Disclosure

# Background:

The City of Detroit was awarded grant fund from the U.S. Environmental Protection Agency (EPA) to establish a comprehensive city-wide particulate matter monitoring network with near real-time reporting. Data collected from the network will be used to educate Detroit's citizens and policy makers and expand network parameters while targeting areas of highest impact.

The activities covered under this subaward include community education through training and the creation and implementation of an outreach strategy to disseminate air quality data.

#### **Bid Information**

None, because this vendor is a sub-recipient of the grant funds awarded to the City.

# Contract Details:

Vendor: : The Green Door Initiative Amount: \$185,829 End Date: April 13, 2026

# Services:

Provide education, outreach, training, and community engagement for Residents on How to Utilize the Data from the Air Quality Network, Creating and Implementing Outreach Programs, and Teaching City Residents about Local, State, and Federal Environmental Policy. The Vendor will:

- Coordinate with the City for data-sharing, presenting, and reviewing air quality data at the standing quarterly meetings held in each of the 7 Detroit City Council districts.
- Train City residents in various topics including: The basics of air monitoring; The benefits of air monitoring; What we can do about air quality; Advocating for safe practices from industries in host community; and teaching residents the basics of environmental policy and becoming familiar with the roles and responsibilities of local, state and federal government.
- Help City residents create new and/or foster existing mechanisms with local government stakeholders and decision-makers to co-create solutions to improve air quality.
- Provide Quarterly Performance and Financial Reports.

# **Bid Information**

RFP opened December 24, 2024 & closed January 06, 2025. 856 Invited Suppliers. 1 Bid Received

Bids were evaluated based on Quality of the Product [20 points]; Product Approach & Work Plan [15 points]; Experience [10 points]; Software Maintenance & Support [10 points]; Pricing [10 points]. D-BB &/or D-HB Certifications of Vendor [15 points]; D-BB &/or D-HB Certifications of the Sub-contractor (if applicable) [20 points]. Max without certifications is 65 points. Max with certifications is 100 points.

# ALL Bids:

HAAS, Inc [65 points – no equalization applied]

\*\*\* HAAS Inc. is already providing this service across the country for other fire departments. They partner with Google Maps and Waze and are in talks with automakers to implement the technology. OCP/Department was unable to find other competitors in this area. Fire has done extensive research on this product and the vendor offers cloud services, gps mapping and the ability to see fire vehicles in real time.

#### Contract Details:

Vendor: HAAS, Inc
Amount: \$1,518,660

Bid: Single Bid [65 points]
End Date: 3 yrs. from approval

# Services:

Provide an Emergency Vehicle Alerting System that provides digital alerts to drivers when emergency vehicles are in their vicinity, reduce response times for emergency services, and improve overall road safety for both emergency responders and the public. Notification alerts to citizens will reduce potential for dangerous and costly collisions/accidents involving Emergency Vehicle. According to OCP, the Department has been spending from \$500,000 to \$1 million in accidents alone and more in legal costs.

The System is a mobile -to-vehicle platform that is hosted on Amazon Web Services that delivers preemptive notifications to the traveling public. Using transponders connected to the emergency light bar on safety vehicles, motorists are alerted via WAZE, Apple Maps, Dodge, Jeep, RAM, Chrysler, and Volkswagen vehicles when Emergency Vehicles are approaching, in front, or stopped within a ½ mile of the responding vehicle.

The system will provide, but not limited to:

- Vehicle-to-vehicle communication for emergency vehicles.
- Vehicle-to-vehicle Communication via transponder.
- Work with manufacturers installed GPS systems.
- Alerts to traveling public will trigger when emergency vehicle lights turn on.
- Work with satellite navigation software system.

# FIRE - Waiver Requested - continued

100% City Funding – To Provide an Emergency Vehicle Alerting System for Enhanced Driver Awareness of Approaching Emergency Vehicles. – Contractor: HAAS, Inc. – Location: 2071 N. Southport Avenue, Suite 206, Chicago, IL 60614 – Contract Period: Upon City Council Approval for a Period of Three (3) Years – Total Contract Amount: \$1,518,660.00.

#### Services – *continued:*

- Real-Time, Customizable Alerts that instantly notify nearby drivers of Emergency Vehicle presence or roadside incidents via navigation apps, in-car infotainment systems, and mobile devices within 30 seconds in advance to give them time to adjust safely.
- Works across police, fire, EMS, and other municipal fleets, and easily expandable to include additional vehicles, fleets, or departments with built-in encryption to protect transmitted data from unauthorized access
- A cloud-based website to monitor Emergency Vehicle response and will deliver metrics, data analytics, and incident reporting tools such as alerted civilian drivers, number of incidents, on-scene times, etc.

# The Vendor will provide:

- Onsite training and pilot testing.
- Maintenance & support: 24/7 monitoring and regular updates.

This contract includes an option to extend the contract term by one additional 2-year term.

All Data shall be and remain the sole and exclusive property of the City.

#### **Bid Information**

None, because this is an amendment to an existing contract for 2-year renewal option per the original agreement. This software has been used by the department for more than 10 years and was not bid out for that reason.

Chameleon, HLP is the sole source for this proprietary software. There are no other vendors or trainers that are able to provide staff and software tuning per the licensing agreement. A break in service will severely limit the department's ability to best serve the citizens and pets of Detroit, resulting in the virtual shutdown of the department. This software is utilized by the Department of Animal Care and Control.

# Contract Details:

Vendor: HLP Incorporated Amount: Add \$173,554; total \$384,984 End Date: Add 2 years; June 30, 2027

#### Services/Fees:

This Amendment is to provide for the Chameleon Software Licensing & maintenance that is used by the Department of Animal Care and Control to support animal care/control management.

This System is server-based and used by Animal Control to manage all activities at or conducted by the Detroit Animal Care and Control facilities. The System provides shelter and animal management, licensing, field operations, cashiering and veterinary record-keeping. It also includes mapping, barcoding and automation tools to create, track and provide integrated data records on people, animals, kennel operations, field operations, and related functions.

The Public also has access to review lost, found, and adoptable animals through a Contractor dedicated web portal hyperlinked on the City's website.

#### Additional Information:

6002731 was initially approved July 20, 2021 with HLP to provide Chameleon software system for \$105,750; through June 30, 2023

6002731-A1 was approved June 27, 2023 to extend the term by 2 years and add \$105,720, making the total contract amount \$211,440; through June 30, 2025.

The responsibility of animal control has been transferred from the Health Department to GSD.

Fees table is on the next page.

# Background:

The City has received funds under the Choice Neighborhoods Planning Grant (CNPG) for fiscal year(s) 2024-2027 and Community Development Block Grant (CDBG) funds for fiscal year 2024-2025 from the U.S. Department of Housing and Urban Development (HUD). The City has allocated CNPG funds to provide support for developing a Transformation Plan for the Greater Forest Park and Eastern Market neighborhoods bounded by I-75, East Warren Avenue, McDougall Street, and Gratiot. The CDBG funding will fund the implementation of the services proposed and undertaken pursuant to the Grant Agreement.

The City's goal for Choice Neighborhoods funding is to accomplish the following comprehensive goals at Diggs Homes and Forest Park Apartments: (1) determine the best financial path to provide accessible, sustainable, mixed income housing; (2) conduct a market analysis outlining the neighborhood needs and assets; (3) engage the residents of Diggs Homes and Forest Park Apartment (target site) in creating a vision and plan for making improvements to their community; and (4) bring about the development of a supportive services plan to promote improved health, education, income and employment outcomes.

The goal for the Detroit Housing Commission (DHC) will be to effectively and efficiently develop, manage, and preserve quality affordable housing. DHC is partnering with the City to revitalize the Target Site and improve the living conditions for the residents of Forest Park Apartments and Diggs Homes, a severely distressed public housing project within these boundaries

#### **Bid Information**

None, because this is a Sub-recipient Agreement with the Detroit Housing Commission.

**Contract Details:** 

Vendor: **Detroit Housing Commission** Amount: \$547,499 End Date: **September 30, 2026** 

#### Services:

Provide needs assessment at Diggs Homes and Forest Park Apartments. Upon completion of the assessment, the Parties will then develop a housing plan demonstrating affordable replacement housing for 100% of the current residents within the Target Site developments that meet HUD's standard for Choice Neighborhood communities.

The Parties will also provide housing with a range of affordability, up to 120% AMI in conjunction with market rate housing, and increase the number of housing units accessible to households with mobility, auditory and/or visual impairments. The Parties will also ensure said housing is sustainable, energy efficient, utilizing green building standard, and is eligible for LEED designation.

Additionally, the Parties will conduct an Environmental Assessment and draft response activities plan for the Target Site. They will procure a qualified Housing Implementation Entity to advance the transformation of the Target Site into mixed-income housing. To ensure that current residents of the Target Site are a

100% Grant/Choice/CDBG Funding – To Provide Choice Neighborhoods Planning Grant Subrecipient Agreement. – Contractor: Detroit Housing Commission – Location: 1301 East Jefferson, Detroit, MI 48207 – Contract Period: Upon City Council Approval through September 30, 2026 – Total Contract Amount: \$547,499.00.

#### Services – *continued:*

contributing part of the revitalization, the Parties will develop a supportive services plan connecting residents to supportive services, including but not limited to, case management, relocation and housing mobility counseling, as well as services designed to improve outcomes for households related to income and employment, health and education.

The Parties will procure an experienced Planning Coordinator to help coordinate the planning process to ensure all required activities are planned, documented, and reported to HUD at regular intervals for the duration of the grant period.

# The Vendor will:

- Work with working group to develop, publicize to Diggs Homes and Forest Park Apartment residents, conduct, and compile a survey for Household (HH) level needs & asset assessment
- Use data from the survey and assessment to identify benchmarks for health, housing stability, education, and income and employment goals that will be set as part of the Transformation Plan.
- Work with the Neighborhood Working Group to conduct a comprehensive Neighborhood-Level asset and needs (Neighborhood Market) assessment for the Greater Forest Park and Eastern Market neighborhoods that will assess existing conditions, Maps assets & anchor institutions, Assess challenges, gaps in services/ assets, and fair housing patterns.
- Facilitate resident, community, and stakeholder engagement in partnership with the Detroit Housing Commission, City of Detroit, and Diggs/Forest Park Community Advocates that shapes each aspect of the Transformation Plan and Early Action Activity including 5 Community Workshops, Youth Workshops, Resident Site Tours, and Preference Surveys.
- Support the Housing Working Group & Housing Implementation Entity to develop housing plan goals, strategies and metrics that outlines conceptual housing program options, site plan, replacement housing strategy, relocation plan, financial strategy, critical community improvements/economic development priorities, propose plan to finance, a plan for supportive services.
- Develop draft Transformation Plan in coordination with the People, Housing, and Neighborhood working groups by 4/10/26 and the Final Transformation Plan by 8/27/26 shaped by feedback from residents, stakeholders, and HUD provided on the Transformation Plan outline, which include creating video, other materials, and collateral for Transformation Plan.
- The Project Coordinator's responsibilities should include managing project milestones, supporting engagement activities, tracking budget expenditures, overseeing grant reporting and compliance, and preparing grant materials specific to DHC work on the Choice Neighborhoods Planning Grant, including:
  - Secure and procure consultant to conduct a Phase 1 Environmental Assessment for the Diggs Homes and Forest Park Apartments
- The Planning Coordinator will be procured to ensure resident services and housing team members from the Detroit Housing Commission participate actively in meetings related to the Choice Neighborhoods Planning grant for the duration of the grant term.
  - Meetings include, but are not limited to: weekly meeting with working groups, project team, community/youth workshops, and Trainings/ Technical Assistance workshops targeted toward subrecipients of City of Detroit grant funds.

# Background:

The Michigan Department of Labor and Economic Opportunity has awarded the City of Detroit Law Department with \$2,250,000 in FY 2024 Detroit Right to Counsel Grant, which will be allocated among all awarded Subrecipient(s) pursuant to this RFP to support and expand the efforts in the enforcement of the Detroit Right to Counsel (RTC) Program which includes providing legal representation to eligible Detroit residents facing eviction and/or housing instability.

# **Program Goals**

- The City aims to strengthen the awareness and education of tenants' rights, including legal representation; the availability of housing stability resources to vulnerable and disadvantaged Detroit residents.
- Proactively reach tenants prior to the initiation of any eviction legal proceeding to reduce the number of defaults for failure to appear at hearings held at 36th District Court.
- Connect tenants with other City partners, and resources for legal representation.

#### **Bid Information:**

RFP opened February 3, 2025 and closed on April 21, 2025. 144 Invited Suppliers; 1 Bid Received.

Bids were evaluated based on Experience [25 points]; Capacity [25 points]; Introduction/Approach [25 points]; Price [25 points]. Max = 100 points. This contract is grant funded, therefore local preferences and equalization credit can not be applied during the evaluation process.

#### **ALL Bids:**

**United Community Housing Coalition** [100 points]

#### Services

Provide a contract monitoring web-based software Compliance and Certification System for business-to-government (B2G) relationships called B2Gnow. This is a specialized software platform designed to facilitate the management and compliance of B2G relationships, particularly focusing on diversity and inclusion programs.

This System is a contract monitoring program that provides the City with the ability to comply with and reporting for Federal requirements under 49 CFR Parts 23 and 26. Overall, the current system serves as a critical tool in promoting equitable business practices and ensuring compliance with diversity and inclusion mandates across various sectors.

B2Gnow is widely used by public agencies, private sector companies, and educational institutions to manage their diversity, equity, and inclusion (DEI) initiatives. The primary functions include tracking vendor compliance with diversity programs, monitoring contract performance, and reporting on various aspects of supplier diversity.

#### **Key Features and Benefits**

- Automated Tracking and Reporting: Simplifies the process of tracking vendor diversity and compliance, reducing the administrative burden on organizations.
- Data Analytics: Provides insights and analytics on supplier diversity data, helping organizations make informed decisions and improve their diversity programs.
- Customizable Reporting: Allows users to generate reports tailored to specific compliance and stakeholder requirements.

• Secure and Scalable: Designed to handle large volumes of data securely, making it suitable for organizations of all sizes.

The system will provide the following:

- Baseline System & Vendor Management, includes but not limited to:
  - Staff management
  - o Vendor management, Vendor accounts & Vendor registration
  - Search, Messaging
  - Help Desk support, Secure document management, transaction template management, track communication
  - o Financial, Contract management system with Commodity codes & reporting capabilities
- Contract Compliance Module, includes but not limited to:
  - Allows organizations to manage the financial aspects of their diversity management programs including monitoring actual participation versus contract goals and capturing lower tier awards and utilization.
- Certification Management Module, including but not limited to:
  - Supports an organization's review of certification applications, including workflow and review checklists to increase standardization, and check/track the status of all pending applications of certification review.
- Online Application Module, includes but is not limited to:
  - Allows vendors to submit certification applications electronically online and gives organizations an option to completely eliminate hardcopy documentation, which reduces the time, effort, and expense required by firms to apply for certification.

The System is 100% web-based and will be created within the URL. The only requirement needed is internet access. the System must be compatible will all internet browsers and is available 24/7 from anywhere with Internet access.

Contract includes standard System software updates, system maintenance on the System, Database optimization, and system monitoring by two 3rd-party services - Alert Site & Pingdom to monitor the System's availability and performance from cities across the country

After testing is completed and the City has accepted the System and modules, the Vendor will provide training, including courses, onsite, up-to-date quick guides, manuals, online help, and ongoing training. The web-based training is included at no additional cost as part of the annual service fee.

The City retains complete ownership rights to all Data added to the System by its staff whether through manual entry or Data interfaces.

Customer Support includes Online through the system or email, phone, User training webinars, manuals and quick guides.

This contract includes an option to extend the term to 2 additional terms of 1 year.
