

ShotStoppers: Community Violence Intervention Year in Review

**Opportunity
Rising**

August 1, 2024 to August July 31, 2025

Focuses of CVI Work in Year Two

While each group's strategy varies, several key themes include:

- Conflict Mediation: identifying conflicts at risk of turning violent and using credible messengers to mediate
- Wraparound Services: connecting at-risk individuals to services to change their direction and provide alternatives to involvement in crime
 - Examples: training to reduce impulsive decision-making, mental health therapy, workforce development, social services, and emergency financial assistance
- Community Outreach: Mobilizing local community to change social norms on the use of violence

Data Highlights from Year Two: Aug 2024 - July 2025

Detroit ShotStoppers, Community Violence Intervention (CVI)

- ✓ CVI uses evidence-based, community-driven strategies to **prevent and interrupt violence by establishing relationships with people involved in or affected by violence in the community**
- ✓ ShotStoppers community groups are responsible for & held accountable for 4 – 5 square mile CVI Zones where they propose and execute tactics to **reduce violence** in those neighborhoods
- ✓ CVI Zones have seen a **44% reduction in non-fatal shootings** and a **38% reduction in homicides**
- ✓ Tactics include violence interruption, conflict mediation, community outreach, and wraparound services
- ✓ ShotStoppers groups have provided over **22k services** and **62k staff service hours**
