AIRPORT (10)

Mission

The Airport Department continues to evolve by bringing costs in line with revenue and improving services. The emerging strategy is to accelerate the growth of Detroit as a commercial and industrial transportation center and maximize the Coleman A. Young Airport's economic benefit to our community and region.

The Airport Department, by City Ordinance, Section 4-1-2, acquires and holds aviation facilities; develops and operates them; leases these facilities; represents the City in all aviation matters affecting the interest of the City; and manages all City properties and equipment devoted to aviation activities. The main holding is the Coleman A. Young Airport, 300 acres of land with two runways; the Air Carrier Terminal; Executive Terminal (including 14 large hangars); and 129 small aircraft hangars with 145 based aircraft. Coleman A. Young Airport handles 50,000 aircraft operations annually.

Currently, the Airport staff administers, operates, and maintains the Airport. There are more than 100 personnel of primary employers, Midwest Air Traffic Control, FAA, AvFlight Corporation (Fixed Base Operator), Eastside Aviation, Certified Aircraft Rescue Firefighting (ARFF), City Aviation, Civil Air Patrol, Tuskegee Airmen, Friends of Detroit City Airport, the Detroit Fire Department, MyFlight Helicopter Tour, and the Detroit Aircraft Corporation.

Mission

The Buildings, Safety, Engineering, and Environmental Department provides for the safety, health, and welfare of the public as it pertains to buildings and their environs in an efficient, cost effective, user friendly and professional manner. BSEED enforces construction, property maintenance, environmental compliance, and zoning codes, which preserves and enhances property values and promotes a quality of life to make Detroit a preferred place to reside and conduct business. BSEED also operates as the City's Environmental Affairs Department.

Operating Programs

- Administration is responsible for identifying and allocating resources to properly manage, plan, provide program development, customer relations, strategic planning, and implementation of policies. Key processes include records of construction archives, plans and permits for structures within the city, managing the schedule of various boards and commissions, including the Construction Board of Appeals, the Board of Rules and the Wrecking Board.
- **Construction Inspection Division** protects and promotes public health, safety and welfare in new construction development and renovated existing structures by verifying compliance with applicable codes and taking appropriate enforcement action when necessary (State of Michigan Construction Codes; State Public Act 407 of 2016). Enforcement may include misdemeanor violations, show cause, and stop work orders. There are 6 Teams:
 - Buildings inspects construction activities to ensure that structures comply with approved plans, building codes and standards, and permit fire alarm systems, generator function and other life safety systems. This team performs inspections for wrecking, signs, awnings, tents, and temporary use, issue Certificates of Occupancy and coordinate Board of Wrecking Examiners.
 - **Mechanical** inspects heating and cooling appliances; refrigeration installations related to air conditioning, process or storage; gas piping; and fire suppression systems for compliance with approved plans and State Codes. They approve Licenses to operate mechanical equipment.

- **Electrical** inspects new construction, alterations, and renovations of electrical, signaling and fire alarm systems. They issue electrical contractors, journey worker, master electrician, fire alarm technician and sign specialist licenses, and coordinate the Board of Electrical Examiners.
- **Boiler** inspects all large capacity boilers and monitors compliance with "post-of-duty" safety requirements. This team enforces City and National Board Inspection Codes. The License Examiner conducts examinations for steam and refrigeration occupational licenses.
- **Elevator** conducts inspections for all elevators, escalators, moving walks and chair-lift installations, also for National ASME Code A17.1 compliance. This team also administers examinations and issues licensing for Elevator Journey workers in Detroit.
- Plumbing conducts inspections of new construction, alterations, and renovations of plumbing systems to ensure they
 meet approved plans and Code. They register plumbing contractors and water treatment operators. Plumbing crossconnection inspections identify water systems in need of protection from contaminates, per the State Safe Drinking
 Water Act.
- **Dangerous Buildings Division** enforces ordinance (8-16) and State Law requiring certain actions to remedy dangerous structures. Demolition activities have been reassigned to the Demolition Department; the division continues to inspect the work. This includes response to dangerous building complaints; property ownership identification and notification; filing documents of record; presentation at "show cause" and City Council hearings; deferral and rescission request processing. It also includes Fire Insurance Escrow, wrecking and Fire Run inspections.
- Development Resource Center (DRC) acts as an information resource center for development projects under City Charter (Sec. 7-405, "One-Stop Service"); building application intake; mapping the development process; weather conceptual, new construction, rehabilitation and alterations; Green Storm Water; activating vacant lots for land-based ventures; or tactically preserving existing structures. This includes the Welcome Resource Center/Intake Center (WRC) allowing customers to create accounts, upload plans and applications for review; Electronic Plan Review (ePLANS) for submittal of construction or site plans, through the Plan Review Division which ensures that developments or building projects comply

with City Ordinances and Codes. Plan review verifies compliance to Zoning Ordinance, Michigan Building Code, Michigan Residential Code, Michigan Rehabilitation Code, Michigan Electrical Code, Michigan Mechanical Code, Michigan Plumbing Code, International Fuel Gas Code, City Elevator Code and Boiler Code. The division coordinates with various Agencies, and approves Building Permits, Demolition Permits, Sign Permits, Awning Permits, and Temporary Use Permits.

- Environmental Affairs (EA) coordinates with other governments and the community to protect Detroit's natural resources. The City Charter requires EA to coordinate environmental protection policies, so they review and approve Environmental Site Assessment reports for all properties being acquired, Brownfields Redevelopment and Revitalization efforts under the Michigan Natural Resources and Environmental Protection Act (PA451 of 1994), funding for cleanup of contaminated sites; and enforcement of Chapter 42 (Solid Waste, and Illegal Dumping) and Chapter 8 (Property Maintenance) through Environmental Enforcement. This unit develops and monitors Host Community Agreements (HCA) per the Wayne County Solid Waste Management Plan.
- Licenses and Permitting Division includes the Business License unit, which educates and enforces compliance of City Codes for regulated Detroit businesses, and the **Permits unit** which assists contractors and homeowners to obtain the necessary permits for businesses or homes. When a customer is purchasing property, this unit provides the application necessary to schedule an inspection. This division assists businesses to achieve compliance and issues misdemeanor violations to non-compliant business operators. It coordinates Show Cause Hearings to determine if a license should be denied, suspended, or revoked in accordance with city code; and assures Special Events operate as indicated.
- **One-Stop Virtual Permitting** consolidates development-related reviews, approvals, and permit issuance in one location and provides a Permitting Wizard to navigate through the required Zoning, Permitting, Fees, and Licensing.
- **Property Maintenance Division (PMD)** inspects rental residential and commercial structures to encourage neighborhood stabilization by addressing blight, safety and welfare. It corrects noncompliant properties, and if tenant relocation is necessary (re: no heat, water or electricity), PMD works to find temporary living arrangements. This includes Residential Inspections, Pre-sale Inspection, Commercial Inspections, Issuance of violations and enforcement at 36th District Court and the Department of Appeals and Hearings and Compliance Agreements.

• **Zoning Division** is the designated Zoning Administrator for the City (per City Charter Sec.7-401), coordinating all applications for permits, grants, variances, waivers or exceptions. This includes providing zoning assistance, interpretation, and verification; facilitating zoning review prior to the establishment of new uses; performing Site Plan reviews; processing zoning variances for the Board of Zoning Appeals and special land use hearings for conditional, controlled and regulated land uses. This Division conducts Hearings for Medical Marihuana and works on zoning ordinance revisions.

DEBT SERVICE & LEGACY PENSION (18)

Mission

Overseen by the Office of the Chief Financial Officer, the Debt Service & Legacy Pension section includes revenues and expenditures to support certain long-term obligations of the City of Detroit, including bonded debt and the unfunded actuarial accrued liability for pension benefits earned prior to July 1, 2014, which were modified, closed, and frozen per the bankruptcy Plan of Adjustment (the "legacy pension"). The legacy pension obligations are also referred to as "Component II" of the General Retirement System and the Police and Fire Retirement System. Funding for the employer contributions to the hybrid pension plans ("Component I") for current active employees appears in their respective departments' budgets in Employee Benefits.

Bonded debt includes both unlimited tax general obligation (UTGO) and limited tax general obligation (LTGO) bonds. UTGO bonds are authorized by the voters and repaid from the City's debt millage. They support capital improvement projects throughout Detroit. LTGO bonds are primarily repaid from the City's General Fund revenues. They supported settlements with creditors and reinvestment projects after the City's bankruptcy. Debt service paid from special revenue and enterprise funds appears in their respective departments' budgets, including the Departments of Public Works, Transportation, Housing and Revitalization, and Water and Sewerage.

In FY 2026, the City will continue making actuarially determined annual required contributions for its legacy pension obligations. Per the Plan of Adjustment, the 30-year amortization period began in FY 2024. The City has continued the amortization method to be 30-year closed level principal instead of level dollar. The FY 2026 General Fund budget includes \$172.6 million for this purpose, with \$72.4 million supported by the Retiree Protection Fund (RPF), a trust fund established and funded by the City to ensure budget stability as annual legacy pension payments resume. The RPF strategy has always been two-fold: (1) Build a pension funding resource to gradually draw down every year beginning in FY 2024, and (2) Gradually build room in the recurring City budget for annual pension contributions before FY 2024 begins. In addition to the RPF resource, the City receives \$18.7 million annually from the Foundation for Detroit's Future and the Detroit Institute of Arts toward legacy pension obligations. This funding was part of the "Grand Bargain" during the City's bankruptcy, and it continues through FY 2034.

Mission

The Department of Public Works (DPW) provides excellence in the delivery of essential environmental and infrastructure services, thereby ensuring a safe and clean environment in a cost-effective manner.

Operating Programs and Services

- Administrative Division provides overall management and efficiencies. It houses the Street Administrator, who oversees all street-funded DPW operations including Traffic Engineering and Street Maintenance Divisions and the majority of City Engineering. It accounts for State Gas and Weight Tax revenue and for State and Federal grants on a project basis.
- **Street Maintenance Division** serves 673 miles of major streets and 1,875 miles of local streets, 29 bridges, and 807 traffic signals with maintenance, including the repair of potholes, snow removal, residential street resurfacing, installation of residential speed humps, maintaining public areas underneath viaducts, and the physical facilitation of street closures. This activity provides for the management, construction, and maintenance of streets, bridges, traffic signals, traffic control signs, pavement markings, and non-motorized improvements.
- **City Engineering Division** designs, surveys, engineers and inspects roads and bridge improvements on the public rightof-way. This division manages all major road and bridge construction projects, including paving and streetscape enhancement projects. Plan and petition review services on behalf of planned construction projects ensure compliance with State and City construction standards.
- **Traffic Engineering Division** installs and maintains traffic control devices, pavement markings and street layouts to make the street system safe and fit for public use. It ensures safe, expeditious traffic flow through traffic control devices, signals, parking control devices, geometric improvements and pavement markings.
- **The Traffic Sign Shop** fabricates, repairs, and maintains traffic control and street name signs. Activities include evaluating and planning requests for changes in the street system and interfacing with external agencies such as the Federal Highway Administration, the Michigan Department of Transportation, and the Wayne County Road Commission to coordinate highway planning.

- **Public Act 48**, the Metropolitan Extension Telecommunication Rights-of-Way Oversight Act (METRO), is designed to accelerate the deployment of high-speed broadband internet connections throughout the State. The State assesses fees on telecommunication providers that use the public rights-of-way. Revenues collected can be appropriated and used for rights-of-way related purposes.
- Solid Waste Division provides for collection and disposal of waste generated by residential homes and commercial establishments, engaging accepted industry standards to collect, process and dispose of refuse, yard waste and recyclable material. Services include scheduled weekly and bi-weekly collections of refuse, bulk, yard waste and recyclables performed by contractual waste haulers; disposal or processing activities for each; annual inspections of commercial businesses; commercial refuse collection; and residential street sweeping. Solid Waste enforcement activities are performed by the Building, Safety Engineering and Environmental Department in coordination.
- **Greater Detroit Resource Recovery Authority** is a public body corporate created under Michigan Public Act 179 (1947). The GDRRA Board of Directors was established in 1984 to provide efficient, environmentally responsible waste disposal service to the residential, commercial, and industrial sectors of Detroit as part of a total post-collection system including transportation, recycling and disposal.

Mission

The Detroit Department of Transportation (DDOT) provides public transit services that are reliable, clean, customer-focused, safe, and secure. Fixed route bus service throughout the City of Detroit, and to parts of neighboring communities, helps to ensure that Detroiters, employees, and visitors can safely and reliably travel and make connections to the larger region. Complementary ADA paratransit services are provided for the elderly and people with disabilities through DDOT Paratransit.

DDOT is the largest public transit provider in Michigan and prides itself on providing reliable, clean, safe, and efficient service to thousands of riders daily. For routes and fare information, visit ridedetroittransit.com. DDOT's Administrative Office is at 100 Mack Ave. Two bus operating facilities, Shoemaker, and Gilbert, serve as bus terminals for transit operations and bus maintenance repair work. A third facility, Coolidge, is being fully reconstructed with a planned opening in early 2026. DDOT also maintains daily operation of two transit center facilities providing climate-controlled facilities for passengers to wait and purchase passes: Rosa Parks Transit Center in Downtown Detroit and the Jason Hargrove Transit Center that opened in 2024 at the former State Fairgrounds.

Operating Programs and Services

- **Fixed Route Bus Service** is the primary mode of public transportation for residents and visitors in the City of Detroit. Comprised of 37 routes with fixed stop locations and scheduled time points on large buses covering all corners of the City. The busiest routes arrive more frequently and operate 24 hours per day, seven days per week.
- **Paratransit ("ADA")** service is complementary to the fixed route system for all residents and visitors meeting the eligibility requirements of the Americans with Disabilities Act (ADA). This service operates in smaller vehicles, must be requested by the eligible rider, and can go directly to homes, businesses and locations to provide a closer connection for those who require it.
- **Planning** manages service network planning and any associated staffing, technology, facility, fleet, and other infrastructure needed to support City transportation goals.

- Administration oversees strategic planning for future operations; provides inventory, personnel, security, and management information; and maintains compliance with Federal and State guidelines and regulations.
- Vehicle Maintenance provides safe, clean, reliable buses, and support vehicles for use in daily public service.
- **Customer service** provides exemplary customer service, ensuring seamless transit experiences through proactive communication, efficiency, and a commitment to meeting the needs of our community.
- **Safety** is committed to delivering reliable, focused, and safe public transit services by building and growing a safety culture at DDOT consistent with national transit best practices and the Department's Transit Agency Safety Plan.

Mission

The Office of the Chief Financial Officer (OCFO) is the City's centralized financial management operation, which is directed by State law to supervise all City financial and budget activities. The OCFO enables the City to make investments that improve quality of life for Detroiters by providing sound business advice and the financial infrastructure that ensures fiscal stability.

Operating Programs and Services

- **CFO's Office** executes the CFO's vision and strategy to improve the OCFO's administrative functions and improve efficiency and effectiveness across government. The CFO's Office supervises and coordinates divisional operations and functions.
- Office of the Assessor locates, identifies, and values—at current market conditions—all real and tangible personal property in the city of Detroit for the purposes of levying the tax lawfully imposed and to warrant said levy to the Treasurer of the City of Detroit for collection.
- Office of Budget provides budget management, planning, and analysis services to advance the City's goals and ensure fiscal stability. It oversees the development of all aspects of the City's annual budget and four-year financial plan, including the Mayor's proposed budget, presentation and negotiation of the budget with the City Council, implementation of the budget after adoption, establishing and enforcing budgetary and position controls, and monitoring the budget to ensure continued fiscal balance.
- Office of Contracting & Procurement supports the strategic contracting and procurement of materials, equipment and services that are essential to providing governmental services. Services provided support the operations of the City departments with staff dedicated to providing efficient and responsive services, in full compliance with legal requirements, while upholding the highest ethical and professional standards.
- Office of the Controller establishes, maintains and enforces City accounting policies, practices, and procedures. The Office is responsible for ensuring the City meets financial reporting requirements and is accountable for financial system controls. This includes risk management, grant audit and compliance.

- Office of Departmental Financial Services serves as a strategic financial partner to City agencies and assures effective management and financial integrity of agency operations by developing, implementing and monitoring plans, policies and systems. Areas of focus include budget administration, program analysis/evaluation, finance, accounting, internal controls, financial systems, grants management, strategic planning, and performance metrics.
- Office of Development & Grants identifies and acquires public and private resources that match City of Detroit priorities, as well as oversees, coordinates, and administers grants for the City of Detroit by establishing processes that support end-to-end grants management activities consistent with federal, state and local requirements, thereby, achieving the greatest use and accountability of grant dollars.
- Office of the Treasury effectively, timely and accurately collects and records all taxes, special assessments, fees, and other monies received; acts as the custodian of all funds and City assets; and disburses all funds as authorized. The Office also oversees revenue forecasting and economic analysis, issues and manages general fund debt obligations and provides and manages low-cost debt financing of large-scale, long-term capital projects and improvements. The Treasurer is responsible for investments.

Mission

The Law Department strives to deliver exceptional and efficient legal counsel and representation to the constituent branches, units, and agencies of City government as mandated by the City Charter. The Law Department is an independent department headed by the Corporation Counsel, who is appointed by the Mayor with approval of City Council.

The Department is required by Charter to represent the City of Detroit in all civil actions or proceedings filed against the City. The Corporation Counsel may also prosecute any action or proceeding in which the City has a legal interest and is the City prosecutor on cases arising from the provisions of the Charter or City ordinances and prosecute all actions for the recovery of fines, penalties and forfeitures. The Department provides advice and opinions to the Mayor, members of City Council, or the head of any City agency, approving the form and substance of all contracts, bonds and written instruments, and drafting, upon the request of the Mayor or any member of City Council, any ordinance or resolution for introduction. The Department also houses the programs of the Office of Eviction Defense and Detroit Indigent Defender Services.

Mission

The Mayor's Office mission is to grow Detroit's population and improve the quality of life for its residents. The initiatives and strategies focus on improving internal and external operations to achieve that mission.

Operating Programs and Services

- The **Department of Neighborhoods** provides a direct link between the City and block clubs, community groups, business owners, faith and school leaders and residents. The team includes a Manager and Deputy Manager in each Council district to fight blight and rebuild and strengthen the fabric of neighborhoods. Managers engage thousands of residents and volunteers in major initiatives; help residents form block clubs and community associations; resolve citizens' complaints; and educate residents on City programs and policies.

MUNICIPAL PARKING DEPARTMENT (34)

Mission

The Municipal Parking Department (MPD) provides economical on- and off-street public parking, enforces city parking ordinances, reduces parking-related congestion and pollution, improves residential quality of life, and develops parking plans to support economic development projects. The department utilizes creative strategies for parking kiosks (metered) systems, customer loyalty plans, enhanced parking experiences, maximizing the efficient deployment of parking enforcement officers, optimal visibility of citywide towing operations, and coordinated use of public and private parking systems.

Operating Programs

- The **Auto Parking System**, pursuant to City ordinance, operates and maintains two garages, one of which is downtown and the other located in the Eastern Market District. These garages, as well as the seven city-owned lots throughout strategic neighborhood corridors, contain approximately 1,254 parking spaces. The department operates 835 parking meter kiosks that include three tariff parking zones with thirty-nine subzones that manage on-street parking.
- The **Parking Violations Bureau**, pursuant to City ordinance, manages the City's parking ticket processing and fine collection program and supervises parking regulations through its civilian ticket writing personnel (Parking Enforcement Officers). MPD processes all parking violations including the City of Detroit Police Department and all other city policing agencies. Enforcement efforts focus on ensuring public safety, creating parking availability, protecting the residential quality of life, and improving parking compliance programs.

Mission

The Non-Departmental budget provides funds for activities which are not the responsibility of any one single agency. Non-Departmental is also the depository agency for General Fund contributions for enterprise activities and for a wide variety of General Fund revenues, including four of the five major revenues (casino revenues/wagering taxes; income taxes; property taxes; state revenue sharing) and revenues from reimbursements from enterprise/non-General Fund agencies of personal services costs, transfers from other City funds, and use of prior year surplus.

Operating Programs and Services

The Non-Departmental budget includes the following independent boards, commissions, and/or agencies with citywide operations:

- **Board of Ethics** investigates and resolves complaints alleging violations of the Ethics Ordinance by public servants, and issues advisory opinions regarding Charter, City ordinances or other laws and regulations establishing standards of conduct and disclosure requirements for public servants. Opinions are rendered upon request by a public servant and published annually in a report to the Mayor and City Council. These actions are "to promote an ethical environment within City government, and to ensure the ethical behavior of public servants."
- **Board of Police Commissioners** (BOPC) is a civilian agency that exercises supervisory control and oversight of the Detroit Police Department (DPD) as set forth in the Charter. The Board has 11 members, 7 elected by District and 4 appointed by the Mayor with City Council consent. The Board meets every week including (12) community/evening meetings in the districts. Internal organization includes fiscal, policy, administrative, legal advisor, community outreach, and the Office of the Chief Investigator, which processes and investigates 1,500 1,700 complaints annually. Responsibilities include: in consultation with the Chief of Police and the Mayor, establishes policies, rules and regulations for the DPD; subpoena power for investigative purposes; review and approval of the DPD budget; investigation of non-criminal citizens' complaints against members of the Detroit Police Department; final authority in imposing or reviewing discipline of employees of the department; and disqualification appeals from police recruits hoping to enter the Detroit Police Academy.

City Code Section 55-15-8(a) provides for regulation of towing to promote equitable distribution of police authorized towing.

- **Detroit Building Authority** (DBA) administers capital projects, as determined by City Departments. Critical functions: encumbering funds through Contracts of Lease; managing the bid, RFP/RFQ process; issuing contract awards; advising contractors of City requirements; execution of contract documents; monitor design development and construction for each project; oversight of payments. The DBA maintains a database of all City-owned commercial property, manages the properties within the database, manages sale of property and City leases.
- **Media Services**, formerly the Detroit Cable Communications Commission (established by ordinance in 1981), is the City's local video franchising authority with direct responsibility for review and issuance of franchise agreements and permit agreements to telecommunications providers for use of the City's right-of-way for telecommunications facilities. As the City's video production and television broadcast services provider, Media Services is responsible for daily programming, operation and management of Government Access Channel 10, Education Access Channel 22, Neighborhoods Channel 21 and Public Access Channel 68. Media Services interfaces with the Mayor's Office; City Council; City departments and commissions; educational institutions; and community organizations to produce programming that is responsive to the public's diverse information needs and interests.
- **Communications Services** staff promotes a positive city image with effective communications with the City's customers residents, business owners, employees, visitors and the media. As the communications arm, staff provides high-quality service to city agencies and elected officials in their efforts to communicate programs, initiatives and information to various audiences. Services include strategic communications planning and counseling, media relations, event planning, website management, writing, graphic design, photography and Total Copy Center services. Staff support Motor City Makeover and Halloween in the D, under the Mayor's Communications Director.
- **Pension Administration** is responsible for the administration of the employee retirement systems, and it is the governing body for the Employee Benefit Plan. The Retirement Systems fully reimburses the City of Detroit for Pension Division personnel costs.
- **Project Clean Slate is** a free criminal record expungement program operated by the City of Detroit for residents, with the goal of helping Detroiters clear their criminal records to improve access to opportunities for employment, education, and

housing. Many eligible individuals do not seek expungement for several reasons: they do not know they are eligible; they are unable to afford attorney fees; they have had a negative experience with the criminal justice system; or they simply do not know how to navigate the complex process. PCS eliminates those barriers by providing free expungement services with dedicated attorney and staff support. Post-expungement, PCS also works with its clients to help them access other needed resources.

The Non-Departmental agency records the salaries and benefits for the 11 elected officials of the City of Detroit: Mayor, City Clerk, and City Council members, in the **Elected Officials Compensation** cost center. The Non-Departmental agency also records the General Fund contributions made to enterprise agencies, cultural entities, and other external entities.

PUBLIC LIGHTING DEPARTMENT (38)

Mission

The Public Lighting Department (PLD) supports the Public Lighting Authority (PLA) as it maintains the upgraded streetlight system.

On February 5, 2013, the City created the PLA, a separate municipal corporation pursuant to Michigan Public Act 392 of 2012 (as amended) and the Municipal Lighting Authority Act, MCL 123.1261, to manage and maintain the City's public lighting system. Pursuant to an amendment to the City Utility Users' Tax Act, 1990 PA 100 (as amended) MCL 141.1151–MCL141.1177, the PLA utilizes \$12.5 million in utility user tax proceeds to satisfy the debt service obligation of bonds issued to modernize the streetlight system. Through an interlocal agreement, the City provides additional funds to the PLA to finance the operations and maintenance of the street lighting system.

PLD owns and maintains hundreds of miles of underground conduit and poles for overhead lines. Various communication companies rent conduit space and/or pay pole attachment fees that provide significant revenue to the City's General Fund.

PLD is actively preparing unused substations for sale to private entities, returning them to the City's tax base. PLD also is removing unused overhead lines owned by PLD to further enhance citizen safety and reduce blight.

Operating Programs and Services

- Administration/Overhead encompasses contractual services for manhole/handhole repairs and security.
- PLD Reserve is comprised of materials handling services.
- **Streetlights** encompasses utility costs for streetlights, electrical grid maintenance, substation decommissioning, and removal of overhead wires/peripheral equipment/poles no longer needed.

Mission

The Planning & Development Department (PDD) envisions a world-class and inclusive planning and development department that sets the standard for equitable and innovative large city planning. Our mission is to improve Detroiters' quality of life through meaningful engagement, strategic planning, thoughtful preservation and equitable development.

Operating Programs and Services

- Neighborhood Planning Studies and Implementation Coordination are core programs that drive neighborhood stabilization, revitalization, and support for population and job growth. These initiatives are managed across three divisions, serving the City's East Region (Districts 3 & 4), West Region (Districts 1, 2, & 7), and Central Region (Districts 5 & 6, including downtown). Specific activities include:
 - Developing neighborhood framework plans
 - o Coordinating implementation projects in commercial, business, industrial, and historic districts
 - Engaging local communities and leaders through workshops and presentations
 - Developing and implementing urban design guidelines
 - o Assisting in designing improvements for parks, streetscapes, open spaces, and public art
 - Establishing standards for urban agriculture and green stormwater infrastructure
 - Identifying development sites, supporting parcel assembly, and proposing historic building reuse scenarios
- **Citywide Planning Initiatives** guide development and policy for areas impacting multiple neighborhoods. PDD's Citywide Strategic Planning division leads these projects, which include planning for neighborhoods around the Joe Louis Greenway and updating the City's Master Plan of Policies.

PLANNING & DEVELOPMENT DEPARTMENT (43)

- **Design, Development, and Zoning Reviews** are managed by the Design, Development, and Innovation (DDI) division. In collaboration with other city departments, the City Planning Commission, and City Council, DDI:
 - Translates city and neighborhood plans into regulatory language, zoning changes, ordinances, and development initiatives
 - Conducts design reviews of proposed developments
 - Oversees the Sign Waiver Request process
 - Facilitates master plan interpretations
- **Historic Preservation and Adaptive Reuse** of Detroit's historic buildings are led by PDD's Historic Preservation division to stimulate neighborhood revitalization. Responsibilities include:
 - Developing regulatory language, ordinances, and initiatives for development, environmental protection, and preservation
 - Supporting the Historic District Commission in enforcing Historic District codes
 - Reviewing permit applications and conducting historic district reviews
 - Investigating district violations and ensuring NEPA compliance
 - Collaborating closely with the City Planning Commission (CPC), Historic Designation Advisory Board (HDAB), and other city and state departments.
- **Equitable Development and Community Benefits Ordinance (CBO)** are managed by the division of Equitable Development, CBO, & Legislative Affairs. This division enhances PDD's oversight of the Community Benefits Ordinance and works in partnership with City Council on development management.
- Administrative and Operations Division provides essential support by managing PDD operations, budget, grants, vendor contracts, and personnel, in collaboration with other city departments.

Mission

The General Services Department (GSD) efficiently supports City operations through fleet, buildings, grounds and other support so departments can focus on their core functions. GSD operating divisions provide shared services, and project management, for city government.

Operating Programs and Services

- **Grounds Maintenance Division** cuts grass and removes litter at City parks and in City-owned vacant lots, manages snow and ice removal at municipal facilities, cleans 220 bus shelters, and operates flower beds. The Division provides exterior maintenance of Detroit Land Bank Authority properties and along major commercial corridors, manages the urban forest, and maintains grass on freeway berms and medians for public rights-of-way.
- Fleet Management Division enhances city services by efficiently providing agencies with ready access to functional and reliable vehicles. Responsibilities include supporting the City's Vehicle Steering Committee, preparation and execution of the City's 10-Year Vehicle Reinvestment Plan, approval of vehicle specifications, receipt and disposal of vehicles, repair and maintenance of 2,138 municipal vehicles, supporting the City's employee local driving policies, and administering the loaner pool. The division operates out of the Russell-Ferry, 19th & Michigan, Erskine, and Davison yards with a body shop for simple bump repairs and a 24-hour road crew.
- **Building Services Division** provides custodial services to City-owned facilities and oversees graffiti removal throughout the city. The Security Services Unit manages functions associated with security and monitoring of City operations and facilities, including armed, bonded, and unarmed guards and monitoring equipment.
- Landscape Design Division designs, develops and beautifies City-owned parks, greenways and rights-of-way through Floriculture, Beautification, and Park Development Units. Staff develop and manage the City's parks improvement plan, and beautify medians and gateways.

- **Strategy and Planning Division** includes a Project Management and Analytics Team to analyze service requirements of agencies; execute customer Service Agreements; and manage budget, contract and asset requirements. This division oversees creation of the City's long-term plans for the City's fleet and public spaces, as well as functional reforms such as inventory management and 3rd party operated leisure agreements and process improvement. Staff have strategic planning and project management capacity to assure successful implementation of reforms.
- Animal Care and Control Division oversees every aspect of an animal's life to ensure the best outcomes for those in the Department's care. Services include offering spay or neutering services for unattended dogs, helping animals find temporary and forever homes, improving safety for residents, and animal control services.
- **Recreation Division** operates 1 senior center and 15 recreation centers throughout the City and provides recreation programs and activities at the centers, Spirit Plaza, and Hart Plaza. Over 30 leisure sites from historic cemeteries, historic Fort Wayne, and Eastern Market; to the new riverwalk and velodrome; to old and vacated recreation centers are operated by the 3rd party partners under Recreation staff oversight and management. The Division continues to improve the quantity and quality of opportunities it offers.
- **Blight Division** cleans corridors and alleys of debris and excess signage; remove graffiti and create murals on blighted space. These special post-bankruptcy operations are part of interagency enforcement initiatives designed to reduce blight. These teams work closely with the Construction & Demolition Department, the Department of Neighborhoods, and enforcement agencies such as BSEED to maximize impact of their work.
- The **Office of Sustainability** leads the City's initiatives aimed at reducing emissions, increasing resilience, and improving residents' quality of life. The Office supports departments citywide to advance bold climate goals set by the Sustainability Action Agenda and the Detroit Climate Strategy. The Office utilizes an innovative multi-departmental staffing approach with nine staff members embedded in key City departments. Three positions, including the Director of Sustainability, are in the General Services Department, three positions are in the Detroit Department of Transportations, and another three positions are in the Housing and Revitalization Department.
- The **Office of Arts, Culture, and Entrepreneurship** oversees the City of Detroit's investment in the fine and performing arts, culture, and history with a special focus on supporting the city's creative workforce.

WATER (48)

Mission

The Water and Sewerage Department (DWSD) strives to exceed our customers' expectations through the efficient distribution of treated water, collection of wastewater for treatment and the provision of services that promote healthy communities and economic growth.

The Water Supply System is administratively part of DWSD while maintained as a separate fund in the City of Detroit's accounting system. The department leases five water treatment plants and 20 booster (re-pumping) stations and 19 reservoirs to the Great Lakes Water Authority (GLWA). Of these five water plants, two are in Detroit. There is one plant each in Allen Park, Dearborn and Port Huron. Detroit is primarily served by the two Detroit water treatment plants with some support from the Allen Park and Dearborn facilities. There are three sources of raw water supply – Detroit River at Fighting Island, Detroit River at Belle Isle and Lake Huron north of Port Huron.

The main administrative offices are located at 735 Randolph in downtown Detroit, officially known as the Water Board Building. Approximately 3,438 miles of water transmission and distribution mains within the city of Detroit are owned by the department, and it maintains more than 2,700 miles of these pipes, with the remainder maintained by GLWA.

Bifurcated from GLWA on January 1, 2016, Detroit maintains its own local system under the authority of the six-member Board of Water Commissioners as appointed by the mayor. The Detroit local system is made up of approximately 3,000 miles of sewer collection pipe and 2,700 miles of water mains serving the neighborhoods. Detroit has full authority to repair and rebuild the local system and serves as the first responder for all service disruptions, including those of GLWA-leased assets, located within the City's boundaries.

WATER (48)

GLWA will continue to operate the regional water and sewer assets which include the water treatment plants and other water facilities. GLWA operates under the authority of a six-member board appointed by several constituencies of the authority: 2 appointed by the mayor of Detroit, 1 each by Wayne, Oakland and Macomb counties and 1 by the governor from the service area outside the three counties.

Operating Programs and Services

- **Provide delivery of potable water** for more than 175,000 households and 30,000 businesses/nonprofits, delivered at various points at adequate pressure to meet our customers' needs. The water provided meets or exceeds standards as required by Michigan's Safe Drinking Water Act as well as federal standards.
- Furnish sufficient water pressure and service to ensure acceptable fire protection for commercial buildings and schools.

Goals, Strategic Priorities and Related City Outcomes

Goals / Strategic Priorities	Timeframe	Related City Outcome

SEWERAGE (49)

Mission

The Water and Sewerage Department (DWSD) strives to exceed our customers' expectations through the efficient distribution of treated water, collection of wastewater for treatment, and the provision of services that promote healthy communities and economic growth.

The Sewerage Department is administratively part of DWSD while maintained as a separate Fund in the City of Detroit Accounting System. The DWSD sewer system originated in 1836, and today it consists of nine pump stations, nine wet weather treatment facilities to reduce combined sewer overflows (CSO) during major rain or snow events, and a total of 3,433 miles of sewer lines that carry rainwater, snowmelt, and untreated sewage to the Water Resource Recovery Facility – the largest, single-site wastewater treatment facility in North America. The facilities are leased to and operated by the Great Lakes Water Authority (GLWA). DWSD has installed 17 green stormwater infrastructure projects since 2015 that manage more than 60 million gallons of stormwater annually, further reducing CSOs and helping beautify neighborhoods. The Department currently services and sets water, sewer, and drainage rates for more than 230,000 accounts (approx. 175,000 households and 30,000 businesses/nonprofits).

Bifurcated from GLWA on January 1, 2016, Detroit maintains its own local system under the authority of the seven-member Board of Water Commissioners as appointed by the mayor. The Detroit local system is made up of approximately 3,000 miles of sewer collection pipe and 2,700 miles of water mains serving the neighborhoods. Detroit has full authority to repair and rebuild the local system and serves as first responder to all service disruptions, including those of GLWA-leased assets, located within the City's boundaries.

GLWA will continue to operate the regional water and sewer assets which include the water treatment plants and other water facilities. GLWA operates under the authority of a six-member board appointed by several constituencies of the authority: 2 appointed by the mayor of Detroit, 1 each by Wayne, Oakland and Macomb counties and 1 by the governor from the service area outside the three counties.

Operating Programs and Services

- **Wastewater Collection** conveys combined untreated sanitary sewage and stormwater collected throughout the service area to the GLWA operated facilities in accordance with applicable service agreements, such that public health is protected and the treated effluent discharged to the Detroit and Rouge Rivers is in compliance with limits established by the National Pollution Discharge Elimination System (NPDES) Permit co-held by DWSD and GLWA, and other applicable wastewater, air pollution and solid waste disposal laws, rules and regulations imposed by courts and agencies.
- Maintain and upgrade the Detroit Local System and serve as first responder for necessary repairs within Detroit.
- Serve as the retail advocate for Detroit based constituents (Detroit Retail Class), including households, businesses, nonprofits, and faith-based organizations, in the procuring of water and sewerage services from GLWA.
- Serve as the collection agent for the Detroit Retail Class.

OFFICE OF THE OMBUDSPERSON (53)

Mission

The Ombudsperson improves service delivery through departmental accountability. The City of Detroit Office of the Ombudsperson was established by Charter referendum on November 6, 1973, became operational in 1974 and was upheld by voters in 2011. The Detroit City Ombudsperson, an independent governmental official, is appointed by the Detroit City Council.

The Office is mandated by the City Charter to use its independence to receive, investigate, mediate and resolve citizen complaints against any action, decision, recommendation, practice or procedure of any agency. The City Charter authorizes review of investigations and hearings conducted by City departments, with subpoena power, to ensure truthful and fair outcomes; recommend changes where investigations warrant; establish complaint investigative procedures and maintain records to determine areas of failure; initiate investigations where data reveals problems; provide information, referrals, assistance, and recommendations for appropriate investigation when complaints are not within City jurisdiction. Annual statistical reports are presented to City Council and Mayor. The Office does not address issues pending legal considerations in courts, or under review by City Council.

Operating Programs and Services

- **Complaint Intake and Analysis** investigates and seeks resolution to citizen complaints, and restores citizen confidence where misunderstanding, error and omission have decreased confidence in government.
- Community Engagement increases public awareness of services.
- Policy Advocacy advances innovative and practical policy recommendations to resolve recurring complaints.
