Response Activity or Continuing Obligation	Required Activities	Party Responsible for Completing Activity	Timing of Activity	Required Follow-up or Reporting
<b>ResAP – Remedial Action</b>	<p>A. Excavate “facility” portion of the subject property with contaminated soils.</p> <p>B. Collect verification of soil remediation (VSR) samples to document removal of contaminated soils below criteria.</p>	General Contractor, Consultant Oversight	During Construction	No Further Action report preparation for the “facility” portion of the subject property and submitted for EGLE review following completion of the remedial excavations
<b>Section 106 – Unanticipated Discoveries Plan</b>	Once construction has started, if the scope of work changes in any way, SHPO will be notified immediately. Also, in the unlikely event that human remains, or archaeological material are encountered during construction activities related to the above-cited undertaking, work must be halted, and the Michigan SHPO and other appropriate authorities will be contacted immediately.	Construction Crew, Foremen, Developer	During Construction	Unanticipated Discoveries Plan with SHPO approval
<b>Noise Analysis – Unacceptable Noise</b>	Appropriate construction materials will be incorporated in the building to mitigate noise levels within the acceptable range. Materials to be utilized include two inch by two inch and two inch by four inch wood studs, five and one-half inch glass fiber insulation, five-eighths inch fire-shield gypsum board, four inch face brick, and vinyl windows with aluminum storefronts and curtain walls.
