PO Box 702068
Livonia, Michigan 48170

Attention: Lisa Ebere
Reference: Dino-Mite Crushing & Recycling
2026 Q1 Visual Emissions Compliance Testing

Dear Ms. Ebere,

Natural Resources Management, LLC (NRM) has conducted visual emissions testing to satisfy the required quarterly testing using Method 9D in accordance with City of Detroit's Bulk Solid Materials Ordinance (Sec 42-2-177).

NRM's Ms. Alyssa Beall conducted the visual emissions testing at the above-referenced facility on March 23, 2026. Ms. Beall is a qualified visible emissions evaluator.

NRM was able to test visible emissions from six (6) locations on the property. The locations were selected to cover high-traffic areas, storage piles, and the entrance to the property. A map of the testing locations is attached to this letter.

Emissions controls included spray bars located at the crusher intake and the crusher output conveyor, an area mister located near the crushing plant, a water truck to keep roadways wet, and a sweeper.

The visible emission observation forms for each of the emissions points are attached to this report. The three (3) minute averages for each emission point are located in the comments section of the attached observation form. We trust this report satisfies the required quarterly emissions testing.

Sincerely,

A handwritten signature in black ink that reads "Alyssa Beall". The signature is written in a cursive, flowing style.

Alyssa Beall, Geologist
Natural Resources Management, LLC
