10 (fine dust) to be doubled, tripled, quadrupled, or in some cases even increased by more than 7200 percent, leading directly to even greater adverse and disproportionate environmental and health impacts on residents in these communities; and

NOW, THEREFORE, BE IT RESOLVED, That the Detroit City Council joins the City Health Department in strongly opposing revision of the Marathon Petroleum Corporation's southwest Detroit refinery's air pollution permit to allow any more pollution; to that end, Council is in the process of scheduling another public hearing with the DEQ to be located in the 48217 community, so that the critical issues involved can be more fully discussed and understood; and

BE IT FURTHER

RESOLVED, That the Marathon air pollution permit should be revised to significantly reduce the amount of pollution that adversely affects this already over-burdened community; and

BE IT FINALLY

RESOLVED, That copies of this resolution shall be provided forthwith to Governor Snyder, the acting director of the DEQ, Mayor Duggan, the members of Detroit's state legislative delegation and the City's lobbyist in Lansing.

Yeas — Council Members Benson, Castaneda-Lopez, Cushingberry, Jr., Leland, Sheffield, Spivey, Tate, and President Jones — 8.

If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. Re: Petition No. 869, Bedrock Real Estate Services, request to expand the encroachment granted August 25, 2014 (via petition No. 147) First National Building, 660 Woodward Avenue, Detroit, MI 48226.

Petition No. 869 — Bedrock Real Estate Services on behalf of 660 Woodward Associates LLC, whose address is 660 Woodward Avenue, Detroit, Michigan 48226 request permission to expand an existing encroachment from 8 feet to 11.6 feet wide to allow for year-round placement of the outdoor café furnishings, hearing and enclosure area on the sidewalk of Cadillac Square, 200 feet wide, at the First National Building.

The encroachment petition was referred to the City Engineering Division — DPW for investigation and report. This is our report.

Two related petitions were previously granted by your Honorable Body:

1. Petition #147 to permit encroach-

ment, 8 feet wide, and maintain outdoor seating areas, bicycle racks, benches and planters etc. on the sidewalk at the ground floor of the First National Building on Woodward Avenue, 190 feet wide and Cadillac Square, 200 feet wide. The petition was approved on August 25, 2014.

2. Petition #705 to permit Central Kitchen and Bar to install and maintain a seasonal outdoor café, contingent upon licensee of such premises obtaining approval of the Michigan Liquor Control Commission, if necessary and compliance with applicable City ordinances in connection with outdoor café activities. Resolution dated June 9, 2015.

Traffic Engineering Division — DPW reports no objection to the requested area of encroachments provided an eight and one-half (8.5) foot wide cleat sidewalk for pedestrian traffic is maintained. City Engineering Division — DPW reports no objection provided there is no obstruction to a continuous path for the use by wheelchairs and that City policy, provisions and requirements are followed.

The Public Lighting Department (PLD) reports no objections.

Detroit Water and Sewerage Department (DWSD) reports no objections to the encroachments provided that the provisions for encroachments are followed. The specific DWSD encroachment provisions are a part of this resolution.

The Planning and Development Department has approved and issued a Certificate of Appropriateness (COA) containing certain conditions that must be kept. This resolution contains a provision requiring compliance with the COA.

All other involved City departments and privately owned utility companies request the petitioner(s) make use of "Miss Dig" facilities before any construction take place.

There is an appropriate resolution, granting the encroachment petition, attached for consideration by your Honorable Body.

**RESOLUTION
TO SUPPORT UNIVERSAL INCOME
TAX WITHHOLDING**

By Council Member Cushingberry, Jr.:

Whereas, At the time of enacting the City Income Tax Act (*Public Act 284 of 1964*) (CITA), a substantial majority of residents worked within their own city limits; however, demographic and census data show a substantial majority of residents of income tax-levying cities now work outside their home city;

Whereas, CITA does not require employers situate4d outside of income tax-levying cities to withhold local tax from the paychecks of their employees who live in those cities and remit said resources to the jurisdictions;

Whereas, Withholding is the most effective mechanism for income tax payments. Data show the city income tax collection rate is about 98 percent among taxpayers who are subject to withholding. Federal and state agencies have similar experience data.

Whereas, Employers can help their employees to pay taxes through their withholding. Residents working outside our respective municipalities often fail to file income tax returns because they cannot pay the lump sum tax owed at the end of the year; employees would benefit from their employer withholding directly so they do not become delinquent and incur added penalty and interest;

Whereas, Nearly all leaders of the 22 Michigan cities that levy an income tax agree that employers with annual payrolls of over \$500,000 and 10 or more employees should be required to withhold local income tax for employees residing in jurisdictions imposing a tax;

Whereas, The proposed changes to state law would not raise income tax rates in any of the 22 cities with such a levy, but, rather, only seek to enhance overall collections and yield the locals' payment for services from residents who used them;

Whereas, The proposed amendment to CITA would provide millions in additional income tax money for cities to expend on basic city services, including policing and fire protection;

Whereas, The Michigan Department of Treasury supports this public policy endeavor, as does the Michigan Municipal League;

Now, Therefore Be It

Resolved, That the Honorable Detroit City Council respectfully asks the Michigan Legislature to pass an amended HB4829 to help all income ta-levying cities augment their collection rates;

Be It Further

Resolved, That Governor Rick Snyder expeditiously approve said legislation once it is presented to him for his signature into law;

And Be It Finally

Resolved, That a copy of this resolution be sent to Governor Rick Snyder; legislative caucus leaders; members of the House and Senate Local Government committees; members of the House and Senate Government Operations committees; members of the House Tax Policy Committee; and members of the Senate Finance Committee.

Respectfully submitted,
JOHN SAAD
Manager —
Development Division

By Council Member Leland:

Whereas, 2051 Rosa Parks, LLC, has filed with the City Clerk an Application for an Obsolete Property Rehabilitation Exemption Certificate, under Public Act 146 of 2000 ("the Act") in City of Detroit Obsolete Property Rehabilitation District in the manner and form prescribed by the Michigan State Tax Commission; and

Whereas, This City Council is a Qualified Local Governmental Unit as defined by the Act; and

Whereas, This City Council on October 9, 2012, established by Resolution an Obsolete Property Rehabilitation District in the vicinity of 2051 Rosa Parks Boulevard, Detroit, Michigan, after a Public Hearing held, in accordance with the Act; and

Whereas, The taxable value of the property proposed to be exempt plus the aggregate taxable value of property already exempt under the Act and under Public Act 146 of 2000 does not exceed 5% of the total taxable value of property in the City of Detroit; and

Whereas, The Applicant is not delinquent in any taxes related to the facility; and

Whereas, The Application is for obso-

lete property as that term is defined in Section 2(h) of the Act, which property is owned by the Applicant; and

Whereas, Commencement of the rehabilitation of the subject facility did not occur before the establishment of the Obsolete Property Rehabilitation District; and

Whereas, The Application relates to a rehabilitation program that when completed constitutes a rehabilitated facility within the meaning of the Act and which is situated within the aforesaid City of Detroit Obsolete Property Rehabilitation District; and

Whereas, Completion of the rehabilitation is calculated to, and will at the time the Certificate is issued, have the reasonable likelihood of increasing and/or retaining employment, increasing commercial activity, revitalizing an urban area, or increasing the number of residents in the community in which the facility is located; and

Whereas, The rehabilitation includes improvements aggregating 10% or more of the true cash value of the property at the commencement of the rehabilitation as provided by Section 2 (l) of the Act; and

Whereas, This City Council has granted until December 31, 2017 for the completion of the rehabilitation; and

Whereas, On January 21, 2016, in the City Council Committee Room, 13th Floor, Coleman A. Now Therefore Be It

Resolved, That it is hereby found and determined that the granting of an Obsolete Property Rehabilitation Exemption Certificate, considered together with the taxable value of Obsolete Property Rehabilitation Exemption Certificates and Industrial Facilities Exemption Certificates if previously granted and currently in force, will not have the effect of substantially impeding the operation of the local governmental unit or impairing the financial soundness of any other taxing unit which levies an ad valorem property tax within the City of Detroit; and be it further

Resolved, That it is hereby found and determined that the Applicant has com-

plied with the requirements of the Act; and be it further

Resolved, That the application of 2051 Rosa Parks, LLC, for an Obsolete Property Rehabilitation Exemption Certificate, in the City of Detroit Obsolete Property Rehabilitation District is hereby approved for a period of Twelve (12) years from completion of the facility, with the certificate beginning December 31, 2016 and the certificate expiring December 31, 2028, in accordance with the provisions of the Act; and be it further

RESOLUTION
IN OPPOSITION TO SENATE BILL 709,
AMENDING THE REVISED
JUDICATURE ACT TO ELIMINATE A
36th DISTRICT COURT JUDGE

By Council President Jones:

Whereas, On January 14, 2016, Senate Bill 709 was introduced in the Michigan Legislature to amend the State's Revised Judicature Act to incorporate court restructuring recommendations of the Michigan Supreme Court contained in the July 2015 *Judicial Resources Recommendations* (JRR) report; and

Whereas, Among the recommendations of the report are a number of cutbacks in circuit court, probate court and district court judgeships around the state based on an assessment of judicial needs by the State Court Administrative Office (SCAO); and

Whereas, Detroit's 36th District Court, long known to be one of the nation's busiest courts — processing over 500,000 cases per year, is among the courts contemplated to lose a judge if SB 709 is enacted; and

Whereas, 36th District Court is the City's trial court with original jurisdiction for the following actions occurring in the City of Detroit: traffic and ordinance violations; criminal misdemeanor cases; arraignments and preliminary examinations for felony cases; small claims lawsuit for amounts up to \$5,500.00; civil lawsuits (other than small claims) for amounts up to \$25,000.00; and real estate matters involving rent and land contract disputes; and

Whereas, The majority of the court's clientele/litigants are Detroit residents, many of whom have historically been economically disadvantaged, and continue to struggle with basic needs such as transportation, child care, access to employment and medical care — all of which are negatively impacted by the need to appear before overburdened courts, necessitating long waits, often rescheduled hearings; and

Whereas, Reducing the number of judgeships in the court will severely undermine the Court's efficiency, having a direct impact on the local community as well as the judges on the Court's bench; and

Whereas, The sole reason cited in the Senate Fiscal Agency's Bill Analysis for the reduction in judges is cost saving, although the cost to the State is noted to be \$157,303 per judge with additional funds coming from the local government — for a total saving to the State of \$1.1 million for all affected jurisdictions; and

Whereas, The significant increased burden on the citizens of Detroit resulting from this poorly considered cut is ill advised.

Now, Therefore Be It

Resolved, That the Detroit City Council hereby urges the Senate Committee on the Judiciary and the entire State Legislature to reject the proposed cut to 36th District Court.

Be It Finally

Resolved, That a copy of this resolution shall be transmitted to the Detroit delegation of the Michigan Legislature, 36th District Court Chief Judge Nancy M. Blount, the State Court Administrative Office, and Chief Justice Robert P. Young, Jr. of the Michigan Supreme Court.

Yeas — Council Members Ayers, Benson, Cushingberry, Jr., Leland, Castaneda-Lopez, Sheffield, Spivey, Tate, and President Jones — 9.

**RESOLUTION
IN OPPOSITION TO SENATE BILLS
710 AND 711, AS INTRODUCED IN
THE MICHIGAN LEGISLATURE ON
JANUARY 14, 2016**

By Council President Jones:

Whereas, For much of the last two decades, the Detroit Public School System (DPS) has faced financial turmoil as a result of continuing State intervention, mismanagement by a parade of emergency managers, and deprivation of democratic rights; and

Whereas, Prior to the first state takeover in 1999, it was estimated that the District had approximately 200,000 students and a very substantial budget surplus; DPS now has less than a quarter that number of students and is projected to run out of money before the end of the school year in June; and

Whereas, Following much public discussion by the Governor and members of the Legislature, two bills to effectuate the Governor's plan to split DPS into two new entities for purposes of restructuring DPS debt were introduced in the Michigan Senate on January 14, 2016; and

Whereas, Senate Bill 710 amends Public Act 451 of 1976 (the "revised school code") to create and differentiate between a "qualifying school district", i.e., DPS, and a newly named and solvent "community school district", while Senate Bill 711 amends Public Act 181 of 2014 (the "Michigan financial review commission act") to provide post-bankruptcy style oversight for the newly formed community school district; and

Whereas, SB 710, while attempting to address the crushing budget deficits of DPS, does so by further unraveling the scant remnants of democratic fabric of the City school system — on the effective date of the proposed act, "the school district shall lose its organization and be dissolved", and the sitting elected school board's function is entirely sidelined, existing for the "limited purpose of . . . repayment of debt and the dissolution of the district; and

Whereas, The new "community school district", although without the debt of DPS, will remain subject to the oversight of a financial review commission and will function with an unelected board, appointed by the Governor and the Mayor; the act provides for a 9-member board to be elected, by district, but not until 2018; and

Whereas, The proposed amendatory act leaves unaddressed the other publicly funded schools in the district, including the dozen or more Educational Achievement Authority schools, nor does it address any basic uniform educational standards; and

Whereas, Any legislative remedy to the Detroit Public Schools' fiscal dilemma should rightfully include the requirement

of a full financial audit of the District's finances for the period of time since 1999 that DPS has been under State mandated emergency management.

Now, Therefore Be It

Resolved, That the Detroit City Council recognizes the enormity of the task to right the City's schools, but urges the Legislature to err on the side of democracy and immediately restore an elected school board with meaningful authority, and remove the remains of emergency management that has done so much to undermine the success of the City's school system;

and Be It Further

Resolved, That the Detroit City Council urges the Legislature to include provision for a full financial audit of DPS finances during the tenure of State-appointed emergency managers:

and Be It Finally

Resolved, That a copy of this resolution shall be transmitted to the Detroit delegation of the Michigan Legislature, Mayor Mike Duggan, and Governor Rick Snyder.

Yeas — Council Members Ayers, Benson, Castaneda-Lopez, Cushingberry, Jr., Leland, Sheffield, Spivey, Tate, and President Jones — 9.

TESTIMONIAL RESOLUTIONS AND SPECIAL PRIVILEGE

RESOLUTION IN MEMORIAM PASTOR RALPH L. GODBEE, SR. Pastor Emeritus of Inner Court Christian Center

By COUNCIL MEMBER JONES:

WHEREAS, We, the members of the Detroit City Council, solemnly pause today to honor the memory of the late Pastor Ralph L. Godbee, Sr., a faithful man of God, devoted husband, father and grandfather who departed this life on January 8, 2016; and

WHEREAS, Ralph L. Godbee, Sr. was born in Detroit, Michigan to the union of the late Esther and Rev. Dwight Godbee, the third youngest of 17 children. He received his adolescent education in the Detroit Public School System, matriculating from Atkinson Elementary, Cleveland Junior High and Pershing High School. At age 17, he dropped out of high school and joined the United States Army in 1960 to help ease the financial burden on his widowed mother following the dissolution of the family-owned business, DM Godbee Construction, Mr. Godbee's overseas service took place in Germany and he was discharged after serving for 3 years. Upon his return to Detroit, he decided to take up the family craft and became a brick mason. He was an absolute "Picasso" and

turned out to be one of metropolitan Detroit's most sought after brick mason. Everyone that hired him marveled at his craftsmanship with bricks and blocks, electrical, plumbing, carpentry and tile work; and

WHEREAS, Ralph accepted Christ at an early age and his faith and church were always an integral part of his life. In 1966, he joined Leland Missionary Baptist Church and decided to participate in the young adult choir. It was here that he met the love of his life, Beulah Louise Rivers, who served as the choir president. The couple were united in marriage on March 12, 1967 and were happily married for 48 years. To this union, they were blessed with 3 sons, Ralph, Jr., Raymond (predeceased them in death) and Ronald. At age 29, Ralph was diagnosed with severe heart disease and suffered with many health challenges. In 1977, he accepted the call to the ministry and was licensed and ordained under the tutelage of the late Rev. Eugene Rhodes. Thereafter he served in the ministry at New Bethel Baptist Church and Conner Avenue Peace and Goodwill Baptist Church. In 1989 Pastor Godbee organized a mission teaching bible class in his basement and in December of 1990, Cleansing Springs Missionary Baptist Church was officially incorporated. He served as its founder and Senior Pastor until April of 2011, when Cleansing Springs and the Inner Court Christian Center, which was founded by his son, Pastor Ronald Godbee, Sr. were merged. Later Ronald Godbee relocated and became the Senior Pastor of the River Church in Durham North Carolina. Pastor Godbee Sr.'s namesake, Ralph L. Godbee Jr. was appointed as Senior Pastor of Inner Court Christian Center; and

WHEREAS, Pastor Godbee, Sr. then became Pastor Emeritus and attended church faithfully until the very last Sunday preceding God calling him home to Glory to join his loving wife, First Lady Beulah, who made her transition three weeks prior to his passing. Pastor Ralph L. Godbee, Sr. has been a good servant and ensured that the values and traditions by which he lived would exist in the hearts of those he cherished for years to come.

PROVIDED, That Detroit Water and Sewerage Department (DWSD) forces shall have free and easy access to the water main and sewer facilities at all times to permit proper operation, maintenance and if required, alteration or repair of the water main and/or sewer facilities. Free and easy access shall mean that no structured or storage of materials will be allowed upon the temporarily closed street to hinder the movement of maintenance equipment; and further

PROVIDED, That where a fence is placed across the temporarily closed por-

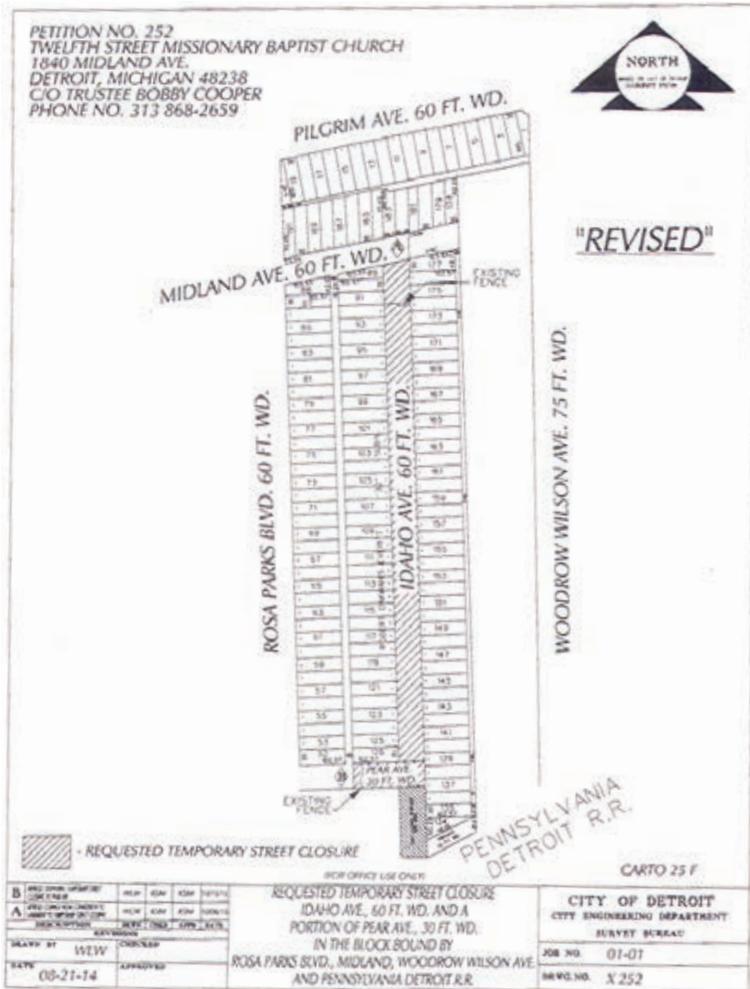

tion of a street/alley, then a gate must be installed to permit access for DWSD forces. The gate shall remain unlocked 24 hours a day unless a guard is stationed near the gate to allow DWSD ingress and egress at any time to the temporarily closed street. The minimum dimensions of the gates shall provide 15 foot vertical and 13 foot horizontal clearances for freedom of DWSD equipment movement; and further

PROVIDED, That should the water main and/or sewer facilities be broken or damaged as a result of any action on the part of the petitioner or assigns, then in such event the petitioner or assigns shall be liable for all costs incident to the repair of such broken or damaged water main and appurtenances, and the petitioner waives all claims for damages; and further

PROVIDED, That this resolution is revocable at the will, whim or caprice of the Detroit City Council without cause. The petitioner waives the right to claim damages or compensation for removal of encroachments. Further, the permittee acquires no implied or other privileges hereunder not expressly stated herein. If this permit is continued for the five (5) year period, the City Council may (upon written request and if the circumstances justify accordingly) grant an extension thereto; and

PROVIDED, That this permit shall not be assigned or transferred without the written approval of the Detroit City Council; and further

PROVIDED, That the City Clerk shall within 30 days record a certified copy of this resolution with the Wayne County Register of Deeds.

Honorable City Council:
 Re: Petition No. 531 – 1903 Wilkins, LLC, request to vacate previously abandoned alleys located on or abutting the property at 1903 Wilkins Street, Detroit, MI 48207 for the purpose of clearing title in order to consolidate the tax parcels into one single parcel.

Petition No. 531– by Silvia Shelby Bradley on behalf of 1903 Wilkins LLC, request to vacate and convert to easement

part of Erskine Avenue, Watson Avenue, Wilkins Avenue and the remaining public alleys in the area bounded by Wilkins Avenue, variable width, Erskine Avenue, 50 feet wide, Dequindre Cut (Grand Trunk Railroad right-of-way) and St. Aubin Avenue, 50 feet wide.

This request is being made in order to consolidate the Detroit Edison Public School parcels into a single tax parcel and to clear the title for the new parcel. The school has been in existence at the subject site for over 10 years but was a tenant and just purchased it from the landlord this year which now allows them to exempt the property taxes that they have been paying because of the lease terms.

The petition was referred to the City Engineering Division – DPW for investigation (utility review) and report. This is our report.

The request was approved by the Solid Waste Division – DPW, and Traffic Engineering Division – DPW.

The Public Lighting Department (PLD) reports that there is a 24,000 volt cable run in Erskine Avenue. Maintenance crews require a 24-hour heavy truck access for repair of duct run and/or cable installation. The specific PLD provision is a part of the attached resolution.

The Public Lighting Authority (PLA) reports having PLA lights in the affected area and requests the petitioner to contact PLA for actual costs to remove the lights when ready. The specific PLA provision is a part of the attached resolution.

The Detroit Fire Department (DFD) reports involvement and a provision to maintain DFD access is a part of the resolution.

Detroit Water and Sewerage Department (DWSD) has no objection to the conversion to easement. The specific DWSD provisions for easements are included in the resolution.

All involved City Departments and privately owned utility companies have reported no objections to the conversion of the public right-of-way into a private easement for public utilities. Provisions protecting utility installations are part of the attached resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted,
RICHARD DOHERTY, P.E.

TESTIMONIAL RESOLUTIONS AND SPECIAL PRIVILEGES

TESTIMONIAL RESOLUTION FOR

SPENCER HAYWOOD

NBA Trailblazer

By COUNCIL PRESIDENT JONES:

WHEREAS, It is with great pleasure and privilege that we, the members of the Detroit City Council, recognize and bestow due honor upon Spencer Haywood, a former Detroit-area high school star, National Basketball Association (NBA) and American Basketball Association (ABA) professional basketball player,

Olympic gold medalist and *NBA Trailblazer* award recipient; and

WHEREAS, Haywood was born into a family of 10 children, on April 22, 1949 in Silver City, Mississippi. This was a tiny town where the racial lines were starkly drawn and a future beyond the cotton fields was hard to imagine. Taking the opportunity to escape poverty and stifling conditions at the time in the rural south, at age 15, Spencer went first to Chicago and then moved to Detroit in 1964. Haywood was discovered by former Pershing coach Will Robinson, who saw him playing in a pickup game on the outdoor court at the Kronk Recreation Center. Haywood was the youngest who led Pershing's basketball team to the first state title for a Detroit public school in 37 years, when the Doughboys won the Class A championship. He attended Trinidad State Junior college in Trinidad, Colorado, for one year during the 1967-68 college season, where he averaged 28.2 points and 22.1 rebounds per game. Due to his exceptional performance and talent, Haywood made the USA Olympic basketball team in 1968 and as the leading scorer, he played a huge role in helping the team to win a gold medal at the summer Olympic Games in Mexico City. He transferred to the University of Detroit in the fall of that year on a basketball scholarship, where as a sophomore he scored 32.1 points per game and led the NCAA in rebounding with a 21.5 average per game; and

WHEREAS, Spencer decided to turn pro after his sophomore year, but NBA rules, which then required a player to wait to enter the draft until four years after their high school graduation, prohibited him from entering the league. As a result, he signed with the Denver Rockets of the ABA. The league was in its infancy when the Rockets signed him. In his one season with the rockets, Haywood won Rookie of the Year and Most Valuable Player (MVP) honors, as well as being named MVP of the 1970 ABA All-Star Game. In 1970, despite the NBA's eligibility rules, he joined the Seattle SuperSonics. The NBA sued him and the Sonics. Haywood claimed the NBA violated the Sherman Antitrust Act. Haywood v. National Basketball Association went all the way to the U.S. Supreme Court, which ruled in Haywood's favor in 1971. The sides settled out of court, allowing him to stay with Seattle and the NBA implemented an exception to its rule for players who could prove financial hardship. In 1976, the hardship requirement was eliminated in favor of the current Early Entry procedure. Spencer Haywood will always be remembered as the man who changed the game of basketball by challenging the rule that forced players to remain in college for 4 years before turning pro, thereby creating the "Spencer Haywood rule"; and

WHEREAS, With the Sonics, Haywood averaged 24.9 points and 12.1 rebounds per game over five seasons. He played in four All-Star Games, two All-NBA First Teams and two All-NBA Second Teams, while with Seattle. In the 1974-75 season, he helped lead the Sonics to their first playoff berth. In 1975, the Sonics traded him to the New York Knicks. Haywood later played for the New Orleans Jazz, Los Angeles Lakers and the Washington Bullets. After 13 seasons in the NBA, with five different teams, he retired in 1983, with 14,592 career points, 7,038 rebounds and an NBA Championship with the Lakers in 1980. He became involved in real estate development in Detroit and wrote his autobiography, *Spencer Haywood: The Rise, The Fall, The Recovery*. His No. 24 jersey was retired by the Sonics during a halftime ceremony on February 26, 2007. Haywood, one of the best power forwards basketball has ever seen, was inducted into the Naismith Memorial Basketball Hall of Fame in September of 2015.

NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council and office of Council Member Brenda Jones, hereby joins with the NBA Legends Event honoring Spencer Haywood, an NBA Trailblazer for his contribution to the game of basketball, the City of Detroit and the National Basketball Association.

STANDING COMMITTEE REPORTS

BUDGET, FINANCE AND AUDIT STANDING COMMITTEE

Finance Department Board of Assessors

January 26, 2016

Honorable City Council:

Re: 9100 Gratiot Development — Payment in Lieu of Taxes (PILOT) — Amended.

MHT Housing, Inc. and The Detroit Catholic Pastor Alliance (DCPA) are partnering to develop a (45) unit residential project located at 9100 Gratiot on the eastside of Detroit. The project will consist of the new construction of (1) multi-unit buildings. All units will be leased to households at or below 60% of the area median income. Units will be reserved for families with children.

The project will be located at 9100 Gratiot Avenue between Belvidere Avenue and Holcomb Avenue on the eastside of Detroit. Gratiot Avenue is a major thoroughfare and state trunk line highway connecting Downtown Detroit to the northeast suburbs with traffic counts in excess of 24,000 per day both ways. Because of its proximity to the Gratiot/I-94 intersection, the project will be located at a significant gateway to Downtown Detroit. The site is also located at a prominent point of entry to the DCPA's CHDO project area, the Gratiot Woods Community. This area is defined by the boundaries of the I-94 freeway on the north, Gratiot on the northwest, Warren

on the south, Cadillac on the east, and Rohns on the west.

The following sources will be used to fund the 9100 Gratiot project: Developer Equity Contributions, loans from MSHDA, and Low-Income Housing Tax Credits.

In order to make this development economically feasible, it is necessary for it to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1996, (P.A. 346, as amended, MCLA 125.1415A).

Adoption of the resolution by your Honorable Body will therefore satisfy the requirements of Public Act 346 and City Ordinance 9-90, as amended, by establishing a service charge of four percent (4%) of the annual net shelter rent obtained from this housing project.

Respectfully submitted,

ALVIN HORHN

Assessor

By Council Member Cushingberry, Jr.:

Whereas, Pursuant to the provisions of the Michigan State Housing Development Act, Act 346 of the Public Acts of 1966, as amended, being MCL 125.1401 et seq. (the "Act"), a request for exemption from property taxes has been received on behalf of (the "Sponsor"); and

Whereas, A housing project as defined in the Act is eligible for exemption from property taxes under Section 15a of the Act (MCL 125.1415a) if the Michigan State Housing Development Authority ("MSHDA") provides funding for the housing project or if the housing project is funded with a federally-aided mortgage as determined by MSHDA; and

Whereas, Section 15a of the Act (MCLA 125.1415a) provides that the local legislative body may establish by ordinance the service charge to be paid in lieu of taxes, commonly known as a PILOT; and

Whereas, The City of Detroit has adopted Ordinance 9-90, as amended, being Sections 18-9-10 through 18-9-16 of the Detroit City Code to provide for the exemption from property taxes of eligible housing projects and to provide for the amount of the PILOT for said housing projects to be established by resolution of the Detroit City Council after review and report by the Board of Assessors; and

Whereas, The Sponsor is proposing to undertake a housing project to be known as 9100 Gratiot Development property owned or to be acquired by the Sponsor as described by street address and tax parcel in Attachment A to this resolution, with 45 units for low and moderate income housing (the "Project"); and

Whereas, The purpose of the Project is primarily to serve low to moderate persons; and

Whereas, MSHDA has provided notice to the Sponsor that it intends to approve federally-aided financing for the Project,

provided that the Detroit City Council adopts a resolution establishing the PILOT for the Project; and

Whereas, Pursuant to Section 15a(1) of the Act, being MCL 125.1415a(1), the tax exemption is not effective until the Sponsor first obtains MSHDA certification that the housing project is eligible for exemption, and files an affidavit, as so certified by MSHDA, with the Board of Assessors;

Now, Therefore, Be It

Resolved, That upon the acquisition and fill ownership of said described premises by Detroit Catholic Pastoral Alliance in accordance with City Code Section 18-9-13, the Project known as 9100 Gratiot Development as described above is entitled to be exempt from taxation but subject to the provisions of a service charge for payment in lieu of taxes as set forth in Act No. 346 of the Public Acts of 1966, as amended, being MCL 125.1401, et seq.; and be it further

Resolved, That a service charge for payment in lieu of taxes (PILOT) or service charge of four percent (4%) of the annual net shelter rent obtained from the Project is established for the Project in accordance with City Code Section 18-9-13, subject to the terms of this resolution; and be it further

Resolved, That in accordance with MCL 125.1415a(6), that portion of the Project that is exempted pursuant to this resolution but that will not be occupied by low income persons or families, as that term is defined in the Act, shall pay a service charge in lieu of taxes equal to the full amount of the taxes that would be paid on that portion of the Project if it were not tax exempt; and be it further

Resolved, That arrangements to have collections of a payment in lieu of taxes from the Sponsor be established upon occupancy for future years with respect to the Project and that all necessary journal entries with respect to the same be prepared by the Finance Department; and be it further

Resolved, That the exemption granted by this resolution shall not be effective until the Board of Assessors has received from the Sponsor the filed affidavit, certified by MSHDA, that the Project is eligible for exemption; and be it further

Resolved, That the specific legal description for the Project shall be as set forth in the certification from MSHDA; and be it further

Resolved, That in accordance with

Section 15a(3) of the Act, MCL 125.1415a(3), the exemption from taxation shall remain in effect for as long as the MSHDA-aided or federally-aided financing is in effect, but not longer than fifty (50) years, shall terminate upon the determination by the Board of Assessors that the Project is no longer eligible for the exemption; and be it further

Resolved, That the City Clerk furnish the Finance Department — Assessments Division two certified copies of this resolution.

Honorable City Council:

Re: Simmons, Anthony vs. City of Detroit.
Wayne County Circuit Court Case
No. 13-005503-CZ. File #LE-018874.

On January 25, 2016, this matter was submitted to case evaluation and the panel issued an award of \$60,000 in favor of the plaintiff and against the defendant, City of Detroit. The parties have until February 22, 2016, to either accept or reject the case evaluation. The failure to file a written acceptance or rejection within this period constitutes a rejection. If all parties accept the case evaluation, judgment will be entered in that amount, which includes all fees, costs and interest to the date of judgment. If a party rejects the evaluation, the case proceeds to trial, however the party rejecting the case evaluation must pay additional sanctions of the trial results are not favorable.

Based upon our review of the facts and particulars of this lawsuit, which are set forth in a confidential memorandum that is being separately hand-delivered to each member of your Honorable Body, it is our considered opinion that acceptance of the case evaluation award is in the best interest of the City of Detroit.

We, therefore, request your Honorable Body to authorize acceptance of the case evaluation award; and, in the event that Plaintiff accepts the award, to deem such acceptance as a settlement and to direct the Finance Director to issue a draft in the amount of Sixty Thousand Dollars (\$60,000.00) payable to Gold Star Law, PC, attorneys, and Anthony Simmons, to be delivered upon receipt of properly executed Releases and Stipulation and Order

Re: Proposed installation of business identification signage for Subway Restaurant at 660 Woodward Ave. (First National Bldg.) which is located within a PCA (Restricted Central Business District) zoning classification (RECOMMEND APPROVAL)

The staff of the City Planning Commission (CPC) has reviewed a sign permit application for the installation of a small blade sign on the property located at 660 Woodward Ave. The property in question is an existing office building, the First National Building, which home to multiple tenants. The proposed sign is classified as an on-premises business sign and must, therefore, be considered under the applicable provisions of Chapter 3 of the 1984 Detroit City Code. This property is located within a PCA (Restricted Central Business District) zoning classification where, among other provisions, any exterior alteration to the premises thereof requires the review of both P&DD and CPC, and the approval of Your Honorable Body.

REVIEW

As part of the renovation of the First National Building, the Subway restaurant previously located interior to the building was relocated to a space with exterior exposure fronting the Bates and Con-

gress St., where other commercial retail, service are restaurants are located.

The proposed signage includes a projecting sign face measuring 24" x 48" projecting 4 feet from the facade with a clearance of 14'-8" above the sidewalk along Congress. It also includes 5 12" x 42" window mounted signs. The matter has been reviewed by the Planning and Development Department and authorized by the staff of the Historic District Commission. City Engineering is yet to weigh in, but their review is separate from this PCA Special District Review.

CONCLUSION AND RECOMMENDATION

CPC staff finds this proposed alteration to be harmonious with the existing context and consistent with the spirit and intent of the PCA zoning district and Chapter 3 of the City Code. Staff recommends approval of the proposed replacement sign. A resolution granting this request will be prepared at the direction of the Standing Committee.

Respectfully submitted,
DAVID D. WHITAKER,

Honorable City Council:

Re: Petition No. 883 — DuCharme Place LLC, request for encroachment on the easement located at 1544-1556 East Lafayette.

Petition No. 883 — DuCharme Place LLC requests to install and maintain an encroachment consisting of a pedestrian bridge and two security gates in the pub-

lic easement first westerly of Orleans Street, 52 feet wide, between DuCharme Place, 70 feet wide and East Lafayette Boulevard, 120 feet wide.

The petition was referred to the City Engineering Division — DPW for investigation and report. This is our report.

The request is being made as part of a development consisting of 185 apartment units in three buildings in Lafayette Park. The easement will remain accessible for all utilities in addition to providing a fire lane between two of the apartment buildings.

Traffic Engineering Division — DPW (TED) reports being involved and approved provided certain conditions are met; the pedestrian bridge must maintain a minimum vertical under clearance of 13 feet 6 inches. City Engineering — DPW (CED) reports no involvement. The TED conditions have been made a part of the attached resolution.

Detroit Water and Sewerage Department (DWSD) reports being involved, but has no objections provided DWSD encroachment provisions are followed. The DWSD provisions have been made a part of the resolution.

All other involved City departments, including the Public Lighting Department and Public Lighting Authority; also privately owned utility companies have reported no objections to the encroachment. DTE Energy — Gas Division reports a gas main in the easement. Provisions protecting utility installations including the gas main are part of the attached resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted,
RICHARD DOHERTY, P.E.

RESOLUTION IN OPPOSITION TO SENATE BILLS 713, 714 AND 715

WHEREAS, For the last 15 years, the Detroit Public School System has been under some form of control by the State of Michigan. As such and much to the consternation of parents and teachers, DPS is currently being managed by its fourth consecutive emergency manager, and

WHEREAS, Some of the austerity measures that have taken place during this period have left the school buildings in deplorable condition. These horrendous conditions have been confirmed by the Mayor of the City of Detroit which the local media has chronicled and has published the images widely; and

WHEREAS, Complaints have been raised about the physical conditions of school buildings and the lack of fundamental instructional materials by faculty, staff and parents over the past years with-

out sufficient remedial action from the State or the District; and

WHEREAS, The emergency manager law, P.A. 436 of 2012, gives Emergency Managers ("EM") great latitude to reject, modify or terminate terms of collective bargaining agreements so as to stifle grievance and organized dissent. This taste has left Detroit teachers without an avenue to bargain for appropriate workplace conditions; and

WHEREAS, The direct effect of this provision is evident; the teachers' inability to gain any ground regarding these health and safety conditions and inadequate instructional materials has forced teachers to engage in sickouts to force the necessary attention to the issues; and

WHEREAS, It is particularly noteworthy that the teachers are not seeking any monetary enrichment for themselves, but are simply sanitary conditions for both the children of Detroit and staff located within the schools. Horrendous conditions that to date have gone unaddressed by the State of Michigan or its agents, the EMS. Additionally, faculty is supported by parents who likewise are tired of the unacceptable condition of DPS schools; and

WHEREAS, There have been three bills introduced in the State Senate that would effectively shutter the voice of all teachers in similar situations or risk definite career suicide; and

WHEREAS, Bill 713, would greatly limit the due process rights of teachers by reducing the hearing requirements forcing the Michigan Employment Relations Commission (MERC) to conduct hearing to determine whether a strike has occurred within 2 days of an event rather than the 60 day time frame currently in place; and

WHEREAS, Additionally, MERC will be allowed to conduct group hearings rather than the individual ones conducted presently. If MERC determines that a lock-out has occurred, findings shall not be overturned except by clear and convincing evidence, and

WHEREAS, These provisions raise serious due process concerns as to whether the employees and bargaining units have enough time to collect the appropriate information to mount an effective defense in the matters before the Commission. This is particularly problematic when the individual circumstances are not being considered, the high bar that must be scaled in order to have a MERC decision overturned and that the stiff penalties being imposed would likely leave those affected powerless and voiceless; and

WHEREAS, Senate Bill 714, upon the determination that a strike has occurred, requires the Superintendent of Public Instruction to suspend the teaching certificate of any participant for at least two

years with the possibility of revocation. The suspensions would occur even if the basis for the underlined concerns are legitimate health and safety issues that have gone unheeded for a lengthy period of time, and

WHEREAS, Senate Bill 715 specifies that if a district fails to comply with an order of MERC the district will forfeit 5% of the total school aid due to the district; and

WHEREAS, These bills do nothing to address the underlying concerns that are the reason for the recent sickout events. Particularly in a situation such as this where there is limited obligation for the State to bargain and with no mechanism to require the State to address such concerns.

NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council opposes Senate bills 713, 714 and 715 and any educational bill and that would further restrict the teacher's voice to protect the health and safety of both faculty and students in Detroit Public Schools;

BE IT FURTHER

TESTIMONIAL RESOLUTION FOR

MIKE BONNER

DETROIT'S COMEDY AMBASSADOR TO THE WORLD

By COUNCIL MEMBER LELAND

WHEREAS, Mike Bonner is Detroit's Comedy Ambassador to the World celebrating 25 years of moving through time at a pace all on his own. Where most comedians start with comedy as their forte and evolve into entertainment moguls, Bonner began with an affinity for the performing arts. Mike considered himself as a theater brat, enjoying glee club, choir, and anything that would get him on stage. His love for theater extends to more recent years. His passion for the arts at large would eventually distill itself into a poised and seriously funny comedian/actor. Body language, random interludes of singing, and physical comedy all play a supporting role to the top billing: the jokes. Employing an acting coach and taking advantage of every opportunity to perform has allowed him continuously to flourish; and

WHEREAS, Mike is inspired by experiences as a husband and father on a quest for the ideal nuclear family. His comedy is equally inspired by failures and rock bottom observations — forming a dynamic perspective. A penchant for interpreting life experiences through provoking laughter in a way that is universally appealing, has landed him opportunities to perform in front of diverse audiences around the globe. With a career spanning two decades, Bonner has featured as writer, performer, and a litany of other TV, stage and radio appearances; and

WHEREAS, Mike Bonner's career pre-dates the popularity of "urban comedy." As a Detroit native, he recognized the need

for a specialized experience in comedy for members of the Metropolitan Detroit community. Sparking an entrepreneurial spirit, Bonner began to produce his own comedy showcases inside the city limits. Currently, he creates opportunities for comedy fans to enjoy themselves in an urban atmosphere, and allows an opportunity for up and coming comics to perform and grow. It is in that same spirit of looking back and reaching forward that Mike Bonner, actor, comedian, continues to forge meaningful work relationships with other veterans, the novice, and the entertainment community; and

WHEREAS, Mike Bonner has made a mark on the world by performing in Atlanta, Detroit, Los Angeles, Chicago, Milwaukee, New Orleans, St. Louis, Toronto, Denver, New York, Japan and Korea. Mike has opened for some of the best entertainers like Aretha Franklin, Jaheim, Najee, Kem, Alex Bugnon, Dick Gregory to name just a few; and

WHEREAS, Mike has been honored with being named Comic of the Year in Toronto, Canada and being a Winner of Bay Area Black Comedy Competition one of the largest Urban Comedy Competitions known on the comedy circuit. Mike has left his mark on top networks such as HBO Def Comedy Jam All Star, Byron Allen's Comics Unleashed, P Diddy's Bad Boyz of Comedy, HBO Aspen Comedy Festival and One Hour Special on BET.

Re: Ronald Gray vs City of Detroit. Case No.: 15-002861-NF. File No.: L15-00176.

On January 26, 2016, a case evaluation panel evaluated the above-captioned lawsuit and awarded Nine Thousand Dollars and No Cents (\$9,000.00) in favor of the Plaintiff. The parties have until February 23, 2016, to either accept or reject the case evaluation. Failure to file a written acceptance or rejection within this period constitutes a rejection.

Honorable City Council:

Re: Petition No. 826 — SDG Associates, LLC, request for the partial right-of-way vacation west of the UAW – Ford National Programs center property and east of the original Civic Center right-of-way into which the garage encroaches.

Correction: Change of legal description to match the land sale.

Petition No. 826, SDG Associates, LLC request the outright vacation of part of Civic Center Drive, variable width between Atwater Street and Jefferson Avenue.

UAW-Ford National Programs Center has purchased from the City of Detroit the building at 151 West Jefferson (commonly known as Veteran’s Memorial Building). The sale was approved by your Honorable Body. Included in the agreement for that sale was a statement that the UAW-Ford National Programs Center anticipated requesting approval from your Honorable Body for the construction of a parking structure immediately west of the building. The current request for outright vacation is for the construction of the parking structure including: below grade foundations and the structure itself. A resolution granting the petition was approved by your Honorable Body.

However, a review by the SDG Architects and Environmental Engineers Inc. has been made and the legal description used in the the approved resolution does not align with the land sale. The Department of Public Works — City Engineering Division concurs with the petitioners that the description should be revised to match the land sale. Therefore a new corrected legal description is here-with added as a part of this corrective resolution. The revised legal description is represented in **bold and underlined**. The deleted legal description is represented in **bold and strike through**.

I am recommending adoption of the attached corrective resolution.

Respectfully submitted,

She developed a wide range of creative expression in the performing arts including theater and dance, often appearing in public recitals and as a regular performer on local television; and

WHEREAS, At the age of 16, she accepted Islam under the teachings of the Most Honorable Elijah Muhammad who guided her in the study of the Holy Qur'an. She later became Islamic wife of the late Elijah Muhammad and bore him four children. Mother Muhammad devoted her life to the study of Divine World of God; and

WHEREAS, Her study of the Qur'an became the foundation for creative expression and her professional endeavors. RESOLUTION SUPPORTING THE REPEAL OF THE BAN ON THE CENTERS FOR DISEASE CONTROL TO CONDUCT GUN VIOLENCE RESEARCH

By Council Member Sheffield:

WHEREAS, Nearly 20 years ago, in 1997, at the behest of the National Rifle Association, Congress effectively banned the Centers for Disease Control ("CDC") from studying the relationship and impact of gun violence on public health by defunding research that could bring some clarity to the debate; and

WHEREAS, These actions were in response to a damning study by Dr. Fred Rivara, a professor of pediatrics and epidemiology at the University of Washington at Seattle Children's Hospital, conducted earlier in the 1990's that concluded that having a gun in the home increased the risk of homicide and suicide threefold; and

WHEREAS, It is hoped that an updated study undertaken by experts of the CDC would draw attention to the causes of gun violence which in turn could help save lives similar to what has happened with other preventable causes of death. Notably, CDC research has helped bring down death rates from motor vehicle accidents and smoking; and

WHEREAS, In the interim period, gun violence has flourished; in 2013 over 31,000 deaths occurred as a result of gun violence. And in the last few years alone, we have seen an unprecedented number of mass shooting deaths that have shocked the collective conscience of the nation, in Connecticut, South Carolina,

California, Colorado, Oregon, Tennessee, Texas, Washington D.C. and Wisconsin among others; and

WHEREAS, According to reports by Mother Jones magazine, our failure to address the issues surrounding gun violence have cost taxpayers appropriately \$12.8 million every day to cover the costs of gun-related deaths and injuries; and

WHEREAS, In the absence of long-overdue Congressional action, President Obama has acted upon his commitment to use his executive authority and issued an executive order removing the ban on the CDC from researching gun violence. Despite the order, reports suggest that the government researchers have continued their reticence to research gun violence for fear of losing their jobs and under threat of Congress eliminating federal funding; and

WHEREAS, Of particular importance, is the fact that the sponsor of the original ban, former Congressman Jay Dickey (R-Arkansas), has announced that he regrets the decision to ban the research and thinks it should be repealed; and

WHEREAS, Now is the time to act responsibly in conducting fair, honest and non-biased research that can lead to the creation of public policies designed at substantially curbing gun violence in America. NOW THEREFORE BE IT

RESOLVED, The Detroit City Council urges Congress to enact, and the President to sign, federal legislation repealing the ban of Centers for Disease Control conducting gun violence research as a public health crisis. and BE IT FINALLY

RESOLVED, That a copy of this resolution should be transmitted to U.S. Senate Judiciary Committee, the Centers for Disease Control, and the Michigan delegations in both houses of the U.S. Congress.

TESTIMONIAL RESOLUTIONS AND SPECIAL PRIVILEGE

Council Member Cushingberry, Jr., on behalf of Council President Jones, moved for adoption of the following two (2) resolutions:

**TESTIMONIAL RESOLUTION
AMERICAN HEART MONTH 2016
"GO RED FOR WOMEN"**

By COUNCIL PRESIDENT JONES:

WHEREAS, Go Red for Women is the American Heart Association's national campaign to increase awareness of heart disease — the leading cause of death for women — and to inspire women to take charge of their heart health. The Go Red for Women campaign is the world's largest network of women standing together to save women's lives from heart disease; and

WHEREAS, Heart disease devastates the lives of more women and men than any other killer. In 2003, the American Heart Association and the National Heart, Lung and Blood Institute took action against a disease that was claiming the lives of nearly 500,000 American women each year — a disease that women weren't paying attention to. Most women don't notice the symptoms of heart disease until it's too late. That's why heart disease has been called the silent killer. Stemming from that action, National Wear Red Day was born. It is held on the first Friday in February every year. This marks the 13-year anniversary of National Wear Red Day; and

WHEREAS, The go Red for Women year-long campaign has four components; public education to increase awareness that heart disease is still the No. 1 killer of women — taking the life of 1 in 3 women each year, educating healthcare professionals to assure that providers treat women according to guidelines, educating lawmakers about this issue, raising funds for women's awareness, education and research programs. By 2020, the impact goal is to improve the cardiovascular health of all Americans by 20 percent while reducing deaths from cardiovascular diseases and stroke by 20 percent; and

WHEREAS, The Metro-Detroit chapter of the Coalition of Labor Union Women (CLUW) and millions of mothers, sisters, daughters and friends have united with the American Heart Association to raise their voices and are making a change to help eradicate heart disease. Through tremendous progress has been made, more work is crucial. By sharing a commitment to speak up, spread the word and support the research, we can help save lives.

NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council and office of Council President Brenda Jones recognizes the value of the Go Red for Women national campaign and encourages the community to support it.

**TESTIMONIAL RESOLUTION
IN MEMORIAM**

DR. PETER SLAUGHTER, M.D.

By COUNCIL PRESIDENT JONES:

WHEREAS, We, the members of the Detroit City Council, solemnly pause today to honor the memory of the late Dr. Peter Slaughter, who departed this life on January 30, 2016; and

WHEREAS, Peter was born in Detroit, Michigan on May 15, 1928, the third child and only son of Carrie and Peter Slaughter. He received his adolescent education in the Detroit Public Schools System, graduating from Northeastern High School in 1946. Peter served in the military during the Korean War and was honorably discharged as a Master Sergeant in 1952. Mr. Slaughter continued his pursuit of higher education at Wayne State University, where he earned a Bachelor of Science degree. He enrolled in the School of Medicine at the University of Michigan, acquiring a Doctor of Medicine (MD) degree. Peter completed his residency training in Pediatrics at St. Joseph Mercy and Henry Ford Hospital. He also received additional training at Children's Hospital; and

WHEREAS, When he was twelve years old, unbeknownst to him at the time, Peter met his future wife, Geraldine Reola McDaniel. The couple were united in marriage on September 13, 1953. To this union, they were blessed with three daughters, Chevon, Karen and Tracy. In addition to his professional medical career, he also worked at the City of Detroit, Dodge Main Plant, and as a Deputy Sheriff. Dr. Peter Slaughter was committed to serving his community and did not go into private practice because he wanted to provide pediatric medicine to the underserved and indigent populations in Detroit. Dr. Slaughter practiced at neighborhood clinics throughout the city that were operated by Prescad, Community Health Connection and Sisters of Mercy. Many of these patients had little access to needed healthcare services. He retired a couple of times, as he was drawn back to work because he heard of so many children that were not receiving healthcare — especially the homeless or those who were being abused. "Dr. Pete" always had funny stories to tell about what the kids would say and do to him; and

WHEREAS, "Dr. Pete" enjoyed good food and one of his favorite pastimes was going out to breakfast with his crew. He also liked to try out different restaurants throughout the city with members of the Eastside Northeastern Group, "Dr. Pete" was known as a loving and devoted family man who was closely involved in community life. He was preceded in death by his parents, sisters (Verdies and Ester), wife (Geraldine) and his best friends for 80 years (Richard Harris and Donald

Parker). He leaves to cherish his memory; daughters: Chevon, Karen, Tracy (Elliott), grandchildren: Anthony, Imani, Kahlil, Elliott, Jr., Austin Justin and Naomi Rose, special nieces: Sharon, Kathleen and Liz, as well as a host of other relatives and friends. Dr. Peter Slaughter has left an indelible mark on the Detroit area and beyond. He has ensured that his impact would be forever embedded in the hearts of those he cherished for years to come.

NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council and office of Council President Brenda Jones, hereby joins with family and friends in honoring the memory and legacy of Dr. Peter Slaughter, a noble man and an example for us to aspire to.

PLANNING AND ECONOMIC DEVELOPMENT STANDING COMMITTEE

City Planning Commission

February 10, 2016

Honorable City Council:

Re: Twin requests of James N. Candler, Jr. on behalf of DVP, LLC.

ZONING TEXT AMENDMENT to revise Sec. 61-12-226(1) and Sec. 61-14-45 to limit the prohibition against bicycle tracks/velodromes near land zoned residential to only outdoor bicycle tracks/velodromes and to revise the off-street parking standard for indoor commercial recreation. (RECOMMEND APPROVAL.)

The Detroit Velodrome Project (DVP LLC) desires to develop an indoor commercial recreation facility, including bicycle velodrome, BMX track, walking track, bike and physical therapy shops, office, restrooms and infield spectator area to be licensed for the sale of alcoholic beverages for consumption on the premises. Both a text amendment and a rezoning appear to be in order to advance this proposed project.

Therefore, DVP LLC seeks an amend-

ment to the text of Chapter 61, Zoning, with respect to a use regulation and an off-street parking standard for commercial recreation facilities. On Thursday, June 18, 2015, the City Planning Commission (CPC) held two public hearings upon the request of James N. Candler, Jr. on behalf of DVP, LLC. The rezoning request was subsequently withdrawn as the developer began to work with the City to identify a more appropriate site.

SCOPE OF THE TEXT AMENDMENT

Proximity to residential

Sec. 61-12-226(1) of the Zoning Ordinance currently specifies that four commercial recreation land uses are prohibited where located within 500 feet of land zoned residential or residential PD.

- Baseball batting practice net;
- Golf practice driving range, golf practice driving net, golf practice putting green, or golf school; and
- Track for bicycles, or velodromes.

The current ordinance also provides that this prohibition can be waived upon securing the consent of two-thirds of those persons owning, residing, or doing business within five hundred (500) feet of the proposed location.

With respect to bicycle tracks or velodromes, the proposed text amendment would qualify the 500-foot prohibition to apply only where the facility is exclusively outdoors.

Off-street parking

The second provision of the proposed text amendment relates to the off-street parking requirement for indoor commercial recreation. Sec. 61-14-45 is part of the Zoning Ordinance's "Schedule A" parking schedule; it currently specifies that indoor recreation facilities provide one (1) off-street parking space for each 200 square feet of gross floor area.

While this off-street parking provision may be appropriate for certain kinds of indoor commercial recreation facilities, such as yoga studios and fitness centers, the Buildings, Safety Engineering and Environmental Department has found it to be unreasonably demanding for facilities such as indoor soccer practice fields and other facilities where much of the gross floor area is intended to be open and not covered by fixtures or machinery or patrons. In the case of an indoor velodrome, much of the gross floor area of the facility is occupied by the racing oval.

The proposed revision to the off-street parking standard would retain the 1:200 formula for indoor commercial facilities but allow the Planning and Development Department to evaluate the off-street parking demand under the Zoning Ordinance's "Schedule C," which is explained in Sec. 61-14-72:

Sec. 61-14-72. Schedule C.

Because Schedule C uses have widely varying parking demands, it is difficult to specify single requirement. The off-street

parking requirement for such uses shall be established by the Planning and Development Department based on estimates of parking demand, which may include recommendations of the Institute of Traffic Engineers (ITE), data collected from uses that are the same or comparable to the proposed use, or other relevant information. The Planning and Development Department may require that a parking study be prepared at the applicant's expense. Said study shall provide analysis and justification for the proposed number of spaces to be provided. Parking studies shall document the source of data used to develop the recommendations. The Planning and Development Department shall review the submitted study along with any other traffic engineering and planning data that are appropriate and establish the off-street parking or loading requirement for the use proposed.

The kinds of indoor commercial recreation facilities that would typically trigger a "Schedule C" evaluation are ones that already require site plan review by the Planning and Development Department, either because they are listed as a conditional use in a given zoning district or because of their size — having more than 20,000 square feet of gross floor area or covering more than one (1) acre in lot area. The appropriate number of off-street parking spaces could be determined as part of the site plan review process without the need for a dedicated hearing for a parking variance at the Board of Zoning Appeals.

RESULTS OF PUBLIC HEARING

On Thursday, June 18, 2015, the City Planning Commission held statutory public hearings on the amendment and on the map amendment. A subsequent meeting in the community was held on July 7, 2015 at the Elmwood Church of Christ.

Testimony at the June 18th public hearing featured numerous statements, largely from residents near to the proposed rezoning site (former Joe Muir restaurant site) — North Park, Hyde Park, and Lafayette Park. While many spoke supportively of the velodrome idea and it focus on Detroit youth, most objected strongly to its placement at Gratiot/St. Aubin/East Vernor.

Traffic and crowds and overflow parking were chief among concerns; the proposed allowance of beer and wine concession sales during competitive events was objected to by several speakers. There was a general demand for more information about the scope and impact of the velodrome project since the management companies that had been notified of the proposal did not disseminate information among households. The CPC directed that a community meeting be considered for a full review of the proposal.

On July 7th, the petitioner offered a detailed presentation of the project to a crowded assembly of about 300 persons in the Church's fellowship hall. Very strong opposition to the rezoning was articulated and newly installed director of the Planning and Development Department, Maurice Cox, pledged to work with the petitioner to find a suitable alternative location. Again, as stated above, the rezoning request has been withdrawn by the petitioner.

ANALYSIS

While the request for the rezoning of the land at 1920-1940 Gratiot has been withdrawn, the text amendment remains relevant since any future location for this and other velodromes is likely to find itself in close proximity to land zoned residential. (P&DD Director Cox, together with the Recreation Department and Director Alicia Bradford, have tentatively identified Tolan Playfield at Mack Avenue and the Chrysler Freeway (I-75) as a potential site for the velodrome's structure and inflatable dome.)

Locating a velodrome in an existing outdoor recreational facility may provide a desirable compatibility with existing land use, however most city parks and playgrounds are on land zoned residential and adjacent to residential. Such proximity to residential raises the question whether the long-standing prohibition of velodromes near residential is still appropriate.

The Commission notes that the prohibition of velodromes-near-residential predate the development of inflatable dome technology such that a bicycle track was likely to have been open-air when the prohibition was adopted. CPC further notes that noise impacts from outdoor velodromes would be noticeably greater than from indoor tracks, justifying the proposed distinction between outdoor and indoor velodromes.

As such, the CPC recommends preservation of the greater restrictions on outdoor velodromes while removing the "500-foot-from-residential" prohibition for indoor velodromes. Additionally CPC find the proposed flexible off-street parking standard for indoor commercial recreation facilities to be timely and appropriate given the wide variety in indoor commercial recreation.

CONCLUSION / RECOMMENDATION

The City Planning Commission respectfully recommends approval of the proposed text amendment, as drafted, to newly limit the prohibition of velodrome near land zoned residential to apply only to outdoor velodromes and to revise the off-street parking standard for indoor commercial recreation.

With respect to the proposed rezoning of 1920-1940 Gratiot Avenue, staff recommends **no action** be taken in light of the communication dated December 22, 2015

(see attachment) from the applicant withdrawing the rezoning request.

City Planning Commission

February 10, 2016

Honorable City Council:

Re: Proposed Zoning Ordinance Text Amendment — Solar Generation Stations, Used Motor Vehicle Sales Rooms and Sales Lots, and Residential Use combined with Permitted Commercial Uses (RECOMMEND APPROVAL)

SCOPE OF THE TEXT AMENDMENT

The City Planning Commission (CPC) has prepared and considered three unrelated amendment to Chapter 61, Zoning, of the Detroit City Code. The amendment result from a request from the Administration for a related concurrent rezoning request and proposed lease and two housekeeping matters. The attached amendment addresses the following three land uses:

Solar Generation Stations (Solar "Farms")

The Detroit Zoning Ordinance is currently silent on alternative energy production facilities such as those involving solar or

wind. The corresponding rezoning proposal to establish a solar "farm" at O'Shea Playfield in Detroit prompts this text amendment. This amendment does not pretend to be a comprehensive treatment of the subject. Rather, it is a first, limited step that will allow a specific proposal to be considered given the time constraints. We will continue to look at the broader issue of alternative energy and develop future proposals accordingly.

Principal vs Accessory land use. This amendment deals with solar arrays as a principal use of the land not as accessory to a building, whether residential or commercial. The buildings, Safety Engineering and Environmental Department (BSEED) already has the authority to consider accessory structures, although future amendments should provide specific standards for accessory solar installations as well. As a principal land use, solar generation stations are proposed to be grouped together in the Zoning Ordinance Use Table with other basic utility uses — Electric transformer stations, Gas regulator stations, Public residential-area utility facilities, and Telephone exchange buildings. (Sec. 61-12-30.)

Definition. The land use is labeled, "solar generation station." It is defined as "An energy generation facility in excess of one (1) acre comprised of one or more free-standing, ground-mounted devices that capture solar energy and convert it to electrical energy for use in locations other than where it is generated. (Also known as 'solar farm.')

 (Sec. 61-16-174.)

Zoning Districts. The only zoning districts where this amendment will allow solar generation stations to be located as a principal use is the Parks and Recreation (PR) District and the Planned Development (PD) District. (In the future, it is anticipated that such facilities will be permitted by right or on a conditional basis in a variety of zoning districts.) The PR District is described as follows:

Sec. 61-11-121. The intent of the Parks and Recreational district is to retain, insofar as is practicable and desirable, publicly owned lands in excess of four (4) acres in size already improved for or intended to be improved for recreational uses and/or to be preserved as open space. The restrictions of this classification are intended to encourage preservation of these lands and to permit development in keeping with the natural amenities of these areas. In addition to those uses allowed by right, commercial recreational facilities may be permitted upon approval of the City Council.

PR is viewed as an appropriate zoning district for an alternative energy facility in that it, by definition, is a comparatively large land mass. (Belle Isle, Rouge Park, and Eliza Howell Park are some of the areas currently zoned PR.) Although preliminary research suggests few impacts

from solar farms on adjacent uses and property, the PR District allows the opportunity to ensure their appropriate placement. The use is listed as a conditional use, requiring a public notice to the surrounding properties and a hearing at BSEED. (*Sec. 61-11-131.*)

PD Districts are typically, though not necessarily, a minimum of two (2) acres in size per Sec. 61-3-96 and are subject to close scrutiny by both the City Planning Commission and City Council before BSEED receives authorization to issue a permit.

Specific Use Standards. Typically when a land use is added to the Zoning Ordinance, specific standards are recited. Because staff research into alternative energy is just beginning, the metrics for various standards are not included in this ordinance. Rather, fifteen (15) factors will need to be examined on a case-by-case basis by the decision-making authority: height of installation, setbacks, screening, landscaping, glare mitigation, noise, safety/access and site security, location of on-site power lines, lighting, signage, removal requirements upon abandonment or decommissioning, stormwater management, construction period impacts, general site maintenance, and off-street parking. (*Sec. 61-12-142.*)

In the PR District, BSEED's approval will be qualified by such conditions as will be recited in a zoning grant. In the PD District, City Council's approval will include those conditions deemed to be appropriate for the site in question.

Motor Vehicle Salesrooms and Sales Lots

When Ordinance No. 26-12 went into effect on November 21, 2012, the City newly required that any used car lot be located no less than one thousand feet (1,000) radial feet from another used car lot. While this spacing provision was recited in the table of Sec. 61-12-91 where other spacing restrictions are recited, it was not referenced among the specific use standards for used car lots in Sec. 61-12-213, leading some readers to overlook the provision.

This text amendment adds a subsection (16) to Sec. 61-12-213 to cross-reference the 1,000-foot spacing provision and to add the intended clarification that the spacing applies regardless of city limits. The ordinance also clarifies that site plan review is required for any used car lot, including those where an existing use (such as an abandoned gas station) is changed and not just those that involve new construction (*Sec. 61-12-213, Sec. 61-3-113.*)

Residential Use Combined with Permitted Commercial Use (Traditional Main Street)

When Ordinance No. 20-05 went into effect on May 29, 2005 as part of the First

General Text Amendment to the newly adopted Zoning Ordinance, Traditional Main Street Overlay Areas were identified as unique among commercial corridors typically zoned as a Local Business and Residential (B2) District or General Business (B4) District in that multiple-family dwellings (apartment buildings) would be allowed on a by-right basis if they included permitted commercial uses. By definition, a multiple-family dwelling has three (3) or more dwelling units.

The Zoning Ordinance identifies nine Traditional Main Street Overlay Areas:

Sec. 61-11-312. Designated Traditional Main Street Overlay Areas.

The following areas are designated as Traditional Main Street Overlay Areas:

(1) *West Seven Mile.* All zoning lots abutting West Seven Mile Road between the zoning lots at the four (4) corners of John R Avenue and the center line of Woodward Avenue.

(2) *Grand River.* All zoning lots abutting Grand River Avenue between the center line of Woodmont Avenue and the zoning lots at the four (4) corners of Evergreen Road.

(3) *Bagley/Vernor.* All zoning lots abutting Bagley Avenue between the center line of 16th Street and the center line of 24th Street; and all zoning lots abutting West Vernor Highway between the center line of Newark Avenue and the center line of Clark Street.

(4) *Livernois/West McNichols.* All zoning lots abutting Livernois Avenue between the center line of the John C. Lodge Freeway and the center line of St. Martins Avenue; and all zoning lots abutting West McNichols Road between the center line of Lawton Avenue and the zoning lots at the four (4) corners of Wyoming Avenue.

(5) *East Jefferson.* All zoning lots abutting East Jefferson Avenue between the center lines of Dickerson Avenue/Gray Avenue and the city limits of Grosse Pointe Park.

(6) *Woodward.* All zoning lots abutting Woodward Avenue between the center line of the Fisher Freeway (I-75) and the city limits of Highland Park.

(7) *Grand Boulevard.* All zoning lots abutting West Grand Boulevard/East Grand boulevard between the center line of Kipling/Sterling Avenues and the eastern edge of Cameron Street extended). (See also the standards for West Grand Boulevard between Kipling/Sterling Avenues and West Grand River in the Grand Boulevard Overlay Area, Subdivision D of this division.)

(8) *Michigan Avenue.* All zoning lots abutting Michigan Avenue between the John C. Lodge freeway (M-10) and the zoning lots at the four (4) corners of Vinewood Avenue.

(9) *Vernor/Springwells.* All zoning lots

abutting West Vernor Highway between the center line of Clark Street and zoning lots at the four (4) corners of Woodmere Avenue; and all zoning lots abutting Springwells Avenue between the four (4) corners of West Vernor Highway and the four (4) corners of the Fisher Freeway (I-75) service drives.

Outside of the Traditional Main Street areas, multiple-family dwellings are a conditional use. A separate land use label, "Residential Use Combined with Permitted Commercial Use," is also permitted on a conditional basis in B2, B3 (Shopping District), and B4 Districts, but by definition in Sec. 61-16-162, it would only allow for one (1) or two (2) residential units, such as for an apartment or two above a hardware store or doctor's office.

Because the B2 and B4 use lists in Article IX specify multiple-family dwellings only as conditional uses, confusion arose as to the permissibility by right of an apartment building on a Traditional Main Street Overlay Area having ground-floor retail uses. This text amendment repairs this internal conflict by adding both "Multiple-family dwellings" and "Residential use combined in structures with permitted commercial uses" as by-right uses in the B2 and B4 District use lists where they are located on a Traditional Main Street Overlay Area.

"Residential use combined in structures with permitted commercial uses" is also added as a by-right use in the B3 District where located on a Traditional Main Street Overlay Area. (Multiple-family dwellings are prohibited in the B3 District.) The Use Table is also corrected to reflect the specifications of the zoning district use lists and the specific use standards are clarified to reference just those commercial uses permitted by right. (Sec. 61-9-34, Sec. 61-9-54, Sec. 61-9-74, Sec. 61-12-12, Sec. 61-12-118 and Sec. 61-12-121.)

PUBLIC HEARING RESULTS

On Thursday, January 7, 2016, the CPC held a statutory public hearing to consider revisions to the text of Chapter 61 of the 1984 Detroit City Code, the Detroit Zoning Ordinance, with respect to solar installations, used car lots, and Traditional Main Street Overlay area provisions.

ANALYSIS

While the proposed text amendments has been prepared to respond to a time-sensitive proposal, additional research is appropriate for future zoning amendments relative to alternative energy facilities.

CONCLUSIONS AND RECOMMENDATION

The City Planning Commission respectfully recommends approval of the proposed text amendment as drafted relative to solar generation stations, used motor

vehicle sales rooms and sales lots, and residential uses/multiple-family dwellings combined with permitted commercial uses in a Traditional Main Street Overlay area.

The draft ordinance is attached for your review. It has been reviewed for approval as to form by the Law Department and is awaiting final review and signature by the Corporation Counsel.

Subdivision A. Residential Uses.

Sec. 61-12-118. Lofts; residential uses combined in structures with permitted commercial uses.

In order to encourage the preservation and reuse of existing commercial and industrial structures, and to encourage live-work situations, loft conversions and mixed-use commercial-residential uses are permitted in many zoning districts, even in certain districts where new residential construction is prohibited, subject to the following:

(1) Loft conversions are prohibited in the R1 and R2 Districts except where developed under the "School building adaptive reuses" provision as defined in Sec. 61-16-171 of this Code.

(2) Lofts in the B6, M1, M2, M3, M4, and SD4 Districts are subject to review by the Loft Review Committee as provided for in ARTICLE II, DIVISION 7, Subdivision C of this Chapter.

(3) Similarly, single-family dwellings, two-family dwellings, and multiple-family dwellings are permitted in commercial or industrial structures combined with those permitted Retail, Service, and Commercial uses specified in ARTICLE XII, DIVISION 1, Subdivision D of this Chapter, except for "Adult Uses / Sexually Oriented Businesses" as specified in Sec. 61-12-78.

For example, although a single-family detached dwelling is not permitted by right in the R6 District, a doctor's office that has an apartment is permitted by right as a "Residential use combined in structures with permitted commercial uses." In addition, in industrial zoning districts where new residential construction is prohibited, an existing building with a hardware store on the ground floor, for example, and residential units on the upper floor(s) could be reoccupied on a Conditional Use basis and without the need for approval by the Board of Zoning Appeals.

However, any time three (3) or more residential units are combined with permitted commercial uses in an existing commercial or industrial structure in the B6, M1, M2, M3, M4, or SD4 District, the use shall be subject to the review of the Loft Review Committee as provided for in ARTICLE II, DIVISION 7, Subdivision C of this Chapter.

(4) In the SD4 District, specially designated merchant's (SDM) establishments and specially designated distributor's (SDD) establishments are permitted when incidental to, accessory to, and on the same zoning lot as a loft development that has not fewer than fifty (50) dwelling units.

(5) Additionally, in designated Traditional Main Street overlay areas, as provided in Sec. 61-11-312 of this Code, residential uses, including multiple-family dwellings, combined in structures with permitted commercial uses that are per-

mitted by right in the respective zoning district shall be permitted by right, notwithstanding any designation as a conditional use in Article IX of this Chapter.

(Ord. No. 11-05, §1, 5-28-05; Ord. No. 20-05, §1, 5-29-05; Ord. No. 01-10, §1, 04-01-10; Ord. No. 21-12, §1, 11-2-12)

Sec. 61-12-121. Multi-family dwellings.

Multi-family dwelling shall be subject to the following provisions:

(1) In the R2 District, such uses shall have a maximum of eight (8) dwelling units, except where developed under the "School building adaptive reuses" provision as defined in Sec. 61-16-171 of this Code;

(2) In the R3 District, multiple-family dwellings, where fewer than fifty percent (50%) of the units are efficiency units, are permitted by right; multiple-family dwellings, where percent (50%) or more of the units are efficiency units, are a Conditional Use;

(3) In the B5 District, ground-floor commercial uses shall be required along at least fifty percent (50%) of the building facade fronting Woodward Avenue, and may be required in other portions of the B5 District;

(4) The required Recreational Space Ratios for multi-family dwellings are listed as follows:

- (a) R3 District: 0.12;
- (b) R4 District: 0.10;
- (c) R5 District: 0.085;
- (d) R6 District: 0.07;
- (e) SD1 District: 0.07;
- (f) SD2 District: 0.07.

(See Sec. 61-13-159 of this Code for information on recreational space requirements.)

(5) For certain permitted accessory uses in the R5, R6, and B1 Districts, see Sec. 61-12-404 of this Code;

(6) In the B5 and PCA districts, multiple-family dwellings that have ground floor commercial space or other space oriented to pedestrian traffic are permitted by right. Multiple-family dwellings not having such ground floor space are a Conditional Use;

(7) Multiple-family dwelling developments that exceed twelve (12) units are subject to site plan review as provided for in 0 of this Code;

(8) In the SD4 District, specially designated merchant's (SDM) establishments and specially designated distributor's (SDD) establishments are permitted when incidental to, accessory to, and on the same zoning lot as a multiple family dwelling, that have not fewer than fifty (50) dwelling units;

(9) Multiple-family dwellings for the elderly as defined in Sec. 61-16-134 of this Code, are subject to a lesser off-street parking requirement than other multiple-family dwellings. However, where a multiple-family dwelling for the elderly converts to a general population multiple-

family dwelling, the full off-street parking requirement must be satisfied;

(10) In designated Traditional Main Street overlay areas, as provided in Sec. 61-11-312 of this Code, residential uses, including multiple-family dwellings, shall be permitted by right where combined in structures with commercial uses that are permitted by right in the respective zoning district.

- (d) Water works, reservoirs, pumping stations, and filtration plants.

(4) In the PR District, the only major utility that shall be permitted is a pumping station without on-site employees.

City Planning Commission

February 10, 2016

Honorable City Council:

Re: Request of the Planning and Development Department on behalf of DTE to amend Article XVII, District Map 69 of the 1984 Detroit City Code Chapter 61, Zoning by showing a PR (Parks and Recreation) zoning classification where an R1 (Single-Family Residential District) zoning classification currently exists on a parcel commonly identified as 15810 Capitol Avenue (the former O'Shea

Recreation Center) generally bounded by the Jeffries Freeway to the north, Greenfield Road to the east, Capitol Avenue to the south and Asbury Park Avenue to the west. (RECOMMEND APPROVAL)

NATURE OF THE REQUEST

The City Planning Commission has received and processed the Planning and Development Department's request to amend Article XVII, District Map No. 69 of the 1984 Detroit City Code Chapter 61, Zoning, which presently shows an R1 (Single-Family Residential District) zoning classification, to show a PR (Parks and Recreation) zoning classification.

The subject property, located in District 7, sits within a 21.2 acre site formerly identified as O'Shea Park. In 2011 O'Shea was decommissioned as a city park and the Detroit City Council took action declaring the subject property as surplus. The site is largely open land, but does include the shuttered recreation center, some play equipment and a few unmaintained and dilapidated athletic courts.

BACKGROUND

In 2015, the City of Detroit through the administration reached out to DTE Energy, which at the time was entertaining an option to install a solar array project in Macomb County. Given the location and availability of land no longer classified by the assessor's office as a city park, and in such close proximity to existing DTE infrastructure, i.e., transmission lines, a twenty (20) year lease agreement with a ten (10) year option to renew in which the City of Detroit will maintain control of the land is currently being negotiated.

DTE plans to install an approximately 9- to 10-acre solar generation station on the eastern portion of the site. At present, a solar energy generation facility is not a permitted land use within the Detroit Zoning Ordinance, however, should your honorable body adopt the concurrently proposed text amendment to the permitted uses in the Parks and Recreation (PR) zoning classification, the proposed land use would then be permitted on a conditional basis in the PR zoning classification subject to a public hearing at the Buildings, Safety Engineering and Environmental Department (BSEED).

Proposed solar panel array

Based on where Southeast Michigan is located geographically, the solar panels will be fixed facing south as to optimize the panels' exposure to the sun. For this particular development the Jeffries Freeway will be facing the rear of the panels, which would address any concerns that might arise from the reflectiveness or glare produced by the panels. The panels themselves are designed with a non-reflective coating, which is intended to absorb sunlight for the purposes of creat-

ing a photovoltaic reaction (producing electric current or voltage caused by electromagnetic radiation, e.s.p. visible light from the sun).

There are currently 23 solar arrays operated by DTE in the tri-county area, with an additional three slated to come online by mid-February. A vast majority of the sites utilized by DTE for solar array project are leased sites. Of the 26 sites located in the southeast Michigan in the tri-county area, only three are owned by DTE. Over 90% of the solar arrays operated by DTE are as a result of a lease agreement, similar to that currently being entertained by the administration.

At this time, it is not DTE's intention to store and sell the electricity produced at the proposed O'Shea site. The O'Shea solar panel array development is anticipated to be tied directly into DTE's distribution grid. Through the photovoltaic electron conversation process the electrons take the path of least resistance, therefore bringing direct benefit to the surrounding community and businesses.

The O'Shea development will assist DTE in maintaining their P.A. 295 of 2008 state-mandated compliance requirement that all energy providers produce at least 10% of their energy from renewal sources by 2015.

The manner in which DTE's solar array systems are set up involves a series of modules which are set up and strung together. Each module contains a certain wattage capacity that will be produced when sunlight hits it. There is a photovoltaic reaction that causes electrons to start flowing in a direct current (DC), which is then brought into a combiner box and then into a converter where the DC is then converted into an alternating current (AC) and then sent through a transformer out to the distribution grid at the current voltage.

The panels will be mounted on posts and raking. The initial construction which will be carried out by sub-contractors already selected by DTE; O'Shea will be an unmanned station. There will be remote communications from the site to DTE headquarters, which will issue alarms if there are indications of under-performance, which will prompt a technician to come out to the site. There will be no need for additional facilities to be constructed on site. All the wiring from the collector boxes will be entrenched underground, where it will be run to a utility pole from where it will be transferred to the distribution grid.

CPC staff has had the opportunity to visit two DTE solar array sites (one located in Westland, Michigan and the other located in Romulus, Michigan) to observe their operations and view any potential impacts such a development might have on the surrounding community. Fencing was

something of note at both locations visited, which consisted of four-foot-high chain linked fences around the entire perimeter of the solar arrays at both locations. On the leased property located in Romulus, Michigan the service rake of equipment (consisting of the inverter box and other communications equipment, disconnect switches, etc.) is enclosed in a 7' high, small gauge chain link enclosure. DTE did indicate that the manner of fencing to be constructed at O'Shea was still being negotiated as a part of their lease agreement with the city.

The solar panels themselves will be affixed to either poles or posts which will either be screwed into secured plates underground or driven directly into the ground given the soil condition at the location. The panels will be mounted in a vertical portrait style fashion referred to as the two-high configuration approximately four feet off of the ground and 9'-10' high. The height from ground is to allow for the growth of vegetation, however, DTE customarily does not mount panels any lower than 30" because of the snow which accumulates during the winter months. The spacing between the rows is approximately 15'-20' high to allow for maintenance trucks and service vehicles to maneuver their way through.

The DTE-owned site located in Westland, Michigan contains a solar array which comprises a 2-acre site and produces approximately 100 kilowatts of electricity. The 10-acre solar array contemplated for O'Shea is anticipated to produce approximately 6.4 megawatts. Staff observed a 50-foot front setback from residential properties south of the solar array and an approximate 100-foot side setback from residential properties to the west. Upon having conversations with the City of Westland Planning Department and consulting section 6:9 Solar Energy Systems of their Zoning Ordinance, section 6:9(b) states

b. Ground mounted systems and systems attached to accessory building shall not be less than ten (10) feet from any side or rear property line. Solar energy systems are prohibited in front yards, and shall not be located past the front wall of the principal building.

The 9- to 10-acre solar array contemplated for O'Shea is anticipated to adhere to similar setback requirements which will be determined by the Buildings, Safety Engineering and Environmental Department.

PUBLIC HEARING RESULTS

On January 7, 2016, the City Planning Commission held a public hearing on the subject rezoning request, which was held concurrently with the public hearing on a corresponding text amendment to the Zoning Ordinance. There were five members of the public present who spoke in

regards to this proposed rezoning. There was no major opposition to the proposed rezoning, however, there was a great deal of concern expressed by the community at large regarding the proposed demolition of the former O'Shea Recreation Center.

Continued public engagement

The Commission requested that the administration work to facilitate an additional community meeting whereby the community may further understand the proposed development and what it would mean for the existing park and what, if any educational opportunities might be made available as a result of the proposed development. The requested meeting was held on Tuesday, January 19, 2016 at 9:00 a.m. at Henderson Middle School located at 16101 W. Chicago. There were approximately 20 members of the public present. The vast majority of those in attendance were either parents of students who attend Henderson Middle School or faculty members of the school itself. Residents in the community, not linked directly to Henderson Middle School, expressed their concerns over the way in which notice was handled for this second community meeting. Some were notified via email, having provided their contact information at the December 17, 2015 community meeting. Others learned of the meeting by word of mouth from teachers and administrators at Henderson Middle School.

A representative from DTE's renewable energy division was in attendance to address any technical questions the community may have had. Much like the Commission, the community inquired about what effect the proposed solar array would have on their utility bills. DTE's representative stated quite emphatically that there would be no change to the energy bills of residents in the immediate area and that billings would continue to be based solely on usage.

The administration made an earnest effort to solicit community input regarding what types of educational opportunities they would like to see as a result of the proposed solar array installation. Representatives from the local non-profit Hero Alliance, which has their focus in S.T.E.M. afterschool activities geared towards Solar Energy, Robotics, Coding and Cyber Security, gave a presentation and some ideas as to what an afterschool partnership with DTE might look like.

O'Shea Recreation Center

Chief among the concerns expressed by the Community at the CPC public hearing was the proposed demolition of the O'Shea Recreation Center. After public hearing, P&DD, including Director Cox, conducted a walkthrough of the facility and found it to be in "fair" condition. The

lack of funds to staff and program the facility remains an issue, however, alternatives to complete demolition are being considered.

At the Tuesday, January 19, 2016 community meeting the vast majority of the concerns expressed by the community were over a lack of year-round activities for the neighborhood youth. Several community stakeholders expressed a desire to work with the city to acquire the park land and build a new community center, which might be managed and staffed by the community itself. The immediate community surrounding the O'Shea Park area insists that the current facility needs to be demolished and a new recreational facility needs to be constructed as a part of a community effort. It was stated repeatedly that without a major capital investment from DTE in a new facility, which would accommodate the needs of the area's children, the greater community would not be willing to ensure the maintenance or security of DTE's investment in the proposed solar array.

It was noted that the concerns expressed by the community, while valid, are linked largely to the proposed solar array and the lease currently being negotiated with DTE. While related this is distinct from the rezoning request and text amendment currently being contemplated by Your Honorable Body.

MASTER PLAN CONFERENCE

The subject site is located within the Brooks area of Neighborhood Cluster 7 of the Detroit Master Plan of Policies. The Future Land Use map for this area Recreation for the subject property. The Planning and Development Department (P&DD) has submitted a letter stating the proposed rezoning consistency with the City's Master Plan.

ANALYSIS

Section 61-3-80 of the Detroit Zoning Ordinance lists eight (8) criteria for consideration for zoning map amendments, which are attached for your reference.

(1) Whether the proposed amendment corrects an error or meets the challenge of some changing condition, trend or fact;

The proposed amendment does correct an error as well as meet the challenge of some changing condition, trend or fact considering that the subject area is identified as a "park" in the City's Master Plan of Policies. The O'Shea playfield has been utilized as open space by the surrounding community since it was decommissioned in 2011. DTE and the City will be partnering to renovate and maintain an improved 1- to 2-acre park for the neighboring residents. DTE has committed to invest in both recreational and infrastructure improvements. The remaining western portion of the site would be reserved for green space and the potential future installation of blue-green infrastructure.

(2) Whether the proposed amendment is consistent with the Master Plan and the stated purposes of this Zoning Ordinance;

The Planning and Development Department has stated that the proposed rezoning is consistent with the Master Plan of Policies. The proposed zoning change from R1 (Single-Family Residential) to PR (Parks and Recreation) is appropriate and will bring the existing uses into conformance with the Detroit Zoning Ordinance.

(3) Whether the proposed amendment will protect the health, safety, and general welfare of the public;

Given the low impact and recreational nature of the proposed development the change in zoning from R1 to PR will not present any additional risk to the health, safety or general welfare of the public.

(4) Whether the City and other service providers will be able to provide adequate public facilities and services to the subject property, while maintaining adequate levels of service to existing development;

The proposed rezoning will not require the vacation of alleys or easements in the proposed project area; therefore there is no reasonable expectation that public facilities and services to the subject property or surrounding properties would be negatively affected.

(5) Whether the proposed rezoning will have significant adverse impacts on the natural environment, including air, water, soil, wildlife, and vegetation and with respect to anticipated changes in noise and regarding storm-water management;

Given that the change of zoning from an R1 to PR for the specifically requested use of a "solar generation station" will not be permitted without a conditional land use hearing, which will require a site plan review before the BSEED special land use hearing officer, addressing all of the aforementioned, there are no anticipated adverse impacts as a result of the proposed rezoning.

(6) Whether the proposed amendment will have significant adverse impacts on other property that is in the vicinity of the subject tract;

Given that the proposed development is low impact, will be screened and buffered with landscaping, etc., it is not anticipated that the change in zoning will have a significant adverse impact on other properties in the vicinity of the subject tract.

(7) The suitability of the subject property for the existing zoning classification and proposed zoning classification;

The proposed zoning change would be consistent with the nature and character of the surrounding uses.

(8) Whether the proposed rezoning will create an illegal "spot zone."

Taking into consideration that the zoning would be contiguous in the area and in conformance with the Master Plan of

Policies, staff is of the opinion that the proposed zoning change would not constitute an illegal "spot zone."

Suitability of the Property

In general, the Commission would look favorably on the rezoning of the subject property to PR as it is consistent with the provisions of the approved criteria. Additionally, the rezoning and corresponding text change would accommodate the establishment of a solar generation station and thereby bring this currently vacant and underutilized parcel of land back online. The rezoning would also carry out the prescription of the Master Plan of Policies.

Land Use

The City Planning Commission is of the opinion that a PR (Parks and Recreation) zoning classification is the appropriate designation, consistent with the characteristics of the site the adjacent properties whether the solar array is established here or not.

CONCLUSIONS

The Commission finds that the rezoning will benefit the immediate area solidifying and encouraging the continuation of long term recreational use of the site. Should the corresponding text amendment be approved and subsequently a conditional use hearing grant the proposed solar array, we believe that activity would be compatible with a properly designed facility and consistent adjacent uses and the freeway.

RECOMMENDATION

On January 21, 2016, the City Planning Commission voted to recommend approval of the rezoning request to amend District Map No. 69, Article XVII, Chapter 61 of the 1984 Detroit City Code to show a PR zoning classification where an R1 zoning classification is presently shown on a parcel commonly identified as 15810 Capitol Avenue generally bounded by the Jeffries Freeway to the north, Greenfield Road to the east, Capitol Avenue to the south and Asbury Park Avenue to the west. The ordinance effectuating the map amendment has been reviewed as to form by the Law Department and is awaiting final review and signature of Corporation Counsel.

Department of Public Works Administrative Division

January 7, 2016

HONORABLE CITY COUNCIL:

Re: Traffic Signal Removal at fifteen (15) locations

The following fifteen (15) signalized intersections are currently operating on a full time "STOP control" mode in compliance with the Michigan Manual of Uniform Traffic Control Devices (MMUTCD) and

are scheduled for removal due to changes in traffic conditions.

The traffic volumes, accident reports and physical conditions were analyzed prior to placing the signals on full time flashing operation. The traffic volumes have dropped significantly over the years at these locations. As a result, currently none of the MMUTCD warrants are satisfied and therefore, continued operation of the traffic signals is no longer justified. Moreover, being unwarranted, these traffic signals will pose unnecessary liability for City unless removed.

The traffic signals were placed in 24-hour flash mode for a minimum of 90 days beginning at flashing date listed in the table below. During this time period, further evaluation of the intersections was completed; the evaluation included a review of vehicle and pedestrian volumes, crash data and overall intersection operation. The table below illustrates the crash data for each intersection for an equal time period before and after flashing. Crash analyses at the fifteen (15) intersections did not indicate any significant increase in correctable (angle) crashes.

**Department of Public Works
City Engineering Division**

January 25, 2016

Honorable City Council:

Re: Petition No. 2981 — Giffels Webster on behalf of Whitney Partners, LLC, request to encroach into a portion of the east-west public alley with the installation of HVAC equipment and request said alley be closed on a temporary basis for a period of five (5) years, all adjacent to the David Whitney Building.

Petition No. 2981 of "Giffels Webster", 28 W. Adams, Suite 1200, Detroit, Michigan 48226 on behalf of "Whitney Partners, LLC", 535 Griswold St., Suite 2650, Detroit, Michigan 48226, has been revised to respectfully request the Temporary Closing of a public alley (for a period of Five (5) years), in order to install an 8-ft Aluminum Gate, and request to install and maintain the encroachment(s) in said alley of an air handling unit, three (3) air condenser unit(s), and service platforms all in and across said east-west public alley, 20 feet wide, in the block bounded by Washington Blvd., 195 ft. wd., Woodward Ave., 120 ft. wd., Clifford Ave., 60 ft. wd., and Park Ave., 60 ft. wd.

The Historic David Whitney Building at Woodward and Grand Circus Park is going through an extensive \$82 million

renovation. The 19 story building will consist of a hotel, apartments, restaurants and bars and a connection to downtown public transportation. In order to service the newly renovated building it has become necessary to request that the City of Detroit investigate the installation and maintenance of an air handling unit, three (3) air condenser unit(s), service platforms and aluminum fencing with an 8-ft gate, encroaching into and across said public alley in order to provide security protecting the proposed encroachments.

The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

The request was approved by the Solid Waste Division — DPW, and the Traffic Engineering Division — DPW, provided that access gates are installed, and ingress/egress is provided and maintained for all property owners and businesses adjacent to or directly impacted by said closure. The Traffic Engineering Division — DPW also requires that the petitioner contact the Operations Section of the Traffic Engineering Division — DPW for deploying proper signage during the closure period.

Also, The Traffic Engineering Division — DPW reports no objections with the requested encroachment(s) provided that the proposed encroachment(s) are compliant and that all work is constructed in accordance with City of Detroit standards and approved by the City Engineering Division — DPW.

The City of Detroit Planning and

Development Department Historic District Commission (P&DD/HDC) reports that the requested encroachments are within the David Whitney Historic District. The P&DD/HDC has determined that the scope of work is appropriate and has issued a "Certificate of Appropriateness" to Whitney Partners, LLC. Therefore, P&DD/HDC has no objections to the requested encroachments and temporary alley closing.

The Public Lighting Department (PLD) requires a minimum horizontal clearance of 3-feet 6-inches and a vertical clearance of 1'-0" be maintained from their facilities. the petitioner will be liable for any damages to any PLD installations. The PLD will require unimpeded access to service the public and/or their existing facilities.

The Detroit Water and Sewerage Department (DWSD) has no objection to the proposed encroachment(s) provided that a horizontal clearance of 5-feet is maintained between the proposed HVAC equipment and DWSD facilities and that any alterations to the City's water mains and sewers as a result of the Trench Drain System installation be done under DWSD's permit and inspection, in accordance with plans approved by DWSD. Also, these alterations are to be done at the petitioner's expense at no cost to DWSD.

The DWSD, the PLD and the fire Department will require unimpeded access to service the public and/or their existing facilities. Any fence and gate installation must provide 13 feet horizontal and 15 feet vertical clearance(s) for utility maintenance vehicles.

SBC/Ameritech reports that the petitioner must maintain access to its man-holes and conduit, in order to perform maintenance.

All other City departments and privately owned utility companies have reported no objections to the proposed request.

An appropriate resolution, containing the necessary conditions, protecting the City from the proposed encroachments and authorizing the City Engineering Division – DPW to issue permits to close said public alley, on a temporary basis, for a period of five (5) years to expire on November 5, 2019 is attached for consideration by your Honorable Body.

I am recommending adoption of the attached resolution.

Respectfully submitted,
RICHARD DOHERTY, P.E.

City Engineer
City Engineering Division—DPW

mit the storage of materials, displays of merchandise, or signs within the temporarily closed public right-of-way. Further, the placement of materials, merchandise, or signs on any adjacent berm area is prohibited; and

Provided, That at expiration of the permit, all obstructions (except for allowed encroachments) shall be removed at "the petitioner's" expense. The public property shall be restored to a condition satisfactory to the City Engineering Division – DPW by the petitioner at "the petitioner's" expense; and

Re: Michael Porterfield vs. Officer Brandon Lee Pierce and City of Detroit. Case No.: 15-0001224-NI. File No: L15-00105.

On February 1, 2016, a case evaluation panel evaluated the above-captioned lawsuit and awarded Five Thousand Dollars and No Cents (\$5,000.00) in favor of Plaintiff. PLANNING AND ECONOMIC DEVELOPMENT STANDING COMMITTEE

By Council Member Leland:

AN ORDINANCE to amend Chapter 25, Article II of the 1984 Detroit City Code by adding Section 25-2-198, to establish the Baker's Keyboard Lounge Historic District, and to define the elements of design for the district.

IT IS HEREBY ORDAINED BY THE PEOPLE OF THE CITY OF DETROIT THAT:

Section 1. Chapter 25, Article II of the 1984 Detroit City Code is amended by adding Section 25-2-198 to read as follows:

Sec. 25-2-198. Baker's Keyboard Lounge Historic District.

(A) A historic district to be known as the Baker's Keyboard Lounge Historic District is established in accordance with the provisions of this article.

(B) This historic district designation is certified as being consistent with the Detroit Master Plan.

(C) The boundaries of the Baker's Keyboard Lounge Historic District are as shown on the map on file in the office of the City Clerk, and are as follows: on the north, the centerline of the east-west alley running between Eight Mile Road and Norfolk Avenue; on the east, the centerline of the north-south alley running between Livernois Avenue and Warrington Drive; on the south, the southern boundary line, as extended east-west, of Lot 14 of Woodlawn Subdivision, Liber 29, Page 54, Wayne County Records; on the west, the centerline of Livernois Avenue, commonly known as 20510 Livernois Avenue.

(D) The defined elements of design, as provided for in Section 25-2-2 of this Code, are as follows:

(1) *Height.* The Baker's Keyboard Lounge building is one (1) story tall.

(2) *Proportion of building's front façade.* The front façade of the Baker's Keyboard Lounge is rectangular in appearance, and is approximately one and one-half (1-1/2) times as wide as it is tall.

(3) *Proportion of openings within the façade.* The Baker's Keyboard Lounge building has only one (1) opening in its front (west) and north façades; this opening faces north, consisting of a pair of black-painted steel doors recessed into a rounded, cutaway corner beneath a wide overhang supported by a cylindrical, aluminum-clad column.

(4) *Rhythm of solids to voids in the front façade.* The Baker's Keyboard Lounge building has only one (1) opening in its front (west) and north façades, creating an irregular rhythm. The entrance is recessed within the northwest corner of the building.

(5) *Rhythm of spacing of buildings on streets.* Not applicable due to single building district.

(6) *Rhythm of entrance and/or porch projections.* The building entrance is located at grade and does not project, being recessed into a rounded, cutaway corner beneath a wide overhang supported by a cylindrical column. The only major projection is a half-round circular entrance awning. An internally illuminated channel-letter sign with changeable Wagner letters projects slightly.

(7) *Relationship of materials.* The primary material of the building is face brick with light gray, elongated, common-bond brick; curved bricks define the rounded northeast corner of the building. A cylindrical column is clad with aluminum. The southern half of the front (west) façade is clad with black enameled steel panels. Doors are steel.

(8) *Relationship of textures.* The major textural relationship is rough brick laid in mortar joints which contrasts the smooth texture of enameled steel panels. The illuminated sign is complex and adds significant textural interest.

(9) *Relationship of colors.* The colors of the building are defined by contrasting monochromatic light and dark, evocative of the black and white piano keys. Face brick is light gray. Enameled steel panels are black. Doors are painted black. The northern half of the front (west) façade, and the north façade, feature aluminum panels on a projecting parapet wall, colored black and white to resemble piano keys. An illuminated, white, channel-letter sign surrounded by a festoon of bare incandescent bulbs provides a significant relationship of light and color at night.

(10) *Relationship of architectural details.* The building is Moderne in style. Significant details include elongated and curved face brick, enameled steel panels and an illuminated sign. A lack of windows shall be considered a significant architectural detail.

(11) *Relationship of roof shapes.* The building has a flat roof that is not visible from the street.

(12) *Walls of continuity.* Although this is a single building district, the Baker's Keyboard Lounge building forms a continuous wall along Livernois Avenue with the adjacent building to the south.

(13) *Relationship of significant landscape features and surface treatments.* The front of the building is sited on the lot line, and therefore there is no landscaping or other significant surface treatment on any of the building's sides. The sidewalks and alleys surrounding the building are paved with poured concrete. One (1) lamp pole within the district is not a significant feature.

(14) *Relationship of open space to structures.* The only open space in this district, aside from the surrounding street and alley, is a small paved driveway area to the north of the building.

(15) *Scale of façade and façade ele-*

ments. The scale of the façade is modest. The depth of the building is greater than its street frontage. Façade elements are large, creating detail that is clearly visible from the street.

(16) *Directional expression of front elevation.* The front elevation of the Baker's Keyboard Lounge building is horizontal in expression. A recessed entrance contributes to the horizontal character of the building.

(17) *Rhythm of building setbacks.* Building setbacks do not exist, as the building extends to the front sidewalk.

(18) *Relationship of lot coverages.* The depth of the building is greater than its street frontage. The footprint of the building occupies about seventy-five (75) percent of its parcel. The remaining area is used for services and a single parking space on the north side of the building.

(19) *Degree of complexity within the façade.* The front façade is irregular in its massing, with rough and light colored brick on the northern half of the façade contrasting with smooth and dark colored panels on the southern half of the façade. An illuminated sign adds a significant degree of complexity. The building has no windows.

(20) *Orientation, vistas, overviews.* The Baker's Keyboard Lounge building is oriented to the west toward Livernois Avenue, the north-south thoroughfare running in front of the building. The main entrance is recessed beneath an overhang at the northwest corner of the building and faces north, towards a small parking and loading area.

(21) *Symmetric or asymmetric appearance.* The appearance of the front façade of Baker's Keyboard Lounge is asymmetrical due to its corner entrance and the distinct contrast between brick and enameled steel panels of the façade. An illuminated sign is not centered on the façade; the sign itself is also asymmetrical in nature.

(22) *General environmental character.* The building sits against the Public right-of-way on Livernois.

Section 2. All ordinances or parts of ordinances, or resolutions or parts of resolutions, in conflict with this ordinance are repealed.

Section 3. This ordinance is declared necessary for the preservation of the public peace, health, safety, and welfare of the people of the City of Detroit.

Section 4. If this ordinance is passed by a two-thirds (2/3) majority of City Council Members serving, it shall be given immediate effect and become effective upon publication in accordance with Section 4-116 of the 1997 Detroit City Charter; otherwise, it shall become effective in accordance with Section 4-115 of the 1997 Detroit City Charter.

Approved As To Form:

Honorable City Council:

Re: Petition No. 696 — Bedrock Real Estate Services request approval of a permanent encroachment along 1001 Woodward Avenue (in relation to the current plaza/outdoor seating).

Petition No. 696 — Bedrock Real Estate Services on behalf of 1001 Webward LLC request to install and maintain an encroachment for sidewalk café seating on the west side of Woodward Avenue, 120 feet wide between Michigan Avenue, 100 feet wide, and State Street, 60 feet wide; also on the north side of Michigan Avenue, between Griswold Avenue, 90 feet wide and Woodward Avenue, 120 feet wide.

The petition was referred to the City Engineering Division — DPW for investigation and report. This is our report.

The request is being made to provided an outdoor seating area at 1001 Woodward Avenue where Bedrock Real Estate Services is reconstructing the sidewalks and plaza area around the building.

Traffic Engineering Division — DPW

(TED), reports being involved and approves provided that a minimum 6 ;feet clear unobstructed sidewalk shall be maintained in front of the encroachment at all times. The TED provision is included as a part of the attached resolution.

Detroit Water and Sewerage Department (DWSD) reports being involved, but has no objection provided the DWSD encroachment provisions are followed. The DWSD provisions have been made a part of the resolution.

DTE — Gas reports being not involved; however in case of conflict or if the work is in close proximity to their gas lines, they have remarks that are included as a part of the resolution. All other involved City Departments, including the Pubic Lighting Department and Public Lighting Authority; also privately owned utility companies have reported no objections to the encroachment. Provisions protecting utility installations are part of the attached resolution.

I am recommending adoption of the attached resolution.

RESOLUTION REQUESTING THAT THE UNITED STATES COAST GUARD PERFORM A FULL ENVIRONMENTAL IMPACT STATEMENT (EIS) OF A PROPOSED SECOND PRIVATELY OWNED INTERNATIONAL BRIDGE ACROSS THE DETROIT RIVER

WHEREAS, the Home Rule Cities Act, MCL 117.3, Mandatory Charter Provisions, Section 3(j) requires that each city charter shall provide for the public peace and health and for the safety of persons and property; and

WHEREAS, Pursuant to the general powers as expressed in the City Charter Sec. 1-102 "the City has the comprehensive home rule power conferred upon it by the Michigan Constitution, subject only to the limitations on the exercise of that power contained in the Constitution or this Charter or imposed by statute. The City also has all other powers which a city may possess under the Constitution and laws of this state." Therefore, it is incumbent upon those elected to serve the citizens of

the City of Detroit to expend maximum efforts to protect the public peace, health and safety of all its constituents; and

WHEREAS, While this Honorable Body supports the Land Exchange Agreement entered into by the City of Detroit and the Detroit International Bridge Company (DIBC), neither party intended the Agreement to abdicate the duty of the City of Detroit to take all measures to secure the public peace, health and safety of its citizens; and

WHEREAS, The Detroit International Bridge Company (DIBC) recently announced its renewed intention to construct a second international bridge across the Detroit River; and

WHEREAS, A full Environmental Impact Statement (EIS) of the area surrounding the proposed second bridge by the DIBC is critical to informing the public, assessing the implications for potential risks or danger to the public health and general welfare as a result of such a project, and providing an understanding of the full potential impact a second bridge will have on the air quality and other aspects of the quality of life, so as to eliminate or at least minimize that impact in the affected communities; and

WHEREAS, There currently exists many known environmental challenges in Southwest Detroit where the new bridge is proposed. This area has been described as the most polluted area in the State of Michigan and one of the most polluted in the nation. City officials (including the Detroit Health Department Director) have recently gone on record calling for greater efforts to reduce air pollution in this area, also known as the 48217 (zip code), and 48209 (zip code) area the neighboring community to the east; and

WHEREAS, The proposed bridge would be located in the adjacent 48209 (zip code) of which 34% of the population are children and near several industrial facilities whose output of pollution has greatly increased since 2009 when an EIS was initially considered for this property, including but not limited to the proposed expansion of Marathon Oil Corporation, Severstal Steel (Former Rouge Steel), the DTE River Rouge Coal fired plant, and EES Coke and Battery all of which have an impact on the environment and its air quality; and

WHEREAS, The Detroit Health Department has identified that the pollutants emitted by the Marathon refinery are "criteria pollutants meaning they are highly regulated by the Environmental Protection Agency (EPA) because they cause a number of diseases, including asthma, cardiovascular disease, and lung cancer" and that multiple pollutants interact with each other having a synergistic and mutual effect which increases the risk of disease

and that Detroit suffers from higher rates of asthma, cardiovascular disease, and cancer than the rest of the State of Michigan; and

WHEREAS, The residents in the 48209 and 48217 communities suffer from elevated levels of asthma and other respiratory and related physical challenges, which are causatively related to the current air quality and could be greatly exacerbated by additional truck and other vehicle traffic across a seconde international bridge, requiring that a full EIS be conducted; and

WHEREAS, The additional truck traffic traversing the newly proposed bridge along with the idling truck and vehicular traffic on the bridge and Interstate 75 as well as the possible third bridge to be created by the State of Michigan that will span the Detroit River compounding the 48209 and 48217 communities for potentially 100 years warrants a full EIS; and

WHEREAS, The potential health impact and suffering of the surrounding community could later be recognized as an avoidable tragedy similar to that which occurred in Flint due to irresponsible and dismissive behavior, an Environmental Impact Statement, applying current science and technology could determine the potential impact of existing and expectant pollutants and prevent a tragedy from occurring in Detroit; and

WHEREAS, It is our responsibility as elected officials, governmental agencies and the DIBC as a contractual partner with the City of Detroit and good corporate citizen, to protect the health and well-being of our residents and our communities particularly when conducting an Environmental Impact Statement would not cause an unreasonable delay to the DIBC's bridge development, as there are other necessary permits, land conversion approvals, and conditions precedent that must be obtained before construction can actually begin; and

WHEREAS, It is much better to be aware and knowledgeable of any increased air emissions and other adverse health effects on the safety and general welfare of the public, than it would be to find out at a later date that the people have been put in harm's way;

NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council requests that U.S. Coast Guard and EPA engage and conduct a full Environmental Impact Statement with regard to the second bridge that has been proposed to be erected by the Detroit International Bridge Company prior to a decision being made about any permits, and as soon as possible to avoid any delay informing the residents and the local community, as well as the City of Detroit in general, and those who reside in the 48209 and 48217 area specifically, as to any air quality and other environ-

mental and public health concerns that may result from the construction and operation of a second bridge;

and BE IT FURTHER

RESOLVED, That a copy of this resolution be submitted to the U.S. Coast Guard, EPA, the Michigan Department of Environmental Quality (MDEQ), the DIBC, Governor Snyder, the Windsor-Detroit Bridge Authority (WDBA), the City of Windsor and Mayor Mike Duggan.

RESOLUTION SUPPORTING THE DEMANDS OF THE COALITION FOR CLEAN WATER REGARDING THE FLINT LEAD POISONING DISASTER

By: Council Member Sheffield:

WHEREAS, In Flint, Michigan children and their families have been poisoned by water adulterated with high levels of lead and other contaminants, as a result of gross negligence, conscious indifference and wanton disregard by the state and other government actors of the health, safety and welfare of the people; and

WHEREAS, The Emergency Managers appointed by the Governor to manage Flint made the determination to cut the city budget by changing the source of water from the Detroit Water and Sewerage Department system to the Flint River; and

WHEREAS, The Governor's Emergency Managers made this change in the water source apparently without regard and indifferent to the corrosive impact that the more acidic river water had on the city's water pipes, which leaked lead and began to deliver lead-permeated water to the families of Flint; and

WHEREAS, Flint residents unknowingly drank the lead-contaminated water forced on them by the state and its Emergency Managers, bathed in it, cooked with it, brushed their teeth with it, and are now at significant risk for life-long serious neurological, brain, skin and other maladies that are caused by lead poisoning and other contamination in the water; and

WHEREAS, Having caused the problem in the first place, the Governor and his Emergency Managers first ignored readily available factual evidence, then moved too slowly and with a negligible sense of urgency to address the calamity for approximately eighteen (18) months, even in the face of insistent public outcries from Flint residents, until after the mayor of Flint declared a state of emergency, and the subsequent outcry and media attention made the state a national embarrassment; and

WHEREAS, Flint is a city with a major-

ity of African-American people, that has suffered from corporate disinvestment leaving over forty percent of the city's residents living in poverty, a demographic status that may suggest an explanation for the state's failure to protect Flint's people from toxic water; and

WHEREAS, The most important issue now is what the Governor, the State of Michigan and the Federal Government will do to alleviate the infrastructure crisis in Flint and the long-term human damage that has resulted; and

WHEREAS, Another critical question is how we address the infrastructure crisis throughout the United States, that as in Flint, disproportionately burdens communities of people of color and low-wealth, and which is not simply a question of failure of public investment — rather, it reflects a deep structural problem that threatens to create future public health disasters; and

WHEREAS, The deeper message of Flint is a crisis in the U.S. that threatens the lives and well-being of a growing majority of the population, subjected to a model of development that underlies the Governor's administration and that led to this crisis, whose cornerstone is the privatization of public resources and public services, for the benefit of those who have accumulated tremendous wealth and at the direct expense of people of color and low-wealth; and

WHEREAS, This mode of development is rooted in the unjust enrichment to be gained via systematic undermining of the right to democratic participation, by limiting the capacity of local people to affect the formation and implementation of public policy; and

WHEREAS, This is the time for the federal government to take action and provide the funding that our community water systems desperately need, because clean water is both expensive and non-negotiable, adequately large amounts of federal funding should be diverted on an urgent basis from other issues to maintaining, repairing and where necessary replacing our threatened water and sewer infrastructure; and

WHEREAS, The Coalition for Clean Water has filed suit to obtain justice for Flint in the wake of this disaster; and

NOW, THEREFORE BE IT

RESOLVED, That Detroit City Council strongly supports the demands of the Coalition for Clean Water in Flint, including:

1. The state should replace all public water infrastructure necessary to prevent future damage at no cost to residents or businesses;
2. The state should refund all water bills since the switch to the Flint River, and create a fund to repair property damage caused by toxic water;
3. The investigations should be inde-

pendent of controlling political influence and completely transparent, with executive FOIA immunity removed from the Governor's office and all email communications released;

4. A Flint Citizen civilian Corps should be created to retrain Flint workers to repair and reconstruct Flint's water infrastructure; and

5. Adequate, holistic medical care facilities and resources should be made available in Flint to offer chelation therapy and other methods to treat lead poisoning caused by Flint River water; and

AND BE IT FURTHER

RESOLVED, That copies of this resolution shall be transmitted forthwith to the Director of the Michigan Department of Environmental Quality (DEQ), the Secretary of the United States Environmental Protection Agency (EPA), the Governor, State Senate Minority Leader Jim Ananich, State Representative Sheldon Neeley, the Mayors of Detroit and Flint, the members of the Flint City Council, Michigan Congressional representative John Conyers, Brenda Lawrence, Dan Kildee and Sander Levin, and Michigan Senators Debbie Stabenow and Gary Peters.

**RESOLUTION
OPPOSING THE GOVERNOR'S
BUDGET RECOMMENDATIONS
RELATIVE TO THE PRIVATIZATION OF
THE MENTAL HEALTH SERVICES**

By: Council President Jones and Council Member Benson:

WHEREAS, Governor Snyder's proposed State Budget for fiscal year 2017 at Section 298 calls for privatization of the mental health services funded by the State of Michigan by shifting management of Medicaid dollars for mental health, substance abuse and development disabilities from groups of public community mental health organizations called Prepaid Inpatient Health Plans ("PIHPs"), to private health management organizations ("HMOs"); and

WHEREAS, The Governor's plan is to privatize more than \$2.4 billion dollars in public funds dedicated to serving and treating those with mental illness, development disabilities and narcotic addiction. As community mental health authorities' role in the mental health system becomes demoted to merely one provider of many under the proposed new management system, the function of mental health boards will likewise become marginalized, thus effectively eliminating any local governmental oversight of the provision of services; and

WHEREAS, There are no cuts in the overall allocation for mental health services; instead, there is a shift in the management of the dollars to ostensibly help control administrative costs. However, upon review of Michigan HMOs and other states that have privatized mental health dollars, administrative and overhead costs were found to be greater after privatization; and

WHEREAS, As an example, in 2001 the State of North Carolina privatized the administration of mental health services under the same rationale being given today. The change has had a deleterious impact on the community because the quality of services provided to clients has decline, with important mental health services becoming unavailable to clients, and over time, costs have escalated rather than being controlled. Additionally, private providers have focused on the most profitable, but not necessarily most significant, services that left seriously ill clients neglected; and

WHEREAS, This move will likely further erode the mental health service system that has already been weakened by the State's closure of Lafayette Clinic and nine other state hospitals and living centers that provided critical mental health services to the mentally ill, particularly those low- and moderate-income families with insufficient resources to adequately pay for these essential services. When those closures occurred the State touted the ability to provide more effective outpatient treatment and cost savings when in reality the closures caused the shift in funding from Medical facilities to the prison system and funding for the homeless populations as many of those in need of treatment become incarcerated and/or homeless because of actions that stem from the lack of mental health services; and

WHEREAS, Unlike the private sector, the government is tasked with providing a safety net for its citizens; and, controlling cost should not be the driving force behind the provision of service. The mission and function of government is to provide for the health, safety and general welfare first, which means public health officials do not have the luxury of providing services based on profit motive or attempt to cut costs without regard to the consequences when these vital services are essential to the well-being of the populace; and

WHEREAS, The privately operated HMOs, many of which are based outside of Michigan, will likely be the prime benefactors, controlling the disbursement of approximately 4.5 percent of the state budget. Although, the proposed budget does not estimate any cost-savings from this switch, the Michigan Association of Health Plans, which is comprised of some

of the nation's largest health insurance companies and HMOs projects a savings of \$200 million in statewide Medicaid dollars between 2017 and 2019; and

WHEREAS, It is critical that before any changes to the mental health system are made, the impact that will be borne by one of our most vulnerable populations must be heavily weighed because as illustrated recently with the Flint water crisis, all cost savings are not worth the higher price the community itself must endure; and

WHEREAS, Despite the often divergent viewpoints on budgetary priorities, this proposed privatization of the management of mental health dollars is receiving statewide bipartisan opposition.

NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council expresses its strong opposition to Section 298 of the Governor's proposed 2017 budget for the Michigan Department of Health and Human Services that recommends the privatization of the management of mental health funding.

THEREFORE BE IT FINALLY

RESOLVED, That a copy of this resolution be transmitted to the Governor's Office, State of Michigan Department of Budget and Management and the Detroit Wayne Health Authority.

REVEREND ROY ISAAC, JR.

By COUNCIL PRESIDENT JONES,
JOINED BY MEMBERS LELAND AND
TATE:

WHEREAS, We, the members of the Detroit City Council, solemnly pause

today to honor the memory of the late Reverend Roy Isaac, Jr., a devoted husband and father, and the beloved Pastor of Bushnell Congregational Church, who departed this life on February 14, 2016; and

WHEREAS, Reverend Roy Isaac was born in the small town of Shadydale, Georgia. His family moved to Detroit, Michigan, where he attended Detroit Public Schools. Reverend Isaac was a businessman in Los Angeles, California before he permanently settled in Detroit. Having received and accepted the call to ministry, he was driven by his quest for knowledge and understanding of Theology and began extensive religious studies. In 1989, he started his ministry at Greater New Mount Moriah Baptist Church under the leadership of Rev. Dr. Benjamin Hooks. He was later ordained and licensed to be a Baptist Minister; and

WHEREAS, Reverend Isaac's relationship with Bushnell Congregational Church began when he pulled his car into the church parking lot to avoid a traffic jam at the intersection of Southfield and Grand River Avenue. Always a fellow with curiosity, Reverend Isaac decided he would like to see the church and was given a tour. He and his wife, Susan, began attending and studying with the Bushnell Congregational Church. The membership of Bushnell called him to be their new pastor in 2004. Reverend Isaac used his talents and skills to rebuild the church life at Bushnell, which had experienced a decline in membership. His vision was to once again see Bushnell grow, prosper and become a shining beacon in the Northwest area of Detroit to serve a changing, diverse urban population. To this end, Reverend Isaac worked tirelessly to tell the story of Bushnell. He helped to make Bushnell one of the most welcoming and diversified congregations with people of all faiths and backgrounds attending church services. Reverend Isaac also became the first Police Minister for the Detroit Police Department in 2006. He also served on the Mayor's diversity committee; and

His knowledge and expression of God's Word inspired his congregation and the community. Reverend Isaac pushed the envelope with a mission to make the world a place of tolerance and peace through diversity. Although Reverend Isaac was at the center of the congregation, he did not claim its power. He believed that is the power of our Creator that allows for all accomplishments and that power is great-

est in a congregation where individuals and the group reflect the principles exemplified by Jesus the Christ. Reverend Roy Isaac ensured that the values and traditions by which he lived would exist in the hearts of those he cherished for years to come.

Referred from New Business Agenda.

LAW DEPARTMENT

2. Submitting report relative to Application of Headlee to S.B. 720, Amending the Local Historic Districts Act. **(The Amendments do not provide an appropriation of additional funding for the City's additional obligations. Despite the lack of appropriated funding, the Amendments generally do not violate Headlee, as the establishment of a historic district is voluntary action by local governments. However, an argument could be made that the provision in the Amendments pertaining to the automatic dissolution of existing historic districts is problematic under Headlee.)**

City Planning Commission

February 25, 2016

Honorable City Council:

Re: Request to amend Chapter 61, Article XVII, Map 70 of the 1984 Detroit City Code by rezoning one (1) parcel identified as 8947 Hubbell Avenue generally bounded by W. Chicago Avenue to the north,

Hubbell Avenue to the east, Joy Road to the south and Marlowe Street to the west, from a B4 (General Business District) to an M4 (Intensive Industrial District) zoning classification (RECOMMEND APPROVAL).

NATURE OF REQUEST AND PROJECT PROPOSAL

The City Planning Commission (CPC) has received and processed the rezoning request of Mr. Emad Jomaa d/b/a America's Top Auto Sales, Inc., to amend District Map No. 70, which presently shows a B4 (General Business District) zoning classification, to show an M4 (Intensive Industrial District) zoning classification, to allow for the legalization of the petitioner's current operations as a used auto parts retailer, which is considered a conditional use in the M4 district zoning classification (per Sec. 61-10-83 (20) of the Zoning Ordinance).

BACKGROUND

The subject area consists of one of two parcels purchased by the petitioner on May 18, 2005, identified as 8947 Hubbell Avenue. The property is currently the site of America's Top Auto Sales, Inc., where used auto parts are presently warehoused onsite and sold throughout the United States via the internet. Additionally, the petitioner is licensed by the State of Michigan and through the City of Detroit's Buildings, Safety Engineering and Environmental Department's (BSEED) Business Licensing Center as a used auto dealer. The petitioner also owns the adjacent property to the north located at 8939 Hubbell Avenue, which is presently zoned M4, where all salvaging of materials for the petitioner's used auto parts sales operations currently take place.

Presently, the subject property is located directly to the south of a vacated east-west alley, which is presently screened and houses the refuse dumpster for the petitioners commercial operations at 8939 and 8947 Hubbell Avenue respectively. The subject property is currently zoned B4 (General Business District) and does not allow for the land use of "used auto parts sales."

The petitioner intends to continue their current operation as a used auto parts retailer and used motor vehicle dealer at their current location: 8940 Hubbell Avenue where a 1,300 sq. ft. one store masonry structure currently warehouses a variety of used auto parts which are sold directly to consumers via the internet. No new construction is being proposed for this site.

The rezoning of this one (1) parcel is being sought to legalize the petitioner's current operations as a used auto parts retailer. Since having purchased the two properties in May of 2005, the petitioner has operated as A used auto parts retailer and used motor vehicle dealer. However, in

May and October of 2014 the petitioner received violations from BSEED for failure to receive a certificate of compliance.

The proposed M4 (Intensive Industrial District) zoning classification would be the most appropriate classification for the petitioner's current land use. "Used auto parts sales" would be allowed on a conditional basis in the M4 zoning classification. At the pre-application meeting of Wednesday, December 10, 2014 the petitioner was informed of the required conditional land use hearing and processes, which would need to occur before the legalization of his proposed land use. The petitioner indicated his understanding, as he had previously undergone a conditional land use hearing for the establishment of his used motor vehicle dealership, which is a conditional land use in the existing B4 zoning classification.

The proposed use for the subject property does appear to be consistent with the existing character of the surrounding neighborhood, particularly along Hubbell Avenue. There are several automotive related uses both to the north and south of the subject property ranging from new auto parts, automotive body shops and towards.

SURROUNDING LAND USE AND ZONING

The zoning classification and land uses surrounding the subject area are as follows:

- North:** M4: with a screened salvage yard owned and operated by the petitioner.
- East:** M4: with commercial and industrial property (PVS-Nolwood Chemicals, Inc.
- South:** B4: with commercial development (Sam's 24 hour towing).
- West:** R1: scattered single family housing and vacant land.

ANALYSIS

Section 61-3-80 of the Detroit Zoning Ordinance lists eight criteria that must be considered in making recommendations and decisions on rezoning requests. The current zoning classification of B4 does not allow for "used auto parts sales." The proposed zoning of M4 does allow for "used auto parts sales" along with 104 other civic, institutional, retail, service, commercial manufacturing and light industrial uses on a by-right basis.

Suitability of the Property

One of the aforementioned criteria for rezoning states: "The suitability of the subject property for the existing zoning classification and proposed zoning classification." Zoning Map No. 70 generally shows a mix of M4, B4 and R1 zoning on the north and south sides for several blocks and east and west of the subject property. This section of Hubbell Avenue is primarily developed with industrial com-

plexes with a mix of commercial and industrial uses. An M4 (Intensive Industrial District) zoning classification is located to the north and east of the subject property along Hubbell Avenue for several blocks.

In general, CPC staff would look favorably on the rezoning of the subject parcel to accommodate the continuation of the petitioner's used auto parts retail operations.

Land Use

CPC is of the opinion that an M4 (Intensive Industrial District) zoning classification is an appropriate designation consistent with the characteristics of the adjacent properties, which will allow for the continuation of used auto parts sales on a conditional basis.

Significant Impact on Other Property

The Commission is of the opinion that the rezoning of this property would add to the stability of the surrounding community by allowing the continuation of a viable business which has served as a stabilizing element along this secondary corridor. The current operation presently provides full-time employment opportunities for two residents in the area and the City of Detroit in general.

CITY PLANNING COMMISSION PUBLIC HEARING

On January 22, 2015, the City Planning Commission held a public hearing on the subject rezoning request, One member of the public spoke in favor of the proposed request. No one spoke in opposition to the proposed request. The Commissioners raised no major questions or concerns about the proposed project.

MASTER PLAN CONFORMANCE

The subject site is located within the Brooks area of Neighborhood Cluster 7 of the Detroit Master Plan of Policies. The Future Land Use map for this area shows Light Industrial for the subject property. Mr. Evans of the Planning and Development Department was present at the CPC public hearing and verbally reported that there were no objections to the proposed rezoning request and that due to the nature of the request and proposed development no amendment to the Master Plan of policies would be necessary.

RECOMMENDATION

On February 5, 2015, the City Planning Commission voted to recommend approval of the rezoning request to amend District Map No. 70, Article XVII, Chapter 61 of the 1984 Detroit City Code to show an M4 zoning classification where a B4 zoning classification is presently shown on one (1) parcel identified as 8947 Hubbell Avenue generally bounded by W. Chicago Avenue to the north, Hubbell Avenue to the east, Joy Road to the south and Marlowe Street to the west. The ordinance effectuating the map amendment has been reviewed and

approved as to form by the Law Department and is attached for your consideration.

City Planning Commission

February 25, 2016

Honorable City Council:

Re: Request to amend Chapter 61, Article XVII, Maps No.s 59 and 66 of the 1984 Detroit City Code by rezoning nine (9) parcels identified as 10833, 12703, 16975 W. McNichols, 16856, 16907, 16920, 16860 Meyers Road, 16810 and 16850 James Couzens Drive generally bounded by W. McNichols to the north, Manor Avenue to the east, James Couzens Drive to the south and Meyers Road to the west, from a B2 (Local Business and Residential District) to a B4 (General Business District) zoning classification (RECOMMEND APPROVAL).

Nature Of Request and Project Proposal

The City Planning Commission (CPC) has received and processed the rezoning request of Mr. Ghassan Alawie d/b/a Gus's Used Auto Sales to amend District Maps Nos. 59 and 66, which presently shows a B2 (Local Business and Residential District) zoning classification, to show a B4 (General Business District) zoning classification to allow for the legalization and continued use as a "motor vehicles, used, salesroom or sales lot" which is currently not permitted in the existing B2 zoning classification. The CPC is also acting as co-petitioner.

The petitioner is currently licensed with the State of Michigan as a used auto dealership, however, according to the City of Detroit's Department of Administrative Hearings website, since February 2015 the property owner has been cited twice by the Buildings, Safety Engineering and Environmental Department (BSEED) for "failure to establish or operate other activities, structures, or land uses that are in violation of specific provisions, of the general purpose and intention of the Zoning Ordinance (Sec. 61-5-14(9))."

Background

Although the petitioner is licensed by the State to operate a used auto dealership at this location, the current use is not permitted in the existing B2 zoning classification. The petitioner has not been able to obtain a certificate of compliance from BSEED due to the properties current zoning classification. The Commission staff recommended that a zoning classification of B4 be sought, as the B4 zoning classification would be the least intensive zoning classification which might allow for the continued operation of a motor vehicles, used, salesroom or sales lot on a conditional basis per Sec. 61-9-82(23).

Given the more intensive commercial nature of the current developments in the immediate area, CPC is co-petitioner to rezone the greater area bounded by W. McNichols to the north, Manor Avenue to the east, James Couzens Drive to the south and John C. Lodge Freeway (M-10) to the west, from B2 to B4.

Existing Conditions

The current establishments and zoning classifications in the subject area are as follows:

- **10833 W. McNichols Road** is currently doing business as Gus's Used Auto Sales at the intersection of W. McNichols Road and Manor Avenue. This property is also owned by the petitioner and is located directly northeast of the primary property location on of Meyers Road. the current zoning classification is B2 which does not allow for used auto salesrooms or sales lots, however, no citations or violations have been issued to this property. Also operating on this zoning lot is "White's

Muffler and Brakes" at the intersection of W. McNichols Road and Meyers Road, which is classified as "motor vehicles services, minor" which is also not allowed in the B2 zoning classification, however, to date no violations have been issued to this property. While the two established uses are not allowed in the B2 zoning classification, they are both permitted on a conditional basis in the B4 zoning classification. Although they are conditional land uses, they presently have permits issued by BSEED, and those permits will remain valid until such a time a change of land use is requested.

- **16975 W. McNichols Road** is currently developed as the parking lot for the Comerica Bank branch which is located at 12703 W. McNichols Road. The parking lot is permitted on a by-right basis in both the B2 and B4 zoning classifications. Additionally, there is a northwestward facing billboard located on the property which is permitted on a conditional basis in the B2 zoning classification, and is permitted by-right in the B4.

- **12703 W. McNichols Road** is currently developed as a Comerica Bank branch with drive-up or drive-through facilities which is permitted on a conditional basis in both the B2 and B4 zoning classifications.

- **16907 Meyers Road** is currently developed as a "restaurant, standard, without drive-up or drive-through facilities," more specifically a "Captain Jay's Fish and Chicken," which is permitted on a conditional basis in both the B2 and B4 zoning classifications.

- **16850 Meyers Road** is currently developed as a Sunoco gas station. Whereas, "motor vehicle filling stations" are not permitted in the B2 zoning classification, they are allowed on a conditional basis in the B4 zoning classification.

- **16856 Meyers Road** is currently developed as a used auto dealership, which is not permitted in the B2 zoning classification, however, is permitted on a conditional basis in the B4 zoning classification.

- **16920 Meyers Road** is currently developed as a "restaurant, carry-out or fast food, with drive-up or drive-through facilities," more specifically a "Popeye's Chicken," which is not permitted in the B2 zoning classification, however is permitted on a conditional basis in the B4 zoning classification.

- **16960 Meyers Road** is currently developed as a commercial strip mall with a variety of uses including a beauty supply store, medical marijuana clinic, Metro PCS store, Check n Go location, tax service provider and a nail salon. With the exception of the medical marijuana clinic (likely permitted as an office, but operating otherwise) which is not a legally allowable use under the Detroit City Zoning

Ordinance, all businesses located within the commercial strip mall are allowed on by-right basis in the B2 zoning classification.

- **16810 James Couzens Drive** is currently developed as an office business with an accessory parking lot, which is permitted on a by-right basis in the B2 zoning classification. Additionally, there is a northeastward facing billboard located on the property which is permitted on a conditional basis in the B2 zoning classification, and is permitted by-right in the B4.

Surrounding Land Use and Zoning

The zoning classification and land uses surrounding the subject area are as follows:

North: B2; developed commercially with an automated car wash west of W. McNichols Road and an office building east of W. McNichols Road.

East: R1; with single family housing along Manor Avenue

South: James Couzens Drive

West: John C. Lodge Freeway (M-10)

City Planning and Commission Public Hearing

On July 2, 2015, the City Planning Commission held a public hearing on the rezoning request. There were no members of the public present to speak either in support or in opposition of the request. The Commissioners raised no major questions or concerns about the proposed project. City Planning Commission staff did indicate that a request had been submitted to the Planning and Development Department (P&DD) seeking comments on the consistency of this proposal with the City's Master Plan. Mr. Bruce Evans of the Planning and Development was present and spoke to the areas' lack of conformity with the Master Plan. However, Mr. Evans also stated that the Master Plan was in error as it relates to this specific location particularly the eastern frontage of Meyers Road which is illustrated as Low-Density Residential in the 2009 Master Plan of Policies. Given that the area is commercially developed and has been so for more than a decade, there is no immediate need for an amendment to the Master Plan at this time.

Since the July 2, 2015 public hearing, staff has received one phone call of support for the proposed rezoning from a Mr. William Camberlin, the property manager of the probation office building located at 16850 James Couzens Drive.

Analysis

Section 61-3-80 of the Detroit Zoning Ordinance lists eight (8) criteria for consideration for zoning map amendments, which is attached for your reference.

(1) Whether the proposed amendment corrects an error or meets the challenge of some changing condition, trend or fact; The proposed amendment would correct

an error as well as meet the challenge of some changing condition, trend or fact considering that the subject area is developed in a more intensive commercial manner and has been so for more than a decade.

(2) Whether the proposed amendment is consistent with the Master Plan and the stated purposes of this Zoning Ordinance;

The Planning and Development Department has stated that the proposed rezoning does not conform to the master plan of policies, however, given the nature of the development and the inconsistency of the master plan with what is currently established in this location, no objections have been raised by the Planning and Development Department. The proposed zoning change is appropriate and will bring the existing uses into conformance with the zoning ordinance.

(3) Whether the proposed amendment will protect the health, safety, and general welfare of the public;

Given the nature of the already existing developments the intensification of zoning from a B2 to a B4 will not pose any additional risk to the health, safety or general welfare of the public.

(4) Whether the City and other service providers will be able to provide adequate public facilities and services to the subject property, while maintaining adequate levels of service to existing development;

The proposed rezoning will not require the vacation of alleys or easements in the proposed project area; therefore there is no reasonable expectation that public facilities and services to the subject property or surrounding properties would be negatively affected.

(5) Whether the proposed rezoning will have significant adverse impacts on the natural environment, including air, water, soil, wildlife, and vegetation and with respect to anticipated changes in noise and regarding storm-water management;

Given that the pre-existing developments are completely built-out and that the intensification of zoning from a B2 to a B4 will not permit the expansion of any of the current uses without a conditional land use hearing, there are no anticipated adverse impacts as a result of the proposed rezoning.

(6) Whether the proposed amendment will have significant adverse impacts on other property that is in the vicinity of the subject tract;

Given that the pre-existing developments have been in place for more than a decade it is not anticipated that the rezoning will have a significant adverse impact on other properties in the vicinity of the subject tract. As the B4 will match current land use activities.

(7) The suitability of the subject property for the existing zoning classification and proposed zoning classification;

The proposed zoning change while not entirely consistent with the Master Plan of Policies would be consistent with the nature and character of the surrounding developments.

(8) Whether the proposed rezoning will create an illegal "spot zone."

Taking into consideration that the zoning would be contiguous in the area of W. McNichols, Meyers Road and James Couzens Drive, staff is of the opinion that the proposed zoning change would not constitute an illegal "spot zone."

Suitability of the Property

One of the aforementioned criteria for rezonings states, "Whether the proposed amendment corrects an error or meets the challenge of some changing condition, trend or fact: "Zoning Maps Nos. 59 and 66 generally shows a mix of R1 and B2 zoning on the north, south, east and west of the subject property. This area of W. McNichols Road and Meyers Road is primarily developed with General Commercial uses. While a number of uses in the existing B2 zoning classification are permitted on a conditional basis there are equally as many non-conforming uses which could benefit from the proposed rezoning.

Land Use

The Commission is of the opinion that a B4 (General Business District) zoning classification is an appropriate designation consistent with the characteristics of the adjacent properties, which will allow for the continuation of the existing commercial and general business related uses on either a conditional or by-right basis.

Significant Impact on Other Property

The Commission finds that the rezoning of this property would add to the stability of the surrounding community by adding to the value and marketability of the existing establishments which have served as stabilizing elements along this commercial corridor without adversely impacting surrounding land uses.

Master Plan Conformance

The subject site is located within the Harmony Village area of Neighborhood Cluster 9 of the Detroit Master Plan of Policies. The Future Land Use map for this area shows Low Density Residential and Neighborhood Commercial for the subject properties. CPC staff has received a letter from the Planning and Development Department (P&DD) regarding the consistency of the proposed rezoning with the Master Plan. The P&DD report dated July 2, 2015 states the proposed rezoning would permit the legal establishment of an existing use and a change to reflect the current makeup of the commercial district. A zoning classification of B4 appears to be warranted for the subject area, as it is a long-standing commercial district developed around the

intersection of a major and a secondary thoroughfare. The existing commercial uses in the subject area do not appear to have a deleterious impact upon neighboring businesses along W. McNichols, which is currently zoned B2.

The proposed rezoning conforms to the "CN," Neighborhood Commercial portion of the subject area and extends to lots immediately to the east designated as "RL," Low Density Residential. Because the subject area is located at a busy intersection developed entirely with commercial uses, P&DD believes that the proposed rezoning should be allowed to go forward to reflect this fact.

Recommendation

On July 16, 2015 the City Planning Commission voted to recommend approval of the rezoning request to amend District maps Nos. 59 and 66, Article XVII, Chapter 61 of the 1984 Detroit City Code to show a B4 zoning classification where a B2 zoning classification is presently shown on nine (9) parcels identified as 10833, 12703, 16975 W. McNichols, 16856, 16907, 16920, 16860 Meyers Road, 16810 and 16850 James Couzens Drive generally bounded by W. McNichols to the north, Manor Avenue to the east, James Couzens Drive to the south and Meyers Road to the west. The ordinance establishing the map amendment has been reviewed and approved as to form by the Law Department and is attached for your consideration.

Honorable City Council:

Re: Modified Site Plan – Grand Trunk Crossing Development.

Background

At its meeting of February 4, 2016, the City Planning Commission (CPC) approved a minor modification to the site plan related to the Grand Trunk Crossing mixed-use development — an initiative of the Henry Ford Health System.

Your Honorable Body approved the rezoning of land on Holden and Sterling Streets to establish a PD (Planned Development) District with the passage of Ordinance No. 27-14, which became effective September 4, 2014. That ordinance had also approved the site plan and elevations prepared by Harley Ellis Devereaux, dated April 21, 2014 (4 pages).

Revised site plans were prepared by Harley Ellis Devereaux, dated January 26, 2016 (9 pages) and were found by the CPC to constitute a "minor modification" of the PD development plan per Sec. 61-3-97 of the Detroit Zoning Ordinance. The revised plans are consistent with Ord. No. 27-14 and were approved by a vote of the Planning Commission.

Housing and Revitalization Department

February 29, 2016

Honorable City Council:

Re: Approval to Accept \$1.12 Million Dollar Payment from Wayne County and \$6 Million Dollars from New Amsterdam 1 and 2 Section 108 Loans
 The City of Detroit Housing &

Revitalization Department (H&RD) requests two actions of the Council:

1) First, acceptance of \$1.12 million dollars in payments to the City by Wayne County for the cost of demolition of county properties. The City demolished a number of Wayne Count-Owned properties and in a settlement reached in 2015, the county agreed to pay the City \$1.12 million dollars for those demolitions. As CDBG funds were used to finish the demolitions, the payment must be recorded as CDBG Program Income.

The City plans to use these funds in a process called 'Defeasance'. The City will give \$920,000 dollars to a defeasance

agent who will pay Section 108 payments during the coming fiscal year, meaning the City can avoid budgeting that funding in the next fiscal year. This defeasance of Section 108 notes will create new CDBG budget authority in future fiscal years.

The City proposes to use the remaining \$200,000 to fund further pursuit of non-performing Section 108 notes in its portfolio. The funding will be used to secure additional counsel as needed, through the City's Law Department.

2) Finally, H&RD requests Council's approval to accept \$6 million dollars in settlement payments against the City of Detroit Section 108 loans for the New Amsterdam 1 and 2 projects.

Pursuant to discussions with the U.S. Department of Housing & Urban Development (HUD) field office in Detroit and Headquarters, the Department must send these dollars to a defeasance agent. The defeasance agent will hold these dollars and spend them to retire bi-annual loan payments until the \$6 million dollars are exhausted. It is expected that these funds will nearly satisfy all future Section 108 loan payments for the New Amsterdam 1 & 2 projects eliminating the City's requirement to make bi-annual payments for a number of years. This will allow the City to free up budget authority in future fiscal years. Please be advised that HUD requires that Section 108 settlement payments must be applied to loan obligations.

The total amount contributed to defeasance under this requested set of actions is \$6,920,000 and \$200,000 will be placed in the City's Section 108 legal account.

The Housing & Revitalization Department respectfully requests your Honorable Body's approval of the attached resolution with a Waiver of Reconsideration.

Re: Establish License Fee for Medical Marihuana Caregiver Centers (Revised).

Detroit City Council recently approved to amend Chapter 24 of the 1984 Detroit City Code, Health and Sanitation, by adding Sections 24-13-1 through 24-13-20, Medical Marihuana Caregiver Centers, which are defined as businesses operated by a registered primary caregiver that distributes medical marihuana, in a manner authorized by the Act, to registered qualifying patients as defined by the Act. Sections 24-13-6 thru Section 24-13-9 of the new ordinance establishes the criteria for obtaining a Medical Marihuana Caregiver Center Business License. Section 24-13-5 of the ordinance requires the Director of the Buildings, Safety Engineering and Environmental Department ("BSEED") to establish a license fee that is also approved by Detroit City Council.

Based on the administrative costs to BSEED in issuing and administering such a license, we feel that a \$1470.70 fee charged to new applicants for a Medical Marihuana Caregiver Center Business License, as well as an annual fee for license renewal, is fair and reasonable.

We respectfully request your approval to establish an application fee of \$1470.70 for a business to secure an initial Medical Marihuana Caregiver Center Business License, as well as an annual fee of \$1470.70 for each subsequent year the respective business wishes to hold the license.

Whereas, Section 24-13-5 of the ordinance requires the Director of the Buildings, Safety Engineering and Environmental Department ("BSEED") to establish a non-refundable fee to process and issue such a Medical Marihuana Caregiver Center Business License; now therefore be it

Resolved, That in accordance with the foregoing communication, Detroit City Council hereby approves that BSEED charge an initial application fee of \$1470.70 per site location for each respective Medical Marihuana Caregiver Center Business License and that BSEED charge an annual fee of \$1470.70 per site location for each subsequent year the respective business wishes to hold such license.

Section 24-13-4 and 24-13-5 of the ordinance requires the Detroit Health Department (DHD) to examine applications for approval with associated fees. The DHD will only approve applications that meets standards of the Michigan Public Health Code (PA 368 of 1978 as amended).

We propose an initial inspection fee of \$2,276 and an annual fee renewal fee of \$2,276 for Medical Marihuana Caregiver Centers. These fees are based on the administrative costs, including onsite

inspections and enforcing the Michigan Public Health Code regulations incurred by DHD in issuing an approval notice. Further, this is reasonable relative to fees charged by other Health Departments involved in Medical Marihuana Caregiver Centers.

We respectfully request your approval to establish an annual inspection fee of \$2,276.00.

Re: Request to Appropriate and Sign Agreement to Transfer \$245,000 in program income from Buildings, Safety Engineering and Environmental Department's Brownfield Cleanup Revolving Loan Fund grant to City of Detroit Brownfield Redevelopment Authority.

The Environmental Protection Agency (EPA) awarded City of Detroit in 1998 with funds to establish a Brownfield Cleanup Revolving Loan Fund (BCRLF). Subsequently, the City of Detroit has received repayments resulting in program income on the BCRLF in the amount of \$245,000. This request is to establish a new appropriation and transfer program income to the City of Detroit Brownfield Redevelopment authority (DBRA) to close out the project.

The objective of the grant is to provide loans to public and private parties for the purposes of cleaning up brownfield sites already assessed and found to be contaminated. Repayment of funds by borrowers provide a continuing source of capital and additional opportunities for loans to future eligible recipients. It is believed that the DBRA will be better suited to continue the project.

CLOSING STATEMENT ON 2016 BUDGET HEARINGS

Today, we have concluded an important phase of the process to review the budget presented by the Mayor's Administration for the 2016-2017 calendar year. I am pleased to announce that we have worked collaboratively to provide a balanced, thoughtful spending plan to ensure the delivery of quality services with effective financial controls in place.

I want to thank many people who were imperative to making this process a success. If I were to thank everyone involved, it would take many hours and I don't want to prolong this process any further. But, I would like to thank a few key individuals and departments.

First, thanks to my colleagues, my staff and their staffs for the long hours, analysis and research necessary to conduct the due diligence required for this effort. I would like to especially thank my Chief of Staff, Stephen Grady, who ensured the process stayed on point and helped to remove negotiating roadblocks along the way.

I want to thank our Legislative Policy Division, led by Interim Director, David Whitaker, and Fiscal Analysis Director, Irv Corley. You led the fiscal and negotiating processes in such a way that our competing objectives came into alignment for the benefit of the citizens of the City of Detroit.

To Chief Financial Officer John Hill and your team, with special recognition to Deputy CFO Tanya Stoudemire, I extend my thanks for your keen financial leadership, both

advisory and operationally. I am confident, going forward, that we will be able to conduct the business of the city in a financially-responsible manner with your guidance.

To my partner, Mayor Duggan and his administration, with special recognition to Deputy Chief of Staff, Dave Massaron and Corporation Counsel, Melvin Butch Hollowell, I thank you for the willingness to collaborate and work together to provide a balanced budget that reflects our modest growth, while reinforcing the actions needed to sustain our recovery.

Finally, to all those behind-the-scenes who contributed to this effort, I thank you. Without your involvement and support, we would not have been as successful in completing this process within the time allotted.

Now, we enter into the next phase of the process, as the Mayor reviews our analysis and suggestions prior to submission to the Financial Review Commission for final approval. I am confident that we have worked jointly to present a conservative spending plan that will reinforce our commitment to fiscal responsibility and the looming pension realities, going forward. Thanks to all and God bless.

**THE DETROIT CITY COUNCIL
2016-2017 FINANCIAL AND BUDGETARY PRIORITIES,
PUBLIC POLICY, PLANNING AND ACTION RESOLUTION**

By ALL COUNCIL MEMBERS:

WHEREAS, The Detroit City Council has held hearings and deliberations on the Executive Budget for FY 2016-2017 submitted by the Honorable Mayor Mike Duggan; and

WHEREAS, Following the City of Detroit's (City) first full year after emerging from the largest municipal bankruptcy in our nation's history, the alignment of expenditures and revenues must be balanced with improvements in service delivery to residents. In light of the current financial climate, with uncertain major revenue sources at both the state and local levels, circumstances have created a need for fiscal conservatism and restraint balanced with the necessity of nurturing growth and redevelopment of the City; and

WHEREAS, In accordance with the newly imposed timing requirements set forth in Public Act 181 of 2014, MCL 141.1636(4), the Mayor submitted the budget to City Council on February 25, 2016, and the Council was expected to conduct hearings with City departments to determine if the proposed budget figures were sound, consider where adjustments would be necessary or beneficial, identify and propose funding changes, and ultimately vote to adopt the budget by a March 11, 2016 deadline – a total of fifteen (15) calendar days to deliberate and vote. Historically, City Council had an approximately six week period, although still not generous, in which to study and deliberate. This new compressed schedule is insufficient for effective consideration. While City Council and the Mayor have met the abbreviated deadlines, the process could be greatly improved with a more appropriate timeframe; therefore, City Council encourages the Administration to work with the State Legislature to expand the budget calendar to forty-five days; and

WHEREAS, Consistent with Sec. 8-213 of the 2012 City Charter and Public Act 181 of 2014, the City's Chief's Financial Officer, Budget Director, Auditor General, City Council's Legislative Policy Division, along with other top officials held a revenue estimating conference which determined reasonable agreed upon revenue projections for the major General Fund revenues for the upcoming fiscal year of \$1.077 billion; and

WHEREAS, The City Council is currently reviewing the Mayor's proposed Executive Organization Plan (EOP) which is a statement of the generalized functional areas of each department without in-depth explanation. It appears that all organizational changes are reflected in the proposed budget as presented. Further discussion of the EOP will be scheduled after the conclusion of the budget process and should budgetary changes be necessitated, the Administration will need to seek budgetary amendments at that time; and

WHEREAS, The bankruptcy court approved a Quality of Life (QOL) loan for improvements as the City exited bankruptcy. The Mayor has elected to fund certain initiatives with the remaining QOL funds, which are largely reflected in the Plan of Adjustment (POA) established at the conclusion of the City's bankruptcy; and

WHEREAS, On this day, March 11, 2016, the Detroit City Council adopts a program budget that is based on sound and conservative budgetary principles for municipalities as well as stated goals and projections for City departments, divisions and agencies, and in consideration of the dictates of the "Plan for the Adjustment of Debts of the City of Detroit" (POA); and

WHEREAS, In light of these factors the Detroit City Council, in adopting this budget, has incorporated the fiscal and public policy priorities outlined below in an effort to provide effective government operations and service delivery to the residents, citizens, institutions and businesses of this City; and

WHEREAS, The Michigan Department of Treasury is currently holding in escrow, \$86.9 million from the proceeds of the sale of the City's 2012 self-insurance bonds. The City has been paying the debt service at five percent interest over the last few years even though the City has been unable to access these funds. The Duggan Administration is negotiating with the Michigan Department of Treasury for release of \$64.9 million of these funds which may only be used for capital expenditures – the amount not required for self insurance purposes (\$22 million). To that end, the City is working with bond counsel and the Department of Treasury to ensure that all State laws and IRS regulations are satisfied prior to requesting the draw down; and

WHEREAS, The Detroit Land Bank Authority ("DLBA") is currently tasked with managing the demolition and sale of residential vacant, abandoned and tax-foreclosed prop-

erties within the city. It is requested that the DLBA identify funds within its budget to provide expanded property maintenance services for all of these properties, including management of illegal dumping, snow removal, timely grass cutting and brush removal, and structure maintenance especially in cases when neighboring property and public safety are endangered. There should be particular emphasis on the maintenance of trees; therefore, General Services Department is requested to hire more tree artisans and endeavor to hire from within the agency; and

WHEREAS, City Council requests the Administration to provide a monthly *budget to actual* analysis for all City agencies and provide a more effective inter-agency billing process between the General Services Department and other City agencies to improve the recording of departmental revenues and receive full reimbursement from non-general fund agencies; and

WHEREAS, In the continuing quest for greater accountability, City Council is requesting a city-wide asset inventory of office equipment and rolling stock (*i.e.*, equipment for the use of transportation, such as automobiles, railcars, etc.) to be shared with Council and the Office of the Chief Financial Officers (OCFO) for the purpose of comparing the agency inventory listing with the inventory records housed in the OCFO to ensure a more thorough inventory analysis; and

WHEREAS, As citizens' reliance on public transportation increases, it is imperative that the transportation systems in the area be coordinated to best serve the needs of the community. If a comprehensive transportation plan for Southeast Michigan that includes Ann Arbor Transit, the Suburban Mobility Authority for Regional Transportation (SMART) and the Detroit Department of Transportation is developed by the Regional Transportation Authority, City Council urges the Administration to advocate for expanded service and improved coordination of transportation services and funding; and

WHEREAS, Kemeny Recreation Center, an essential recreational structure in Southwest Detroit's 48217 zip code, is currently closed and waiting new construction. Originally, the design plans of the new center called for a 33,000 square foot facility that included state of the art swimming facilities and other amenities. However, due to market conditions and higher than anticipated construction costs, the Recreation Department has reduced the size of the new facility by approximately 40% to 20,000 square feet. The Council requests that more capital dollars be shifted to the construction of the new center to create the original 33,000 square foot recreation facility that was planned. Given that the Duggan Administration has indicated that a recent review of past bonding initiatives has found \$50 million in unused bond funds with \$9 million dedicated to the Kemeny Recreation Center, City Council suggests that \$4 million dollars be allocated to fully fund this needed development; and

WHEREAS, The Buildings, Safety Engineering and Environmental Department (BSEED) is in need of additional inspectors and is urged to hire more through the use of dollars from vacant positions and additional departmental revenues. The department is working with Human Resources to increase the pay scale for these presently unfilled positions to improve the City's ability to attract qualified candidates because the wages currently offered are not competitive with the market and the services that these inspectors provide are seriously needed; and

WHEREAS, To ensure the safety of the City's children, Council strongly urges the BSEED conduct comprehensive inspections, in accordance with BSEED's normal inspection schedule, of all Detroit schools, including DPS, charter, and private schools. Particular attention should be paid to whether schools have the required personnel to provide 24 hour monitoring of school boilers; and

WHEREAS, The number of housing inspections have decreased due to the elimination of pre-sale home inspections. As a result, Council requests greater landlord compliance through best practice solutions; and

WHEREAS, The Fire Department has changed their training specifications to require personnel of the department to be cross-trained as both a firefighter and as an emergency medical technician. The department has increased its training budget to provide this training; however, there are a number of persons that have incurred the expense of receiving the training on their own initiative. As a result, Council urges for the department to reimburse those who have acquired the EMS certification independently and/or prior to the Fire Department's transition to the new qualification standard. Additionally, Council supports the Administration's efforts to increase fire fighter/EMS technician wages aimed at improving employee retention; and

WHEREAS, Department of Public Works (DPW) anticipates receiving an additional \$10.9 million in street fund revenues (gas and weight taxes) in 2017 through the passage of the 2015 State Roads Bill. As a result, Council urges DPW to restore residential street cleaning from the additional dollars anticipated; and

WHEREAS, Section 8-202 of the 2012 Detroit City Charter requires the presentation of a five-year Capital Agenda on or before November 1 of each even numbered year to the City Council. City Council requests by the Capital Agenda be presented by November 1, 2016; and

WHEREAS, DPW indicates that presently 28,500 of the City's 215,000 (13%) residences are participating in curbside recycling. DPW indicates that efforts continue through education and outreach to encourage more households to recycle, including the recently grant financed contracts (\$95,000) awarded to Green Living Science and Zero Waste Detroit. Council urges the Administration to allocate more dollars to city-wide recycling efforts to increase the number of residential households participating in the program beyond the currently 13 percent participation rate. Council urges the Administration to aim for the goal of a twenty percent (20%) annual increase in participation rate over the next three years for a total participant level of seventy-three percent (73%); and

WHEREAS, As part of the restructuring initiatives undertaken during the City's bankruptcy proceedings, certain changes were made to both active and retiree healthcare. As a consequence, married active employees are prohibited from providing their retiree spouses with healthcare through the City's fringe benefit plans. This is a direct contradiction to that same active employee's affirmative ability to provide healthcare coverage for their non-City retired spouse. Council strongly urges the Administration to correct this illogical treatment of active employees' retiree spouses through policy changes; and

WHEREAS, The current FY 2015-2016 budget, appropriates the funding for the City's federal lobbyist and state lobbyists separately. However, the proposed budget combines these appropriations providing for federal and state lobbyist services. Council urges the Administration to maintain a separate budget for a state lobbyist, and further urges the Administration to ensure the City's lobbyist expresses City Council's distinct concerns regarding pending Federal and State legislation; and

WHEREAS, There are a large number of intact vacant structures citywide that if placed in the right hands could provide an opportunity for home or business ownership. A robust nuisance abatement program developed by the City could greatly assist in this endeavor, as such, the City Council requests the Administration create such a program focusing on blighted structures; and

WHEREAS, Under Emergency Management, parking tickets violations and late fees were increased by 50% and the early payment discount was eliminated. Council urges the Administration to reinstitute the \$10 early payment discount program if a parking ticket is paid within ten days, as recommended by the Municipal Parking Department (MPD), and provide for early payment at the parking kiosks, if possible; and

WHEREAS, In the event that the City decides to sell a city-owned parking facility, City Council strongly urges that any proceeds shall be used to pay down the "C" notes, as a method to reduce the outstanding debt service (principal and interest) payments on these notes; and

WHEREAS, In the last several years the provision of health services and the allocation of funding from the State and Federal governments for services for residents of Detroit have vacillated from the City to a private entity. As a result, all previous grant funding has not come back to the City's Health Department. Therefore, to help support services, Council asks the Administration to explore increasing general funding dollars appropriated to the Health Department and to seek additional grant dollars with particular focus on lead-based paint abatement/prevention in the City; and

WHEREAS, In order to determine whether the 10-year Plan of Adjustment is on track for future years, the Council requests the Administration reconcile the POA for fiscal years 2014 and 2015 with the actual annual expenditures provided in the City's Comprehensive Annual Financial Report for the corresponding years so that a clear, up-to-date financial picture is depicted relative to the projections listed in the POA that is now several years old; and

WHEREAS, There is approximately \$50 million in proceeds left in various funds from previously sold voter-approved general obligation bonds for the purpose of providing capital improvements; Council requests the Administration to provide detailed information including the dates in which the bonds were sold and how any proposed re-programming of these funds correspond with the original intended programmatic category; and

WHEREAS, Over the last several budget cycles, the Human Rights Department has had its staffing levels reduced below what is necessary to properly monitor development activities including tax incentive agreements that promised important hiring goals; with the City's current increase in economic development activity and the need for greater tax abatement monitoring, the number of compliance officers needs to be increased by at least one; and

WHEREAS, The City of Detroit is becoming increasingly more culturally diverse, yet, the methods used to disseminate important governmental information are generally limited to the English language. In accordance with the City's commitment to provide services to all citizens within the city, including document translation, interpretation services, and one compliance officer is suggested to properly implement and monitor the

Language Access Plan within the city. Given that 36th District Court has an existing contract in place that allows for interpretative services, an effort to expand that contract so that this public service might be used to cover citywide should be undertaken; and

WHEREAS, City Council requests greater transparency with respect to the collection and allocation of certain penalties and fines imposed by departments for violations of Executive Orders and City ordinances; henceforth, the Administration should identify all funds and accounts utilized by City agencies that are currently not reflected in the City's budget and provide how they are included in the City's financial reporting system and CAFR; and

WHEREAS, The Board of Ethics has been without an Executive Director for the last two years and has had to rely upon the services of Human Rights employees which was not anticipated by the Charter or the approved budget. Therefore, City Council urges the Board of Ethics to conclude its hiring of a new Executive Director by July 1, 2016; and

WHEREAS, Council urges the DLBA and DBA to develop a board-up program and to expand the DLBA community partnership program in areas of the City that do not receive Hardest Hit Funds and are not being targeted by the Nuisance Abatement Program to ensure the public health and safety of all residents; and

WHEREAS, The Public Lighting Authority's plan for lighting that is currently in place needs to be evaluated to ensure that there is adequate lighting planned to safeguard the public's health and safety throughout the City, including areas of the city where new lighting has been installed. Additionally, it should be determined if there is sufficient funding to achieve this objective and to meet the unique lighting needs of different neighborhoods which may be above and beyond the national standards; and

WHEREAS, It appears that the maintenance and upkeep of the viaducts has not been adequately addressed; therefore, a coordinated and comprehensive maintenance plan, including adequate lighting, should be developed by the PLA, DPW DWSD-R, GSD and all other impacted City departments in conjunction with the appropriate railway companies that addresses the general cleanup, graffiti removal and the cleaning of the water basins; and

WHEREAS, In an effort to expand the city's economic climate, there should be investment in diversified industries such as information technology, medical, education, culture and art; and

WHEREAS, The Arts Commission currently has vacancies on the board; the City Council urges the Administration to appoint persons to fill the vacancies; and

WHEREAS, The budget as presented does not provide for any appropriations for the Detroit Water and Sewerage Department. The Board of Water Commissioners is scheduled to approve the budget for FY 2016-17 on March 23, 2016. Before any budget amounts are presented to the Financial Review Commission for approval, the budget allocations must come back before the City Council for consideration as required of every other City department; and

WHEREAS, Currently, the City is without a comprehensive housing plan that incorporates and mandates affordable housing; therefore, it is urged that the Administration develop such a plan with a 20% affordability requirement that includes low-income individuals and families at or below the 80% area median income level for the Detroit-Warren-Livonia Metropolitan Statistical Area; and

WHEREAS, Council urges the Administration to secure more funding for Victims Assistance Programs and to seek greater cooperation between DPD and the Wayne County Prosecutor's Office for the release of funds for Victims Assistance Programs. Council also requests greater clarity with respect to Witness Protection Programs that could be provided by DPD; and

WHEREAS, A thriving airport acts as a key economic driver to stimulate the local economy. The Coleman A. Young International Airport has great potential to improve its surrounding community. City Council requests the Duggan Administration intensify efforts to attract a commercial carrier to the airport and to seek funding to resume efforts to make improvements to the airport; and

WHEREAS, The Community Development Block Grant funds identified within this budget under the Housing and Revitalization Department and other agencies are subject to change as these funds do not reflect the final allocation from HUD nor have they been formally submitted and vetted through the Community Development Block Grant, Neighborhood Opportunity Fund review process; and

WHEREAS, The City's CFO in restructuring his office has devised an Enterprise Resource Planning (ERP) financial system that more efficiently centralizes all financial transactions in the City; however, this attempt has infringed on the City Council's ability to spend their budget within the allocated amounts. This result is too far reaching and must be modified to allow for the independent use of approved budgets of elected officials; and

WHEREAS, The Home Repair Grant Program has traditionally provided opportuni-

ties for the City's senior citizens to obtain small but essential home repairs. This program has been initially eliminated from the proposed budget. City Council strongly urges the Administration restore the Home Repair Grant program to FY 2014-15 funding levels of at least \$2.3 million and for it to be an annual allocation; and

WHEREAS, Over the course of years, a number of employees providing services for Media Services, including those employees who provided videography services for City Council, have been transitioned from full-time equivalent employees to contractual employees. By the nature of these positions, standard working hours are not guaranteed and sometimes exceed 40 hour work weeks. The City Council urges the Administration to return this class of employees to FTE status and appropriate the necessary amount to accomplish this; and

WHEREAS, City Council is providing necessary fiscal checks and balances to maintain a balanced budget and address the City's accumulated and structural deficits through this deliberative process. City Council strongly believes that through the implementation of its 2016-17 budget, coupled with the Plan of Adjustment, the City's current financial dilemma will be appropriately addressed providing a brighter course toward future financial stability.

NOW THEREFORE BE IT

RESOLVED, On this day, March 11, 2016, the Detroit City Council adopts a program budget for FY 2016-2017, as submitted by the Mayor, that is fiscally responsible and centered on sound and conservative budgetary principles for municipalities, well-reasoned financial outlooks and past performance, as well as stated goals and projections for departments, divisions and agencies, and in consideration of the City's profound fiscal challenges;

We, therefore, request that your Honorable Body rescind the resolution of September 17, 2015 and request authorization to settle this workers compensation claim for the amount of Twenty-Four Thousand Five Hundred Dollars (\$24,500.00) and that your Honorable Body authorize and direct the Finance Director to issue a draft in that amount payable to Andrew L. Mayes, and his attorney, Ronald D. Glotta, to be delivered upon receipt of properly executed releases and order of dismissal in Workers Compensation Claim #13703, approved by the Law Department.

Louis Arena and previously approved by the Honorable Council in 2013.

BACKGROUND

Joe Louis Arena is located in the Public Center (PC) district. According to Section 61-11-76 of the Zoning Ordinance, exterior modifications (including signs) to buildings in the PC district are subject to Special District Review by the City Council upon recommendation of the City Planning and Development Department.

The Honorable City Council previously approved the erection of these two on-premises business signs with a resolution dated February 5, 2013. Each sign consists of a changeable vinyl mesh banner, 26 feet by 95 feet (2,470 square feet in area), affixed to a permanent metal wall panel and lit from above. The primary display of each sign (both the original copy, and the proposed copy) depicts the business of Joe Louis Arena (i.e., the Detroit Red Wings professional hockey team), less than 25 percent of the area devoted to a message advertising motor vehicles.

ANALYSIS

As described in a staff report on the matter dated January 26, 2013, the original intent of the applicant was that the vinyl mesh banner (the “copy” of the sign) would be changed from time to time. We suggest that further clarification from your Honorable Body is warranted regarding the permissibility of this, and future, copy changes.

An approval criterion provided in Section 61-11-76 of the Zoning Ordinance dictates that “signage and graphics should be tastefully designed to be visually appealing and in character with the surrounding development, they should provide needed information, direction and orientation in a clear and concise manner.” Section 3-7-12 of the City Code stipulates that, by definition, up to 25% of the area of a business sign may display information that does not pertain to the “principal business or profession conducted” on the premises’. A size restriction provided in Section 3-7-5 of the City Code, generally limiting signs to 500 square feet in area, does not apply in the PC district.

The applicant has submitted, and the Planning and Development Department has confirmed, images and measurements indicating that the proposed copy is appropriate.

RECOMMENDATION

We feel that this proposed change of sign copy, as well as any future changes of sign copy, are appropriate provided that the new copy is of similar design and aesthetic character to the original copy, and that the new copy remains consistent with the definition of “business sign” as provided by Section 61-6-7 of the Zoning Ordinance, subject to review and approval of City Planning Commission and

Planning and Development Department staff. For the consideration of your Honorable Body, a resolution is attached.

*Instructions for computing this are provided in Section 3-7-4 of the City Code.

By Council Member Leland:

Whereas, The Detroit City Council, by resolution dated February 5, 2013, previously approved the erection by Olympia Entertainment, Inc. of two on-premises "business signs," as defined by Section 3-7-2 of the City Code, with changeable copy at the Joe Louis Arena at 600 Civic Center Drive, as described in a report from the City Planning Commission staff dated January 26, 2013; and

Whereas, Olympia Entertainment, Inc., as described in a building permit application dated January 19, 2016, now seeks to change the copy, and may, in the future, seek to further change the copy of the above-referenced two signs; and

Whereas, Section 61-11-76 of the Zoning Ordinance provides that "signage and graphics should be tastefully designed to be visually appealing and in character with the surrounding development;"

Now, therefore, be it

resolved, That the Detroit City Council approves this, and future, changes of copy, provided that the new copy satisfies the approval criterion provided in section 61-11-76 of the Zoning ordinance and does not contradict the definition of "business sign" provided in Section 3-7-2 of the City Code, as determined by City Planning Commission staff review.

Honorable City Council:

Re: Petition No. 905 — Shoppers Lounge LLC (Queens Bar) 35 E. Grand River for Outdoor Café Permit at 35 E. Grand River

The above named petitioner has requested permission for Outdoor Café Service. This service will convene every April 1st through November 30th, for a period of three (3) years, from the date of your Honorable Body's approval.

The Department of Public Works/City Engineering Division (DPW/CED) who has jurisdiction over temporary encroachment on City right-of-ways has approved this request contingent upon the petitioner's compliance with applicable City ordinance related to outdoor café activities and the remittance of the annual use-permit fee to the Permit Section of the DPW/CED.

The Institute for Population Health (IPH) has approved this petition, subject to petitioners strict adherence to the 1999 Food Code, Food Law of 2000 and City Ordinance, Chapter 21. No outdoor grilling is permitted without approval from the Institute of Population Health Food Safety Division.

Approval from the Detroit Police Liquor License Bureau is contingent upon the final action given by the City Council towards the above-referenced petition. In addition, this petition is subject to the approval of the Detroit Police Department and any prior approval from the Central District Precinct does not cover serving liquor in outdoor café area until the Detroit Police Liquor License Bureau has given approval.

The Planning and Development Department (P&DD) is not aware of any objections from any other City Agencies involved. It is the recommendation of the P&DD that the petitioner's request be granted subject to the terms and conditions provided in the attached Resolution and that this service will convene every April 1st through November 30th for a period of three (3) years, from the date of your Honorable Body's approval.

TESTIMONIAL RESOLUTIONS AND SPECIAL PRIVILEGE

TESTIMONIAL RESOLUTION FOR

HISTORIC LITTLE ROCK BAPTIST CHURCH

“Honoring Our Past . . . Anticipating the Future”

By Council President Jones joined by Council Member Ayers:

WHEREAS, On Sunday, March 6, 2016, the Historic Little Rock Baptist Church will commence its 80th Church Anniversary with a celebrity worship service. On Palm Sunday, March 20, 2016, the church will host a Gospel Concert produced by Rev. Dr. Jim Holley, Senior Pastor; and

WHEREAS, The Historic Little Rock Baptist Church has been serving the community from the lower east side to the corner of Woodward Avenue and Josephine in Detroit, Michigan preaching, teaching, nurturing the physical body, the spirit and the mind through the teachings of the Lord Jesus Christ. Little Rock Baptist Church was established in April of 1936, under the pastorate of Rev. Robert E. Tate. Six worshippers gathered at the home of Brother and Sister Hooks at 1314 E. Willis in Detroit. The other members were Brother and Sister Ernest Robinson, Mother Della Brown and Mother Gaillard. In this small but adequate Christian home, the Word of God provided light to guide their path and the love to inspire fellowship. These excited pioneers spread

the good news near and far and the membership steadily increased. Recognizing the need for a larger church, the congregation moved to a new building at 3734 Russell Street. The congregation continued to flourish and made great strides under Rev. Tate until his death on July 17, 1953; and

WHEREAS, Rev. Theodore R. Provost was installed as the new pastor on February 15, 1954. Under his leadership the church relocated to 7639 Mack Avenue. Rev. Provost labored at the church until 1959, when he was called to pastor a church in San Francisco, California. During the next decade the church experienced several changes in leadership. Rev. Walter L. LaBeaux of San Antonio, Texas pastored from 1960 to 1962. The church leadership then called Rev. John Bussell on April 10, 1963. He served as pastor until July 1967, On March 20, 1968, the call to serve was extended to Rev. Clarence L. Townsell. In January 1968, the church relocated to 4903 Maxwell Street. In less than a year, under the leadership of Rev. Townsell, the church was able to purchase the adjacent parsonage. He continued his good works until 1971; and

WHEREAS, Rev. Jim Holley was called to serve as the pastor of Little Rock Baptist Church on June 9, 1972. In August 1979, after seven years of faithful service and continuing growth, Rev. Holley and the congregation moved to the current beautiful edifice at 9000 Woodward Avenue. Rev. Dr. Holley believes, “the Will of God will never lead you where the Grace of God cannot keep you.” He is truly a model of what a pastor can and should be. Since coming to Detroit more than forty-three years ago, Rev. Dr. Holley continues to be an advocate for change in the community. In 1997, he established the Detroit Academy of Arts and Sciences and serves as the chair. In his many responsibilities, he has carried the title as Dean of Ashland Theological Seminary, CEO of Cognos Public Relations Company, President of the Council of Baptist Pastors, Detroit Police Commissioner, Director of Community and Civic Affairs for the City of Detroit, Entrepreneur, Real Estate Developer, Landlord, Social Activist and the list goes on and on. He believes that one of the best ways to improve the quality of life of those around you is to provide employment. For Rev. Holley, the greater impact is being rooted in the community, knowing what’s needed and finding ways to empower the underserved; and

WHEREAS, The Historic Little Rock Baptist Church is “A Going Church for a Coming Christ.” We believe in providing spiritual, educational and economic nurturing for total mankind. The kingdom of God is advanced through the transform-

ing of lives by preaching and teaching the gospel and instilling christian values for daily living. Ministries at the church are designed to promote salvation and faith, heighten worship and praise, win souls and perform biblical teaching.

NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council and office of Council President Brenda Jones congratulates the Historic Little Rock Baptist Church on the celebration of its 80th Church Anniversary. May God continue to bless everyone in abundance!

**DR. KEEFA (AYANNA) LORRAINE
WEATHERSPOON**

By COUNCIL PRESIDENT JONES:

WHEREAS, We, the members of the Detroit City Council, solemnly pause today to honor the memory of the late, "Dr. Keefa" Lorraine Weatherspoon, a master teacher, healer, author, mentor, entrepreneur and media personality, who was also known as Ayanna was granted her angel wings on February 24, 2016; and

WHEREAS, Denise Lorraine Weatherspoon was born and raised in Detroit, Michigan. she received her adolescent education in the Detroit Public Schools system, graduating from Denby High School. Dr. Keefa was a Doctor of Naturopathy, as well as a Sukyo Mahikari (light transfer) practitioner and reiki master. Some called her 'The Urban Bush Doctor.' She received her degree from the Clayton College of Natural Health in Birmingham, Alabama. Dr. Keefa was a visionary who dedicated her heart and soul to regenerating, rebuilding and renewing the spirit, mind and body. Locally known for her Live Well Naturally radio program on WCHB 1200 AM and the Spirit of Wellness television shown on WHPR-TV 33, Dr. Keefa was also the founder and director of Golden Ray Inc. and SanKofa LIFE, a Michigan nonprofit community service organization. In 2012, she founded the new SanKofa LIFE Learning and Wellness Center in Detroit at 18734 Woodward Avenue, where she taught holistic wellness classes to an ever-growing member network and the general public. Her primary business was The Water Station and Healthy Soul Natural Food Store, located at 18710 Woodward Avenue; and

WHEREAS, Dr. Keefa was diagnosed with cervical cancer in 1977, at the age of 25, the same age as her mother, who lost

her battle. That led her on a quest to really know how to be well. Her studies and practices of Wholistic healthcare date back to 1977 and stretch across the globe — encompassing both Eastern and Western healing arts. She made a commitment to God which was: "If you show me how to heal my life of cancer, I will spend whatever time I have left healing others and teaching others to heal themselves." Dr. Keefa made it her mission to serve other people on their individual journeys to wellness. One of the building blocks of this commitment started with water. Early on, she found out how important water is to the body. To her, ionized alkaline mineral water is the foundation of good health and that's why she opened the Water Station. Dr. Keefa created an empire out of alkaline water. The water is also sold at Whole Foods Market stores in Detroit, Rochester Hills and West Bloomfield; and

WHEREAS, Dr. Keefa purposely created a lifestyle of positivity and her aura exuded peace and calmness. She glided around the room like she was walking on water, each step more graceful than the next. Her passion and enthusiasm to serve, support and educate humankind was evidenced in her meticulous, yet candid, gleeful, simplistic and comprehensive style of education. Dr. Keefa was a master communicator and the author of seven books and manuscripts. Her latest book is titled *Standing in the Majesty of Grace*. Dr. Keefa is survived by her father: Daniel Weatherspoon, son: Larry Carlos Rouse II (Tyrita), sister: Deborah Young (Carlton), brother: Malik Weatherspoon and four grandchildren; Minuet, Denise, Sterling and Titan. Dr. Keefa 'Ayanna' Lorraine Weatherspoon dedicated her life to helping and healing others. Her spirit lives on and her glowing light of love and peace will continue to shine.

NOW THEREFORE BE IT

**RESOLUTION
IN MEMORIAM
RUTH SEGARS**

By COUNCIL PRESIDENT JONES:

WHEREAS, We, the members of the Detroit City Council, solemnly pause

today to honor the memory of the late Ruth Lybia Segars, beloved mother, grandmother, sister and friend to many, who was granted her angel wings on February 29, 2016; and

WHEREAS, Born on April 12, 1934 in Hamtramck, Michigan, Ruth was the second of three children born to Harris and Lillie Mae Blow. She received her adolescent education the Hamtramck Public School system, graduating from Hamtramck High School with honors. Following high school, Ruth continued her pursuit of higher education at Highland Park Junior College, where she obtained an Associate Degree. She also attended Wayne State University. In 1957, Ruth was united in marriage with her soul mate, Roosevelt Segars, Jr. From this union, three children were born: Derek Kevin, Dorian Kornell and Darryl Keenan. They purchased a home in Conant Gardens, where Ruth lived for the rest of her life. The couple built a great life together and traveled extensively with their sons all across the country. Tragically, Ruth and Roosevelt lost their son, Dorian at the tender age of six. Less than five years later, her husband Roosevelt passed; and

WHEREAS, Ruth was employed as a civil servant in Wayne County government for over thirty years. She started as a secretary and was later promoted to Administrator. After retirement, she moved her ailing mother into her home and cared for her until her death in 1984. As a young adult, Ruth accepted Jesus Christ as her Lord and Savior at Corinthian Missionary Baptist Church in Hamtramck. When she was faced with the unenviable circumstance of becoming a widow with two sons in 1975, it compelled her to grow stronger in her faith. This was a defining, serendipitous moment in her life. Ruth was a faithful and active member of Corinthian Missionary Baptist Church, serving as the secretary for decades. Additionally, she served as an officer with the Carrie E. Phillips Mission Circle and as a member of The Concerned Sisters, the church's widows group. Ruth started and initially personally funded the church's annual Christmas Holiday Dinner for senior Citizens. She was also quite active outside of the church, serving on the Hamtramck High School Alumni Reunion Committee, the Conant Gardens Property Owners Association, as well as in varying capacities with a myriad of parent organizations at her son's schools. Ruth was tirelessly devoted to the Appling Family Reunion Committee, volunteering to help organize the logistic of the reunion, event if it was being held outside of Michigan — because of course, nobody else could organize it to her exacting standards; and

WHEREAS, Ruth was a magnetic force

of life and love. Throughout her life she possessed a kind and giving spirit of helping others. She had a special way of making each and every person feel important and worthy of her time. Ruth Segars was an amazing role model for her two sons and their spouses, grandchildren, caregivers and extended family. Recognized and respected as a devoted matriarch, she ensured that the values and traditions by which she lived would exist in the hearts of those she cherished for years to come.

NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council and office of Council President Brenda Jones, hereby expresses its condolences and joins with family and friends in honoring the life of Ruth Segars. She will be greatly missed and her contributions and the lessons she taught will live on forever.

Honorable City Council:

Re: MACK-ASHLAND II — PAYMENT IN LIEU OF TAXES (PILOT)

Mack-Ashland II Limited Dividend Housing Association Limited Partnership, sponsored by Southwest Housing Solutions Corporation is constructing a 28-unit rental (14 duplex buildings; attached town homes) project located in Northeast Detroit bounded by Alter Road (east); Lozier (north); Manistique (west); and Mack Avenue (south). The project will consist of a combination of 8 (eight) attached town homes (two bedrooms; 2 bathrooms) set aside for supportive housing and 20 (twenty) attached town homes (three bedrooms; 1.5 bathrooms). One duplex building will be set aside for one employee unit and one unit set aside as 100% community space.

Financing for the development will be through Low-Income Housing Tax Credits Equity, MSHDA HOME Funds-Supportive Housing Program, Deferred Development Fees and Developer's construction loans. The housing units will be based on the Area Medium Income (AMI). The target groups will be those whose income is 40% AMI and 60% AMI.

City Planning Commission

March 7, 2016

Honorable City Council:

Re: Planned Development Site Plan Review (Article XVII, Map No. 4 of the 1984 Detroit City Code, Chapter 61, Zoning) — Request of Rainbow Childcare Center for an approval of

site plan and elevations for a Planned Development (PD) for property located on the southwest corner of Mack Avenue and Brush Street, more specifically known as 308, 314 and 320 Mack Avenue and also 3511 Brush Street, to construct a child care center on properties bounded by Mack Avenue, Brush Street, Eliot Street and the westerly lot lines of those parcels. **(RECOMMEND APPROVAL.)**

The City Planning Commission has received the request of Rainbow Childcare Center to approve the site plan and elevations for An existing Planned Development (PD) zoning classification on District Map No. 4 of the Detroit Zoning Ordinance, Article XVII of the 1984 Detroit City Code, Chapter 61, Zoning for property located on the southwest corner of Mack Avenue and Brush Street, more specifically known as 308, 314 and 320 Mack Avenue and also 3511 Brush Street, to construct a child care center on properties bounded by Mack Avenue, Brush Street Eliot and the westerly lot lines of those parcels.

The proposed use of the subject parcels proposed for development is consistent with the use table of the Brush Park Rehabilitation Project Third Modified Development Plan'. Therefore, the proposal and the PD provisions as established by the development plan are consistent and the only action required is Site Plan Review (SPR) and subsequent action.

BACKGROUND

On July 20, 2015, the City Planning Commission received the request of Rainbow Childcare Center (RCCC) to approve site plans and elevations for a PD (Planned Development) zoning district to accommodate a proposed child care center. The company has been in business for 25 years and maintains dozens of child care facilities under their corporate umbrella primarily operating in the Midwest and east coast regions. RCCC in conjunction with the Detroit Medical Center (DMC) is proposing a new child care facility in the Brush Park Historic District on the southwest corner of Mack Avenue and Brush Street more specifically known as 308, 314 and 320 Mack Avenue and also 3511 Brush Street. The child care facility proposes to care for a maximum of 140 children and to employ up to 15 staff based on licensing capacity. The subject site totals .659 acres which currently exists as an undeveloped open space grassy area.

The proposal for the subject site at 308, 314 and 320 Mack Avenue includes plans to build a two-story day care center to allow for classroom spaces for children of various ages. The building would be constructed of brick and stone with an asphalt

shingled roof. The brick would be a textured brick in dark red with light colored split faced stone beneath a water table banding. The facility is set to have a 7,000 square foot outdoor playground area and plans a chain link security fence which would surround the playground. The security fence would begin at the east and west facades of the building and extend to the southerly lot line along the east/west alley.

Please see attachment for a map showing the location of the property.

SURROUNDING ZONING AND LAND USE

The zoning classification and land uses surrounding the subject area are as follows:

North: is zoned R6; The Detroit Medical Center (DMC)

East: is zoned PD-H; Hospice of Michigan

South: is zoned PD-H; Residential homes

West: is zoned PD-H; Residential homes

PD APPROVAL AND DESIGN CRITERIA²

Below, is listed, the applicable approval and design criteria for a Planned Development.

According to approval criteria #2 which states "that no other zoning district classification would be more appropriate," staff has found that the subject land is zoned PD and the subject parcel was designated with a child care center use listed as a possibility by the Brush Park Development Plan therefore making it the most appropriate since it is preexisting.

Criterion #8 states "that the proposed Planned Development is consistent with the Master Plan, as determined by the Planning and Development Department." The Planning and Development Department has reviewed the project and found it to be consistent with the Master Plan of Policies designated future land use.

Furthermore, criterion #9 asks, "Whether uses and structures proposed for the Planned Development district comply with all applicable site design standards and use regulations which are specified in ARTICLE XI, DIVISION 2 of this Chapter." In response to this criterion, it was found that the development as reviewed by City staff and subsequently revised is consistent with design standards. More specifically the scale, form, massing and density are similar in nature to existing adjacent structures. Also, the surrounding institutional land uses (e.g. The DMC, Hospice of Michigan, the Jewish Institute) would suggest that this proposal is compatible with the existing neighborhood.

Master Plan Consistency

Regarding the City of Detroit Master Plan of Policies, the subject property is located in the Lower Woodward area of Neighborhood Cluster 4. The future land

use designation for the subject parcels indicates Institutional (INST) on the subject Mack Avenue parcels and Medium Density Residential (RM) on the single Brush Street parcel. The Master Plan states that, "Institutional status applies to educational, religious, health, or public uses such as a church, library, museum, public or private school, hospital, or government owned or operated building, structure, or land used for public purposes" and that Medium-Density Residential areas should have an overall density of 16 to 24 dwelling units per net residential acre. The areas are often characterized by multi-unit apartment buildings with a common entrance and shared parking.

The subject site is also located within the Brush Park Third Modified Development Plan³ area. This particular development plan proposes Institutional and Medium Density Residential uses on the subject parcels, which also correlates with the Master Plan. The development plan's use chart lists "child care center" as a permitted activity.

COMMUNITY INPUT & PUBLIC DISCUSSION

The petitioner met on May 12, 2015 before the Brush Park Community Development Corporation (CDC) board as well as community members. The aesthetics of the building and parking lot were discussed and the Brush Park CDC voted to support the project. The developer has also met with Midtown Detroit Inc. (MDI) and has received support for the project by that organization.

On November 17, 2015, a third meeting was held at the MSU Detroit Center. Residents in the area were invited to have more discussion on the issue. The mailing that was sent out for the public discussion went to all tax payers of record and occupants within 300 ft, of the proposed facility and included an invitation to the community meeting as well as the notice for the CPC public discussion.

At the November 19, 2015 CPC public discussion regarding the RCCC proposal, three residents of the subject site's abutting Elliot Street spoke. Those residents that spoke were also in attendance at the November 17th community meeting.

In accordance with Chapter 25 of the Detroit Zoning Ordinance, the Historic District Commission (HDC), along with the City Planning Commission, is charged to participate in site plan review (SPR). The HDC is tasked with reviewing development proposals to determine if the project is consistent with the historic district criteria and maintains the character of the designated area.

On February 10, 2016 at the regular meeting of the HDC, the developer presented their proposed site plan to the HDC. The findings of the HDC staff were that the proposal meets "The Secretary of

the Interior's Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings." Therefore, the HDC voted to approve the site plan and elevations of the proposal.

RECOMMENDATION

On January 7, 2016 the City Planning Commission voted to recommend approval of the proposed PD site plan and elevations to be located at 308, 314 and 320 Mack Avenue and also 3511 Brush Street on District Map No.4, Article XVII, Chapter 61 of the 1984 Detroit City Code. The recommendation was made with the following conditions:

1. That the developer work with the immediately adjacent community to minimize disruption to the neighborhood during construction and address impacts that may arise;

2. That the developer tastefully incorporate decorative flower planters on the Mack Avenue frontage to act as buffers from vehicular threats;

3. That the point of vehicular ingress will be located on Eliot Street and the exiting point will be located at the northern property line of the parking lot, utilizing the abutting east/west alley, which leads to the point of egress located on Brush Street; and

4. That final site plans, elevations, lighting, landscape and signage plans be submitted by the developer to the staff of the City Planning Commission for review and approval prior to making application for applicable permits.

A resolution reflecting this recommendation will be prepared at the direction of the Standing Committee.

Housing and Revitalization Department

March 11, 2016

Honorable City Council:
 Re: Revision to HOME/CDBG Awards and Approval of HOME Loan Modification/Subordination

The City of Detroit, through the Housing and Revitalization Department (“HRD”), has continued to work closely with the U.S. Department of Housing and Urban Development (“HUD”), in making required allocation decisions for City HOME and CDBG funds to fully expend required funding to meet the City’s HOME Commitment and Disbursement deadlines and upcoming CDBG timeliness test (for expenditures). HRD issued a NOFA in February 2015 to assist in making allocations for “ready to proceed projects” with funding from the programs listed. The Department has approved additional allocations for Casamira Apartments Project and the Strathmore Apartments Project during that process (See Exhibit 1). Additionally, HRD Department is requesting an adjustment in the terms of the allocation for the Detroit Neighborhood Home Repair Program (with no change in the amount) and approval of a loan workout

for an existing HOME project, Genesis Villas.

In an effort to facilitate the closing process for the Casamira Apartments Project, HRD has awarded an increased allocation \$250,000, to pay off an unfunded bridge loan (\$210,000) and a slight increase in borrowers legal fees (\$40,000) incurred due to a required change in the ??? of equity structure to provide historic tax credit investment for the project (See Exhibit 1). The project is expected to close within the next Forty-Five (45) days and the fall and current allocation will assist the City in meeting HUD’s HOME Commitment Requirement this spring.

The Department has also approved a small adjustment to the fall allocation for the Strathmore previously approved fall allocation for the Strathmore Apartments project. The Department is adjusting the approved allocation from \$4,900,000 to \$4,725,000 in HOME funding for the project (See Exhibit 1). The allocation was adjusted to match actual invoices approved for funding during the modification closing due diligence process. The City approved payment for unreimbursed pre-development costs for the project during the 2015 HOME/CDBG NOFA process. The additional allocation for this project will also assist the City in meeting HUD’s Commitment Requirement this spring. This project is under construction and is on target for the planned completion of construction this spring.

During November of 2015, HRD awarded an increased allocation for the developer of the Detroit Neighborhood Home Repair Program. Southwest Solutions is providing homebuyer assistance for up to twenty-five (25) purchasers of homes in five (5) neighborhoods. The homes are being rehabilitated in partnership with a program providing training in the construction trades by AFL/CIO. HRD is requesting to revise two conditions of the November 2015 City Council approval:

1. Allow up to \$39,000 a unit for homebuyer assistance for income eligible buyers at or below 80% AMI (previous homebuyer assistance approved was an average of \$35,000). HRD has required a fixed cap for homebuyer assistance. The total funding available for homebuyer assistance will be the same, \$850,000, with an additional \$75,000 to cover the costs of closing the transaction (including Borrower/City legal and other required costs, over and above funding for homebuyers).

2. Allow for the replacement of property that proves to be infeasible for rehabilitation, from the original list of twenty-five properties, with other homes as authorized by the City Council resolution authorizing the Detroit Land Bank Authority to provide up to 200 homes for this project. This revision will make the homebuyer's assistance authorizing resolution consistent with the authorizing resolution for the acquisition of project homes (See Exhibit 1).

The overall funding allocation remains unchanged for this project. All parties involved believe these changes will bolster the agreement to provide \$925,000 in CDBG funding for income eligible home buyers in target neighborhoods.

Lastly, the Department is supportive of HUD's proposed restructuring of its loan for the Genesis Villa project. PNC Bank will provide a restructured loan of

\$2,264,099 for the project to assist in ensuring the project remains affordable for a 30 year term. HRD has approved forbearance and the forgiveness of the smallest of three HOME loans, while combining the remaining two loans into one with interest only payments and a balloon payment at the end of the term, which matches the term of the new restructured HUD Mortgage (See Exhibit 3).

The Home program is authorized under Title II of the Cranston-Gonzalez National Affordable Housing Act and is designed exclusively to create affordable housing for low-income households. Eligible activities under the HOME and CDBG (Development) NOFA include:

- Providing home purchase or rehabilitation financing assistance to eligible homebuyers;
- Building or rehabilitating housing for rent or homeownership; and
- Other reasonable and necessary expenses related to the development of non-luxury housing.

HOME funds are awarded on a formula basis and are included in the annual entitlement award from HUD and are part of the Consolidated Plan.

Consistent with the new process adopted by City Council for approving HOME and CDBG awards and development partners, the Department is requesting that your Honorable Body review and approve the attached list of allocations contained in Exhibits 1 and 3.

We request approval of the attached resolution with a waiver of reconsideration so additional housing investments and neighborhood reinvestment through the HOME program can continue. Should you have questions or require additional information, please do not hesitate to contact me.

Sincerely,
 DARWIN L. HEARD,
 Manager II

RESOLUTION FOR THE ASSIGNMENT OF A SECONDARY STREET NAME OF LAFAYETTE STREET BETWEEN ST. AUBIN STREET AND BEAUBIEN STREET TO CARL LEVIN STREET

By Council Member Ayers:

Whereas, Senator Carl Levin has retired from the United States Senate where he tirelessly represented the State of Michigan for six terms, the longest-serving senator in the State's history; and

Whereas, Michigan's senior senator was born in Detroit, Michigan, and is a proud product of the Detroit Public School System, Central High School (class of 1952); and

Whereas, Over the last three decades, Senator Levin earned the respect of his colleagues from both sides of the aisle, becoming one of the nation's most influential leaders on national security as the Chairman of the powerful Senate Armed Services Committee, a commanding voice for equality and justice, and a fighter for economic fairness; and

Whereas, From the first piece of legislation he introduced as a U.S. Senator -a bill to end discrimination by credit card companies-Senator Levin has proven to be a staunch supporter of working families, where he fought hard for Michigan jobs and the Michigan economy; for affordable and accessible health care; for the Great Lakes and a clean, safe and healthy environment; for high quality education; and for Social Security and prescription drug coverage, agriculture programs, and the roads and infrastructure that benefit so many Michigan citizens and businesses; and

Whereas, In the Senate, Senator Levin's top priority was the economic well-being of Michigan. He was a consistent voice for 'support of American manufacturing, the backbone of Michigan's econo-

my and the nation's. Those efforts include lobbying for the grants for manufacturers of batteries and other components of advanced electric vehicles that have sparked major job creation in Michigan. Now Therefore Be It

Resolved, That Lafayette Street between St. Aubin Street and Beaubien Street be assigned the secondary street name "Carl Levin Street" in celebration of his noteworthy achievements.

Honorable City Council:

Re: Address: 15803 Murray Hill. Name: Brenda M. Paluda. Date ordered removed: October 21, 2014 (J.C.C. pages 2169-2171).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on February 10, 2016 revealed the building is secured and appears to be sound and repairable.

The owner has paid all taxes and is current.

The proposed use of the property is owner's use and occupancy.

This is the first deferral request for this property.

Therefore, it is recommended that the demolition order be deferred for a period of six months subject to the following conditions:

1. A permit for rehabilitation work shall be obtained within 30 days.

2. The building shall be maintained securely barricaded until rehabilitation is complete. Rehabilitation is to be complete within six months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties.

3. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

4. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the

Property Maintenance Code we will issue a Blight Violation Notice.

A request for deferral exceeding four must be made by petition to City Council through the office of the City Clerk.

Respectfully submitted,

**Finance Department
Board of Assessors**

Honorable City Council:

Re: Special Assessment Districts – Petition of Sherwood Forest Association

The Office of the Chief Financial Officer – Assessors has received the petition of the Sherwood Forest Association, a designated neighborhood improvement organization, to establish a Special Assessment District (SAD) in the Sherwood Forest neighborhood. As the "designated department", as defined in Sec. 18-12-121 of City Code, we hereby find that the petition contains that signatures of record holders of 56% of the land within the boundaries of the proposed SAD and that more than 60% of the property owners are current with their property taxes as of the 2014 tax year. This meets the threshold set by MCL 117. 5i.

Please contact my office at (313) 224-3040 with any questions.

Respectfully submitted,

TESTIMONIAL RESOLUTION In Memoriam

GILBERT "GIL" ROLAND HILL

By COUNCIL PRESIDENT JONES:

WHEREAS, We, the members of the Detroit City Council, solemnly pause today to honor the memory of the late Honorable Gilbert "Gil" Roland Hill, a former Detroit City Council President, Detroit Police Official and one-time mayoral candidate, who became a movie star and rose to national fame in the role of police Inspector Douglas Todd in three action-comedy "Beverly Hills Cop" films; and

WHEREAS, Born on November 6, 1931, in Birmingham, Alabama, Gilbert Roland Hill was the son of Mary Lee Hill, who raised him and his sister, Toni, as a single parent. In the 1940s, the family moved to Washington, D.C., where he completed his education, graduating from Cardozo High School in 1949. His desire was to attend Howard University, however strained financial resources made it an impossible dream. So, in 1950, he seized the opportunity to enlist in the United States Air Force. Gil was stationed at Selfridge National Guard Air Base near Detroit. After his honorable discharge in 1953, he returned to the Detroit area, where he worked a number of jobs for the next four years. In 1955, Gil was united in holy matrimony with Delores (Hooks) Hill. They had two sons and a daughter, along with three grandchildren and two great-grandchildren. The couple was blessed with 60 years of marriage until her death in 2015; and

WHEREAS, In 1957, Hill joined the Wayne County Sheriffs Department, but desired a different type of assignment. This prompted him to join the Detroit Police Department (DPD) in 1959, beginning a stellar career until his retirement. Gil's instinctive intuitiveness led to him getting promoted to detective in 1969, where he flourished in the homicide division of DPD. Mr. Hill earned the reputation of being the city's top detective, resulting in his recruitment in 1980 as one of five office veteran "super cops" chosen from

around the country to assist the Atlanta Police Department in solving the murders of 11 black children and the disappearance of 4 others, in the "Atlanta Child Murders." The tenacity and expertise of Gil and the other team members ultimately led to the trial and conviction of Wayne Williams. The case brought Hill to national prominence. From there, he returned to Detroit where he was promoted to the rank of Inspector and took over the city's homicide division in 1982. During his tenure in the homicide division, the department achieved among the highest arrest and conviction rates for homicides in the United States. In 1984, when Paramount Studios decided to film portions of the movie, "Beverly Hills Cop" in Detroit, Gil was asked to show the film's director around the city. As they rode, Gil told stories of significant events in and out of law enforcement within the city of Detroit. The producers were so impressed with his knowledge and presence, they offered Gil the role of Inspector Todd, the boss of Eddie Murphy's character Alex Foley. The role brought him worldwide fame. While many viewed him as "a movie star," Hill never lost sight of who he REALLY was; a Detroit police officer. He never allowed success on the big screen to deter his connection to the common citizen; and

WHEREAS, In 1985, Hill was reassigned to the patrol division, where he was in charge of traffic, aviation, mounted police and the harbormaster section. Gil Hill retired from the Detroit Police Department in 1989, at the rank of Commander. He was determined not to let his commitment to public service end with his retirement. Hill successfully ran for and won a seat on the Detroit City Council, acquiring the second highest number of votes to become the President Pro-Tem. He received the largest number of votes for Council in 1993 and 1997, thus becoming the Council President in each election. Gil drew praise from his fellow council members for being a consensus builder and thoughtfully representing Detroiters. Although his accomplishments and contributions are too numerous to list, among those of which he was the most proud was an ordinance which allowed seniors to ride buses free of charge and students at a reduced rate. Gil supported other important initiatives such as: casino gambling in the city, he helped broker deals for new baseball and football stadiums downtown, and led the partnership between the council and city administration to create the Commercial Strip Revitalization Project. Throughout the 1990's, Gil co-hosted the immensely popular radio talk show "Back to Back" on WQBH. In 2001, after much prodding and prying, Hill was recruited to seek the office of Mayor. Hill's campaign gave vot-

ers the opportunity to see his vision for the future of Detroit; and

WHEREAS, Gil Hill dedicated his life to making Detroit a better place for all and never stopped believing in our city. He was passionate and relentless about changing the narrative about Detroit's perception and reality. While Gil's life on earth may have ended on February 29, 2016, his footprint and legacy of service, integrity and honor is forever embedded in Detroit's history and beyond.

NOW, THEREFORE BE IT

RESOLVED, That the Detroit City Council and office of Council President Brenda Jones, hereby expresses its condolences and joins with family and friends in honoring the life and legacy of the Honorable Gil Hill.

Adopted as follows:

Yeas — Council Members Ayers, Benson, Castaneda-Lopez, Cushingberry, Jr., Spivey, Tate, and President Jones — 7.

Nays — None.
