TABLE OF CONTENTS

Section 1. Project Summary and Background

1.1. PROJECT REQUEST

The City of Detroit Office of Contracting and Procurement (OCP) on behalf of its **General Services Department** seeks the assistance of a Wildlife Biologist to provide comprehensive Wildlife Management Services (WMS) to assist in the reduction of wildlife conflicts in our City's public spaces, parks, properties, facilities, public assets like golf courses, infrastructure and airports. These services include assisting city staff with the implementation of damage and management controls that result from wildlife and its interactions within these spaces. These services are intended to support human health and safety and require compliance with Federal, State and Local Laws.

The City of Detroit is experiencing issues related to wildlife management. These issues are generally and currently experienced as interactions between deer, geese, and other reported species.
