EMERGENCY RESOURCES

205.9 - 1 POLICY

The Department has numerous avenues of specialized resources to employ. The Incident Commander may request the services of emergency personnel and equipment by contacting the Control Desk. In incidents of extreme emergency, where time is a critical factor, Communications Operations Zone Dispatcher shall be contacted to request a Canine Unit, Underwater Recovery Unit, and/or Evidence Technicians. Requests for emergency resources to conduct operations outside the City of Detroit require the approval of the Chief of Police, an assistant chief, or a deputy chief.
