PROJECT TIMELINE:

GREATER WARREN/CONNER NEIGHBORHOOD FRAMEWORK PLAN

LET'S CREATE SOMETHING BEAUTIFUL

The Greater Warren/Conner framework is a plan of action, co-crafted by residents and the city to guide future growth and investment throughout the neighborhoods.

The goal is to codify a framework for the planning area that expresses the priorities and desires of the community.

WHAT IMPROVEMENTS DO YOU WANT TO SEE IN YOUR NEIGHBORHOOD?

1. Land-based business

A black car is parked on a grassy area. The car is decorated with colorful murals of bees and flowers. Behind the car is a black wall with a pattern of yellow hexagons and flowers. To the left of the car is a small blue mailbox with a bee on it. The background shows trees and a clear blue sky.

2. Community-led sustainability initiatives

A group of approximately 15 people, including men and women of various ages, are engaged in a community-led sustainability initiative. They are working on a large garden bed in the foreground, which is filled with green plants, including ferns and yellow flowers. The garden bed is situated in front of a large, multi-story brick building with many windows. Some people are standing and talking, while others are actively working on the plants. A red vintage car and a bicycle are parked near the building. The scene is set outdoors on a sunny day, with a clear blue sky and a few trees in the background.

3. Iconic architecture
