ROSE PETAL DROPS

In February of 2021, MyFlight Tours decided to open a location out of the Detroit City Airport as a way to share the beauty of Detroit in a unique and memorable way. Looking to provide an unforgettable experience at an affordable price, we knew that Detroit City Airport was the perfect place to plant our roots.

In our first year here, we have flown more than 14,000 passengers over the city of Detroit; providing a perspective of the city unlike any other. We've shown our customers just how incredible Detroit really is. During this time, we have been a part of countless birthday celebrations, anniversaries, proposals, gender reveals, and more!

Any one of our employees would tell you that the absolute best part of our job is the customers. We create lifelong memories and experiences for our customers to brag about to their friends and families. We have never been more proud to call a place home. **Thank you, Detroit.**
