(2) The building or use can provide at least 80 percent of the required off-street parking spaces;

then, upon request of the petitioner and in conjunction with the Municipal Parking Department and the Department of Public Works Traffic Engineering Division, the Department may grant a waiver of the off-street parking requirements, not exceeding ten parking spaces or 20 percent of the required off-street parking requirement, whichever is less. Such waiver shall not be granted unless, in the judgment of the Buildings, Safety Engineering, and Environmental Department, with the sign-off of the Municipal Parking Department and the Department of Public Works Traffic Engineering Division, the waiver of the parking requirement for the building or use involved is not injurious to the adjacent or surrounding areas by creating or increasing traffic congestion or by disrupting traffic circulation, provided, that, in those instances where a building or use is subject to site plan review, the Planning and Development Department has sole authority to consider such waiver.

(b) Traditional Main Street Overlay Areas.

a. The use must be listed in any of the following:

(i) Section 50-12-62 of this Code;

(iii) Section 50-12-70 of this Code, excluding any use with drive-up or drive-through facilities.

b. New buildings must comply with all Traditional Main Street Overlay standards, as specified in Section 50-14-432 through Section 50-14-450 of this Code, except that within the East Warren and West Warren Traditional Main Street Overlay Areas and the portion of the Grand River/Lahser Traditional Main Street Overlay Area between Greenfield and Woodmont and between Evergreen and Lahser, and the Van Dyke Traditional Main Street Overlay Area, new uses in existing buildings may be eligible for this waiver if the building complies with only the following standards from Division 3, Subdivision C of this article:

(i) The front facade of the building must be located on the lot line facing the Traditional Main Street or set back a maximum of ten feet, in accordance with the standards in Section 50-14-432 of this Code.

(iii) The building's active entry way must be located on the facade facing the Traditional Main Street, in accordance with the standards in Section 50-14-439 of this Code.

d. In the case where one building or development contains multiple retail, service, or commercial uses, the total number of spaces that may be waived for a building or development using this waiver shall not exceed 45 spaces.

(c) **SD1/SD2 Districts.** In addition to the parking waiver for buildings under 3,000 square feet per Section 50-14-7(a)(3) of this Code, in SD1 and SD2 Districts, the Planning and Development Department may grant a waiver of the off-street parking requirements for the first 3,000 square feet of pedestrian-oriented retail, service, or commercial uses upon its determination that the waiver will not be injurious to the adjacent or surrounding areas by creating or increasing traffic congestion or by disrupting traffic circulation. In the case where one building or development contains multiple retail, service, or commercial uses, the total number of spaces that may be waived for a building or development using this waiver shall not exceed 45 spaces.

(d) **Uses established through adaptive reuse or tactical preservation.** The required parking is reduced by 50 percent for uses established through the adaptive reuse of eligible existing buildings, in accordance with Section 50-12-138 of this Code, or through tactical preservation, in accordance with the administrative procedures authorized by Section 50-4-43 of this Code. Parking may be provided at a distance of up to 1,320 feet where a "district approach" to parking, as provided in Section 50-14-7(a)(2), has been recognized by the Planning and Development Department. The provisions of this section also apply to any new residential construction on the same zoning lot as a building formerly used for a public, civic, or institutional purpose.
