Fugitive Dust Plan Review Requirements

FACILITY OWNER/OPERATOR INFORMATION							
Facility Name:	Milton	Name of Company Representative(s):	Jim Greem				
Facility Address:	17131, 17191, 17239 Chrysler	City:	service drive	Detroit	State:	MI	Zip Code: 48203
Permit Issued?	Yes ☐ NO ☐		If Yes, Permit Number or Certificate of Operation?				

Buildings, Safety, Engineering and Environmental Department (BSEED) – Environmental Affairs (EA)
Fugitive Dust Plan Review Requirements outlines requirements and obligations for dust-generating community establishments, including existing and future Bulk Solids facilities. It is important to note that:

- **Sec. 8-15-582(c):** The submission of a fugitive dust plan, or revision, shall not relieve any persons subject to requirements of this ordinance from compliance with any Federal laws, State of Michigan laws, or this code, and;
- **Sec. 8-15-582 (d):** Any other law, regulation, or permit shall not relieve any person from submitting a fugitive dust plan, as required by this ordinance

Fugitive dust plans are required to be submitted to and approved by BSEED before any new construction can begin. Additionally, a community establishment shall notify the Director of BSEED in writing of changes in operation or expansions at least 30 days before the expansion or change in operation occurs.

Alternative Compliance (Sec. 8-15-593)

A community establishment will be deemed in compliance if:

- a) The community establishment is an agency or department of BSEED and has submitted a single fugitive dust plan to BSEED.
- b) The community establishment has submitted a state operating plan for the facility to BSEED, the plan is effective, and the establishment is deemed in compliance, and the community establishment is relying upon a state operating plan for compliance.
 - i. BSEED reviews state operating plan and inspects the community establishment for compliance.
- c) If the community establishment is reliant on a state permit that isn't an operating plan, the community establishment shall file the permit with BSEED with supplemental information to document compliance, and an application for alternative compliance will be registered. BSEED will issue a permit after reviewing and inspecting the community establishment for compliance.

If alternative compliance is not applicable, the requirements of a community establishment's Fugitive Dust plan are below:

FUGITIVE DUST PLAN REQUIRMENTS	PLAN IN COMPLIANCE	NOTES/ COMMENTS
<u>Sec. 8-15-582 (b) 1:</u> Name and address of community establishment (facility)	Yes No ☒ ☐	
<u>Sec. 8-15-582 (b) 2:</u> Name and address of community establishment designee (contact person)	Yes No ☒ ☐	
<u>Sec. 8-15-582 (b) 3:</u> Name and address of the owner of the property on which the premises of the community establishment resides	Yes No ☐ ☒ ☐	
<u>Sec. 8-15-582 (b) 4:</u> Name, address, and contact information of the individual responsible for the fugitive dust plan	Yes No ☒ ☐	
<u>Sec. 8-15-582 (b) 5:</u> The dates and time during which fugitive dust is expected to be generated	Yes No ☐ ☒ ☐	
<u>Sec. 8-15-582 (b) 6:</u> A site map, drawn to scale, that depicts: a) Community establishment boundaries b) All buildings, internal roadways, and utilities on community establishment property c) All roadways and transportation corridors within one quarter mile of the perimeter of the community establishment that are used for transport of material to or from community establishment	Yes No ☒ ☐	

d) All potential emissions points at the community establishment e) Locations of posted speed limit signs		
Sec. 8-15-582 (b) 7: A full and detailed description of the community establishment's operations which are expected to generate fugitive dust	Yes No ☒ ☐	
Sec. 8-15-582 (b) 8: A full and detailed description of the control measures, devices, and technologies to be used to minimize and control fugitive dust opacity	Yes No ☒ ☐	
Sec. 8-15-582 (b) 8: A description of how all control measures, devices, and technologies will be maintained and calibrated	Yes No ☒ ☐	
Sec. 8-15-582 (b) 8: A description of the training provided to staff regarding the proper application and operation of the control measures, devices, and technologies onsite.	Yes No ☐ ☒	Will you provide training on Dust remediation/suppression? please state that training will be provided.
Sec. 8-15-582 (b) 9: A fugitive dust plan that describes the schedule and plan for testing to ensure compliance with the prohibition of fugitive dust *Note: testing must be conducted by a professional trained and certified to read opacity in accordance with EPA Method 9D, and testing must be conducted during a range of weather events to ensure representative conditions at community establishment are covered	Yes No ☐ ☒	Will you have a certified professional trained in the EPA Method 9D testing, how often (as needed)?
Sec. 8-15-582 (b) 9: A contingency plan describing the community establishment's proposed response when fugitive dust exceeds reportable action level (i.e., opacity measurements). *Note: A contingency plan and response activities should consist of a range of increasingly aggressive measures appropriate to different levels of exceedance	Yes No ☐ ☒	What is your plan if dust exceeds action level? such as: Discontinue use of test track during high winds and /or wetting the test track

<u>Sec. 8-15-582 (b) 9:</u> A description of the community establishment's recordkeeping system, which shall include a schedule for routine inspection, testing, and maintenance.	Yes No ☒ ☐	
<u>Sec. 8-15-582 (b) 9:</u> Other information as the Buildings, Safety, Engineering and Environmental Department (BSEED) may require	Yes No ☒ ☐	
<u>Sec. 8-15-582 (b) 9:</u> A fact sheet or executive summary of the fugitive dust plan designed to inform the public of the community establishment's plan to minimize fugitive dust.	Yes No ☐ ☒	Please state you will have a facts sheet or a copy of this plan on site.
