**To: Honorable Detroit City Council**  
 Neighborhood Advisory Councils  
**From: Anthony Zander, Director, Civil Rights, Inclusion and Opportunity Department**  
**Date: 2025**  
**Re: Community Benefits Ordinance Biannual Report for Lafayette West**

The Civil Rights, Inclusion, and Opportunity (CRIO) Department has been given the responsibility of monitoring the Community Benefits Ordinance. The report details the developer's compliance with each Community Benefits Provision (CBP) commitment.

**Lafayette West** project currently has **0** of their commitments **"Off Track"**.

Below, you will find a key to reference when reviewing "Status Update" and the total number of CBP commitments in each specific status

Status Update	Explanation	Commitments
	On Track- Actions taken towards satisfying commitment	39
	Off Track-Commitment not fulfilled	0
	Off Track but Compliance Plan Submitted	0
	Not Started- No action taken	1
	Additional information requested	0
Completed	Commitment fulfilled	15
<b>Total Commitments</b>		<b>55</b>

Respectfully,

Anthony Zander

Director, CRIO

Conrad Mallett

Corporation Counsel

**Biannual Community Benefits Report**

**Project Name/Location:** Lafayette West/1401 Rivard Street, Detroit MI 48207

**Agreement Approval Date:** April 16, 2018

**Developer Name/Address** Lafayette Acquisition Partners, LLC / 7457 Franklin Road Suite 200 Bloomfield Hills, MI

	Commitment	Findings	Status	City Department
<b>1.1 Construction Times</b>				
1.	The standard construction schedule for the Project will be 7 a.m.-5 p.m. on weekdays, with Saturdays only being worked as necessary.	Phase 1 of the project is complete and further construction is on hold. Throughout the Phase 1 Process, the Developer adhered to this provision. When construction needed to occur outside of these parameters' notices were provided. Construction is currently on hold, but the Developer intends to		<b>Buildings, Safety Engineering and Environment Department</b>

12.	The City will be engaging with residents to garner further input on updates to the ordinance; specifically with those neighborhoods, such as Lafayette Park, where permitted parking has been a request. Developer will ensure that the Project complies with any such updates to the ordinance.	Residential Parking Ordinance was approved by Council. Lafayette Park residents must submit an application and petition to opt in. The Developer intends to support in any way but there is a process that the community must participate into implement the program.		<b>Planning and Development Department</b>
13.	Developer will support any petition related to designating the block faces along Rivard and the Chrysler Service Drive to be designated as a Residential Permit Parking Area.	No petition has been filed.		<b>Department of Neighborhoods Municipal Parking Division</b>
14.	Developer will enforce parking along the planned Nicolet and Lafayette Plaisance private streets within the Project.	The Developer instructed all trades during Phase 1 that no parking is allowed on private streets. Developer accommodated most of its trades parking and material deliveries to occur within the site boundaries.		<b>Department of Neighborhoods</b>

FAX: 313.224.3434

15.	Project qualifies for a 0.75:1 parking ratio for the multi-family rental dwellings to be constructed at the Project. To the extent that the total Project budget is increased by \$2 Million over the initial estimated Project budget of \$111.8 Million and as a last resort in mitigating construction costs, Developer may lower the above references parking ratios to accommodate Project feasibility, so long as Developer is compliant with the law and documentation to the NAC evidencing the construction costs increases and other attempts to defray those costs have been attempted by Developer. Notwithstanding anything to contrary contained herein, the parking ratio for the Project shall not fall below 0.75 cars per dwelling unit for the entire project.	The parking ratios are 0.90 spaces per unit which is above the qualified 0.75. The overall cost of the project has increase by \$2 Million over the estimated budget, allowing developer to lower the parking ratios to accommodate project feasibility. The Developer will be providing 276 parking spaces per CBO Amendment No. 1 approved by City Council on June 1, 2021.		<b>Buildings, Safety Engineering and Environment Department</b>  <b>Planning and Development Department</b>
<b>3 Traffic and Road Closure Impacts</b>				
16.	Developer will not, at any time, cause the total closure of Rivard unless such a closure is required for utility connections related to the Project. In the event a total lane closure of Rivard is necessary, Developer will do everything possible to minimize any potential disruption, including scheduling and paying for overtime work.	There were partial closures from January 2022 through February 2022 to facilitate utility installation. There has not been any additional closures.		<b>Department of Public Works</b>

51.	Developer will schedule one weed trimming to ground level by mid-October 2018 and a second before demolition some time in 2019, if necessary. Additional weed control measures will be provided by Developer in the event that demolition and/or construction continues past the Spring of 2019.	Weed control was implemented in 2018, 2019, 2020 and 2021 completing the provision.	Complete	<b>Department of Neighborhoods</b> <b>Buildings, Safety Engineering and Environment Department</b>
52.	Developer will install a securely tie down, typical construction-type cover over the fencing at the Project.	A fence cover was installed and remains securely tied down through the construction period. Construction is currently on hold but the unconstructed portions of the development are still fenced off.		<b>Department of Neighborhoods</b> <b>Buildings, Safety Engineering and Environment Department</b>
53.	Developer will make best efforts to recycle construction waste and debris, including recycling of the materials from the demolished building	The Developer intends that the contractor will be required to maintain a waste removal program, which will include recycling of construction debris. Majority of the construction waste, debris and materials were recycled.  All subcontractors are responsible to clean and recycle any waste materials.		<b>Department of Neighborhoods</b> <b>Buildings, Safety Engineering and Environment Department</b>

		Construction is currently on hold but CRIO will continue to monitor this provision when work resumes.		
<b>10 Site Design</b>				
54.	During the CBO Process, the Project was presented by the Developer to the NAC and the community with specific design standards, including certain specific design and architecture models. Developer shall adhere to and uphold such design standards in the construction of the Project. Should the site design, layout or design standards that were presented by developer during the CBO Process need to materially and/or substantially change, such changes shall not be made until and unless they are approved by the City's Planning and Development Department	<p>Several meetings were held with the City's Planning and Development Department beginning on February 24, 2021, regarding proposed changes to the Site Plan. Said changes were presented to the Neighborhood Advisory Committee on April 7, 2021. With the support of the NAC and PDD a revised Site Plan was submitted to BSEED which was approved with conditions on May 5, 2021, including variances to be addressed by BZA. The variance was approved by BZA on June 8, 2021.</p> <p>All of the above was incorporated into Amendment Number 1 of the CBO which confirmed that these changes were in compliance with the CBO. This</p>		<p><b>Department of Neighborhoods</b></p> <p><b>Buildings, Safety Engineering and Environment Department</b></p> <p><b>Planning and Development Department</b></p>

		amendment was approved by City Council on June 1, 2021		
55.	<p>Developer shall adhere to and uphold to the design and design standards presented during the CBO Process, included but not limited to:</p> <p>a. Developer will not include any interior ground level parking visible from the street. Any parking spaces that are at the ground level should have a residential/retail liner at the street front.</p> <p>b. neighborhood amenities.</p> <p>c. architectural style compliments the historic neighborhood of Lafayette Park and maintains a balance of different architectural styles within the Project.</p> <p>d. Materials stay consistent with proposed design intent.</p> <p>e. Maintain the urban streetscape while also providing complementary landscaping to the adjacent properties in Lafayette Park.</p>	<p>a. Developer has not included any interior ground level parking visible from the street</p> <p>b. Developer has included neighborhood amenities in the project design. Those amenities include a dog-wash station, bicycle repair station, and a fitness center. Given the impacts of COVID-19, the fitness center may be modified or changed to another use and the neighborhood's access to that new use will be reviewed at the appropriate time.</p> <p>c. The Design Plan does consist of an architectural style that compliments the historic neighborhood of Lafayette Park</p> <p>d. The site plan has been modified. Modifications are necessary to achieve a financially feasible project, however materials are more of a variety.</p> <p>e. The Design Plan does include complementary landscaping.</p>		<p><b>Buildings, Safety Engineering and Environment Department</b></p> <p><b>Planning and Development Department</b></p>
