RE: Request for a Report on Community Benefits of Anchor Hospitals in Other Cities

Council member Coleman A. Young II requested that the Planning Department and the Legislative Policy Division (LPD), provide a report to Council on the extent to which major hospitals in other cities, such as the Cleveland Clinic and the Mayo Clinic are providing community benefits in their respective communities as compared to Henry Ford Hospital.

This report is our response to this inquiry. The methodology we utilized to compile this report was to obtain the most recent available financial reports for the three entities, Henry Ford Hospital, the Cleveland clinic and the Mayo Clinic. Upon reviewing the data in the materials we collected the following information:

Entity	Annual Community Benefit	Beds <sup>1</sup>	Comments
Henry Ford Hospital	\$640.63 Million <sup>2</sup>	2,404	Licensed beds (including skilled nursing facility beds)
Cleveland Clinic	\$1.41 Billion <sup>3</sup>	5,512	Approximately 5,500 staffed beds
Mayo Clinic	\$87 Million <sup>4</sup>	794	Mayo Clinic Hospital in Rochester, Minnesota has 794 Licensed beds <sup>5</sup>

Please contact us if we can be of any further assistance.

<sup>1</sup> The value of community benefits and the numbers of beds are system wide and were listed online.
