DEPARTMENTAL REFERENCE COMMUNICATION

Monday, September 17, 2018

To: *The Department or Commission Listed Below*

From: *Janice M. Winfrey, Detroit City Clerk*

The following petition is herewith referred to you for report and recommendation to the City Council.

In accordance with that body's directive, kindly return the same with your report in duplicate within four (4) weeks.

MAYOR'S OFFICE DPW - CITY ENGINEERING DIVISION
PLANNING AND DEVELOPMENT DEPARTMENT POLICE DEPARTMENT
FIRE DEPARTMENT BUSINESS LICENSE CENTER

529 *Quicken Loans Inc, request to hold "Client Relations Operations Pep Rally" on September 27, 2018 from 5:00 PM to 8:00 PM at Comeica Field Parking lots with set up to begin on 9/25/18 and tear down complete on 9/28/18*

200 Coleman A. Young Municipal Center • Detroit, Michigan 48226-3400
(313) 224 3260 • Fax (313) 224-1466

City of Detroit Special Events Application

Successful events are the result of advance planning, effective communication and teamwork. The City of Detroit will be strictly adhering to the Special Events Guidelines; please print them out for reference. Petitioners are required to complete the information below so that the City of Detroit may gain a thorough understanding of the scope and needs of the event. This form must be completed and returned to the Special Events and Film Handling Office at least **60 days** prior to the first date of the event. If submitted later than 60 days prior, application is subject to denial. Please type or print clearly and attach additional sheets and maps as needed.

Section 1- GENERAL EVENT INFORMATION

Event Name: Client Relation Operations Pep Rally

Event Location: Comerica Parking Lots (Lot 1 & Lot 2)

Is this going to be an annual event? ☐ Yes ✠ No

Section 2- ORGANIZATION/APPLICANT INFORMATION

Organization Name: Quicken Loans INC.

Organization Mailing Address: 1050 Woodward Ave. Detroit MI48226

Business Phone: (313) 373-0093 Business Website: QuickenLoans.com

Applicant Name: Becky Glynn

Business Phone: (313) 373-0093 Cell Phone: (313) 820-5451 Email: BeckyGlynn@QuickenLoans.com

Event On-Site Contact Person:

Name: Becky Glynn

Business Phone: (313) 373-0093 Cell Phone: (313) 820-5451 Email: BeckyGlynn@QuickenLoans.com

Event Elements (check all that apply)

[ ] Walkathon	[ ] Carnival/Circus	[ ] Concert/Performance
[ ] Run/Marathon	[ ] Bike Race	[ ] Religious Ceremony
[ ] Political Event	[ ] Festival	[ ] Filming
[ ] Parade	[ ] Sports/Recreation	[ ] Rally/Demonstration
[ ] Convention/Conference	[ ] Fireworks	[X] Other: Private Corporate Event

Please provide a brief description of your event:

This will be an appreciation event for our Client Experience Operations department of the company. This is a private event for this area of the business. Food, Alcohol, and non-alcoholic beverages will be served through Olympia Catering. There will be large tents on site (two (2) 60x210 & one (1) 60x90) provided by Wahl Tents. American Rental will be providing five (5) 20x20 tents for the catering staff.

What are the projected set-up, event and tear down dates and times (must be completed)?

Begin Set-up Date : 9/25/18 Time: 8:00am Complete Set-up Date: 9/26/18 Time: 6:00pm

Event Start Date: 9/27/18 Time: 5:00pm Event End Date: 9/27/18 Time: 8:00pm

Begin Tearing Down Date: 9/27/18 Complete Tear Down Date: 9/28/18

Event Times (If more than one day, give times for each day):
9/27/18 from 8:00pm – 11:00pm & 9/28 from 8:00am – 6:00pm

Section 3- LOCATION/SITE INFORMATION

Location of Event: Comerica Lots 1 & 2

Facilities to be used (circle): Street Sidewalk Park City Facility

Please attach a copy of Port-a-John, Sanitation, and Emergency Medical Agreements as well as a site plan which illustrates the anticipated layout of your event including the following:

-Public entrance and exit
-Location of merchandising booths
-Location of food booths
-Location of garbage receptacles
-Location of beverage booths
-Location of sound stages
-Location of hand washing sinks
-Location of portable restrooms
-Location of First Aid
-Location of fire lane
-Proposed route for walk/run
-Location of tents and canopies
-Sketch of street closure
-Location of bleachers
-Location of press area
-Sketch of proposed light pole banners

Section 4- ENTERTAINMENT

Describe the entertainment for this year's event:

DJ, Drumline, Cheerleaders, inflateable slide, (2) inflatable tugga touchdown, inflatable field goal game, Cornhole, and coloring wall

Will a sound system be used? ☐ Yes ☐ No

If yes, what type of sound system? External sound system

Describe specific power needs for entertainment and/or music:
Speaker system for DJ, microphone, and 8 TV monitors

How many generators will be used? 1 unit

How will the generators be fueled? Electric powered/85 kVA Generator

Name of vendor providing generators:

Premier Event Technology

Contact Person: Adam Martin

Address: 15630 Michigan Ave Phone: (248) 230-2640

City/State/Zip Dearborn, MI 48126

Section 5- SALES INFORMATION

Will there be advanced ticket sales? ☐ Yes ☐ No
If yes, please describe:

Will there be on-site ticket sales? ☐ Yes ☐ No
If yes, list price(s):

Will there be vending or sales? ☐ Yes ☐ No
If yes, check all that apply:

[ ] Food [ ] Merchandise [ ] Non-Alcoholic Beverages [ ] Alcoholic Beverages

Indicate type of items to be sold:

Section 6- PUBLIC SAFETY & PARKING INFORMATION

Name of Private Security Company: Olympia Entertainment Inc. Security

Contact Person: Johnny Jackson

2525 Woodward Ave Phone: (313) 471-7430

City/State/Zip: Detroit, MI 48226

Number of Private Security Personnel Hired Per Shift: 35

Are the private security personnel (check all that apply):

[ ] Licensed [ ] Armed [ ] Bonded

How will you advise attendees of parking options?

_No onsite parking required, attendees will be parking in their assigned company parking spots.

Section 7- COMMUNICATION & COMMUNITY IMPACT INFORMATION

How will your event impact the surrounding community (i.e. pedestrian traffic, sound carryover, safety)?
No pedestrian access on the road between Lot 1 & Lot 2 (see diagram) between Woodward Ave through and Witherell Street

Have local neighborhood groups/businesses approved your event? ☐ Yes per Olympia Entertainment

Indicate what steps you have or will take to notify them of your event: Olympia Entertainment will be contacting the local community

Section 8- EVENT SET-UP

Complete the appropriate categories that apply to the event **Structure**

	How Many?	Size/Height
Booth		
Tents (enclosed on 3 sides)		(5) 20 x 20
Canopy (open on all sides)	3	(2) 60 x 210 & (1) 60 x 90
Staging/Scaffolding	3	Stage 1 = (1) 32'l x 8'd x 4'h Stage 2 = (1) 12'l x 12'd x 1.5' h Stage 3 = (1) 8' l x 8'h x 1'h
Bleachers	9	14 x 8

Section 9- COMPLETE ALL THAT APPLY

Emergency medical services? BLS Services

Contact Person: Candice Weaver

Address: 2525 Woodward Ave

City/State/Zip: Detroit, MI 48226

Name of company providing port-a-johns. American Rentals, INC.

Contact Person: Tom Mollitor

Address: 4901 W. Grand River Ave Phone: (517) 204- 0666

City/State/Zip: Lansing, MI 48906

Name of private catering company? Olympia Catering

Contact Person: Jennifer Tompos

Address: 2211 Woodward Ave Phone: (313) 471-3218

City/State/Zip: Detroit, MI 48226

SPECIAL USE REQUESTS

List any streets or possible streets you are requesting to be closed. Include the day, date, and time of requested closing and reopening. Neighborhood Signatures must be submitted with application for approval. **Barricades are not available from the City of Detroit.**

Attach a map or sketch of the proposed area for closure.

PLEASE ADD IMPORTANT INFORMATION BELOW AND ATTACH A COPY OF THE FOLLOWING:

1) CERTIFICATE OF INSURANCE
2) EMERGENCY MEDICAL AGREEMENT
3) SANITATION AGREEMENT
4) PORT-A-JOHN AGREEMENT
5) COMMUNITY COMMUNICATION

This is a private event on Olympia Entertainment property. They will be provide their standard event operation standards i.e. providing emergency medical personal and sanitation plan from set up to load out.

AUTHORIZATION & AFFADAVIT OF APPLICANT

I certify that the information contained in the foregoing application is true and correct to the best of my knowledge and belief that I have read, understood and agreed to abide by the rules and regulations governing the proposed Special Event, and I understand that this application is made subject to the rules and regulations established by the Mayor or the Mayor's designee. Applicant agrees to comply with all other requirements of the City, County, State, and Federal Government and any other applicable entity, which may pertain to Special Events. I further agree to abide by these rules, and further certify that I, on behalf of the Event agree to be financially responsible for any costs and fees that may be incurred by or on behalf of the Event, to the City of Detroit.

Signature of Applicant _____ Date 9/14/18

NOTE: Completion of this form does not constitute approval of your event. Pending review by the Special Events Management Team, you will be notified of any requirements, fees, and/or restrictions pertaining to your event.

HOLD HARMLESS AND INDEMNIFICATION

The Applicant agrees to indemnify and hold the City of Detroit (which includes its agencies, officers, elected officials, appointed officials and employees) harmless from and against injury, loss, damage or liability (or any claims in respect of the foregoing including claims for personal injury and death, damage to property, and reasonable outside attorney's fees) arising from activities associated with this permit, except to the extent attributable to the gross negligence or intentional act or omission of the City.

Applicant affirms that Applicant has read and understands the Hold Harmless and Indemnification provision and agrees to the terms expressed therein.

STATE OF MICHIGAN - LIQUOR CONTROL COMMISSION

Department of Licensing and Regulatory Affairs

This is to certify that a License is hereby granted to the person(s) named with the stipulation that the licensee is in compliance with Commission Rule R 436.1003, which states that a licensee shall comply with all state and local building, plumbing, zoning sanitation, and health laws, rules, and ordinances as determined by the state and local law enforcement officials who have jurisdiction over the licensee. Issuance of this license by the Michigan Liquor Control Commission does not waive this requirement. The licensee must obtain all other required state and local licenses, permits, and approvals for this business before using this license for the sale of alcoholic liquor on the licensed premises.

This License is granted in accordance with the provisions of Act 58 of the Public Acts of 1998 and shall continue in force for the period designated unless suspended, revoked, or declared null and void by the Michigan Liquor Control Commission. Failure to comply with all laws and rules may result in the revocation of this license.

THIS LICENSE SUPERSEDES ANY AND ALL OTHER LICENSES ISSUED PRIOR TO APRIL 27, 2018

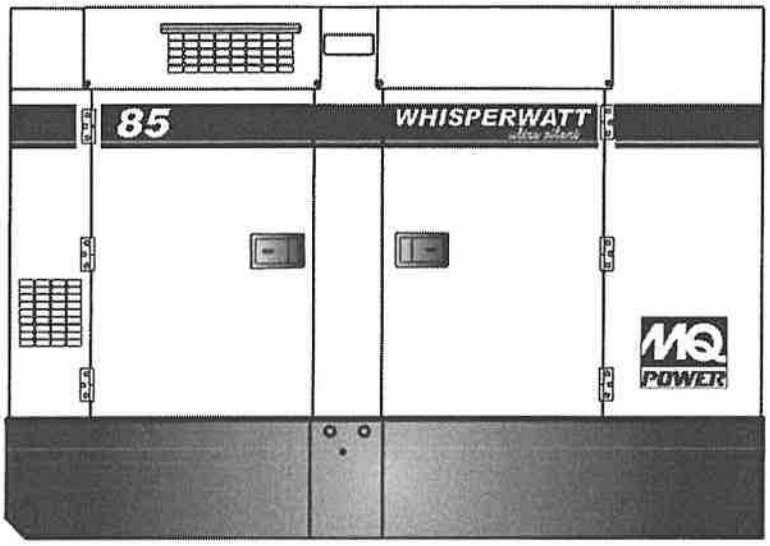
MQ POWER WhisperWatt™ Series Generator

Prime Rating — 68 kW (85 kVA)
Standby Rating — 75 kW (94 kVA)
Three-Phase, 60 Hertz, 0.8 PF



STANDARD FEATURES

- Heavy duty, 4-cycle, direct injection, turbocharged diesel engine provides maximum reliability.
- Brushless alternator reduces service and maintenance requirements and meets temperature rise standards for Class F insulation systems.
- Open delta excitation design provides virtually unlimited excitation for maximum motor starting capability.
- Automatic voltage regulator (AVR) provides precise regulation.
- Electronic Governor Control (Crystal Sync) — maintains frequency to within ±0.25% from no load to full load.
- Full load acceptance of standby nameplate rating in one step (NFPA 110, para 5-13.2.6).
- Sound attenuated, weather resistant, steel housing provides operation at 63 dB(A) at 23 feet. Fully lockable enclosure allows safe unattended operation.
- Internal fuel tank with direct reading of fuel gauge.
- Seven stage powder coat paint system provides durability and weather protection.
- Fuel/water separator removes condensation from fuel for extended engine life. Panel mounted alarm light included.
- Complete engine analog instrumentation includes DC ammeter, oil pressure gauge, water temp. gauge, fuel level gauge, tachometer/hour meter, preheat indicator, and emergency shutdown monitors.
- Complete generator analog instrumentation includes voltage regulator control, ammeter phase selector switch, voltmeter phase selector switch, AC voltmeter, AC ammeter, frequency meter, panel light, and circuit breaker.
- Automatic safety shutdown system monitors the engine oil pressure and coolant temperature. Warning lights indicate abnormal conditions.
- Automatic start/stop control — automatically starts the generator set during a commercial power failure when used in conjunction with a transfer switch.
- Complete power panel. Fully covered; three-phase terminals and single phase receptacles allow fast and convenient hookup for most applications including temporary power boxes, tools and lighting equipment. The GFCI receptacles are NEMA 5-20, and the auxilillary outputs use CS6369 twist-lock receptacles.
- Simultaneous single and three phase power.
- Voltage selector switch offers the operator a wide range of voltages that are manually selectable. Fine tuning of the output voltage can be accomplished by adjusting the voltage regulator control knob to obtain the desired voltage.
- EPA emissions certified - Tier 3 emissions compliant.

MQ POWER WhisperWatt™ Series Generator

SPECIFICATIONS

Generator Specifications		
Design	Revolving field, self-ventilated Drip-proof, single bearing	
Armature Connection	Star with Neutral	Zig Zag
Phase	3	Single
Standby Output	75 KW (94 KVA)	66 KW
Prime Output	68 KW (85 KVA)	60 KW
3Ø Voltage (L-L/L-N) Voltage Selector Switch at 3Ø 240/139	208Y/120, 220Y/127, 240Y/139	N/A
3Ø Voltage (L-L/L-N) Voltage Selector Switch at 3Ø 480/277	416Y/240, 440Y/254, 480Y/277	N/A
1Ø Voltage (L-L/L-N) (Voltage Selector Switch at 1Ø 240/120)	N/A	240/120
Power Factor	0.8	1.0
Voltage Regulation (No load to full load)	±0.5%	
Generator RPM	1800	
Frequency	60 Hz	
No. of Poles	4	
Excitation	Brushless with AVR	
Frequency	60 Hz	
Frequency Regulation: No Load to Full Load	3~5% under varying loads from no load to 100% rated load	
Frequency Regulation: Steady State	±0.5% of mean value for constant loads from no load to full load.	
Insulation	Class F	
Sound Level dB(A) Full load at 23 feet	63	

Engine Specifications	
Make / Model	John Deere / 4045HF285
Emissions	EPA Tier 3 Certified
Starting System	Electric
Design	4-cycle, water cooled, direct injection turbocharged
Displacement	274.6 in³ (4500 cc)
No. cylinders	4
Bore x Stroke (mm)	106 x 127
Gross Engine Power Output	113.0 bhp (84.3 kWm)
BMEP	162 psi (1119 kPa)
Piston Speed	1500 ft./min. (7.62 m/s)
Compression Ratio	17:1
Engine Speed	1800 rpm
Overspeed Limit	2100 rpm
Oil Capacity	3.49 gallons (13.2 liters)
Battery	12V 72Ah x 1

Fuel System		
Recommended Fuel	ASTM-D975-No.1 & No.2-D	
Maximum Fuel Flow (per hour)	15.9 gallons (60 liters)	
Maximum Inlet Restriction (Hg)	5.9 in. (150 mm)	
Fuel Tank Capacity	126 gallons (150 liters)	
Fuel Consumption	**gph**	**lph**
At full load	5.3	20.1
At 3/4 load	4.3	16.2
At 1/2 load	3.1	11.9
At 1/4 load	2.0	7.6

Cooling System	
Fan Load	1.6 hp (1.2 kW)
Coolant Capacity (with radiator)	3.70 gallons (14.0 liters)
Coolant Flow Rate (per minute)	38 gallons (144 liters)
Heat Rejection to Coolant (per minute)	3300 Btu (3.5 MJ)
Heat Rejection to Room (per minute)	582 Btu (0.614 MJ)
Maximum Coolant Friction Head	4.0 psi (27.6 kPa)
Maximum Coolant Static Head	32 feet (9.8 meters)
Ambient Temperature Rating	104°F (40°C)

Air	
Combustion Air	226 cfm (6.4 m³/min)
Maximum Air Cleaner Restriction	25 in. H_2O (6.25 kPa)
Alternator Cooling Air	911 cfm (45 m³/min)
Radiator Cooling Air	1589 cfm (30 m³/min)
Minimum Air Opening to Room	7.85 sq. ft. (0.73 sq. m)
Minimum DischargeOpening	3.87 sq. ft. (0.36 sq. m)

Exhaust System	
Gas Flow (full load)	674 cfm (19.1 m³/min)
Gas Temperature	1094°F (590°C)
Maximum Back Pressure	30.0 in. H_2O (7.5 kPa)

Amperage	
Rated Voltage	**Maximum Amps**
1Ø 120 Volt	188.9Amps (4 wire) 250A x 2 (Zigzag)
1Ø 240 Volt	94.4Amps (4 wire) 250A (Zigzag)
3Ø 240 Volt	204 Amps
3Ø 480 Volt	102 Amps
Main Line Circuit Breaker Rating	250 Amps
Over Current Relay Trip Set Point 480V Mode Only	102 Amps

WARRANTY*

John Deere

12 months from date of purchase with unlimited hours or 24 months from date of purchase with 2000 hours (whichever comes first).

Generator

24 months from date of purchase or 2000 hours (whichever occurs first).

Trailer

12 months excluding normal wear items.

*Refer to the express written, one-year limited warranty sheet for additional information

NOTICE

Generator is not intended for use in enclosed areas or where free flow of air is restricted.

Backfeed to a utility system can cause electrocution, shock and/or property damage. **DO NOT** connect to any building's electrical system except through an approved device.

Specifications are subject to change without notice.

DCA85USJ

MQ POWER WhisperWatt™ Series Generator

MQ POWER DECIBEL LEVELS

Our soundproof housing allows substantially lower operating noise levels than competitive designs. WhisperWatts are at home on construction sites, in residential neighborhoods, and at hospitals — just about anywhere.

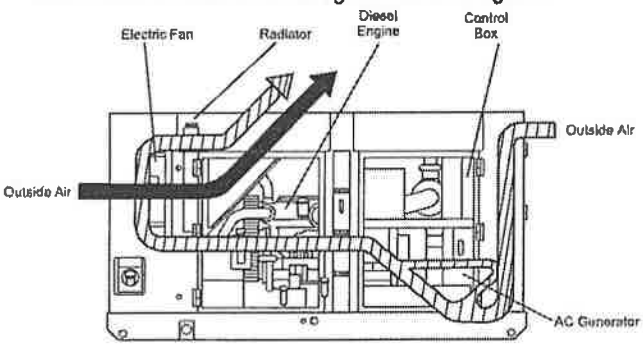
- 90 — Subway / truck traffic
- 80 — Average city traffic
- 70 — Inside car at 60 mph

WhisperWatt at 23 feet

- 60 — Air conditioner at 20 feet
- 50 — Normal conversation

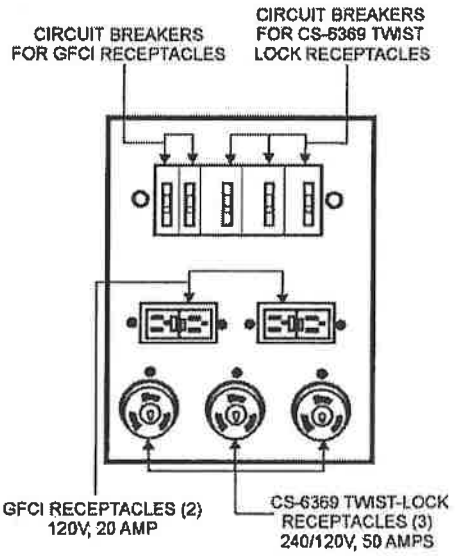
ULTRA-SILENT FEATURES

- **Low Noise Muffler** — Large capacity low noise muffler minimizes exhaust sound.
- **Soundproof Casing** — The new design divides the cabinet into three sections, separating the engine, muffler and radiator for more efficient cooling and reduces noise from the engine and fans.
- **New Cooling System** — An advanced design uses two separate air intake systems to cool the generator. The engine fan draws air in to cool the engine and generator housing while a second electric fan directly cools the radiator. With less air being drawn into the generator through each fan, considerably less noise is produced through the top of the generator.
- **Environmental Design** — Constructed using an integrated environmental skid and fuel tank. This design fully contains fuel leakage and any liquid that might leak from the engine such as lube oil or radiator coolant. All potentially hazardous liquids are contained without contaminating the surrounding area.



Flow of Cooling Air

GENERATOR OUTPUT PANEL



OPTIONAL CONTROL FEATURES

- **Emergency Stop Switch** — when manually activated shuts down generator in the event of an emergency.
- **Audible alarm** — alerts operator of abnormal conditions.

OPTIONAL GENERATOR FEATURES

- **Electronic Governor Control (Crystal Sync)** — maintains frequency to within ±0.25% from no load to full load.
- **Battery Charger** — provides fully automatic and self-adjusting charging to the generator's battery system.
- **Jacket Water Heater** — for easy starting in cold weather climates.
- **Special Batteries** — long life batteries provide extra engine cranking power.
- **Spring Isolators** — provides extra vibration protection for standby applications.
- **Low Coolant Level Shutdown** — provides protection from critically low coolant levels. Includes control panel warning light.
- **Trailer Mounted Package** — meets National Highway Traffic Safety Administration (NHTSA) regulations. Trailer is equipped with electric or surge-hydraulic brakes with tandem axle configuration.

OPTIONAL OUTPUT CONNECTIONS

- **Cam-Lock Connectors** — provides quick disconnect alternative to bolt-on connectors.
- **Pin and Sleeve Connectors** — provides industry standard connectors for all voltage requirements.
- **Output Cable** — available in any custom length and size configuration.

Product Guide Specification

Specifier Notes: This product guide specification is written according to the Construction Specifications Institute (CSI) 3-Part Format, including *MasterFormat*, *SectionFormat*, and *PageFormat*, as described in *The CSI Construction Specifications Practice Guide*.

This section must be carefully reviewed and edited by the Architect to meet the requirements of the project and local building code. Coordinate this section with other specification sections and the Drawings. Delete all "Specifier Notes" after editing this section.

Section numbers and titles are from *MasterFormat 2014 Update*.

SECTION 11 61 23

FOLDING AND PORTABLE STAGES

Specifier Notes: This section covers StageRight portable, stage extension platform systems, including "ME-1000" support systems. Consult StageRight for assistance in editing this section for the specific application.

PART 1 GENERAL

1.1 SECTION INCLUDES

A. Stage extension platform systems.

1.2 SUBMITTALS

Specifier Notes: Edit submittal requirements as necessary. Delete submittals not required.

A. Comply with Section 01 33 00 – Submittal Procedures.

B. Product Data: Submit manufacturer's product data.

14

C. Shop Drawings: Submit manufacturer's shop drawings, including plans, elevations, sections, and details, indicating dimensions, tolerances, materials, components, fabrication, fasteners, hardware, finish, options, and accessories.

D. Manufacturer's Certification: Submit manufacturer's certification that materials comply with specified requirements and are suitable for intended application.

E. Manufacturer's Project References: Submit manufacturer's list of successfully completed stage extension platform system projects, including project name and location, name of architect, and type and quantity of stage extension platform systems furnished.

F. Operation and Maintenance Data: Submit manufacturer's operation and maintenance manuals, including operation, maintenance, and cleaning instructions.

G. Warranty Documentation: Submit manufacturer's standard warranty.

1.3 QUALITY ASSURANCE

A. Manufacturer's Qualifications: Minimum 25 years of experience in the manufacturing of stage extension platform systems of similar type to that specified.

1.4 DELIVERY AND STORAGE

A. Delivery Requirements: Deliver stage extension platform systems to site in manufacturer's original, unopened containers and packaging, with labels clearly identifying product name and manufacturer.

B. Storage Requirements: Store stage extension platform systems at location designated by the Owner.

1.5 WARRANTY

A. Warranty Period: 3 years from date of delivery.

PART 2 PRODUCTS

2.1 MANUFACTURERS

A. Manufacturer: StageRight, 495 Pioneer Parkway, Clare, Michigan 48617. Toll Free 800-438-4499. Website www.stageright.com. E-mail stageright@rogersgrp.com.

B. Substitutions: Not permitted.

C. Single Source: Provide all components of stage extension platform systems by single manufacturer.

2.2 STAGE EXTENSION PLATFORM SYSTEMS

A. Stage Extension Platform System Components:

1. Support Systems: "ME-1000".
2. Decks.
3. Skirting.
4. Transport carts.

B. Portable system.

C. Incorporate "floating deck" design, permitting use of modular decks in conjunction with various support systems to create performance staging with heights ranging from 3.2 inches to 108 inches.

D. Floating Deck: When coupled with StageRight major event support systems, permits creation of performance stage.

E. System Assembly: No special equipment or tools required.

F. Maximum Weight of Individual Components: Approximately 140 pounds.

G. Support Structure: Permit bridging of decks between units, facilitating rapid setup and leveling.

2.3 SUPPORT SYSTEMS

A. Support Systems: "ME-1000".

B. Description: Portable, modular, staging support system with stable, wobble-free understructure.

Specifier Notes: Specify **one** of the following **two** styles of support system. Specify adjustable height range. Consult StageRight for availability of other adjustable height ranges by special order.

C. Support System Style: Arena.
1. Adjustable Height Range: [24 to 36 inches] [32 to 48 inches] [36 to 56 inches] [48 to 78 inches] [72 to 108 inches].

D. Support System Style: All-Terrain.
1. Adjustable Height Range: [24 to 36 inches] [32 to 48 inches] [36 to 56 inches] [48 to 78 inches].
2. Each leg can be set at different coarse heights to accommodate variable contours or uneven surfaces.

E. Certified Uniformly Distributed Live-Load Capacity: 4,000 pounds per 4-foot by 8-foot section (125 pounds per square foot).

F. Storage: Supports store compactly.

G. Setup: Assembled without tools by a minimum of 2 people.

H. Locator Nodes:
1. Conical Nodes on Locator Plates: Guide decks into location and proper alignment, securing them in place without tools, clamps, or clips.

2. Decks: Fasten in place and stage sections interlock without tools, clamps, or separate processes.

I. Bridging:
1. Alternating Sections of Staging (both front-to-back and side-to-side): Composed of decks that suspend, or "bridge", between support assemblies.

J. Adjustable Height:
1. Height: Adjust in increments of 2 inches without tools.
2. Adjustments: Executed from standing position by raising or lowering inner column of supports.

K. Construction:
1. Vertical Columns: 2-1/2-inch IPS aluminum pipe, Schedule 40.
2. Telescopic Inner Legs: 2-inch IPS aluminum pipe, Schedule 80.
3. Horizontal and Diagonal Braces:
   a. 2-inch OD aluminum hollow bar.
   b. Attach to frame with self-locking hooks that encircle nearly 70 percent of tube and require manual release.
4. Locator plates with welded-on nodes.
5. Screw Feet:
   a. At base of each column.

Specifier Notes: Provide a range of fine-adjustment leveling. Consult StageRight for more information.

   b. Adjustment: _____-inch range of fine-adjustment leveling.
   c. Diameter: Minimum of 3/4 inches.
   d. Threads: Zinc-plated Acme.
   e. Bottom of Feet: Molded urethane pads, minimum of 2-7/8-inch diameter.
6. Velcro Dots: Prevent metal-to-metal contact between inner and outer columns.

L. Finish: Non-glare, black, baked-on powder coat.

2.4 DECKS

A. Material: Composite structure with skins of 1/8-inch, exterior-grade, Douglas fir plywood, laminated to 0.35-inch surfaces and bonded to 2-1/4-inch-thick honeycomb-core material with waterproof urethane adhesive.

B. Performance Surfaces:

Specifier Notes: Specify **two** performance surfaces for the decks, one for each side. Delete surfaces not required. Consult StageRight for information regarding custom performance surfaces.

1. "TechStage", 0.095-inch surface of fiberglass-reinforced polymeric with black texture.
2. "PolyTrac", black, slip-resistant ABS.
3. Commercial-grade polyolefin carpet.
4. Tempered hardboard prepared as a paintable surface.

C. Edging:
   1. Material: Aluminum alloy 6005-T5.
   2. Enclose deck.
   3. Extruded Interlock Track: Receive accessories.
   4. Attach to Deck: Adhesives and riveted corner brackets.
   5. Finish: Silver anodize or black powder coat paint.

D. Relationship with Support Systems: Not permanently part of a given support system, but function with several support structures available from manufacturer.

E. Loads:
   1. Design decks to support a load of 125 pounds per square foot and a point load of 600 pounds on a 1-inch-square area on honeycomb core with 3/8-inch cell.
   2. Carpeted Surface: Support a point load of 300 pounds on a 1-inch-square area on honeycomb core with 3/8-inch cell.

F. Construction: No bolts or welded joining of deck components.

G. Honeycomb Core Design: Absorbs drum-head effect and distracting foot noise.

H. Decks Not Acceptable: Single-sided frame-style decks with sound-absorbing material added to bottom.

2.5 ACCESSORIES

Specifier Notes: Specify required accessories. Delete accessories not required.

A. Skirting:
   1. Material: Noncombustible, 100 percent PolyTwill.
   2. Conformance: Local fire codes.
   3. Skirt Attachment Clips:
      a. Material: Semi-rigid vinyl.
      b. Sewn into top hem of skirt at regular intervals along its entire length.
      c. Engage into deck interlock track for attachment to stage.
   4. Skirt Height Adjustment: Velcro strips sewn into reverse side of skirt.
   5. Skirting Valence: Knife or box pleated with a fullness of 50 percent.

B. Transport Carts:
   1. Transport stage extension platform systems.
   2. Material: Welded steel tubing.
   3. Fork Truck Access: 4 sides.
   4. Casters: Minimum of 4 heavy-duty swivel casters.
   5. Contain their intended load in a secure and organized manner.

PART 3 EXECUTION

3.1 TRAINING

A. Provide instruction and training of Owner's personnel in the operation and maintenance of stage extension platform systems.

B. Provide instruction and training by factory-trained and certified representative of manufacturer.

Attn: Stephanie King

Eureka 60' Clearspan Peer Review
CRE Project #: 18.1101.03

Dear Stephanie,

We have completed our peer review for the above referenced project for conformance to the structural provisions of the 2015 International Building Code.

A peer review has been performed on the Eureka 60' clearspan tent, as seen on the attached drawing page. Tent frames are located approximately 15' on center. Original engineering documentation has been provided in Appendix A. The tent has been designed as a temporary structure to be installed no greater than 180days. The wind exposure used in calculations is exposure C and represents a flat open field or similar conditions excluding exposure to large bodies of water.

It should be known that the tent did not include any snow loading and that any and all snow accumulations shall be removed immediately. Drawings include base reactions that earth anchors, or ballast, must be adequate to resist.

To the best of our knowledge the attached original engineering conforms with the requirements of the 2015 International Building Code.

We trust this information is suitable for your needs at this time. If you have any questions, please do not hesitate to contact our office.

Regards,
Clark-Reder Engineering, Inc.

Contract #: 10442 Quicken Loans Community Investment Fund

Wahl Tents

TERMS AND CONDITIONS

This contract contains important terms and conditions including Wahl Tents LLC disclaimer from all liability for injury or damage and details of the customer's obligations.
These terms and conditions are a part of this contract — PLEASE READ!
Reservation policy: When equipment is reserved, Wahl Tents immediately schedules a crew and removes those items from the inventory for the reserved date(s).
An order is not considered confirmed until the non-refundable deposit of 50% of the total amount is made and this signed contract is returned to Wahl Tents.
Commercial customers may be billed with a PO arrangement at the discretion of Wahl Tents.
Residential customers must be paid in full 2 weeks prior to the scheduled event.
Refunds:
Refunds on cancelled items are as follows (this applies to each and every item cancelled, even if it is the entire order. This does not include the deposit, as the deposit is nonrefundable):
Canceling 30+ days prior to delivery date- 100% refund on cancelled item(s).
Canceling within 14-29 days prior to delivery date- 75% refund on cancelled item(s)
Canceling within 8-13 days prior to delivery- 50% refund on cancelled item(s)
7 days or less------No refund given on any items

CUSTOMER RESPONSIBLITES:

Permits: Customer shall provide all necessary permits, licenses, and /or/ consent at the customer's expense prior to installation.
It is the customer's responsibility to check into building permit and fire department requirements prior to the installation date to confirm the possible requirement of permits. We will assist you in any way possible, but obtaining these permits does remain the responsibility of the customer.
Property Preparation: Refunds will not be issued if the tent ordered does not fit the property due to incorrect measurements done by the customer. Wahl Tents offers a measurement service of $25 to ensure correct tent sizing for the property in question.
The area of installation should be prepped 2-3 days before tent install in the event of schedule shifting. (I.e. cutting the lawn, treating area for insects, etc)
I am aware that it is the law to call MSDIGG 48 hrs prior to the tent stakes going into the ground. MI 1-800-482-7171 (This does not pertain to graduation or backyard events).
Wahl Tents LLC will not be responsible for septic field or septic tank damage.
All underground irrigation, sprinkler systems need to be marked and pointed out to the delivery crew before installation. If any underground systems are not communicated to Wahl Tents personnel via clear visual markers or if incorrect information is given, Wahl Tents will not be held responsible for any underground damages. The premises upon which equipment is to be delivered shall be accessible to delivery by trucks. Rates do not include excessive carry of objects. Premises and /or/ tent shall be clear of all obstructions, impediments and decorations before Wahl Tents begins installation or breakdown. Any delays, obstructions, or excessive carrying causing the delay of delivery/ installation or pick up/breakdown of equipment will incur additional charges of $25.00/Hour/Man.
Delivery/Setup & Pickup/Strike: Any repositioning or moving of the tent once installation begins shall be charged at the aforementioned rate of $25.00/Hour/Man. If the event is being held in a location requiring a pass or charge for entry and exit (i.e. parks, clubs, ferry fee's, etc.), the customer is responsible for all charges/fee's involved.
Rental fees for table and chairs do not include set up or breakdown, unless previous arrangements have been made. Customer is responsible for breaking down and stacking furniture in one sheltered area for pick up. If furniture is not broken down and stacked when crew arrives, a fee of $1.25 per table and $.75 per chair will be assessed. Should time constraints not permit us to breakdown furniture at this time, one additional rental may incur, as well as breakdown charges.
All decorations and non-leased equipment shall be removed from the tent before the time of breakdown. All staples and /or/ tape must be removed from tables, chairs, and tent poles. Failure to remove attachments will result in repair/ repaint/ removal charges.
An adult representative is recommended to be present to show exact location of installation. This representative is also recommended to count and sign off on all items, otherwise it is to be agreed that the counts performed by Wahl Tents will be considered accurate.
Lost and damaged: Customer is solely responsible for all rental items during the rental period from installation through take down. The customer assumes responsibility for any and all damages due to negligence, theft, vandalism, misuse, or other avoidable occurrences during this rental period. This responsibility of the customer includes paying the full replacement charge of any and all lost or damaged items.
If any equipment is missing or does not function properly, I understand and agree to notify Wahl Tent's office or emergency line within 30 minutes of occurrence otherwise no refund or allowance will be made. An emergency number is available on the answering service at 586-493-0563 for after-hours occurrences. It is still the responsibility of the customer to contact the office to report an occurrence of items not functioning properly, even if the matter was reported to a Wahl Tents crew member onsite.
Customer Pickup: A driver's license as well as a credit card is required to be on file for customer pickups. Wahl Tents warehouse staff may help, but is not responsible for loading the customer's vehicle and are held harmless of any damages.
Any equipment returned after the date/time items are due back is subject to additional charges.
Additional Responsibilities: It is the customer's responsibility to have a detailed evacuation plan in the event of high winds and/or severe weather. Tents are a temporary shelter and must be evacuated in the event of high winds and /or/ severe weather.
During snow conditions, customer shall at their sole expense be responsible for eliminating the buildup of snow and ice on all winter tent installations, through heating or other effective method unless prior arrangements have been made. Customer assumes all responsibility for damages due to any accumulated buildup.
Customer shall assume risk of, and compensation, and hold Wahl Tents LLC harmless from and against any and all property damage and personal injury resulting from:
(1) People or property coming in contact with or falling over ropes, straps, poles, stakes, or other supports of the above mentioned equipment, while in or about said property.
(2) Contact with pipes, wires, or other obstructions, such as but not limited to, gas pipes, irrigations, electrical wires, trees, flowers, bushes planters, buildings, or gutters, while delivering, loading, unloading, erecting, dismantling, and /or/ use of said equipment.
(3) Injuries or damages caused by fire, rain, hail, sleet, snow, storms, high winds, tornadoes, floods, or other disturbances of nature, or by equipment falling or falling by reason thereof upon any persons, materials, or exhibits, while under or about said property.
STATEMENT:
Wahl Tents LLC will not be liable for the erection of tents or structures on stated date in case of forecast, storms or excessive winds that might cause damage to said property.
Wahl Tents LLC shall be released hereunder for conditions brought about by acts of God, strikes, boycotts, civil insurrections or commotions, invasions by a common enemy, or other conditions beyond our control.
I, the customer, agree that if I fail to make a payment or if I am responsible for any additional charges due to any of the possible occurrences described in this contract, I the customer authorize to allow Wahl Tents to charge my credit card on file.
Delinquent accounts (30 or more days old) may, at the sole discretion of Wahl Tents LLC be charged 1.5% per month interest charge. Customer also agrees to pay all reasonable collection fees, including but not limited to: attorney fees, court costs, and collection service charges.

Form **W-9**
(Rev. December 2014)
Department of the Treasury
Internal Revenue Service

Request for Taxpayer Identification Number and Certification

Give Form to the requester. Do not send to the IRS.

Print or type
See Specific Instructions on page 2.

1 Name (as shown on your income tax return). Name is required on this line; do not leave this line blank.
Wahl Tents LLC

2 Business name/disregarded entity name, if different from above

3 Check appropriate box for federal tax classification; check only one of the following seven boxes:
☐ Individual/sole proprietor or single-member LLC ☐ C Corporation ☐ S Corporation ☐ Partnership ☐ Trust/estate
☑ Limited liability company. Enter the tax classification (C=C corporation, S=S corporation, P=partnership) ▶ S
Note. For a single-member LLC that is disregarded, do not check LLC; check the appropriate box in the line above for the tax classification of the single-member owner.
☐ Other (see instructions) ▶

4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3):
Exempt payee code (if any)
Exemption from FATCA reporting code (if any)
(Applies to accounts maintained outside the U.S.)

5 Address (number, street, and apt. or suite no.)
44550 N Groesbeck Hwy

Requester's name and address (optional)

6 City, state, and ZIP code
Clinton Township MI 48036

7 List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN* on page 3.

Note. If the account is in more than one name, see the instructions for line 1 and the chart on page 4 for guidelines on whose number to enter.

Social security number
[ ][ ][ ] - [ ][ ] - [ ][ ][ ][ ]

or

Employer identification number
1 1 - 3 8 4 0 3 9 2

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions on page 3.

Sign Here Signature of U.S. person ▶ T Wahl Date ▶ 06/21/2017

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. Information about developments affecting Form W-9 (such as legislation enacted after we release it) is at *www.irs.gov/fw9*.

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following:

- Form 1099-INT (interest earned or paid)
- Form 1099-DIV (dividends, including those from stocks or mutual funds)
- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
- Form 1099-S (proceeds from real estate transactions)
- Form 1099-K (merchant card and third party network transactions)
- Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
- Form 1099-C (canceled debt)
- Form 1099-A (acquisition or abandonment of secured property)

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See What is backup withholding? on page 2.

By signing the filled-out form, you:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
2. Certify that you are not subject to backup withholding, or
3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income, and
4. Certify that FATCA code(s) entered on this form (if any) indicating that you are exempt from the FATCA reporting, is correct. See *What is FATCA reporting?* on page 2 for further information.

Material Properties

Aluminum: 6061-T6 or equal. See "Aluminum Design Manual", 8th Edition, 2005, The Aluminum Association. Portions cited: Part I-A, Specifications for Aluminum Structures, Allowable Stress Design, and Design Aids, Pages VII-66 and VII-67.

Steel Cable: ASTM A603, Class C

Wind Loading

Calculation Method	Per ASCE 7-10, Method of Figure 27.4-1
Wind Speed, V	76 mph (3-second gust) Appendix C; Figure CC-1 10-Year MRI
Exposure	C
Mean Roof Height, h	18.4 feet
Coefficient K_h	0.85 @ Windward Wall (Table 27.3-1)
Coefficient K_z	0.89 Elsewhere (Based on h = 20 ft.)
Coefficient K_D	0.85 (Table 6-6)
Velocity Pressure, q_h = $.00256K_zK_DV^2I$	10.68 psf @ Windward Wall 11.19 psf Elsewhere
Roof Slope	23 degrees
Internal Pressure, GC_{pi}	±0.18 (Table 6-7)
h/L for Fig. 6-3	18.4/60 = 0.31
L/B for Fig. 6-3	Less than 1
Gust Factor, G	0.85 (Paragraph 6.5.8.1)
Beam Spacing	15 feet 0 inch

Coefficients C_p per Figure 6-3:

Windward Wall	C_p = +0.8
Windward Roof	C_p = -0.28 (Load Case #1 & #4) C_p = +0.15 (Load Case #2 & #5)
Leeward Roof	C_p = -0.6
Leeward Wall	C_p = -0.5
Side Walls	C_p = -0.7
Roof, with Wind Parallel to Ridge	C_p = -0.78 (Load Case #3 & #6)

[a] Critical frame is 2nd from windward wall: C_p = 0.9, per Fig. 3 applies for over region within h = 18.4 ft. from end wall, C_p = 0.5 applies beyond 18.4 ft. from end wall. Averaging for 2nd frame, C_p = 0.78.

3838 Oakwood Avenue • Los Angeles, California 90004 • Tel: (323) 662-1184 • Fax: (323) 662-7941

M&M File no.: VAR-2016-0021
Date: September 2016
Client: Johnson Outdoors

Wind Loads

Load Case #1 - C_p on windward roof acts outward; combine w/ internal pressure

Windward Wall = 47 pounds per foot inward
Windward Roof = 42 pounds per foot outward
Leeward Roof = 69 pounds per foot outward
Leeward Wall = 61 pounds per foot outward

Load Case #2 - C_p on windward roof acts inward; combine w/ internal pressure

Windward Wall = 47 pounds per foot inward
Windward Roof = 5 pounds per foot outward
Leeward Roof = 69 pounds per foot outward
Leeward Wall = 61 pounds per foot outward

Load Case #3 - Wind acting normal to frames; combine w/ internal pressure

Roof = 85 pounds per foot outward
Walls = 78 pounds per foot outward

Load Case #4 - C_p on windward roof acts outward; combine w/ internal suction

Windward Wall = 84 pounds per foot inward
Windward Roof = 4 pounds per foot outward
Leeward Roof = 33 pounds per foot outward
Leeward Wall = 25 pounds per foot outward

Load Case #5 - C_p on windward roof acts inward; combine w/ internal suction

Windward Wall = 84 pounds per foot inward
Windward Roof = 31 pounds per foot inward
Leeward Roof = 33 pounds per foot outward
Leeward Wall = 25 pounds per foot outward

Load Case #6 - Wind acting normal to End Wall:

Windward Wall = 2 ($q_z G C_p A$) = 2 (11.19) (0.8) (247) = 4,422 pounds inward
Leeward Wall = 2 ($q_h G C_p A$) = 2 (10.68) (-0.5) (247) = 2,638 pounds outward

Job Title: 60 Foot Espan Tent Structure
Address: Various

M&M File no.: VAR-2016-0021
Date: September 2016
Client: Johnson Outdoors

Suspended Equipment Loads

Load Case #7 – Two Point Loads of P = 150 pounds
Load Case #8 – One Point Load of P = 150 pounds

Beam Dead Weight

Load Case #9 - Beam self-weight will be added in computer analysis

Combine Loads per Paragraph 2.4.1:

Notes: Load combination including Wind #2 & #5 are more critical using suspended equipment
Load combinations including Wind #1, #3 & #4 are more critical using 0.6D + W

Load Combination #1	(0.6) Wind #1 + (0.6) Dead
Load Combination #2	(0.6) Wind #3 + (0.6) Dead
Load Combination #3	(0.6) Wind #4 + (0.6) Dead
Load Combination #4	(0.6) Wind #2 + Suspended Equipment + Dead
Load Combination #5	(0.6) Wind #5 + Suspended Equipment + Dead
Load Combination #6	(0.6) Wind #2 + Unbalanced Suspended Equipment + Dead
Load Combination #7	(0.6) Wind #5 + Unbalanced Suspended Equipment + Dead
Load Combination #8	(0.6) Wind #6 + Dead Load
Load Combination #8	Suspended Equipment + Dead
Load Combination #9	Unbalanced Suspended Equipment + Dead

Wind Loads

Load Case #1 – C_p on windward roof acts outward; combine w/ internal pressure

Windward Wall = 48 pounds per foot inward
Windward Roof = 39 pounds per foot outward
Leeward Roof = 68 pounds per foot outward
Leeward Wall = 60 pounds per foot outward

Load Case #2 – C_p on windward roof acts inward; combine w/ internal pressure

Windward Wall = 48 pounds per foot inward
Windward Roof = 7 pounds per foot inward
Leeward Roof = 68 pounds per foot outward
Leeward Wall = 60 pounds per foot outward

Load Case #3 – Wind acting normal to frames; combine w/ internal pressure

Roof = 80 pounds per foot outward
Walls = 76 pounds per foot outward

Load Case #4 – C_p on windward roof acts outward; combine w/ internal suction

Windward Wall = 83 pounds per foot inward
Windward Roof = -4 pounds per foot outward
Leeward Roof = 32 pounds per foot outward
Leeward Wall = 24 pounds per foot outward

Load Case #5 – C_p on windward roof acts inward; combine w/ internal suction

Windward Wall = 83 pounds per foot inward
Windward Roof = 43 pounds per foot inward
Leeward Roof = 32 pounds per foot outward
Leeward Wall = 24 pounds per foot outward

Load Case #6 – Wind acting normal to End Wall:

Windward Wall = 2 ($q_h G C_p A$) = 2 (10.93) (0.8) (195) = 3,410 pounds inward
Leeward Wall = 2 ($q_h G C_p A$) = 2 (10.68) (-0.5) (195) = 2,082 pounds outward

Job Title: 50 Foot Espan Tent Structure
Address: Various

M&M File no.: VAR-2016-0021
Date: September 2016
Client: Johnson Outdoors

Suspended Equipment Loads

Load Case #7 - Two Point Loads of P = 150 pounds
Load Case #8 - One Point Load of P = 150 pounds

Beam Dead Weight

Load Case #9 - Beam self-weight will be added in computer analysis

Combine Loads per Paragraph 2.4.1:

Notes: Load combination including Wind #2 & #5 are more critical using suspended equipment
Load combinations including Wind #1, #3 & #4 are more critical using 0.6D + W

Load Combination #1	(0.6) Wind #1 + (0.6) Dead
Load Combination #2	(0.6) Wind #3 + (0.6) Dead
Load Combination #3	(0.6) Wind #4 + (0.6) Dead
Load Combination #4	(0.6) Wind #2 + Suspended Equipment + Dead
Load Combination #5	(0.6) Wind #5 + Suspended Equipment + Dead
Load Combination #6	(0.6) Wind #2 + Unbalanced Suspended Equipment + Dead
Load Combination #7	(0.6) Wind #5 + Unbalanced Suspended Equipment + Dead
Load Combination #8	(0.6) Wind #6 + Dead Load
Load Combination #8	Suspended Equipment + Dead
Load Combination #9	Unbalanced Suspended Equipment + Dead

COMPRESSION & BENDING

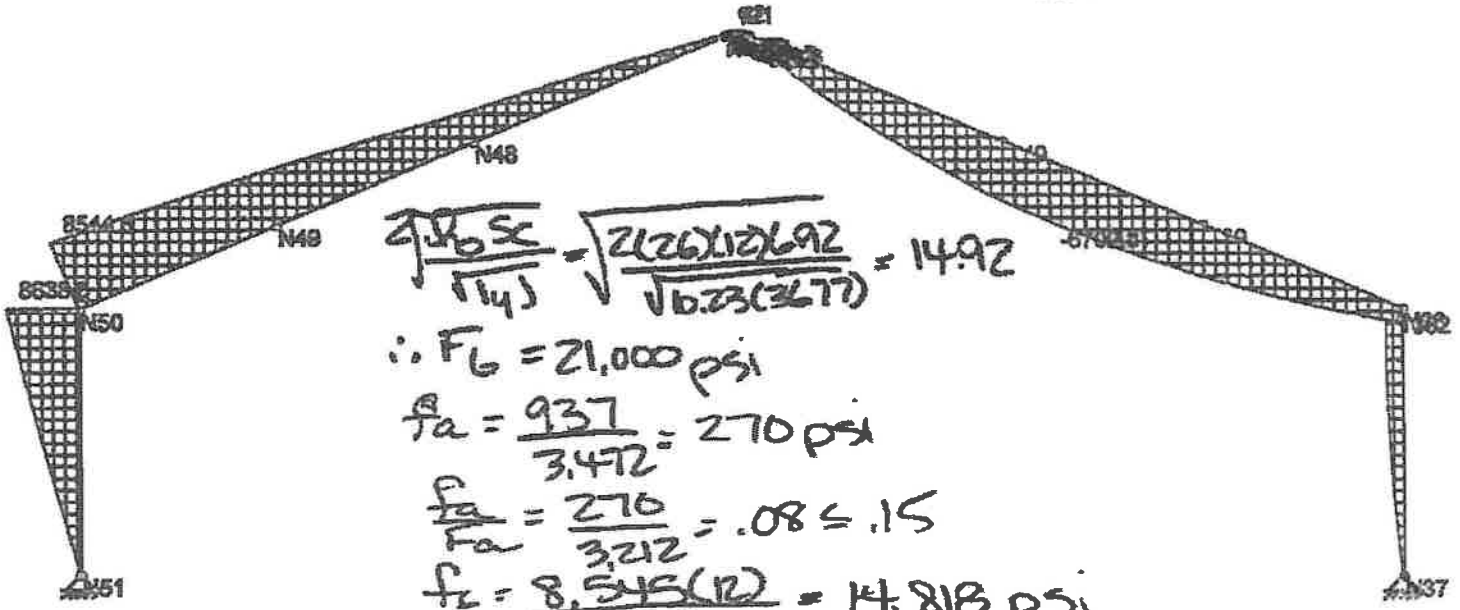
$C = 937$ lb
$M = 8,545$ ft-lb $\}$ M36; $L = 26'$ $\quad \frac{KL}{r} = \frac{26(12)}{2.48} = 126$

$\therefore F_a = \frac{51,000}{126^2} = 3,212$ psi



$\frac{\sqrt{1.6C}}{(L_1)} = \frac{\sqrt{2(26)(12)6.92}}{\sqrt{6.23(3277)}} = 14.92$

$\therefore F_b = 21,000$ psi

$f_a = \frac{937}{3,472} = 270$ psi

$\frac{f_a}{F_a} = \frac{270}{3,212} = .08 \leq .15$

$f_z = \frac{8,545(12)}{6.92} = 14,818$ psi

UNITY CHECK;

$\frac{270}{3,212} + \frac{14,818}{21,000} = .8 \leq 1.0$

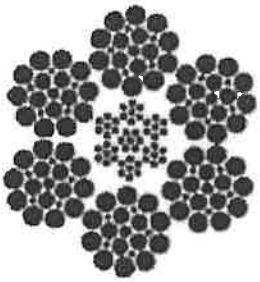
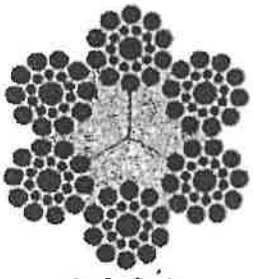
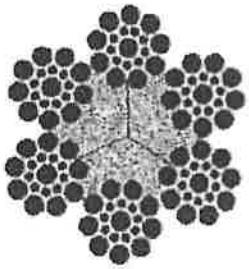
*When ropes are zinc-coated, deduct 10 per cent from bright rope strengths shown.
**Purple Plus ropes with fiber cores usually have higher breaking strengths than Purple Grade IWRC ropes, but are no substitute for them because of the many other factors to be considered in operating ropes.



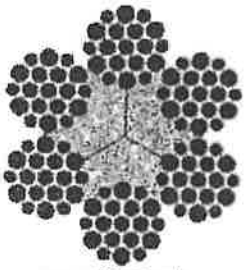
6 x 21 filler wire Type U rope with IWRC and lang lay



6 x 21 Seale with fiber core



6 x 19 Seale with fiber core



6 x 19 Warrington with fiber core
