Require employees to wear face coverings at all times and eye protection, such as a face shield or goggles during services that require a customer to remove their face covering.

Restrict entry to only customers and their caregivers or minor dependents and limit waiting-area occupancy to only the number of individuals who can be present while staying six feet from one another.

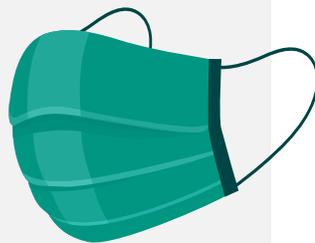

Maintain six-foot physical distancing among customers and employees by requiring in-use workstations to be separated by at least six feet; separating workstations with physical barriers, such as with plexiglass or strip curtains; and marking waiting areas with "X's" on the ground.

Maintain accurate appointment and walk-in records and cooperate with the health department if a confirmed case of COVID-19 is identified

Post signs requiring customers to wear a face covering and informing customers not to enter if they are sick

Discontinue all self-service refreshments and discard all shared items in waiting areas, such as magazines.
