

# DISTRICT I MONTHLY MIETING

TOPICS OF DISCUSSION

A DOUBLE DOSE YOUTH SPOTLIGHT

HOW FIBROIDS AFFECT WOMEN OF COLOR

DRIVING INTO THE FUTURE WITH AV CARS

GOOD MORNING DI!
THANK YOU FOR JOINING US
TODAY. WE'LL BE GETTING
STARTED SHORTLY.

THIS WOULD BE A GOOD TIME
TO SIGN IN, ENJOY JUICE OR
COFFEE AND LET'S GET
READY FOR A GREAT
MEETING.

**ZOOM WEBINAR ID** 814 6747 6342

### GOD LAND UNITY CHURCH

**Dorthy Thomas - President of the Board of Directors** 

**COUNCILMAN TATE** 

# PRUTECT

(AND ALL THE WAY DOWN)

### POUTH SPOTLIGHT DOMINIC & CODY CONER

### How Fibroids Affect Women of Color

Ganesa Wegienka, PhD

Michele Thomas, M.D.

featuring **Tracy Armstrong** Fibroid Foundation Detroit Chapter Ambassador

# Uterine Fibroids: an Overview

Ganesa Wegienka, PhD\*
Henry Ford Health
\*I am not a medical doctor.

Some slides provided by University of Michigan's Dr. Erica Marsh.

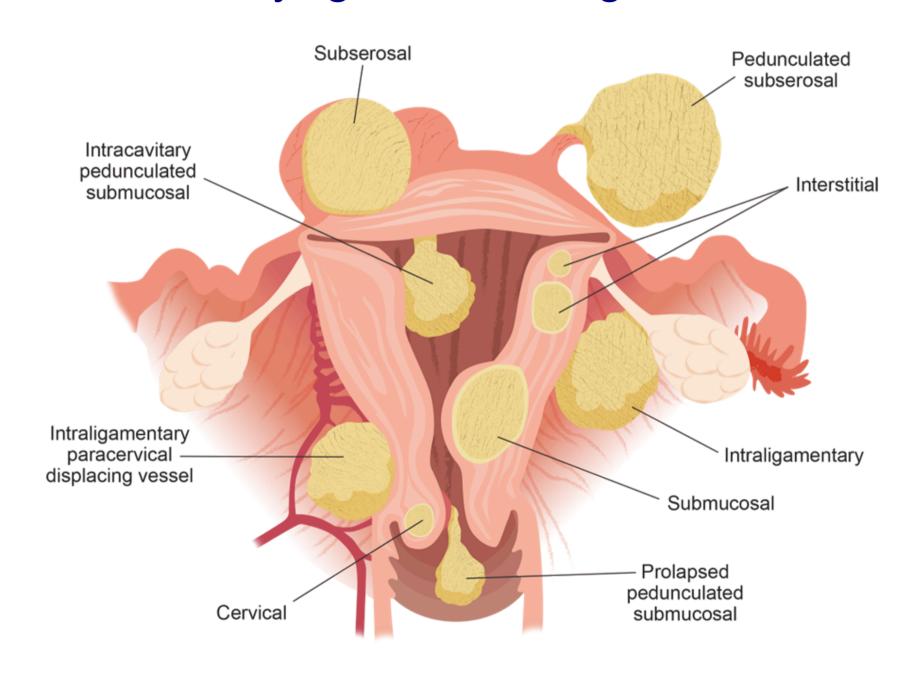

### **Talk Overview**

- Introduce uterine fibroids
- Fibroid Treatments
- Racial disparities
- What researchers are trying to do

#### **Uterine Fibroids**

- Common non-cancerous tumors
- We do not know how to prevent them
- Cause many health and quality of life problems
- Physicians will use imaging (ultrasound/MRI) to diagnose them
- Half of women with fibroids do not have a diagnosis

- Uterine fibroids have a rubbery, super-ball feeling
- There can be multiple fibroids in a single uterus
- Sometimes sized by "gestational age"

### **Uterine Fibroid Symptoms**

- Heavy bleeding, pelvic pain, infertility
  - Bleeding can lead to anemia which could require supplements, medications and/or blood transfusions
- They can have no symptoms
- Leading cause of hysterectomy

### **Uterine Fibroid - Bleeding**

- Gushing type bleeding
- Can be too much for pads & tampons
- Can lead to anemia
  - Can be checked with a routine blood test (hemoglobin)
- Heavy bleeding is not "normal" talk to your doctor

### **Uterine Fibroids - Risk Factors**

- Black/African American
- Premenopausal (still having menstrual periods)
- No prior live births
- \Bigsup Tobacco Cigarette Smoker

### Treatments for Fibroid Symptoms

- Depo Provera injectable
- Oral contraceptive pills
- Hormone releasing intrauterine devices (IUD - Placed by the doctor)

### **Uterine Fibroids - Treatments**

- Uterine artery embolization interventional radiologist
- GnRH agonists/antagonists gynecologists/family/internal medicine
- Hysterectomy gynecologist
- Myomectomy gynecologist

### **GnRH Agonists/Antagonists**

- Medications to shrink fibroids
- Fibroids usually come back or regrow once you stop the medication
- The medications have side effects
  - May need to limit how long these medications are used

### Hysterectomy

- Removal of the uterus (womb)
  - Partial (leave your cervix)
  - Total (takes your cervix)
- Does not mean ovaries or tubes are removed
  - Oophorectomy (ovary removal)
  - Salpingectomy (one or both tubes)
- Ends fertility/childbearing
- Open surgical incision or keyhole (laparoscopic incision)

### Myomectomy

- Removal of the fibroids
- Open surgical incision or keyhole (laparoscopic incision)
- May or may not affect fertility (ability to become pregnant and safely deliver the child)

### Robotic/Laparoscopic

- Laparoscopic surgeries involve the keyhole incisions
- Sometimes the surgeon uses a robot to assist them in performing laparoscopic surgery
- Sometimes the surgeon does NOT use a robot to assist them

### Laparoscopic Surgery

- Less blood loss during surgery
- Tend to have quicker recovery time
- Not all patients are eligible for laparoscopic surgery
  - Less common with a large uterus

# Racial Disparities Compared with White women, Black women ...

- Have more and larger fibroids
- Develop fibroids at younger ages
- Have a bigger uterus and worse symptoms at time of treatment
- Have a preference for uterine-sparing treatments
- Tend to be less satisfied with fibroid treatments treatment option

### Impacts of Racial Disparities

- Develop fibroids at younger ages
  - This means that Black women tend to be younger when they must make decisions about fibroid treatments.
    - What if they want to keep their uterus and/or maintain their ability to have a child?

## Impacts of Racial Disparities

- Have more and larger fibroids
- Have a bigger uterus at time of treatment
  - Black women may benefit less often from
    - Laparoscopic surgical approaches
    - Uterine sparing treatments

### Racial Disparities

- We don't understand the sources of these disparities
- We as researchers are working hard to understand the sources of racial disparities
- treatment option

STUDY OF ENVIRONMENT, LIFESTYLE & FIBROIDS

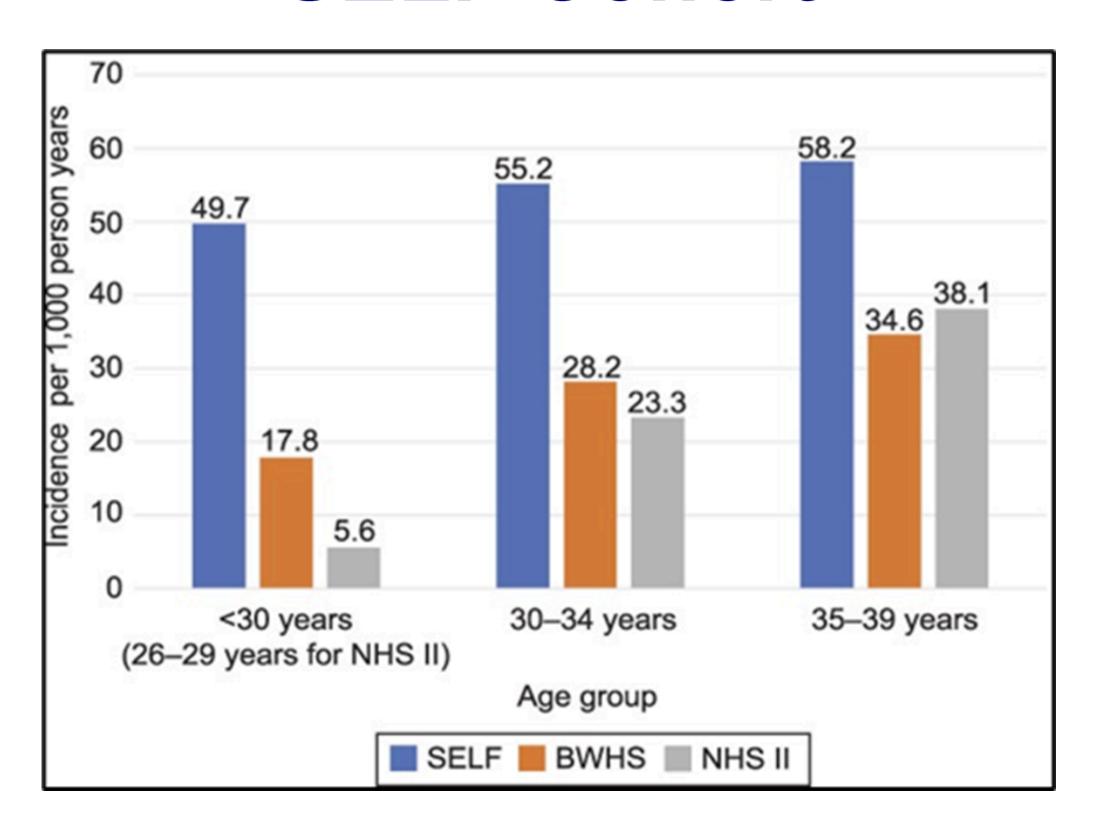

### SELF

- Started in 2010
- Recruited >1600 Black/African American women from the Detroit area (the only location in the country!)
- Participants had several ultrasounds over time
- They provided blood samples and completed questionnaires about themselves

#### **SELF - Results**

- ↓ Smoking
- ↓ Vitamin D levels in Blood
- † Environmental toxicants
- Documenting the "natural history"

### Age at 1<sup>st</sup> Fibroid in the SELF Cohort

### SELF

- Why haven't we made more progress?
- What have we failed to consider?

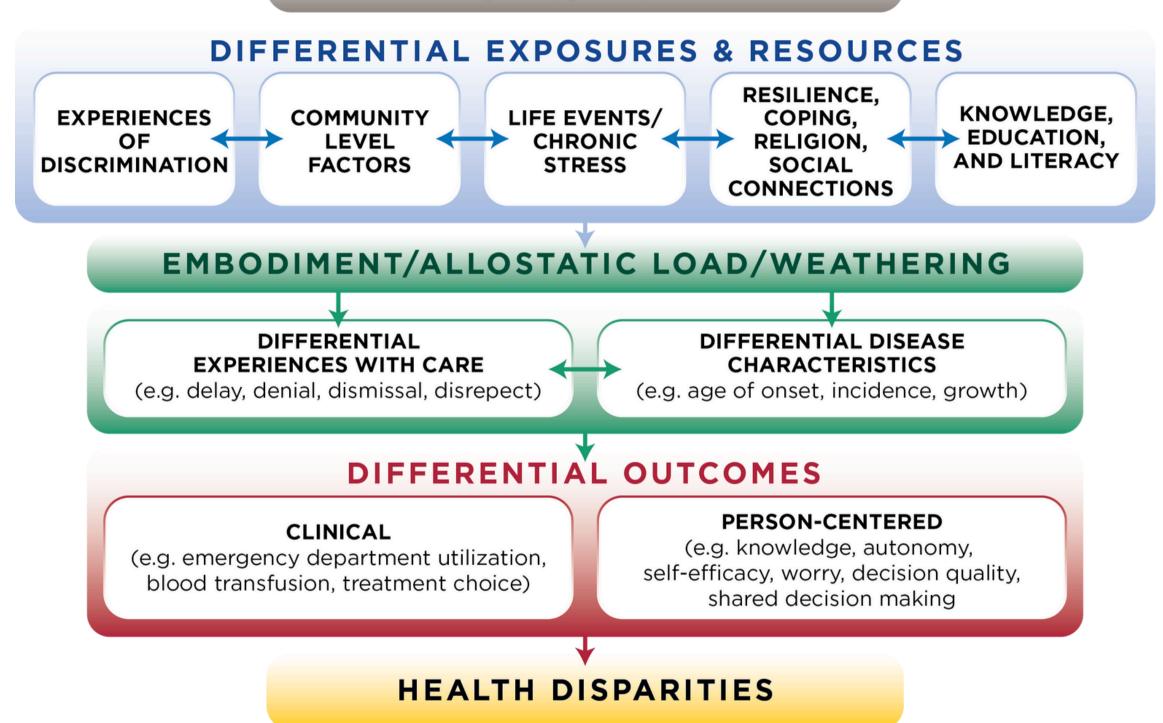

The Socio-Cultural Model of Fibroid Disease and Experience

### SOCIO-CULTURAL MODEL OF FIBROID DISEASE AND EXPERIENCE

(RACISM, SEXISM, CLASSISM, ETC.)

#### SOCIAL IDENTITIES

(e.g. race, gender, class)

# Understanding Uterine Fibroids in Black Women

Michele Thomas, M.D.

### Final tips & takeaways

Talk to Family members to learn more about family history/experiences

- Have a YEARLY well woman exam
- Follow up with your doctor if you have the symptoms discussed (heavy bleeding, severe pain, anemia,etc)
- Monitor Diet, Exercise & Lifestyle Factors

# Driving Detroit Into The Future with AV Cars & May Mobility

### **Konnor Petz**

Senior Mobility Strategist

Mayor's Office of Mobility Innovation City of Detroit

#### **Detroit ADS Grant Program Overview**

**Overview**: In 2019, The City of Detroit won a US Department of Transportation grant to demonstrate a safe and equitable Automated Driving System (ADS) by deploying a self-driving shuttle service to serve older adults and people with disabilities through collaboration with the community and leading mobility entities

#### **Problem Statement**

Older adults and people with disabilities in Detroit lack adequate access to transportation solutions necessary to live a full and healthy life

#### **Our Solution**

- 1. **Understand unique needs** of Detroit's older adults and people with disabilities
- 2. Acquire and extensively test an accessible ADS fleet
- 3. **Deploy a pilot program** in Detroit neighborhoods

\*Based on current understanding; subject to change

YEAR 1: 2022 YEAR 2: 2023 YEAR 3: 2024 YEAR 4: 2025

Community Research & Engagement

Select shuttle provider; determine route

Safety Testing at University of Michigan's Mcity and the American Center for Mobility

Detroit Testing **Detroit Pilot Demonstration** 

Deployment data collection and analysis

## Program Aspiration

To increase safety, trust, and equity in the transportation system through developing a scalable approach to ADS deployments worldwide, starting in Detroit, MI.

## Program Objectives

#### **SAFETY**

Increase safety of urban transportation

#### DATA

Make ADS data more accessible and usable

#### COLLABORATION

Increase collaboration among all stakeholders, including residents

#### **MOBILITY EQUITY**

Increase the mobility of older adults and people with disabilities in focus neighborhood(s) of Detroit

"Life just isn't the same since I gave up my car."

#### **About Sharon**

Sharon is a grandmother of twelve residing in NW Detroit. She loves her neighborhood and is a regular at the NW Activities Center. However, as Sharon has gotten older, it has become more difficult for her to get to doctor appointments, the store, and family gatherings.

AGE 72
OCCUPATION Retired
HEALTH High Blood Pressure
LOCATION Bagley, Detroit
INCOME \$29K/YEAR

#### **Sharon's Challenges**

Lack of easy-to-use transportation has limited Sharon's ability to live a full, healthy life

- Sharon **does not own a car** due to the high cost of ownership as well as her older age
- Sharon relies on the bus to get around. However, **restrictions exist** such as:
  - Limited ability to carry groceries
  - Challenges during extreme weather
  - Lack of route access to her doctor
- She sees friends and family less because she does not like burdening others for rides.
   Getting around is a hassle
- Recently skipped a doctor's appointment due to transportation issues and stopped taking her blood pressure medicine because she couldn't get to the pharmacy

#### **ADS Opportunity**

Autonomous driving systems (ADS) can improve Sharon's quality of life

- ADS can greatly impact
   Sharon's mobility challenges,
   for example:
  - Shuttle from house to the bus station
  - Dropping Sharon off at block club or family gatherings, rain or shine
  - Delivering fresh groceries or medicine
- ADS will allow Sharon to feel connected with her family, friends, and community and access the basics she needs to live a full, healthy life

To embrace this solution, Sharon needs to be convinced that ADS is safe, reliable, and easy-to-use

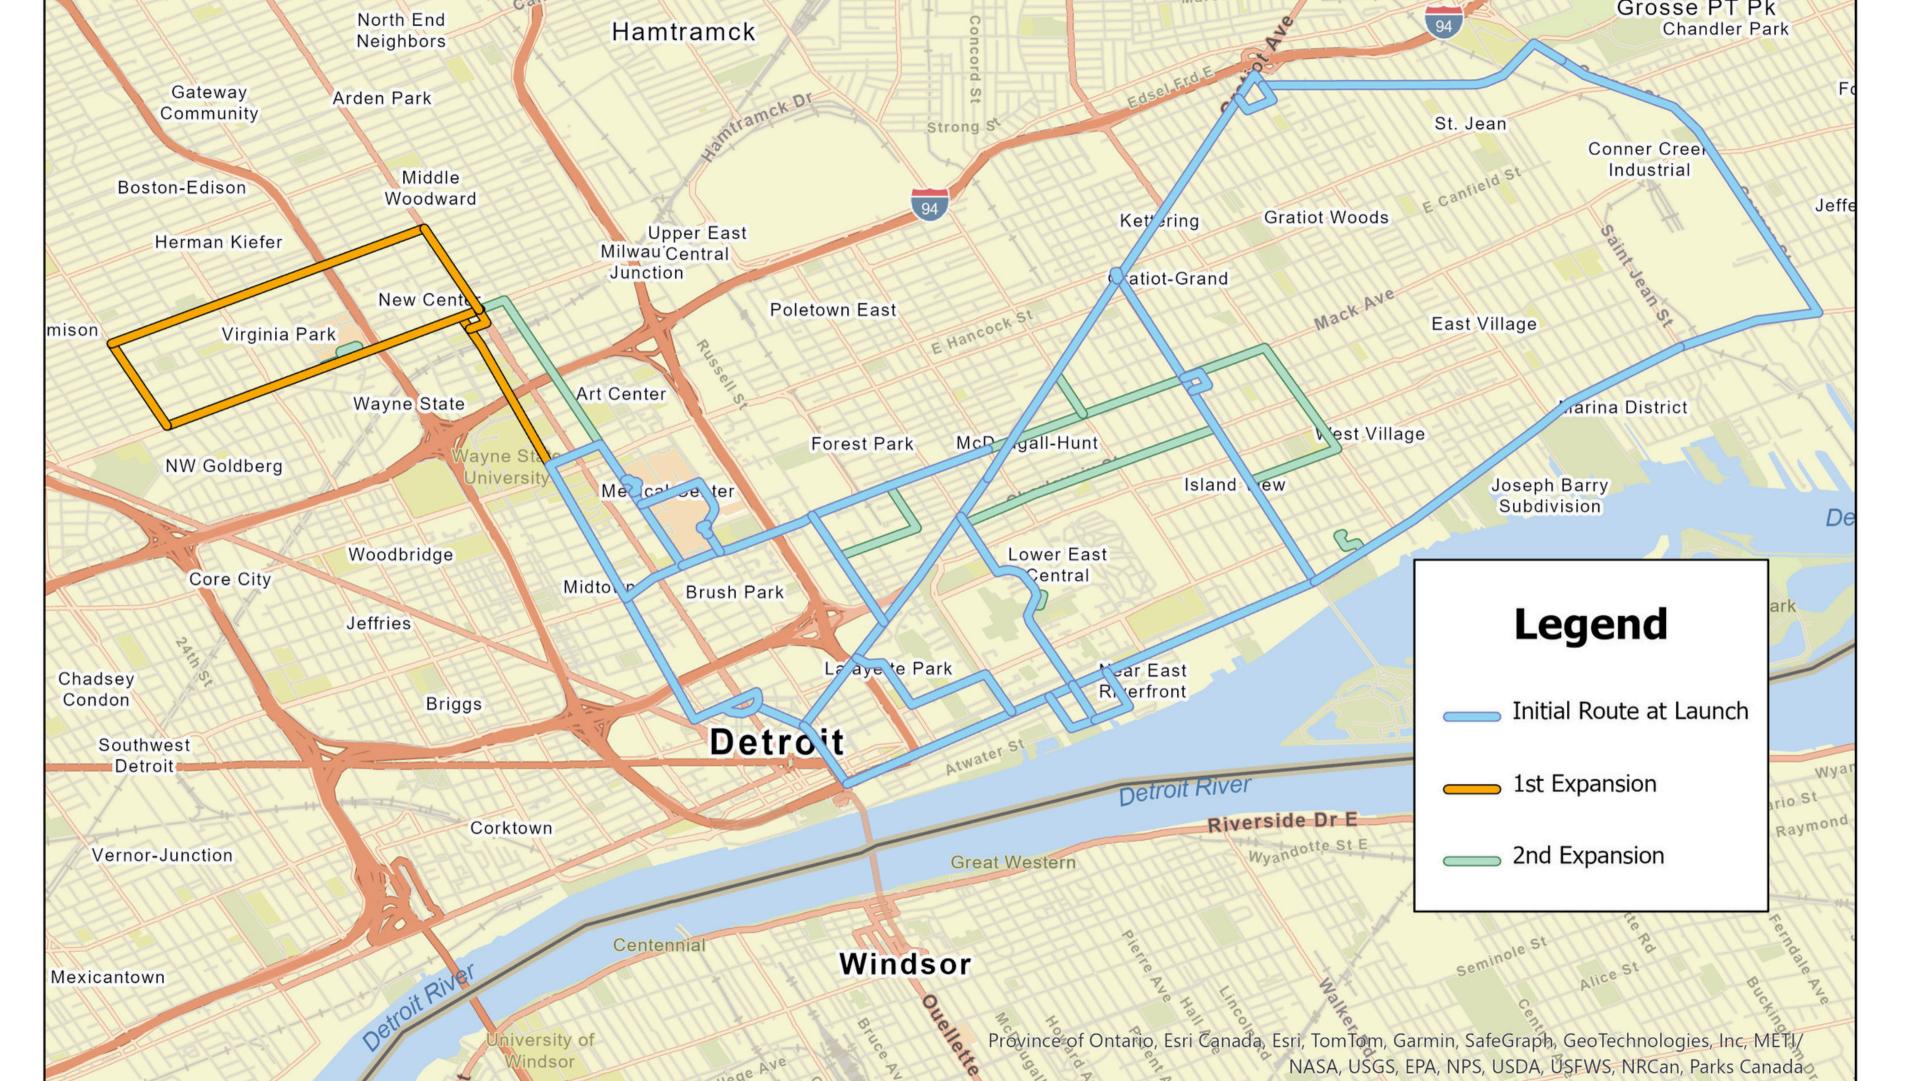

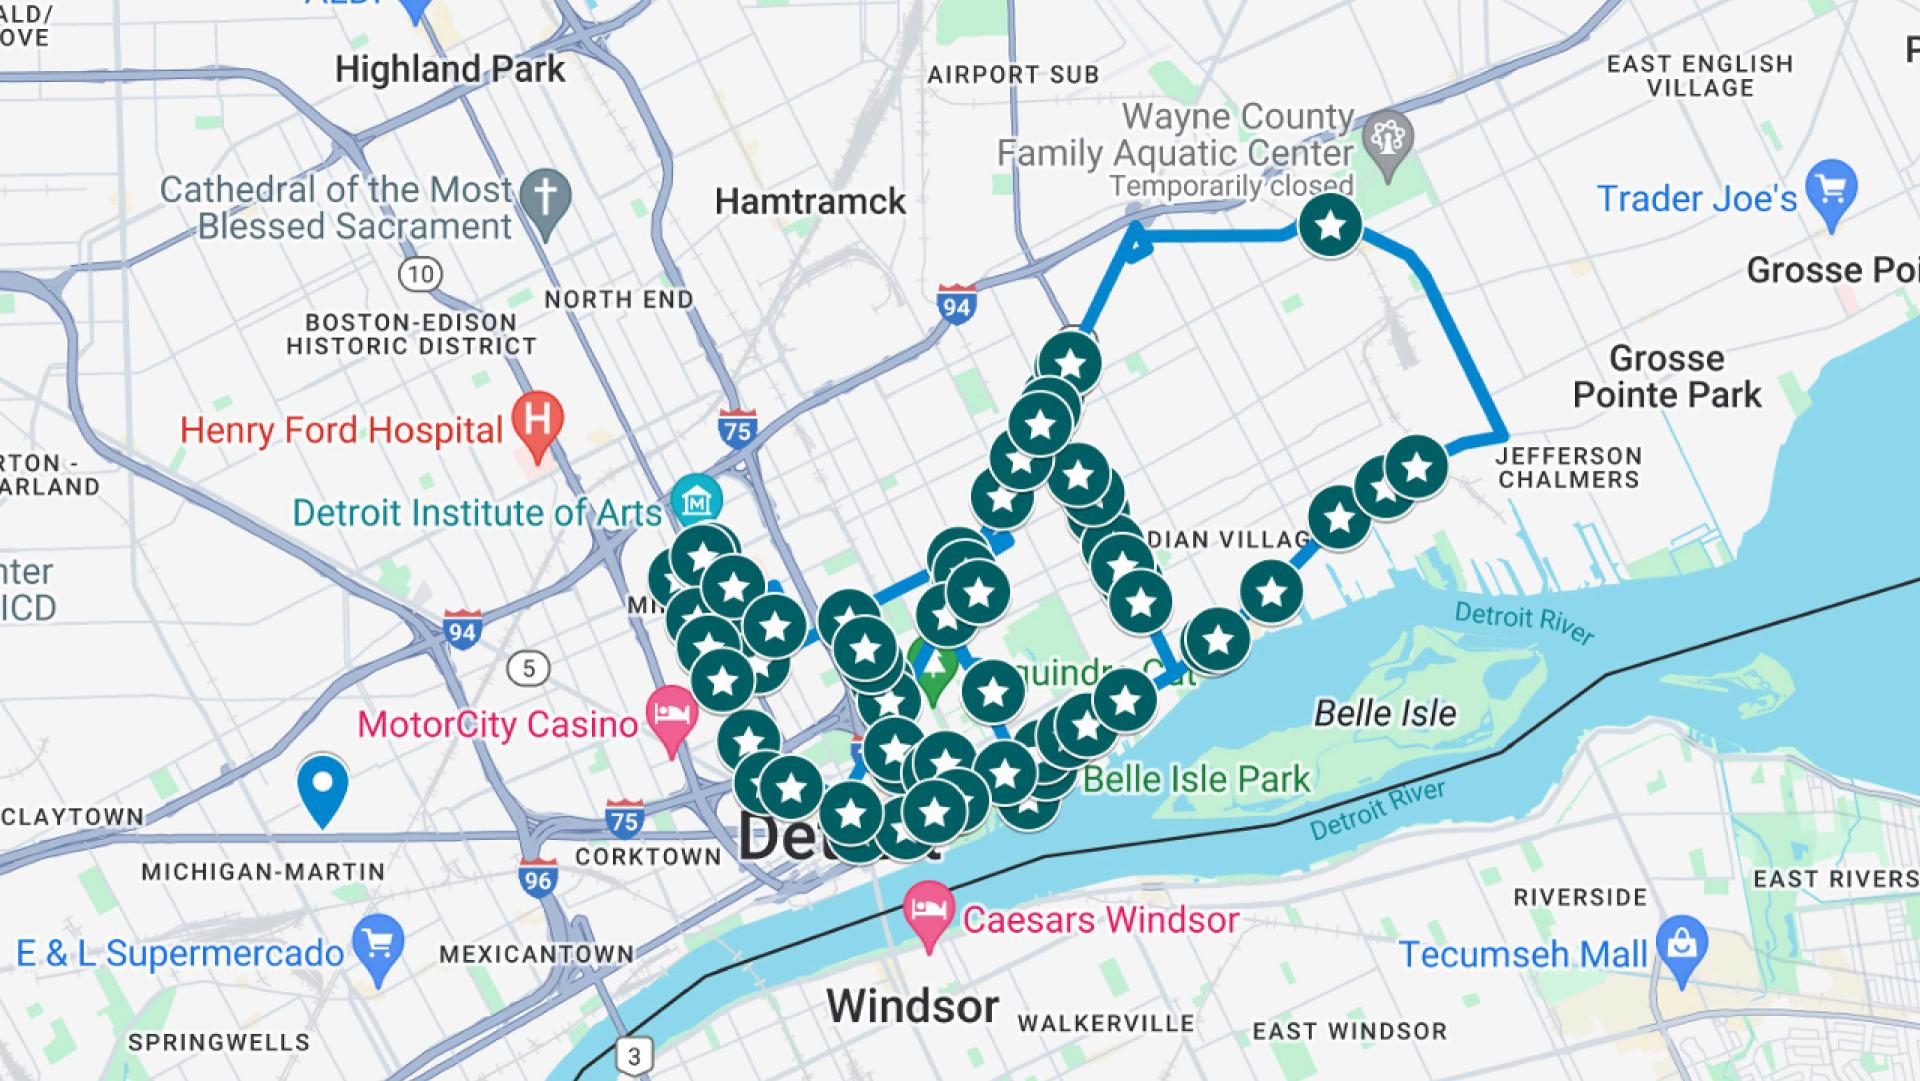

### **Eligibility Requirements**

#### Help us plan for Detroit's future!

The City of Detroit's Planning and Development Department recently launched a 20-month planning process called **Plan Detroit** to update the City's Master Plan of Policies.

#### WHAT IS A MASTER PLAN?

The Master Plan is a roadmap for Detroit's future. It assesses where we are now, proposes a vision for Detroit's future, and identifies policies and actions needed to achieve that vision. Learn more at plandetroit.com.

Scan the QR code or visit plandetroit.com to take the survey!

#### TAKE OUR SURVEY NOW-MAY 31<sup>ST</sup>!

Your feedback is critical to Plan Detroit's success! Please take a moment to complete this survey and tell us your current views and future aspirations for Detroit. Help us get the word out by sharing this survey with your friends, family, and neighbors.

**NEED HELP?** Call 313-224-1339 for assistance in a language other than English. For any other questions or comments contact the Planning and Development Department at 313-628-0221 or detroitmasterplan@detroitmi.gov.
