Report Period : Quarter 3 2022 (July-September)

Recipient Profile

Recipient Information

Recipient UEI	GS94M2VMNMJ3
Recipient TIN	386004606
Recipient Legal Entity Name	City Of Detroit, Michigan
Recipient Type	Metro City or County
FAIN	
CFDA No./Assistance Listing	
Recipient Address	2 Woodward Ave. Suite 1026
Recipient Address 2	
Recipient Address 3	
Recipient City	Detroit
Recipient State/Territory	MI
Recipient Zip5	48226
Recipient Zip+4	
Recipient Reporting Tier	Tier 1. States, U.S. territories, metropolitan cities and counties with a population that exceeds 250,000 residents
Base Year Fiscal Year End Date	6/30/2019
Discrepancies Explanation	
Who approves the budget in your jurisdiction?	Legislature
Is your budget considered executed at the point of obligation?	No
Is the Recipient Registered in SAM.Gov?	Yes

Project Overview

Project Name: Adult High School Certification Program (06.2.004-2.10)

Project Identification Number	850604
Project Expenditure Category	2-Negative Economic Impacts
Project Expenditure Subcategory	2.10-Assistance to Unemployed or Underemployed Workers (e.g. job training, subsidized employment, employment supports or incentives)
Status To Completion	Completed less than 50%
Adopted Budget	\$3,467,988.00
Program Income Earned	\$0.00
Program Income Expended	\$0.00
Total Cumulative Obligations	\$3,467,988.00
Total Cumulative Expenditures	\$0.00
Current Period Obligations	\$3,467,988.00
Current Period Expenditures	\$0.00
Project Description	<p>Many Detroiters face an impossible choice between educational attainment and supporting their families. Without financial assistance, most students working at full-time or multiple jobs will take two or more years to complete a traditional GED program. When prioritizing between work commitments and pursuing an education, work is often prioritized over education and retention rates are low. According to a 2018 report from the Corporation for Skilled Workforce, 80,000 workforce aged adults within the City of Detroit did not have their high school diploma or equivalency. The Adult High School Certification Program aims to significantly increase the number of Detroit residents with a high school diploma or GED. to remove barriers to access post-secondary training required for stable and high-quality employment. The program will improve the basic literacy, numeracy, and digital literacy skills of residents city-wide and remove barriers that prevent individuals from reconnecting to the labor force in a post-COVID economy. The program is open to adult residents who start with an academic proficiency level at or above the fourth grade and are at least three years past their high school graduation date with a focus on residents who did not receive their high school diploma or equivalent degree. Participants will receive a stipend of up to \$200 per week for up to ten months to enable residents time to dedicate to the program.</p>
Please identify the dollar amount of the total project spending that is allocated towards evidence-based interventions	\$3,487,988.00
Is a program evaluation of the project being conducted?	No
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	3 Imp HHs that experienced unemployment

Is a program evaluation of the project being conducted?	No
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	Many residents without a high school diploma rely on part-time, gig, and informal work to earn income. The COVID-19 pandemic eliminated many part-time jobs in food service and retail. The goal is to assist residents obtain their HSE to prepare for post-secondary training or stable employment.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	The program will provide academic instruction, career navigation and career coaching to adult Detroiters starting with a proficiency level above the 4th grade. Participants will have opportunities to explore employment and secondary training upon completion.

Project Name: Detroit Small Business Launcher (16.3.101-2.29)

Project Identification Number	851603
Project Expenditure Category	2-Negative Economic Impacts
Project Expenditure Subcategory	2.29-Loans or Grants to Mitigate Financial Hardship
Status To Completion	Completed less than 50%
Adopted Budget	\$15,000,000.00
Program Income Earned	\$0.00
Program Income Expended	\$0.00
Total Cumulative Obligations	\$15,000,000.00
Total Cumulative Expenditures	\$0.00
Current Period Obligations	\$15,000,000.00
Current Period Expenditures	\$0.00
Project Description	<p>Detroit Small Business Launcher is a program designed to assist Detroit Small to Medium Sized Businesses (SMB) at critical stages of business development, including expansion and periods of hardship. The program will provide awards to fill gaps in development and ultimately help SMBs succeed. Uses of awards may include development activities such as: business plan creation, accounting and financial planning assistance, marketing, legal expertise, inventory purchases, real estate needs including facility build-outs. This will ensure Detroit's small businesses have the necessary tools to recover from and continue to grow as we move past the COVID-19 pandemic. This project will establish a competitive grant program for Detroit entrepreneurs, new and existing Detroit small businesses, and businesses looking to expand to Detroit. It will offer two categories of support to small businesses: 1) Technical Support: Grants awarded to provide access to technical assistance starting with training & workshops and business plan development, to more specialized assistance such as real estate services, legal assistance, website development, pre-construction assistance, and more. 2) Financial Support: Cash grants provided to businesses who cannot access any or all of the financing needed to open. These grants will serve to bridge financial gaps faced by business owners allowing them to start and stay in business. Detroit Small Business launcher will build on existing work being done by the City of Detroit to support small business owners.</p>

What Impacted and/or Disproportionally Impacted population does this project primarily serve?	8 Imp SBs that experienced a negative economic impact
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	The City of Detroit is hiring the Economic Development Corporation (EDC) to provide administration and oversight for small businesses to request grant funding to help mitigate the negative economic impact of COVID and rebuild the landscape SMBs.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	EDC will perform an evaluation of small business proposals and provide funding based on the strength of applications, eligibility and need.
Number of small businesses served (by program if recipient establishes multiple separate small businesses assistance programs)	65

Project Name: Landlord Repair Program (12.1.048-2.18)

Project Identification Number	366002
Project Expenditure Category	2-Negative Economic Impacts
Project Expenditure Subcategory	2.18-Housing Support: Other Housing Assistance
Status To Completion	Completed less than 50%
Adopted Budget	\$4,849,059.00
Program Income Earned	\$0.00
Program Income Expended	\$0.00
Total Cumulative Obligations	\$304,975.00
Total Cumulative Expenditures	\$0.00
Current Period Obligations	\$304,975.00
Current Period Expenditures	\$0.00
Project Description	<p>The Landlord Repair Program (LRP) aims to improve the quality of single-family rental housing by addressing the underlying barriers to obtaining a City-required Certificate of Compliance (COC), such as lack of access to capital, compliance knowledge/process gaps, and a limited contractor pipeline. The project funding, provided specifically for Detroit's small landlords, will help increase the number of compliant rental properties in the City through financial support for landlords and educational/certification trainings for Detroit-based contractors. The proposed LRP financial support will assist landlords in the following situations:</p> <p>1-2 Family Property: Landlords bringing an existing rental 1-2 family property up to code with the Detroit rental ordinance, including lead. ½ Duplex: Landlords bringing 1 unit in a 2-family property up to code with the Detroit rental ordinance, including lead, for a structure currently occupied as a principal residence. 2nd Floor Apt: Landlords bringing a vacant 1-unit apartment above a commercial business up to code, including lead. The Landlord Repair Program contract for the 2nd-floor apartment program has been executed and contractors are currently in the project's design phase. Contract approval for the 1-2 Family property and 1/2 Duplex are currently awaiting council approval.</p>

Please identify the dollar amount of the total project spending that is allocated towards evidence-based interventions	\$4,849,059.00
Is a program evaluation of the project being conducted?	No
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	8 Imp SBs that experienced a negative economic impact
Secondary Impacted and/or Disproportionately Impacted populations	4 Imp HHs that experienced increased food or housing insecurity
Is a program evaluation of the project being conducted?	No
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	Landlord Repair will assist small landlords through four separate subprojects targeted at landlords with different types of rental units to bring the units up to code.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	Each small landlord (owning 1-2 properties) will be undergo a thorough proposal and evaluation to ensure eligibility for the program.

Project Name: Roosevelt Park Construction (08.3.043-2.22)

Project Identification Number	850801
Project Expenditure Category	2-Negative Economic Impacts
Project Expenditure Subcategory	2.22-Strong Healthy Communities: Neighborhood Features that Promote Health and Safety
Status To Completion	Completed less than 50%
Adopted Budget	\$5,000,000.00
Program Income Earned	\$0.00
Program Income Expended	\$0.00
Total Cumulative Obligations	\$5,000,000.00
Total Cumulative Expenditures	\$121,279.84
Current Period Obligations	\$5,000,000.00
Current Period Expenditures	\$121,279.84
Project Description	<p>The Roosevelt Park Construction project will transform an existing park into a safer, more vibrant, and usable recreation space for all Detroiters and visitors. Roosevelt Park, located at 2405 Vernor Highway, sits at the center of a vibrant and culturally diverse area of the city. In the heart of southwest Detroit's Hubbard Richard and Corktown neighborhoods, Roosevelt Park is located next to the iconic Michigan Central Station building, which will soon house the Ford Mobility Center. However, with two busy streets bisecting the park, the park does not feel safe or comfortable for all park users. Removing the roads that bisect the park and creating a unified park will increase the area of usable park space, improve safety for all users, particularly children, and provide a place for people to recreate outdoors throughout the remainder of the pandemic and beyond.</p> <p>Across the city, parks and open space have seen dramatic usage increases as people sought respite from the COVID-19 pandemic, with opportunities to safely enjoy parks while maintaining social distance. Sunlight, fresh air, exercise, and access to green spaces all have a positive effect on physical health and emotional well-being. This project will achieve a</p>

	unified green space renovated based on community desires. The improvements, such as walking paths, benches, and landscaping, will attract additional people to the space, improve public health, and build stronger communities. This project has been contracted and has completed the design phase. The project is currently in the procurement phase with some construction progress already underway.
What is the Total expected capital expenditure, including pre-development costs, if applicable	\$3,350,000.00
Type of capital expenditures, based on the following enumerated uses	Parks, green spaces, recreational facilities, sidewalks
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	15 Dis Imp HHs and populations residing in Qualified Census Tracts
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	This is a construction and amenities renovation project that will increase the park's quality and create a safe outdoor recreation green space thereby improving health outcomes and overall quality of life that are often inequitably distributed in diverse communities.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	The City of Detroit has thoroughly evaluated the underserved and vulnerable neighborhoods that were disproportionately impacted by the pandemic.

Project Name: Small Business COVID Response (16.3.003-2.30)

Project Identification Number	851602
Project Expenditure Category	2-Negative Economic Impacts
Project Expenditure Subcategory	2.30-Technical Assistance, Counseling, or Business Planning
Status To Completion	Completed less than 50%
Adopted Budget	\$9,000,000.00
Program Income Earned	\$0.00
Program Income Expended	\$0.00
Total Cumulative Obligations	\$9,000,000.00
Total Cumulative Expenditures	\$0.00
Current Period Obligations	\$9,000,000.00
Current Period Expenditures	\$0.00
Project Description	Small Business Covid Response is an effort to improve information and resource access for small and midsize businesses (SMBs) in Detroit. Operationally, Small Business Covid Response will function as a resource hub offering its services to any SMB seeking guidance or support on how best to create a thriving business or how to recover from the negative economic impacts of the COVID-19 pandemic. In Detroit, there are approximately 60,000 SMBs and they are the backbone of the economy. Many SMBs continue to battle with the repercussions of COVID and struggle to generate revenues that are akin to pre-pandemic levels; this is particularly true for neighborhood-based industries such as restaurants, retail, childcare, and fitness. The project will address existing deficiencies in structural support and disparities in access to financial and educational resources.

	The aim is also to fully acknowledge the impacts of the COVID pandemic, mitigate them, and to deconstruct the barriers to a full and equitable recovery for Detroit business owners.
Please identify the dollar amount of the total project spending that is allocated towards evidence-based interventions	\$9,000,000.00
Is a program evaluation of the project being conducted?	No
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	8 Imp SBs that experienced a negative economic impact
Is a program evaluation of the project being conducted?	No
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	The City of Detroit is hiring the Detroit Economic Growth Association (DEGA) to provide administration and oversight for small businesses to request grant funding to help mitigate the negative economic impact of COVID and rebuild the landscape SMBs.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	DEGA will provide walk-in ongoing services and need-based funding on an application basis. All applications will be thoroughly evaluated for eligibility prior to grant funding.
Number of small businesses served (by program if recipient establishes multiple separate small businesses assistance programs)	0

Project Name: Summer Youth Employment Program (09.2.115-2.10)

Project Identification Number	850903
Project Expenditure Category	2-Negative Economic Impacts
Project Expenditure Subcategory	2.10-Assistance to Unemployed or Underemployed Workers (e.g. job training, subsidized employment, employment supports or incentives)
Status To Completion	Completed less than 50%
Adopted Budget	\$12,500,000.00
Program Income Earned	\$0.00
Program Income Expended	\$0.00
Total Cumulative Obligations	\$12,275,000.00
Total Cumulative Expenditures	\$5,833,333.00
Current Period Obligations	\$12,275,000.00
Current Period Expenditures	\$5,833,333.00
	The Summer Youth Employment Program (SYEP) fills a need across Detroit to provide youth with career-oriented information, training, and experience to improve the employment pipeline and connect young people to permanent, high-paying positions. The program provides meaningful employment opportunities for Detroit's youth through its tiered-level experiences: 1. The Career Exploration component introduces young people (typically ages 14–16) to first-time work and career opportunities through community service, team projects, and job shadowing. This tier is for youth with little or no previous

Project Description	work experience. Worksites include Junior Police, Fire Cadets, and placements at various community-based organizations. 2. The Ready for Work component focuses on young people (typically ages 16 – 18) with some previous work experience. This tier places youth with a host employer or in a vocational training experience while continuing to build career readiness skills. Worksites include industry-led and pre-apprenticeship trainings. 3. The Career Pathways Internship component is a competitive internship for young people (typically ages 17-24) with previous work experience who have a desire to focus on a specific career pathway with a host employer. Worksites could include DTE Energy, Blue Cross Blue Shield, Marathon Petroleum, and Accenture. Through the program, youth will often be matched with employers who are willing to hire them permanently if they demonstrate the skills, interest, and a willingness to remain employed.
Please identify the dollar amount of the total project spending that is allocated towards evidence-based interventions	\$12,500,000.00
Is a program evaluation of the project being conducted?	No
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	3 Imp HHs that experienced unemployment
Is a program evaluation of the project being conducted?	No
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	The objective of the program is a reduction in intergenerational poverty and an increase in employment. Short-term outcomes include an increase in young people who gain on-the-job skills and training to compete in the job market.
Brief description of recipient’s approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	Given the economic impacts of COVID-19, training and employing 8,000+ young people per summer is more critical than ever to create pathways to employment, earn wages, and gain experience that can be applied in the future.

Project Name: Renew Detroit (10.1.014-2.18)

Project Identification Number	366003
Project Expenditure Category	2-Negative Economic Impacts
Project Expenditure Subcategory	2.18-Housing Support: Other Housing Assistance
Status To Completion	Completed less than 50%
Adopted Budget	\$27,750,000.00
Program Income Earned	\$0.00
Program Income Expended	\$0.00
Total Cumulative Obligations	\$5,947,429.76
Total Cumulative Expenditures	\$862,781.17
Current Period Obligations	\$2,016,000.00
Current Period Expenditures	\$206,142.69
	Renew Detroit will provide free major home repairs to qualifying Detroiters, with the goal of providing roof or window replacements to 2,000 households. These projects will help vulnerable Detroiters to shelter in their homes

Project Description	during the pandemic. Completion of major home repairs will give homeowners greater stability to remain in their neighborhoods, benefiting vulnerable Detroiters beyond the short-term need to shelter in place. Detroit has an estimated home repair need of at least \$2 billion, and roof repairs are one of the most requested. This project focuses repairs on Detroiters with the greatest need, with services being offered to low-income senior citizens and homeowners with a disability. Eligible applicants are prioritized on a number of factors, including household size and the potential for repairs to qualify eligible homeowners for additional weatherization grants, enabling them to continue to improve the conditions of their residences. The program has two phases, Phase 1 \$20M and Phase 2 now \$25M with an additional \$15M of leveraged funds from State of Michigan ARPA funds (Phase 2 was previously planned as \$10M). The second phase of the program will continue to provide roof replacements or the full replacement of windows - whichever is deemed more critical - with the same purpose of improving home stability for applicants. The project team has completed intake and selection of applicants for Phase 1, begun the Phase 1 Pilot construction of 200 homes, and Phase 2 applications are currently open.
Please identify the dollar amount of the total project spending that is allocated towards evidence-based interventions	\$27,750,000.00
Is a program evaluation of the project being conducted?	No
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	4 Imp HHs that experienced increased food or housing insecurity
Is a program evaluation of the project being conducted?	No
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	The project team will hire contractors to perform roof and other major repairs for qualified residents. The project is designed to target the greatest need for repairs to stabilize homes for applicants unable to perform these repairs themselves.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	The project addresses housing insecurity for low to moderate income residents to ensure stable housing for sheltering in place during and after the COVID-19 pandemic. Housing stability further supports positive health outcomes by preventing homelessness.

Project Name: COVID-19 Expenditures (02.1.090-1.7)

Project Identification Number	850202
Project Expenditure Category	1-Public Health
Project Expenditure Subcategory	1.7-Other COVID-19 Public Health Expenses (including Communications, Enforcement, Isolation/Quarantine)
Status To Completion	Completed less than 50%
Adopted Budget	\$10,000,000.00
Program Income Earned	\$0.00
Program Income Expended	\$0.00
Total Cumulative Obligations	\$4,329,000.00

Total Cumulative Expenditures	\$4,329,000.00
Current Period Obligations	\$0.00
Current Period Expenditures	\$223,776.00
Project Description	<p>The COVID-19 Expenditures program will support necessary expenditures by the City of Detroit to fund public health emergency services related to vaccines, booster shots, testing, and other public health expenditures due to COVID-19. Detroit has faced unprecedented expenses in responding to the COVID-19 pandemic over the last two years, and the need for public health response, and associated costs, continues.</p> <p>The City of Detroit's Office of the Chief Financial Officer (OCFO) will identify specific pandemic response activities, City staff, and expenditure types that will receive funds from this allocation. Allocated funding will be managed by the City department performing the work. This will be determined as pandemic response needs are identified. The project will help the City meet its ongoing challenges in responding to COVID-19.</p>
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	1 Imp General Public
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	The COVID-19 Expenditures program will fund public health emergency services related to vaccines, booster shots, testing, and other public health expenditures due to COVID-19.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	The project targets impacted residents to provide COVID-19 vaccines, booster shots, and testing as needed in direct response to the pandemic.

Project Name: Homelessness Prevention (12.1.015-2.18)

Project Identification Number	851201
Project Expenditure Category	2-Negative Economic Impacts
Project Expenditure Subcategory	2.18-Housing Support: Other Housing Assistance
Status To Completion	Completed less than 50%
Adopted Budget	\$2,700,000.00
Program Income Earned	\$0.00
Program Income Expended	\$0.00
Total Cumulative Obligations	\$1,595,812.00
Total Cumulative Expenditures	\$219,872.19
Current Period Obligations	(\$193,500.00)
Current Period Expenditures	\$40,487.79
	<p>Under the Homelessness Prevention Program, ARPA funding will support two initiatives providing key measures to reduce the number of Detroit households entering emergency shelter. Both initiatives will serve single adults and families who reside in the City of Detroit.</p> <p>The Prevention initiative (\$1.3M), targets households staying with friends or family who need to vacate because it</p>

Project Description	<p>is either overcrowded or unstable. In 2020 only 3% of households entering shelters came from their own rental unit or home, compared to 27% coming from staying with friends or family (source: Homeless Action Network of Detroit).</p> <p>The Diversion initiative (\$1.2M), targets households that need immediate emergency shelter assistance and reach out to the shelter intake system, known as the Coordinated Assessment Model (CAM). The Diversion activities are focused on helping the clients solve their housing situation so that they can either stay in their current unit or move in with another family or friends. The plan will increase the number of CAM staff and the financial assistance available to households.</p> <p>COVID-19 has had significant impacts on the physical and financial health of the lowest-income households, which are the individuals who most frequently enter Detroit's emergency shelter system.</p> <p>By preventing homelessness, people avoid the trauma of losing their home, and children remain in their original school. In addition, keeping people out of a congregate shelter setting reduces potential COVID contact and provides an opportunity to initiate an interruption in intergenerational poverty.</p>
Please identify the dollar amount of the total project spending that is allocated towards evidence-based interventions	\$2,700,000.00
Is a program evaluation of the project being conducted?	No
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	4 Imp HHs that experienced increased food or housing insecurity
Is a program evaluation of the project being conducted?	No
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	Nonprofit partners will be contracted to serve as the prevention and diversion providers to prevent further homelessness due economic impacts of the COVID-19 pandemic.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	The nonprofit partners will provide case management services which along with City oversight will provide substantiation that the program reaches those individuals who need assistance due to the COVID-19 pandemic.

Project Name: ACE Arts Alley Initiative (13.1.049-2.22)

Project Identification Number	851301
Project Expenditure Category	2-Negative Economic Impacts
Project Expenditure Subcategory	2.22-Strong Healthy Communities: Neighborhood Features that Promote Health and Safety
Status To Completion	Completed less than 50%
Adopted Budget	\$2,993,975.00
Program Income Earned	\$0.00
Program Income Expended	\$0.00

Total Cumulative Obligations	\$820,620.00
Total Cumulative Expenditures	\$63,596.26
Current Period Obligations	\$0.00
Current Period Expenditures	\$31,798.12
Project Description	The Arts Alley Initiative will revitalize eight (8) alleys across Detroit by upgrading their physical condition and incorporating artwork from local artists. Led by the City of Detroit's Office of Arts, Culture, and Entrepreneurship (ACE), the project addresses long-standing deficiencies in the city made newly urgent in the wake of the COVID-19 pandemic: lack of access to safe green spaces and inadequate maintenance of infrastructure exacerbating blight and flooding. The Arts Alley Initiative takes underutilized residential and commercial alleys and overhauls them with new surfacing, landscaping, stormwater management strategies, pedestrian and community amenities, and art installations featuring art from local artists. Partnerships created for and throughout this project will help imbue these improvements with a sense of history, beauty, and imagination. The initiative seeks to use ARPA funds to address the disparities revealed and worsened by the COVID-19 pandemic through two parallel approaches: capital improvements to the built environment responding to community needs, and art installations and activations designed in partnership with community stakeholders. This dual approach works to improve both physical and social conditions that impact the health of each of the alley's communities.
What is the Total expected capital expenditure, including pre-development costs, if applicable	\$2,540,855.00
Type of capital expenditures, based on the following enumerated uses	Parks, green spaces, recreational facilities, sidewalks
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	15 Dis Imp HHs and populations residing in Qualified Census Tracts
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	The project team has contracted design and engineering for site analysis and designs. General contractors will be used for capital improvements and Visual artists for the artistic components. The project is designed to bring community together through shared green spaces.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	The project addresses lack of safe outdoor green spaces during the COVID-19 pandemic. Alley beautification within the communities allows for more access to safe health green space..

Project Name: Chandler Park Athletic Fieldhouse (07.1.029-2.22)

Project Identification Number	850701
Project Expenditure Category	2-Negative Economic Impacts
Project Expenditure Subcategory	2.22-Strong Healthy Communities: Neighborhood Features that Promote Health and Safety
Status To Completion	Completed less than 50%
Adopted Budget	\$12,117,698.48

Program Income Earned	\$0.00
Program Income Expended	\$0.00
Total Cumulative Obligations	\$847,435.00
Total Cumulative Expenditures	\$0.00
Current Period Obligations	\$0.00
Current Period Expenditures	\$0.00
Project Description	<p>The City of Detroit's General Services Department (GSD) is constructing a new Community Recreation Center in Chandler Park on Detroit's East Side. The Chandler Park recreation complex will consist of 12,000-square-feet of multi-purpose rooms, classrooms, and support spaces connected to a 150,000-square-foot athletic fieldhouse or dome structure covering an existing football field that will provide year-round sport programming. The Chandler Park Athletic Fieldhouse is one of several Recreation Center projects funded by ARPA to expand and repair Detroit's network of Community Recreation Centers. City operated Recreation Centers provide sports and wellness programs, food distribution, art classes, cultural activities, education, and public services. Completion of the Chandler Park facility will expand the footprint of the city's network of Community Recreation Centers where Detroiters can improve their physical and emotional wellness during and beyond the COVID-19 pandemic. The facility will also provide spaces for the City of Detroit to provide COVID-19 vaccinations and testing among a range of other public services and community programming. After the facility has opened, performance will be tracked to demonstrate the impact this investment will have on the community. GSD is responsible for managing design and construction of the complex and has contracted an architectural firm to manage the design, construction planning, and engagement with the local community and stakeholder organizations. GSD will then contract a construction firm to complete the project.</p>
What is the Total expected capital expenditure, including pre-development costs, if applicable	\$12,000,000.00
Type of capital expenditures, based on the following enumerated uses	Parks, green spaces, recreational facilities, sidewalks
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	15 Dis Imp HHs and populations residing in Qualified Census Tracts
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	The City will contract the construction of the athletic fieldhouse over existing facilities for indoor recreation and athletic activities to provide year-round activity space for residents following the pandemic.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	The construction of the athletic fieldhouse will provide a public health benefit to the communities recovering from the COVID-19 pandemic.
Does the project prioritize local hires?	Yes
Does the project have a Community Benefit Agreement, with a description of any such agreement?	No

Project Name: Farwell Recreation Center Gym (07.01.012-2.22)

--	--

Project Identification Number	850703
Project Expenditure Category	2-Negative Economic Impacts
Project Expenditure Subcategory	2.22-Strong Healthy Communities: Neighborhood Features that Promote Health and Safety
Status To Completion	Completed less than 50%
Adopted Budget	\$4,024,909.73
Program Income Earned	\$0.00
Program Income Expended	\$0.00
Total Cumulative Obligations	\$345,200.00
Total Cumulative Expenditures	\$0.00
Current Period Obligations	\$0.00
Current Period Expenditures	\$0.00
Project Description	<p>This project expands existing services at the Farwell Recreation Center located in the Farwell neighborhood of Detroit. The General Services Department (GSD) will be managing the construction of a 10,000-square-foot expansion consisting of a gymnasium and locker rooms to provide additional athletic and youth programming.</p> <p>The Farwell Community Recreation Center is located in Farwell Field, 4444 E 8 Mile Road, and is one of several Recreation Center projects funded by Detroit City Council's ARPA appropriation to expand and repair the city's network of Community Recreation Centers, which provide sports and wellness programs, food distribution, art classes, cultural activities, education, and public services. Currently the Farwell facilities serve an elderly population, a gymnasium will provide space for year-round youth programming in an area of Detroit with higher-than-average youth population density.</p> <p>This expansion will finish the original plan for the recreation center, responding to continued requests from the community for increased athletic programming and youth-centered activities. The project will also include site improvements for the park area surrounding the community recreation center including updating walking paths, landscaping, seating, and modifications to the tennis facility and parking lot.</p> <p>GSD is responsible for managing design and construction of the complex and is currently in the project design phase. This will be followed by contracting an architectural firm to manage the design and engagement with the local community and stakeholder organizations. GSD will then contract a construction firm to complete the project.</p>
What is the Total expected capital expenditure, including pre-development costs, if applicable	\$4,000,000.00
Type of capital expenditures, based on the following enumerated uses	Parks, green spaces, recreational facilities, sidewalks
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	15 Dis Imp HHs and populations residing in Qualified Census Tracts
	All recreation projects will be through the design-bid-build

Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	process, which will include an open bid process for both Architecture & Engineering (A/E) services and construction services, as well as a separate furniture, fixture, and equipment (FFE) purchase.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	The renovations to the Park have been evaluated for cost reasonableness and will provide a public health benefit to the community as it recovers from the COVID-19 pandemic.

Project Name: Joe Louis Greenway (08.4.074-2.22)

Project Identification Number	850802
Project Expenditure Category	2-Negative Economic Impacts
Project Expenditure Subcategory	2.22-Strong Healthy Communities: Neighborhood Features that Promote Health and Safety
Status To Completion	Completed less than 50%
Adopted Budget	\$20,000,000.00
Program Income Earned	\$0.00
Program Income Expended	\$0.00
Total Cumulative Obligations	\$19,995,920.00
Total Cumulative Expenditures	\$220,126.68
Current Period Obligations	\$18,196,960.00
Current Period Expenditures	\$165,784.12
Project Description	<p>Named after legendary boxer and Detroit Joe Louis, the Joe Louis Greenway (JLG) Project is a proposed 30-mile recreational pathway that will connect parks and neighborhoods across the city of Detroit to create a healthier living environment. The greenway, where people will be able to walk, bike, or roll to existing paths, will provide clean outdoor areas, exercise areas and outdoor activities for community members who were disproportionately impacted by the Covid-19 pandemic.</p> <p>The greenway will act as a transportation corridor for residents who don't have access to a vehicle, are unable to drive, or simply prefer non-motorized transportation. It will connect 23 neighborhoods in the City of Detroit, along with cities of Dearborn, Hamtramck, Highland Park, and Windsor, Ontario. The project will connect marginalized communities who were disconnected when highways were constructed in the city. They will receive the economic benefits from nearby housing, job training and small business development. The full cost of the Joe Louis Greenway is \$240.3 million. ARPA SLFRF funding will be used to construct segments of Phase 1. The City is awarding contracts for segments of Phase 1 – Subarea C and Subarea I construction, design and engineering services for ongoing future designs, and construction engineering and inspection services.</p> <p>The JLG goal is to increase access to safe non-motorized pathways, improve public health by promoting outdoor exercise and healthier environments, and build stronger neighborhoods and communities by creating space for safe</p>

	and socially distant outdoor socialization for historically underserved communities.
What is the Total expected capital expenditure, including pre-development costs, if applicable	\$18,190,960.00
Type of capital expenditures, based on the following enumerated uses	Parks, green spaces, recreational facilities, sidewalks
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	15 Dis Imp HHs and populations residing in Qualified Census Tracts
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	The City will contract design and engineering services for Joe Louis Greenway development, Construction management and oversight, and the capital construction work in the creation of green space in response to the pandemic.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	Providing green space for the communities is reasonable for promoting for public health and transportation following the COVID-19 pandemic.
Does the project prioritize local hires?	Yes
Does the project have a Community Benefit Agreement, with a description of any such agreement?	No

Project Name: Joe Louis Greenway Neighborhood Planning (08.4.082-2.22)

Project Identification Number	850803
Project Expenditure Category	2-Negative Economic Impacts
Project Expenditure Subcategory	2.22-Strong Healthy Communities: Neighborhood Features that Promote Health and Safety
Status To Completion	Completed less than 50%
Adopted Budget	\$1,000,000.00
Program Income Earned	\$0.00
Program Income Expended	\$0.00
Total Cumulative Obligations	\$1,000,000.00
Total Cumulative Expenditures	\$0.00
Current Period Obligations	\$789,100.00
Current Period Expenditures	(\$58,838.93)
Project Description	The Joe Louis Greenway (JLG) Neighborhood Planning project will develop a neighborhood framework plan that will engage residents, business, and community stakeholders to make recommendations for open space and recreation, job access, zoning updates, capital improvements, housing services, and other support programs designed to build stronger neighborhoods and address health disparities located near the future Joe Louis Greenway. Named after legendary boxer and Detroit, Joe Louis, the Joe Louis Greenway is a proposed 30-mile recreational pathway that will connect parks and neighborhoods across the city of Detroit, to create a healthier living environment. The greenway will allow residents to travel safely, all without a car, through a combination of new trails, on-street protected bike lanes and links to existing trails. The neighborhood framework plan will use a community engagement process

	<p>to convene cross-section of City departments to identify resources to complete various investment priorities.</p> <p>The project will target planning within the 57 Qualified Census Tracts (QCTs) that runs through the JLG and borders another 24. The planning work will be conducted in historically under-served areas that were disproportionately affected by COVID-19, many of which the City has not had the resources to engage in neighborhood planning until now. The project will work with the community to anticipate and address the neighborhood changes that will result.</p> <p>The long-term goal is to support success of the Joe Louis Greenway and realize its goals towards protecting and increasing affordable housing, blight reduction, homeowner stabilization.</p>
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	15 Dis Imp HHs and populations residing in Qualified Census Tracts
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	A consultant will be contracted for Community Engagement, Market Analysis, Land Use & Policy, Neighborhood Development Strategy, Neighborhood Area Plan, Implementation Plan, and Conceptual Designs to join the communities together and provide health and safety.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	Neighborhood planning for the success of Joe Louis Greenway is reasonable in the wake of the pandemic and the unavailability of adequate green space for all.

Project Name: Neighborhood Beautification Program (05.1.083-2.22)

Project Identification Number	850502
Project Expenditure Category	2-Negative Economic Impacts
Project Expenditure Subcategory	2.22-Strong Healthy Communities: Neighborhood Features that Promote Health and Safety
Status To Completion	Completed less than 50%
Adopted Budget	\$1,000,000.00
Program Income Earned	\$0.00
Program Income Expended	\$0.00
Total Cumulative Obligations	\$1,000,000.00
Total Cumulative Expenditures	\$0.00
Current Period Obligations	\$1,000,000.00
Current Period Expenditures	\$0.00
	<p>The Neighborhood Beautification Beneficiary Grant Program will fund neighborhood, land-based projects that fall under three categories: Clean-Up Activities, Community Gardens, and Public Space Activities. The Neighborhood Beautification Project will license or sell land to Detroit-based neighborhood associations, non-profit organizations, block clubs, etc., to repurpose vacant lots (spaces) to serve as community connectors, designed with shade, greenery, seating, plenty of space to socially distance, and with areas that enrich and expand the live-work-play experience throughout neighborhoods and the city.</p> <p>Examples include vacant lot and alley clean-up, graffiti removal/ street clean up, litter removal, raised-bed flower</p>

Project Description	gardens, living fences, tree planting, vegetable/community gardens, non-city owned park improvements, park, and playground seating, gathering (pocket parks), playground/park enhancements, art installation, and tree planting. This Initiative will play a pivotal role in demonstrating the City of Detroit's commitment to its neighborhoods. There will be an application process, and a focus will be placed on the Households and populations residing in Qualified Census Tracts. The goals include: • Increased opportunity for non-profits, neighborhood block clubs, and neighborhood associations to develop, license, or own land-based projects in their neighborhoods; • Increased safe and open spaces for gathering in residential neighborhoods via a reduction in blight, dumping, and less illegal and dangerous activity; • Increased physical components in neighborhoods (green ground cover, bushes, trees, flower beds, etc.) and urban green spaces (small pocket parks); • Increased property values; and • More outdoor play, physical activity, and greater cohesion in communities. The project's contract was approved, and contractors have already begun approving community group applications.
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	15 Dis Imp HHs and populations residing in Qualified Census Tracts
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	The City has procured a Subrecipient as a Program administrator to facilitate the application process for the block clubs to request grant funding to provide for green space after the Covid-19 pandemic.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	The applicants will provide proposals requesting grant funding for revitalizing nearby vacant lots (spaces) for review by an evaluation committee. QCTs are presumed to be impacted by the pandemic.

Project Name: Blight Remediation - Industrial and Commercial (03.2.002-2.23)

Project Identification Number	160060
Project Expenditure Category	2-Negative Economic Impacts
Project Expenditure Subcategory	2.23-Strong Healthy Communities: Demolition and Rehabilitation of Properties
Status To Completion	Completed less than 50%
Adopted Budget	\$87,875,000.00
Program Income Earned	\$0.00
Program Income Expended	\$0.00
Total Cumulative Obligations	\$6,354,943.14
Total Cumulative Expenditures	\$253,853.62
Current Period Obligations	\$6,118,768.00
Current Period Expenditures	\$86,237.42
	Blight Remediation – Industrial and Commercial is led by the Jobs and Economy Team (JET) in the Mayor's Office. It is designed to strengthen public health and safety, the community, and economic outcomes through removal and remediation of the City's blighted properties that pose the

Project Description	<p>highest public health and safety risks to the surrounding area. The presence of abandoned structures has been linked with negative physical, mental, and socioeconomic outcomes for individuals, households, and communities. Blight removal and remediation have been shown to improve these outcomes and the built environment, promoting health and safety, environmental health, redevelopment, and economic stability. Detroit has been one of the hardest hit cities during the pandemic, resulting in adverse impacts throughout the City and exacerbating vacancy and blight issues that existed in historically underserved areas.</p> <p>Through demolition, environmental remediation, and site readiness activities, the program intends to strengthen impacted neighborhoods, remove barriers to redevelopment, and promote economic development by remediating/removing abandoned, hazardous, or contaminated sites. Success will be measured by the number of properties assessed/surveyed towards remediation; the number of hazardous/abandoned buildings abated; and the number of hazardous/abandoned buildings demolished.</p> <p>The City has approved the following to date: 1 contract for site identification and scoping assistance, 3 contracts for demolition, including emergency demolition of remnants of the longstanding Packard Automotive Plant (which began on 9/29/22), and 4 contracts for environmental due diligence. Presently, the team is planning to start environmental reviews for subject properties to determine the necessary next steps to remediate each site.</p>
What is the Total expected capital expenditure, including pre-development costs, if applicable	\$76,610,000.00
Type of capital expenditures, based on the following enumerated uses	Rehabilitations, renovation, remediation, cleanup, or conversions
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	1 Imp General Public
Secondary Impacted and/or Disproportionately Impacted populations	15 Dis Imp HHs and populations residing in Qualified Census Tracts
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	The City will contract demolition of blighted, vacant, and hazardous structures to provide public health benefits to the community.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	Blight is a public health issue and removal is reasonable and appropriate to provide for the welfare of the communities.
Does the project prioritize local hires?	Yes
Does the project have a Community Benefit Agreement, with a description of any such agreement?	No

Project Name: Lee Plaza (02.3.030-2.15)

Project Identification Number	860201
Project Expenditure Category	2-Negative Economic Impacts
Project Expenditure Subcategory	2.15-Long-Term Housing Security: Affordable Housing

Status To Completion	Completed less than 50%
Adopted Budget	\$7,000,000.00
Program Income Earned	\$0.00
Program Income Expended	\$0.00
Total Cumulative Obligations	\$500,000.00
Total Cumulative Expenditures	\$500,000.00
Current Period Obligations	\$0.00
Current Period Expenditures	\$0.00
Project Description	<p>The proposed project is a historic rehabilitation of a notable, key vacant building in the NW Goldberg neighborhood. Lee Plaza is considered a key catalyst for the development of adjacent neighborhoods. Redevelopment of Lee Plaza is a high priority for the City because of its history as one of the most iconic buildings in Detroit. Given the level of current and future investment in the area the project is located, particularly with Henry Ford Health System and Motown Museum, an increase in rents and potential displacement of the senior population in the surrounding neighborhoods is expected. Lee Plaza is uniquely positioned to address this change in the market by offering needed senior housing units.</p> <p>The objective of the project is to create affordable housing in targeted areas. Due to COVID-19, availability of affordable housing has become even more important. This project intends to create 117 affordable units in the greater downtown area (Northwest Goldberg) by rehabilitating a blighted and vacant building. A portion of funds will be allocated towards stabilizing and securing the building from further deterioration ahead of project specific construction.</p>
Please identify the dollar amount of the total project spending that is allocated towards evidence-based interventions	\$7,000,000.00
Is a program evaluation of the project being conducted?	No
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	4 Imp HHs that experienced increased food or housing insecurity
Is a program evaluation of the project being conducted?	No
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	The renovations to Lee Plaza will create 117 affordable housing units in support to households in need of more stable living situations in the wake of the effects of COVID-19
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	Housing insecurity increased during the pandemic and the City aims to increase the availability of affordable housing through the renovations of Lee Plaza.

Project Name: Single Family Home Ownership Preservation (12.1.016-2.18)

Project Identification Number	851202
Project Expenditure Category	2-Negative Economic Impacts
Project Expenditure Subcategory	2.18-Housing Support: Other Housing Assistance
Status To Completion	Completed less than 50%

Adopted Budget	\$7,228,855.00
Program Income Earned	\$0.00
Program Income Expended	\$0.00
Total Cumulative Obligations	\$1,190,812.00
Total Cumulative Expenditures	\$329,647.20
Current Period Obligations	\$0.00
Current Period Expenditures	\$112,741.59
Project Description	<p>The Single Family Home Ownership Preservation initiative will serve low-income renters and first-time homebuyers (those earning below 80% of the Area Median Income) in affordable housing developments throughout Detroit by offering an opportunity for these residents to remain in their homes rather than being displaced due to foreclosure, rent increases, or building shutdowns.</p> <p>Detroit is facing the potential loss of thousands of existing affordable housing units due to loss of affordability via increasing market rates, deteriorating physical conditions, and financial distress. The economic impacts of COVID-19 have intensified these distressed conditions and the risks of foreclosure.</p> <p>Over 1,400 of these at-risk units operate as scatter-site, single family rental housing developed through the Low-Income Housing Tax Credit (LIHTC) program. Preservation of these units provides an opportunity to convert low-income renters into first-time homeowners through a specialized lease-to-purchase program that allows homebuyers to remain in their homes while building wealth through equity and disrupting intergenerational poverty.</p> <p>This program for low-income renters is a strong lever for disrupting intergenerational poverty. Stabilizing these residents in their homes is a critical step in supporting them to build economic self-sufficiency.</p>
Please identify the dollar amount of the total project spending that is allocated towards evidence-based interventions	\$7,228,855.00
Is a program evaluation of the project being conducted?	No
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	4 Imp HHs that experienced increased food or housing insecurity
Is a program evaluation of the project being conducted?	No
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	The City will procure Tenant Engagement and Relocation Services to provide relocation assistance including tenant support, moving costs, and temporary rent subsidy as well as multiple predevelopment service providers to prevent housing insecurity.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	Proactive affordable preservation can prevent more significant emergency costs incurred due to displacement. Oversight by the contractors and City will verify requirements and need of participants.

Project Name: Choice Neighborhoods Implementation: Greater Corktown (12.1.017-2.22)

Project Identification Number	851203
Project Expenditure Category	2-Negative Economic Impacts
Project Expenditure Subcategory	2.22-Strong Healthy Communities: Neighborhood Features that Promote Health and Safety
Status To Completion	Completed less than 50%
Adopted Budget	\$1,331,274.00
Program Income Earned	\$0.00
Program Income Expended	\$0.00
Total Cumulative Obligations	\$1,331,274.00
Total Cumulative Expenditures	\$231,470.26
Current Period Obligations	\$0.00
Current Period Expenditures	\$78,280.87
Project Description	<p>The City of Detroit’s Choice Neighborhoods Implementation program is embarking on implementation of a comprehensive neighborhood Transformation Plan for the Greater Corktown neighborhood. The vision driving this plan, designed collaboratively with residents through a previously conducted 18-month planning process, is that the neighborhood remains inclusive for all, with opportunities for housing, employment, amenities, and services for residents of all incomes.</p> <p>In May 2021, the City of Detroit received an award for a highly competitive Choice Neighborhoods Grant from the U.S. Department of Housing and Urban Development (HUD) to support this initiative. The CNI grant provides limited administrative dollars which are not able to support more than 2 full-time positions over the life of the grant. To ensure effective and successful implementation of the grant, the City will supplement the CNI administrative dollars with additional department staffing. Utilizing ARPA funding to add additional staff to support this initiative will help the City achieve the ambitious outcomes set forth in the Transformation Plan, and the initiative will allow the City to serve those low-income residents who have been directly impacted by COVID-19. Following the ARPA project period, the Choice Neighborhoods administrative budget will sustain these positions for the duration of the Transformation Plan implementation.</p>
Please identify the dollar amount of the total project spending that is allocated towards evidence-based interventions	\$0.00
Is a program evaluation of the project being conducted?	No
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	15 Dis Imp HHs and populations residing in Qualified Census Tracts
Is a program evaluation of the project being conducted?	No
Brief description of structure and objectives of assistance program(s), including public health or negative economic	This program will lessen negative economic impacts via improved public spaces, amenities, pedestrian safety, and sustainability through key neighborhood improvement

impact experienced	projects in Clement Kern Gardens through targeted case management and supportive services.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	The project targets negatively impacted residents to provide public health and housing benefits in the wake of the COVID-19 pandemic.

Project Name: Down Payment Assistance (12.03.025-2.18)

Project Identification Number	851205
Project Expenditure Category	2-Negative Economic Impacts
Project Expenditure Subcategory	2.18-Housing Support: Other Housing Assistance
Status To Completion	Completed less than 50%
Adopted Budget	\$8,015,812.00
Program Income Earned	\$0.00
Program Income Expended	\$0.00
Total Cumulative Obligations	\$460,000.00
Total Cumulative Expenditures	\$80,820.22
Current Period Obligations	\$0.00
Current Period Expenditures	\$23,186.13
Project Description	<p>To help Detroit households achieve homeownership, DPA will provide financial assistance toward down payments and closing costs and it will work with housing counseling agencies and credit counseling agencies to provide counseling services.</p> <p>The COVID-19 pandemic has caused a destabilization of the housing situations for Detroiters. While an eviction moratorium has been in place since the first days of the pandemic, households behind on their rental payments have filed over 16,000 applications for rental assistance.</p> <p>There has been a significant decline in homeownership in Detroit, largely due to local challenges related to financing and housing conditions. While acknowledging that homeownership is not always the preference or the best fit for all households, the City seeks to remove barriers to purchasing a home in the City (e.g., insufficient collateral and poor credit histories), particularly for current Detroit residents.</p> <p>As households regain employment and stabilize their housing, achieving homeownership can generate wealth-building opportunities and stabilize neighborhood housing markets citywide; therefore, it is important to address the issue and mitigate the hurdle of intergenerational poverty for future generations. Additionally, investing in Detroit residents' ability to access home ownership helps improve the local housing market by increasing conventional and FHA lending activity in the city. These mortgage originations replace cash real estate transactions that are more often investor purchases.</p>
Please identify the dollar amount of the total project spending that is allocated towards evidence-based interventions	\$0.00

Is a program evaluation of the project being conducted?	No
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	4 Imp HHs that experienced increased food or housing insecurity
Is a program evaluation of the project being conducted?	No
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	The project will help mitigate the financial crisis of Detroiters caused by COVID-19-related hardships and rising unemployment rates as well as provide housing stability and contribute to increasing housing equity within Detroit.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	Down Payment Assistance can prevent housing instability and serve to reduce the negative economic impact COVID-19 had on residents, therefore stabilizing households and improving quality of life.

Project Name: Blight to Beauty (13.1.008-2.23)

Project Identification Number	851302
Project Expenditure Category	2-Negative Economic Impacts
Project Expenditure Subcategory	2.23-Strong Healthy Communities: Demolition and Rehabilitation of Properties
Status To Completion	Completed less than 50%
Adopted Budget	\$14,281,025.00
Program Income Earned	\$0.00
Program Income Expended	\$0.00
Total Cumulative Obligations	\$4,173,185.00
Total Cumulative Expenditures	\$88,928.86
Current Period Obligations	\$3,024,000.00
Current Period Expenditures	\$67,372.35
Project Description	The Blight to Beauty city upkeep program will improve the quality of life for Detroiters by improving the quality of Detroit's open spaces. This initiative will support a one-time wholesale removal of dangerous and nuisance trees and implement a high standard of maintenance for public spaces. The project will help to maintain Detroit's primary corridors where citizens travel, shop, and operate businesses, improving the quality-of-life for our residents. The scope of this project is includes both the cleaning and maintenance of the city's 14 major corridors, and the removal of over 1,200 dead, dangerous, and nuisance trees. This investment in Detroit's neighborhoods will impact the entire city, improving the social determinants of health for Detroiters by removing blight and supporting the work of Skills for Life blight removal teams across the city.
What is the Total expected capital expenditure, including pre-development costs, if applicable	\$8,000,000.00
Type of capital expenditures, based on the following enumerated uses	Rehabilitations, renovation, remediation, cleanup, or conversions
Please identify the dollar amount of the total project spending that is allocated towards evidence-based interventions	\$0.00

Is a program evaluation of the project being conducted?	No
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	15 Dis Imp HHs and populations residing in Qualified Census Tracts
Is a program evaluation of the project being conducted?	No
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	The City will contract tree removal and large debris removal to provide public health benefits from removal of the blight.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	Blight is a public health issue and removal is reasonable and appropriate to provide for the welfare of the communities.
Number of households served (by program if recipient establishes multiple separate household assistance programs)	0

Project Name: Neighborhood Opportunity Fund (05.3.020-2.34)

Project Identification Number	850601
Project Expenditure Category	2-Negative Economic Impacts
Project Expenditure Subcategory	2.34-Assistance to Impacted Nonprofit Organizations (Impacted or Disproportionately Impacted)
Status To Completion	Completed less than 50%
Adopted Budget	\$3,500,000.00
Program Income Earned	\$0.00
Program Income Expended	\$0.00
Total Cumulative Obligations	\$514,359.00
Total Cumulative Expenditures	\$170,976.38
Current Period Obligations	\$380,269.98
Current Period Expenditures	\$36,887.36
Project Description	<p>The ARPA Neighborhood Opportunity Fund (NOF) will support non-profits who have or who are presumed to have experienced a negative economic impact as a result of COVID-19. The program will increase access to funding for non-profits typically excluded from federal funding streams or that have limited financial maturity; increase non-profit grant funding application literacy and fiscal capacity; and sustain non-profit support to low-income residents across critical priority areas. Grant support to address budget gaps experienced in the wake of COVID-19 will aid in regenerating Detroit's non-profit sector and will support the City in sustaining its service provision to low-income residents to make programs available and deliverable. Improving grant funding literacy for non-profits who struggle to secure funds for annual expenses through federal funding sources will be achieved by delivering technical assistance. Developing an application and scoring method that accommodates a wider variety of non-profits will allow for more services to be maintained and will introduce federal funding sources as a more viable funding source in future grant application efforts. Aiding non-profits who can address priority areas such</p>

	as education, health public safety, recreation, and senior assistance will help mitigate long-term impacts associated with poor accessibility to quality-of-life support as well.
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	10 Imp NPs that experienced a negative economic impact specify
Secondary Impacted and/or Disproportionately Impacted populations	25 Dis Imp NPs operating in Qualified Census Tracts
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	The NOF grantees will be considered ARPA beneficiaries, but the agreements will include provisions for technical assistance and non-financial monitoring, in order to provide recovery assistance from the COVID-19 pandemic.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	The NOF grantees will provide proposals requesting grant funding including purpose of funding and impacts from the COVID-19 pandemic for review by an evaluation committee.
Number of Non-Profits served (by program if recipient establishes multiple separate non-profit assistance programs)	41

Project Name: Public Facility Accessibility Program (05.01.019-2.34)

Project Identification Number	850501
Project Expenditure Category	2-Negative Economic Impacts
Project Expenditure Subcategory	2.34-Assistance to Impacted Nonprofit Organizations (Impacted or Disproportionately Impacted)
Status To Completion	Completed less than 50%
Adopted Budget	\$3,700,000.00
Program Income Earned	\$0.00
Program Income Expended	\$0.00
Total Cumulative Obligations	\$1,381,884.00
Total Cumulative Expenditures	\$83,470.22
Current Period Obligations	\$0.00
Current Period Expenditures	\$48,690.95
Project Description	<p>The Public Facilities Accessibility Program is proposed to benefit Detroit's non-profit organizations who serve low- to moderate-income residents by giving grants to organizations to help make Americans with Disabilities Act (ADA) accessibility improvements to their facilities. Accessible facilities are needed by a significant portion of Detroit residents. This includes elderly as well as non-elderly Detroiters with disabilities. The 2015–2019 American Community Survey identified that, approximately 15 percent of Detroit residents under the age of 65 have a disability; for residents over 65, the percentage with a disability is approximately 46%.</p> <p>In addition to providing grants to organizations for ADA accessibility, a Master Rehabilitation Plan (MRP) will be completed for each selected organization to assess the overall condition of their facility and prioritize improvements that need to be made for the facility to provide better and safer access to those that need it. The MRPs will help guide the organizations selected on the</p>

	capital improvements that need to be completed over the next 5 years.
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	25 Dis Imp NPs operating in Qualified Census Tracts
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	The City will work non-profits to provide for ADA accessibility and master rehabilitation plans. COVID-19 has impeded many organizations to move forward with capital improvements that were previously planned.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	The non-profit grantees will provide proposals requesting grant funding including cost for review by an evaluation committee.
Number of Non-Profits served (by program if recipient establishes multiple separate non-profit assistance programs)	0

Project Name: Park Plans (08.3.097-2.22)

Project Expenditure Category	2-Negative Economic Impacts
Project Expenditure Subcategory	2.22-Strong Healthy Communities: Neighborhood Features that Promote Health and Safety
Status To Completion	Completed less than 50%
Adopted Budget	\$5,925,000.00
Program Income Earned	\$0.00
Program Income Expended	\$0.00
Total Cumulative Obligations	\$523,183.78
Total Cumulative Expenditures	\$23,183.78
Current Period Obligations	\$510,782.50
Current Period Expenditures	\$10,782.50
Project Description	<p>Given the goals and timeline of the American Rescue Plan Act, Parks and Recreation chose six park improvement projects that were both "shovel ready" and poised to help reverse long-standing impacts of neighborhood disinvestment. Investments in these parks is part of a comprehensive effort to restore neighborhoods and promote beauty, vitality, safety, and resilience for all Detroiters. The investment in these parks is implementing the vision set forth in the City's Parks and Recreation Improvement Plan as well as the respective Strategic Neighborhood Fund Framework Plans. Therefore, careful consideration was given to each site to ensure that improvements were being provided in a socially equitable manner. In communities across the City of Detroit, parks and open space have seen dramatic increases in use in 2020 and 2021, as people sought refuge and respite from the COVID-19 pandemic, with opportunities to safely enjoy parks while maintaining social distance. Sunlight, fresh air, exercise, and access to green spaces all have a positive effect on our physical health and emotional well-being. These improvements will promote healthier living environments and outdoor recreation and socialization to mitigate the spread of COVID-19 in communities that have been disproportionately impacted by COVID-19. The scope of this project includes improvements</p>

	to a total of six parks and to add a temporary staff member, Park Planner (TASS II). The six parks include AB Ford Park, Balduck Park, Greenview Wadsworth Park, John R Watson Park, Rogell Park, and Tireman-Minock Park. The proposed park improvements fall into the following categories: Site preparation and Infrastructure, Landscaping and Vegetation, and Connectivity/ Pathways Amenities.
What is the Total expected capital expenditure, including pre-development costs, if applicable	\$5,878,000.00
Type of capital expenditures, based on the following enumerated uses	Parks, green spaces, recreational facilities, sidewalks
Please identify the dollar amount of the total project spending that is allocated towards evidence-based interventions	\$5,925,000.00
Is a program evaluation of the project being conducted?	No
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	15 Dis Imp HHs and populations residing in Qualified Census Tracts
Is a program evaluation of the project being conducted?	No
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	The City will contract these improvements which will promote healthier living environments and outdoor recreation and socialization to mitigate the spread of COVID-19 in communities that have been disproportionately impacted by COVID-19.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	The City plans to increase the equitable access to green spaces which along with sunlight, fresh air, and exercise all have a positive effect on our physical health and emotional well-being.
Number of households served (by program if recipient establishes multiple separate household assistance programs)	0

Project Name: Skills for Life (Work) (09.1.001-2.10)

Project Identification Number	850901
Project Expenditure Category	2-Negative Economic Impacts
Project Expenditure Subcategory	2.10-Assistance to Unemployed or Underemployed Workers (e.g. job training, subsidized employment, employment supports or incentives)
Status To Completion	Completed less than 50%
Adopted Budget	\$58,968,045.00
Program Income Earned	\$0.00
Program Income Expended	\$0.00
Total Cumulative Obligations	\$26,568,284.28
Total Cumulative Expenditures	\$4,239,119.48
Current Period Obligations	(\$18,038.72)
Current Period Expenditures	\$1,952,519.81
	Detroiters continue to face economic hardships exacerbated by the COVID-19 pandemic, including lack of job openings that align with worker experience/interest, lack of affordable provisions for childcare/supervision such that residents had

Project Description	to opt out of the workforce to care for dependents, low wage rates for available jobs that could not compete with unemployment benefit provisions, and workplace safety and job quality concerns. Skills for Life – Work functions (conjointly with Skills for Life – Education) as a training and career readiness program led by the City’s General Services Department (GSD). It supports unemployed or underemployed Detroit residents, such as returning citizens, those experiencing housing insecurity, those lacking high school diplomas and/or post-secondary credentials, and other populations that face barriers to employment. ARPA funding has the flexibility to support a broad range of services to individuals who suffered negative economic impacts of the pandemic, including the unemployed or underemployed and/or those suffering negative economic impacts to their occupation or level of training. To help Detroiters rebound, the employment focused or, “work” side of the program continues to provide direct employment, job training, and other skill- and career-building activities, assist in removing barriers to employment and advancement, and offer disconnected workers labor market on-ramps so they may earn income while building critical skills to improve long-term employment and job retention prospects.
What is the Total expected capital expenditure, including pre-development costs, if applicable	\$6,000,000.00
Type of capital expenditures, based on the following enumerated uses	Job and workforce training centers
Please identify the dollar amount of the total project spending that is allocated towards evidence-based interventions	\$0.00
Is a program evaluation of the project being conducted?	Yes
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	3 Imp HHs that experienced unemployment
Secondary Impacted and/or Disproportionately Impacted populations	15 Dis Imp HHs and populations residing in Qualified Census Tracts
Is a program evaluation of the project being conducted?	Yes
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	This program will lessen negative economic impacts to participants via direct employment, job training, and other skill-/career-building activities & offer opportunities to earn income while skill-building, improving employment & retention prospects.
Brief description of recipient’s approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	Career readiness training & consulting, referral & retention support. Reduce City blight via job provision: Maintain parks; paint/beautify properties; increase trash pick-up. Continuous improvement via participant & provider feedback/adjustments.

Project Name: Skills for Life (Education) (09.1.001-2.10)

Project Identification Number	850902
Project Expenditure Category	2-Negative Economic Impacts
Project Expenditure Subcategory	2.10-Assistance to Unemployed or Underemployed Workers (e.g. job training, subsidized employment, employment supports or incentives)

Status To Completion	Completed less than 50%
Adopted Budget	\$16,000,000.00
Program Income Earned	\$0.00
Program Income Expended	\$0.00
Total Cumulative Obligations	\$16,000,000.00
Total Cumulative Expenditures	\$1,500,000.00
Current Period Obligations	\$0.00
Current Period Expenditures	\$0.00
Project Description	Skills for Life is a training, career readiness, and education program that is a collaboration between Detroit at Work (DAW) and the City's General Services Department (GSD). It supports unemployed or underemployed Detroit residents, specifically returning citizens, those experiencing housing insecurity, those lacking high school diplomas and/or post-secondary credentials, and other populations that face barriers to employment. Detroit's residents continue to face economic hardships exacerbated by the COVID-19 pandemic. Challenges initiated or compounded by the pandemic include lack of job openings that align with worker experience and interest, lack of affordable provisions for childcare/supervision such that residents had to opt out of the workforce to care for dependents, low wage rates for available jobs that could not compete with unemployment insurance benefits provisions, and workplace safety and job quality concerns. Specifically, Skills for Life - Education combines education and training with wrap-around support services (e.g., childcare subsidies, transportation, housing referrals), provisioning access to educational and career tools that will help Detroiters rebound from the COVID-19 economic shutdown and thwart intergenerational poverty long term. The "education" side of the program continues to assist participants with measurable skills gains, high school completion/GED attainment, occupational training programs, obtaining an industry-recognized credential, achieving an increase in functional reading or math competency levels, and other skill- and career-building activities.
Please identify the dollar amount of the total project spending that is allocated towards evidence-based interventions	\$0.00
Is a program evaluation of the project being conducted?	Yes
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	3 Imp HHs that experienced unemployment
Secondary Impacted and/or Disproportionately Impacted populations	15 Dis Imp HHs and populations residing in Qualified Census Tracts
Is a program evaluation of the project being conducted?	Yes
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	This program will lessen negative economic impacts to participants via education/training, including measurable skills gains, high school diploma/GED, industry-recognized credential, functional grade-level gain, and via wrap-around services support.
	Career readiness; coaching; high school diploma/GED prep;

Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	literacy; occupational skills & industry-recognized credential training; pre-/post-test/surveys; & wrap-around services. Continuous improvement: Participant & provider feedback/adjustments.

Project Name: Housing Resource Navigation (11.1.005-2.18)

Project Identification Number	851101
Project Expenditure Category	2-Negative Economic Impacts
Project Expenditure Subcategory	2.18-Housing Support: Other Housing Assistance
Status To Completion	Completed less than 50%
Adopted Budget	\$6,475,000.00
Program Income Earned	\$0.00
Program Income Expended	\$0.00
Total Cumulative Obligations	\$3,327,000.00
Total Cumulative Expenditures	\$625,698.75
Current Period Obligations	\$1,000,000.00
Current Period Expenditures	\$285,698.75
Project Description	Housing Resource Navigation contains two components: the first is the development of an affordable housing website that will help connect residents to up-to-date information on available affordable housing in the city, as well as educate them about their eligibility for regulated affordable housing (\$1,625,000 in funding). The second component will be the creation of an interconnected network of housing counseling and housing service with the goal of increasing access to existing programs and services and increasing housing stability in response to the destabilizing effects of COVID-19 (\$4,850,000 in funding). The investments in Housing Resource Navigation are a response to the housing instability caused by the COVID-19 pandemic and its economic effects. Income disruption has prevented residents from staying current on rent and utility payments, resulting in widespread housing instability. While there have been multiple assistance programs and moratoria in place to mitigate these housing challenges, these programs can be difficult to understand and navigate. The primary focus of the Housing Resource Navigation project will be providing housing assistance to disproportionately impacted communities. In the future, the affordable housing website will also streamline the application process for affordable housing to make the process more cost-efficient for residents and provide access to current information on housing resources.
Please identify the dollar amount of the total project spending that is allocated towards evidence-based interventions	\$6,475,000.00
Is a program evaluation of the project being conducted?	No
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	4 Imp HHs that experienced increased food or housing insecurity
Is a program evaluation of the project being conducted?	No

Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	Housing Resource Navigation will provide housing assistance through technology and counseling to disproportionately impacted communities to increase housing stability.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	The project targets disproportionately impacted residents to provide information on available affordable housing units via a website and a network of housing counseling and housing services to increase access to existing programs/services.

Project Name: Community Health Corps (06b.1.032-2.19)

Project Identification Number	850006
Project Expenditure Category	2-Negative Economic Impacts
Project Expenditure Subcategory	2.19-Social Determinants of Health: Community Health Workers or Benefits Navigators
Status To Completion	Completed less than 50%
Adopted Budget	\$15,000,000.00
Program Income Earned	\$0.00
Program Income Expended	\$0.00
Total Cumulative Obligations	\$15,000,000.00
Total Cumulative Expenditures	\$810,812.00
Current Period Obligations	\$0.00
Current Period Expenditures	\$0.00
Project Description	<p>The Community Health Corps (CHC) project helps Detroit residents living significantly below the federal poverty line whose basic needs were further exacerbated by the COVID-19 pandemic. The project helps to address gaps in access to transportation, housing, and basic resources that have been widened during the pandemic. The CHC is a high-touch customer service-driven, social service advocacy agency created to bridge the program silos, increase accessibility, and fill knowledge gaps contributing to disproportionate COVID-19 outcomes in Detroit. ARPA funding is used to expand and provide wraparound service assistance to a number of targeted groups. CHC Case Managers and Community Health Workers visit with clients and their families weekly to help resolve any immediate needs observed, emergency needs expressed, and household needs uncovered. CHC operates using a holistic wraparound service model, which includes collecting documentation, completing applications, tracking the status of each referral, and staying with the resident/family throughout the process to ensure that households get the help they need to meet their self-sufficiency goals. CHC aims to alleviate the poor health risk factors tied to poverty by providing a restorative and facilitated approach to outreach and service provision by expanding targeted door-to-door outreach, program intake, household needs assessment, and resource delivery to provide access to the most isolated and at-need residents. In addition to granular internal data being tracked on an individual client basis, the University of Michigan Poverty Solutions will also conduct the program evaluation in three</p>

	phases, providing crucial data on resident progression, stability, and self-reported success measures.
Please identify the dollar amount of the total project spending that is allocated towards evidence-based interventions	\$0.00
Is a program evaluation of the project being conducted?	Yes
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	4 Imp HHs that experienced increased food or housing insecurity
Is a program evaluation of the project being conducted?	Yes
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	The CHC uses a subrecipient to provide case management services including food, housing and utility assistance, senior support, and legal service to disproportionately impacted individuals whose situations were further exacerbated by COVID-19.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	The CHC targets households who have experienced food, housing, and job instabilities and negative health impacts due to COVID-19 and provides targeted assistance in those specific areas based on the clients needs.

Project Name: Program-wide Administrative Services

Project Identification Number	850001
Project Expenditure Category	7-Administrative
Project Expenditure Subcategory	7.1-Administrative Expenses
Status To Completion	Completed less than 50%
Adopted Budget	\$48,550,564.00
Program Income Earned	\$0.00
Program Income Expended	\$0.00
Total Cumulative Obligations	\$40,535,229.00
Total Cumulative Expenditures	\$12,061,501.86
Current Period Obligations	(\$8,015,335.00)
Current Period Expenditures	\$3,774,563.94
Project Description	<p>Administrative costs associated with overseeing ARPA Program. This includes planning, program design, delivery, and oversight of the projects. It also includes procurement, financial services, and technical consulting services to support ARPA programmatic and fiscal compliance. In addition to obligations, salary/fringe, and other direct expenses, the City is applying a percentage cost allocation for general administrative costs necessary to deliver the ARPA-funded projects.</p> <p>Program-wide Administrative Services costs also includes JET Project Oversight 1 and 2 positions, DoIT ARPA Digital Equity Manager and DoIT ARPA Project Oversight.</p>

Project Name: Property Tax Foreclosure Prevention (12.1.024-2.2)

Project Identification Number	851204

Project Expenditure Category	2-Negative Economic Impacts
Project Expenditure Subcategory	2.2-Household Assistance: Rent, Mortgage, and Utility Aid
Status To Completion	Completed less than 50%
Adopted Budget	\$2,700,000.00
Program Income Earned	\$0.00
Program Income Expended	\$0.00
Total Cumulative Obligations	\$1,128,302.80
Total Cumulative Expenditures	\$92,499.79
Current Period Obligations	\$3,228.99
Current Period Expenditures	\$37,479.54
Project Description	<p>The Property Tax Foreclosure Prevention and Outreach project seeks to reduce the number of residential properties in property tax delinquency or foreclosure through a coordinated City-led canvassing effort, paid media campaign, and additional financial support for the Make It Home program.</p> <p>In the beginning of 2021, more than 35,000 properties in the City of Detroit were at risk of property tax foreclosure, at which point Wayne County instituted a moratorium on occupied foreclosure in 2021, providing much-needed relief to owners facing financial hardship during the pandemic.</p> <p>The project will help mitigate the financial crisis that Detroiters have been propelled into because of COVID-19-related hardships and rising unemployment rates. Foreclosure prevention efforts will not only stabilize individual households, but also improve the quality of lives and stabilize housing throughout Detroit neighborhoods.</p> <p>For Homeowners, door-to-door targeted outreach will increase awareness of property tax assistance programs such as the Homeowners Property Tax Assistance Program, the Disabled Veterans Exemption, the Pay as You Stay plan for HPTAP approved homeowners, and the Detroit Tax Relief Fund. For renters, door-to-door outreach will allow renters to be vetted for the Make it Home program.</p>
Please identify the dollar amount of the total project spending that is allocated towards evidence-based interventions	\$2,700,000.00
Is a program evaluation of the project being conducted?	No

Project Identification Number	870201
Project Expenditure Category	7-Administrative
Project Expenditure Subcategory	7.1-Administrative Expenses
Status To Completion	Completed less than 50%
Adopted Budget	\$74,400.00
Program Income Earned	\$0.00
Program Income Expended	\$0.00
Total Cumulative Obligations	\$74,400.00
Total Cumulative Expenditures	\$34,898.00
Current Period Obligations	\$0.00
Current Period Expenditures	\$0.00
Project Description	<p>The Information Technology Consulting Services project will create a roadmap for a flexible and capable IT system for the City, allowing it to better manage and use its data across City departments.</p> <p>Detroit's existing information technology (IT) systems limit the City's capacity to perform the analyses and functions required for the volume and complexity of data that it must handle. However, the City of Detroit's Department of Innovation and Technology's capacity to conduct this analysis and manage the implementation of software solutions is limited.</p> <p>The project will benefit the City by enabling an external consultant to support the City's efforts in analyzing the existing technology and software needs across City departments and identifying cross-departmental software solutions.</p> <p>The external consultant is working on a Communication and Engagement Plan that will outline how departmental stakeholders and subject matter experts will be engaged and communicated with during the information gathering stages and during the creation of the analysis and statement of work.</p>

Description	Park Plans: Parks and Recreation chose six park improvement projects to help reverse long-standing impacts of neighborhood disinvestment. Investments in these parks is part of a comprehensive effort to restore neighborhoods and promote beauty, vitality, safety, and resilience for all Detroiters. In communities across the City of Detroit, parks and open space have seen dramatic increases in use in 2020 and 2021, as people sought refuge and respite from the COVID-19 pandemic, with opportunities to safely enjoy parks while maintaining social distance. Sunlight, fresh air, exercise, and access to green spaces all have a positive effect on our physical health and emotional well-being.
