

WE NEED YOUR FEEDBACK!

Join the Detroit Water & Sewerage Department (DWSD) to tell us what you want to see in your neighborhood to help reduce flooding

What is the Meeting About?

The Detroit Water and Sewerage Department (DWSD) is conducting a study to develop a strategy to reduce basement backups and street flooding while creating community amenities on the east side.

Last spring, DWSD hosted community meetings to share ideas and gather feedback.

Join us at the upcoming community meetings to review ideas and share your thoughts on various stormwater management options. Your feedback is important!

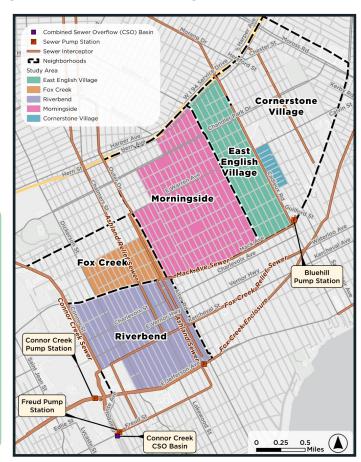

Two meeting options are available. Both meetings will feature the same presentation and engagement activities.

Meeting Options

Thurs., Oct. 16, 2025 at 6 p.m.
Eastside Community Network (ECN)
4401 Conner St.

Mon., Oct. 20, 2025 at 5:30 p.m.
Terri's Cakes
