Proposed January 26, 2026 Service Changes

For routes that currently operate on a uniform daytime frequency (AM peak through PM peak), DDOT is proposing an incremental reduction in midday frequency between approximately 9:00AM and 2:00PM.

Potential routes for the midday frequency reduction are:

- 1 – Vernor
- 3 – Grand River
- 6 – Gratiot
- 7 – Seven Mile
- 9 – Jefferson
- 10 – Greenfield
- 16 – Dexter
- 17 - Eight Mile
- 32 - McNichols

Proposed January 26, 2026 Service Changes

With these changes, DDOT:

- Will have more vehicles on-hand for the early afternoon.
- May see increased afternoon On Time Performance.
- Can better prepare for the addition of PM Peak runs mid-afternoon.

These changes are a temporary measure for most of the routes listed to stabilize reliability.

Please notify a member of DDOT staff, either via customer service or a future Community Input Meeting, if you observe any overcrowding as a result of the reduced service frequencies.

January 26, 2026 Proposed Dexter Reroute

Current Routing via:

Livernois → Puritan → Belden

Proposed Routing via:

Livernois → McNichols → Fairfield → Puritan → Belden

Proposed routing is a reversal of the June 2025 routing change.

Before deciding, DDOT will consider public input as well as the results of a before-and-after segment ridership study and a safety evaluation that are underway.
