Overall Progress Narrative:

The U.S. Department of Housing and Urban Development (HUD) awarded the City of Detroit, Housing and Revitalization Department \$95,228,000 in Community Development Block Grant- Disaster Recovery (CDBG-DR) funding to support long-term recovery efforts following the 2021 Presidential Major Disaster Declaration (federal disaster declaration FEMA#4607-Michigan Severe Storms, Flooding, and Tornadoes).

This Quarterly Performance Report (QPR), due January 30, 2026, summarizes the progress of the City of Detroit CDBG-DR Program for October 1- December 31, 2025. The City of Detroit has made progress towards implementing the Disaster Recovery Program.

- On-boarded Administrative Staff
- 2 CFR 200 Sub-part A-E course
- Substantial Action Plan and Public hearing meetings were held on December

amended by Memorandums 25-021 and 25-032 (the “Universal Notice”). The waiver was approved on November 19, 2025. This waiver and alternative requirements will reduce administrative burden by aligning the requirements applicable to the City’s CDBG-DR funds for a disaster occurring in 2021 with the Universal Notice’s requirements that apply to the City’s CDBG-DR allocation for a disaster occurring in 2023.

Narrative: The Cass Community shelter bed project was granted City Council approval this quarter and architectural drawings completed. The project currently is in the general contractor procurement stage.

B-21-MF-26-0002	\$ 0.00	\$ 45,699,450.00	\$ 0.00	\$ 45,699,450.00	\$ 0.00	\$ 0.00
-----------------	---------	------------------	---------	------------------	---------	---------

Narrative:

Various Housing projects are outlined within the Action Plan, key highlights for those projects are included below.

Key Highlights for Private Sewer Repair Program

- More than 300 new applications were submitted through the Neighborly portal.
- 122 applications were approved this quarter, bringing the total approved households to more than 1145.
- Staff completed Duplication of Benefits training online.
- 120 homes completed repairs this quarter, with a cumulative total of 1150 homes repaired since program launch.
- Private Sewer Repair Program quarterly spend down on construction \$2,515,142.40

Applications received: 370
Applications were incomplete: 113
Applications were denied: 192

Beneficiaries Performance Measure

Total # Owner Households: 121
Total # Renter Households: 1
Female Head of Household: 80
Total # Properties Completed: 120

Communication

- GovDelivery email and text
- Department of Neighborhood Meetings
- City Council District Meetings
- Mailers
- Social Media
- Website

The website provides program details such as eligibility criteria, necessary documentation for applications, frequently asked questions (FAQs), and the program guidelines. Website: www.detroitmi.gov/CDBG-DR-PSRP and email: PSRP@detroitmi.gov

Outreach:

The PSRP team facilitated 60 intake sessions held on Tuesday, Wednesday, Thursday and Saturday at various locations throughout Districts 3, 4, 5, 6, and 7 from October 1, 2025, to December 12, 2025. More than 1,000 program mailers were distributed to the impacted addresses throughout all Districts. The team also attended a virtual Department of Neighborhoods meeting for all Districts attended by more than 100 residents to bring awareness to the program.

Activity Description:

This activity represents costs associated to the City of Detroit administration of the CDBGDR award. It includes payroll costs for staff working on aspects of the CDBG-DR program including but not limited to general grant management, compliance, reporting, data analysis, budget, and development of the online system of record.

Location Description:

Activity Progress Narrative:

During this reporting period, the City of Detroit utilized administrative funding for overall program administration and oversight. Activities include

- Procurement Planning
- Accounting and Financial Management for Community Development Systems Disaster Recovery Grant Reporting System (DRGR)
- DRGR record-keeping
- Grant Management
- Outreach to develop and amend the Action Plan
- Monitoring of Program Files
- Personnel/ Human Resources activities
- Staff and contracted services for the above activities
- Designing CDBG-DR System of Record (Neighborly)

Activity Description:

The CDBG-DR Private Sewer Repair Program is designed to reduce basement backup and flooding. The City will use CDBG-DR funds to run a closed-circuit television inspection (CCTV) of the private lateral sewer service line, and if needed, repair or replace private lateral sewer lines and install new backwater valves. Funding will be used to replace furnaces and water heaters if they are determined to be damaged by the Flood during the inspection process. The City will make grants available to eligible homeowners and make forgivable loans available to property owners renting to eligible tenants.

- Clean and inspect the private lateral sewer line.
- Repair or replace private lateral sewer and install cleanout.
- Install backflow water valve on private lateral sewer.
- Install backflow water valve and sump pump with overflow.
- Disconnect downspout and install extension, where possible to a proper place of disposal.

Funding will also be used to replace furnaces or water heaters damaged by the flood on a case-by-case basis.

The property must be in one of the following neighborhoods:

Grandmont #1, Crary/St. Marys, Cadillac Community, Evergreen-Outer Drive, Hubbel-Lyndon

Location Description:

District 1: Grandmont #1, Crary/St. Marys, Cadillac Community, Evergreen-Outer Drive, Hubbel-Lyndon

Activity Progress Narrative:

During the quarter ending December 31, 2025, seven (7) households received private sewer repair service.ﷲﷲﷲ

Activity Description:

The CDBG-DR Private Sewer Repair Program is designed to reduce basement backup and flooding. The City will use CDBG-DR funds to run a closed-circuit television inspection (CCTV) of the private lateral sewer service line, and if needed, repair or replace private lateral sewer lines and install new backwater valves. Funding will be used to replace furnaces and water heaters if they are determined to be damaged by the Flood during the inspection process. The City will make grants available to eligible homeowners and make forgivable loans available to property owners renting to eligible tenants.

- Clean and inspect the private lateral sewer line.
 - Repair or replace private lateral sewer and install cleanout.
 - Install backflow water valve on private lateral sewer.
 - Install backflow water valve and sump pump with overflow.
 - Disconnect downspout and install extension, where possible to a proper place of disposal.
- Funding will also be used to replace furnaces or water heaters damaged by the flood on a case-by-case basis.

The property must be in one of the following neighborhoods:

District 6: Midwest, Chadsey-Condon, Claytown, North Corktown, Michigan-Martin, Corktown, Core City

Location Description:

District 6: Midwest, Chadsey-Condon, Claytown, North Corktown, Michigan-Martin, Corktown, Core City

Activity Progress Narrative:

During the quarter ending December 31, 2025, seven (7) households received private sewer repair service.ﷲﷲﷲ

Activity Progress Narrative:

During this reporting period, HRD utilized funding for Private Sewer Repair Program activities which include the following costs:

•

- Processing PSRP applications for assistance
- PSRP Environmental Review
- PSRP construction oversight
- Contractors' Invoices
- Marketing and outreach to applicants and contractors for a specific activity
- Applicant intake
- PSRP monitoring, oversight, and management
- Activity-specific staff and contracted services
- Maintaining PSRP policies and procedures
- Cost associated with travel and training

Activity Description:

Master Plan Policy: Resiliency, Sustainability, Hazard Mitigation, and Disaster Recovery
The CDBG-DR planning funds will fund resiliency planning and integration of the City’s resiliency, sustainability, disaster recovery, and hazard mitigation efforts into the City’s Master Plan of Policies, which is Detroit’s comprehensive community development plan (42 U.S.C. 5305(a)(12). “Integrating hazard mitigation and resilience planning with recovery efforts will promote a more resilient and sustainable long-term recovery”

Location Description:

Activity will take place at Coleman A Young Municipal Center, 2 Woodward Ave.

Activity Progress Narrative:

During this reporting period, the Technical Team began drafting land use recommendations (“Place Types”) and refined the methodology for using data from the Land Use Analysis and Opportunity Index to create a first draft of the Place Types Map. The Team also helped draft final goals, initial policies, and several chapters of the final Master Plan document. PDD hosted three (3) public meetings—one on the West side, one on the East side, and one in Southwest—in December to introduce the concepts of Place Types to Detroit residents. The Technical Team assisted with strategy and content for these meetings. In addition, we continued to plan for upcoming district-by-district engagement where we will introduce the Place Types Map to the public.”

reduce the long-term impacts of climate change by identifying extreme weather exposure and vulnerabilities and develop preparedness and adaptation guidance, actions and policies. As described in the Action Plan, Detroit's aging infrastructure and older housing stock exacerbates the devastating impacts of extreme weather events, particularly on vulnerable communities. As these events become more frequent, city operations, businesses and residents will need to be better prepared and adapt to withstand these new climate conditions. As described in the Action Plan, the flood events of 2021 resulted in devastating impacts and a series of unmet needs which the planning study will further study. For hazards, like flooding, that are challenging to mitigate, the best course of action is to prepare and adapt to improve recovery time and overall resilience. The planning effort will integrate the creation of coordinated preparedness plans by hazard for City operations and communication. The planning effort will leverage existing plans and update them in accordance with best practices. The outcome of this effort is intended to operationalize the extreme weather responses through SOPs and communications that will safeguard those at risk and improve recovery time after an extreme event.

Location Description:

Activity will take place at Coleman A Young Municipal Center, 2 Woodward Ave.

Activity Progress Narrative:

During this quarter, a presentation outlining the use case for Resilience and Adaptation Planning was completed and shared for initial socialization with relevant departments. In addition, development of the RFP draft was formally initiated. The drafting of the RFP has been rescheduled to Q2 2026, representing a milestone date change from the previous reporting period.

Community Engagement and Preparedness

During this quarter, we coordinated with Recreation Center staff to plan upcoming staff trainings.

Activity Description:

The stormwater study would evaluate the reduction in stormwater entering the combined system, which would allow additional system capacity for the eastside neighborhoods, one of the greatest impacted neighborhoods. The preliminary engineering analysis will evaluate the impact to converting a combined relief sewer to a stormwater sewer within the district to reduce the stormwater from entering the combined system. Additionally, the study will evaluate the water quality improvements to the Detroit River through CSO reductions and in-system surcharge reductions. The City is vulnerable to basement backups due to increased rainfall intensity and the limited capacity of the combined system pipe network.

Location Description:

Detroit Water and Sewerage Department 735 Randolph Street building 1st floor, Detroit

Activity Progress Narrative:

During this reporting period, the Fischer/Meldrum project team, consisting of DWSD, OHM, and ASI held monthly meetings on October 30th and November 24th. During this period, ASI introduced their initial preliminary concepts for the Fischer and Meldrum districts. After continued discussion, public outreach was removed from the project scope, with the remaining funds dedicated to this work being reallocated to additional flow monitoring this Spring to better inform preliminary concepts and model calibration. Due to the holiday season, the next monthly meeting was scheduled for January 5th.

would evaluate the reduction in stormwater entering the combined system, which would allow additional system capacity for the eastside neighborhoods, one of the greatest impacted neighborhoods. EGLE has identified the City of Detroit as a significantly overburdened community as the City's median average household income and/or taxable value is less than 125% of the poverty level for a family of four (\$34,687) or the taxable value per capita for the community is less than \$15,200. The cost to treat stormwater at the GLWA WRRF is a high expenditure cost to the City that can be reduced by creating a storm sewer pipe network that directs discharges of stormwater to the Detroit River instead of being treated at the GLWA WRRF. This cost-saving would benefit the residents of the City of Detroit. The preliminary engineering analysis will evaluate the impact of converting a combined relief sewer to a stormwater sewer within the district to reduce the stormwater from entering the combined system. The majority of the stormwater runoff will be redirected into the new storm sewer pipe network, improving the capacity of the local DWSD and GLWA combined system downstream of the project area. Additionally, the study will evaluate the water quality improvements to the Detroit River through CSO reductions and in-system surcharge reductions. The surcharge reductions will be checked in modeling software and translated to basement backup risk reductions. The City is vulnerable to basement backups due to increased rainfall intensity and the limited capacity of the combined system pipe network. The project will be led by DWSD and closely coordinated with GLWA.

Location Description:

Detroit Water and Sewerage Department 735 Randolph Street building 1st floor, Detroit

Activity Progress Narrative:

During this reporting period, the project team finalized the Near East Side Jos Campau Stormwater Study Procurement Documents and coordinated with the HRD team to establish a pre-proposal schedule. One pre-proposal meeting was held on Dec 2nd with 4 separate companies in attendance. Several technical questions were resolved, however due to an insufficient number of bids, the project team decided to extend the bidding due date to January 23rd. The second pre-proposal conference was scheduled for January 12th. Also, during this time, the bid evaluation team was established, with 4 representatives from HRD, PSMG and the DWSD Modeling teams selected to review bids and determine the most qualified bidder.

the public sewer mains. Public sewers are owned and maintained by the City. These lines normally parallel to alleys, streets, and publicly owned easements. The sinkholes are most often caused by a collapse in the City sewer main and a failing connection of the city sewer main to the private sewer lateral.

2021 flooding. The grant funds will allow recipients to improve public facilities that will directly benefit vulnerable populations. The program defines public facilities as projects that improve emergency shelters owned by nonprofits that are open to the public and receive referrals from Detroit's Coordinated Assessment Model (CAM). Funding and Program guidelines will further define eligible projects for applicants. Mitigation funds are included in the public facilities budget and will be used to support improvements to facilities that were not directly impacted by the flood event.

benefit vulnerable populations. The program defines public facilities as projects that improve emergency shelters owned by nonprofits that are open to the public and receive referrals from Detroit's Coordinated Assessment Model (CAM). Funding and Program guidelines will further define eligible projects for applicants. Mitigation funds are included in the public facilities budget and will be used to support improvements to facilities that were not directly impacted by the flood event.

Location Description:

Activity Progress Narrative:

The PFR DR NOFA for emergency shelters was closed this quarter. Scoring for this NOFA is ongoing and should be completed this month. The expectation is that several awards will be made from this NOFA. This NOFA may also be released again as funding allows.
