City Clerk

Caven West Deputy City Clerk/Chief of Staff

DEPARTMENTAL REFERENCE COMMUNICATION

Monday, September 17, 2018

To: The Department or Commission Listed Below

From: Janice M. Winfrey, Detroit City Clerk

The following petition is herewith referred to you for report and recommendation to the City Council.

In accordance with that body's directive, kindly return the same with your report in duplicate within four (4) weeks.

MAYOR'S OFFICE DPW - CITY ENGINEERING DIVISION
PLANNING AND DEVELOPMENT DEPARTMENT POLICE DEPARTMENT
FIRE DEPARTMENT BUSINESS LICENSE CENTER

Quicken Loans Inc, request to hold "Client Relations Operations Pep Rally" on September 27, 2018 from 5:00 PM to 8:00 PM at Comeica Field Parking lots with set up to begin on 9/25/18 and tear down complete on 9/28/18

City of Detroit Special Events Application

Successful events are the result of advance planning, effective communication and teamwork. The City of Detroit will be strictly adhering to the Special Events Guidelines; please print them out for reference. Petitioners are required to complete the information below so that the City of Detroit may gain a thorough understanding of the scope and needs of the event. This form must be completed and returned to the Special Events and Film Handling Office at least 60 days prior to the first date of the event. If submitted later than 60 days prior, application is subject to denial. Please type or print clearly and attach additional sheets and maps as needed.

	ection 1- GENERAL EVI	ENT INFORMATION	Eway.

This is a private event on Olympia Entertainment property. They will be provide their standard event operation standards i.e. providing emergency medical personal and sanitation plan from set up to load out.

AUTHORIZATION & AFFADAVIT OF APPLICANT

I certify that the information contained in the foregoing application is true and correct to the best of my knowledge and belief that I have read, understood and agreed to abide by the rules and regulations governing the proposed Special Event, and I understand that this application is made subject to the rules and regulations established by the Mayor or the Mayor's designee. Applicant agrees to comply with all other requirements of the City, County, State, and Federal Government and any other applicable entity, which may pertain to Special Events. I further agree to abide by these rules, and further certify that I, on behalf of the Event agree to be financially responsible for any costs and fees that may be incurred by or on behalf of the Event, to the City of Detroit.

ALLA	9/14/18	
Signature of Applicant	Date	

NOTE: Completion of this form does not constitute approval of your event. Pending review by the Special Events Management Team, you will be notified of any requirements, fees, and/or restrictions pertaining to your event.

HOLD HARMLESS AND INDEMNIFICATION

The Applicant agrees to indemnify and hold the City of Detroit (which includes its agencies, officers, elected officials, appointed officials and employees) harmless from and against injury, loss, damage or liability (or any claims in respect of the foregoing including claims for personal injury and death, damage to property, and reasonable outside attorney's fees) arising from activities associated with this permit, except to the extent attributable to the gross negligence or intentional act or omission of the City.

Applicant affirms that Applicant has read and understands the Hold Harmless and Indemnification provision and agrees to the terms expressed therein.

MQ POWER WhisperWatt™ Series Generator

Prime Rating — 68 kW (85 kVA) Standby Rating — 75 kW (94 kVA)

Three-Phase, 60 Hertz, 0.8 PF

STANDARD FEATURES

- Heavy duty, 4-cycle, direct injection, turbocharged diesel engine provides maximum reliability.
- Brushless alternator reduces service and maintenance requirements and meets temperature rise standards for Class F insulation systems.
- Open delta excitation design provides virtually unlimited excitation for maximum motor starting capability.
- Automatic voltage regulator (AVR) provides precise regulation.
- Electronic Governor Control (Crystal Sync) maintains frequency to within ±0.25% from no load to full load.
- Full load acceptance of standby nameplate rating in one step (NFPA 110, para 5-13.2.6).
- Sound attenuated, weather resistant, steel housing provides operation at 63 dB(A) at 23 feet. Fully lockable enclosure allows safe unattended operation.
- Internal fuel tank with direct reading of fuel gauge.
- Seven stage powder coat paint system provides durability and weather protection.
- Fuel/water separator removes condensation from fuel for extended engine life. Panel mounted alarm light included.
- Complete engine analog instrumentation includes DC ammeter, oil pressure gauge, water temp. gauge, fuel level gauge, tachometer/hour meter, preheat indicator, and emergency shutdown monitors.

- Complete generator analog instrumentation includes voltage regulator control, ammeter phase selector switch, voltmeter phase selector switch, AC voltmeter, AC ammeter, frequency meter, panel light, and circuit breaker.
- Automatic safety shutdown system monitors the engine oil pressure and coolant temperature. Warning lights indicate abnormal conditions.
- Automatic start/stop control automatically starts the generator set during a commercial power failure when used in conjunction with a transfer switch.
- Complete power panel. Fully covered; three-phase terminals and single phase receptacles allow fast and convenient hookup for most applications including temporary power boxes, tools and lighting equipment. The GFCI receptacles are NEMA 5-20, and the auxilillary outputs use CS6369 twistlock receptacles.
- Simultaneous single and three phase power.
- Voltage selector switch offers the operator a wide range of voltages that are manually selectable. Fine tuning of the output voltage can be accomplished by adjusting the voltage regulator control knob to obtain the desired voltage.
- EPA emissions certified Tier 3 emissions compliant.

WARRANTY*

John Deere

12 months from date of purchase with unlimited hours or 24 months from date of purchase with 2000 hours (whichever comes first).

Generator

24 months from date of purchase or 2000 hours (whichever occurs first).

Trailer

12 months excluding normal wear items.

*Refer to the express written, one-year limited warranty sheet for additional Information

NOTICE

Generator is not intended for use in enclosed areas or where free flow of air is restricted.

Backfeed to a utility system can cause electrocution, shock and/ or property damage. DO NOT connect to any building's electrical system except through an approved device.

Specifications are subject to change without notice.

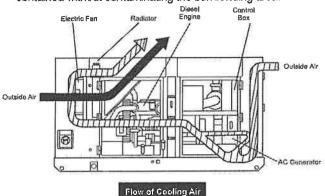

MQ POWER WhisperWatt™ Series Generator

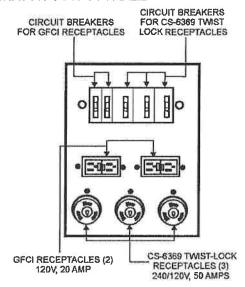

MQ POWER DECIBEL LEVELS Our soundproof housing (90) Subway / truck traffic allows substantially lower operating noise levels than competitive (80)Average city traffic designs. WhisperWatts are at home on - Inside car at 60 mph construction sites, in WhisperWatt at 23 feet residential -Air conditioner at 20 feet neighborhoods, and at hospitals - just about Normal conversation anywhere.

ULTRA-SILENT FEATURES

- Low Noise Muffler Large capacity low noise muffler minimizes exhaust sound.
- Soundproof Casing The new design divides the cabinet into three sections, separating the engine, muffler and radiator for more efficient cooling and reduces noise from the engine and fans.
- New Cooling System An advanced design uses two separate air intake systems to cool the generator. The engine fan draws air in to cool the engine and generator housing while a second electric fan directly cools the radiator. With less air being drawn into the generator through each fan, considerably less noise is produced through the top of the generator.
- Environmental Design Constructed using an integrated environmental skid and fuel tank. This design fully contains fuel leakage and any liquid that might leak from the engine such as lube oil or radiator coolant. All potentially hazardous liquids are contained without contaminating the surrounding area.

GENERATOR OUTPUT PANEL

OPTIONAL CONTROL FEATURES

- Emergency Stop Switch when manually activated shuts down generator in the event of an emergency.
- Audible alarm alerts operator of abnormal conditions.

OPTIONAL GENERATOR FEATURES

- Electronic Governor Control (Crystal Sync) maintains frequency to within ±0.25% from no load to full load.
- Battery Charger provides fully automatic and selfadjusting charging to the generator's battery system.
- Jacket Water Heater for easy starting in cold weather climates.
- Special Batteries long life batteries provide extra engine cranking power.
- Spring Isolators provides extra vibration protection for standby applications.
- Low Coolant Level Shutdown provides protection from critically low coolant levels. Includes control panel warning light.
- Trailer Mounted Package meets National Highway Traffic Safety Administration (NHTSA) regulations. Trailer is equipped with electric or surge-hydraulic brakes with tandem axle configuration.

OPTIONAL OUTPUT CONNECTIONS

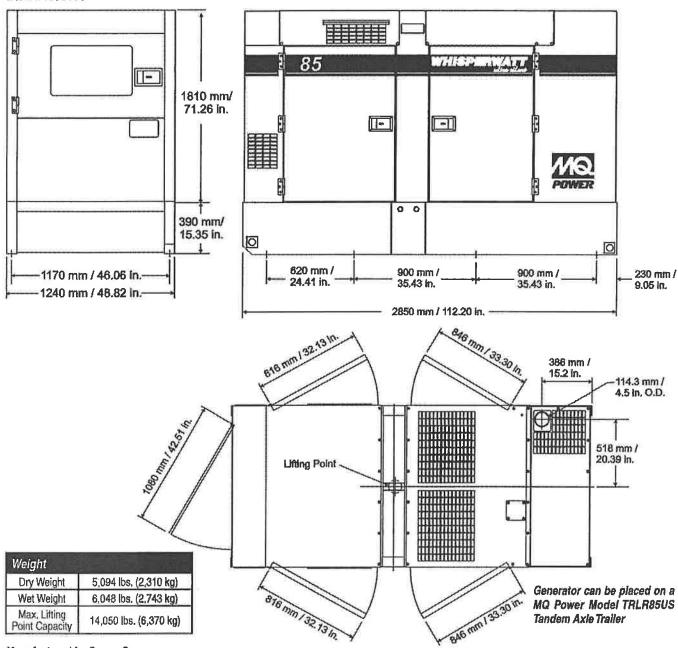

- Cam-Lock Connectors provides quick disconnect alternative to bolt-on connectors.
- Pin and Sleeve Connectors provides industry standard connectors for all voltage requirements.
- Output Cable available in any custom length and size configuration.

Product Guide Specification

Specifier Notes: This product guide specification is written according to the Construction Specifications Institute (CSI) 3-Part Format, including *MasterFormat*, SectionFormat, and PageFormat, as described in The CSI Construction Specifications Practice Guide.

This section must be carefully reviewed and edited by the Architect to meet the requirements of the project and local building code. Coordinate this section with other specification sections and the Drawings. Delete all "Specifier Notes" after editing this section.

Section numbers and titles are from MasterFormat 2014 Update.

SECTION 11 61 23

FOLDING AND PORTABLE STAGES

Specifier Notes: This section covers StageRight portable, stage extension platform systems, including "ME-1000" support systems. Consult StageRight for assistance in editing this section for the specific application.

PART 1 GENERAL

1.1 SECTION INCLUDES

- A. Stage extension platform systems.
- 1.2 SUBMITTALS

Specifier Notes: Edit submittal requirements as necessary. Delete submittals not required.

- A. Comply with Section 01 33 00 Submittal Procedures.
- B. Product Data: Submit manufacturer's product data.

- C. Shop Drawings: Submit manufacturer's shop drawings, including plans, elevations, sections, and details, indicating dimensions, tolerances, materials, components, fabrication, fasteners, hardware, finish, options, and accessories.
- D. Manufacturer's Certification: Submit manufacturer's certification that materials comply with specified requirements and are suitable for intended application.
- E. Manufacturer's Project References: Submit manufacturer's list of successfully completed stage extension platform system projects, including project name and location, name of architect, and type and quantity of stage extension platform systems furnished.
- F. Operation and Maintenance Data: Submit manufacturer's operation and maintenance manuals, including operation, maintenance, and cleaning instructions.
- G. Warranty Documentation: Submit manufacturer's standard warranty.

1.3 QUALITY ASSURANCE

A. Manufacturer's Qualifications: Minimum 25 years of experience in the manufacturing of stage extension platform systems of similar type to that specified.

1.4 DELIVERY AND STORAGE

- A. Delivery Requirements: Deliver stage extension platform systems to site in manufacturer's original, unopened containers and packaging, with labels clearly identifying product name and manufacturer.
- B. Storage Requirements: Store stage extension platform systems at location designated by the Owner.

1.5 WARRANTY

A. Warranty Period: 3 years from date of delivery.

PART 2 PRODUCTS

2.1 MANUFACTURERS

- A. Manufacturer: StageRight, 495 Pioneer Parkway, Clare, Michigan 48617. Toll Free 800-438-4499. Website www.stageright.com. E-mail stageright@rogersgrp.com.
- B. Substitutions: Not permitted.
- C. Single Source: Provide all components of stage extension platform systems by single manufacturer.

2.2 STAGE EXTENSION PLATFORM SYSTEMS

A. Stage Extension Platform System Components:

- 1. Support Systems: "ME-1000".
- Decks.
- 3. Skirting.
- 4. Transport carts.
- B. Portable system.
- C. Incorporate "floating deck" design, permitting use of modular decks in conjunction with various support systems to create performance staging with heights ranging from 3.2 inches to 108 inches.
- D. Floating Deck: When coupled with StageRight major event support systems, permits creation of performance stage.
- E. System Assembly: No special equipment or tools required.
- F. Maximum Weight of Individual Components: Approximately 140 pounds.
- G. Support Structure: Permit bridging of decks between units, facilitating rapid setup and leveling.

2.3 SUPPORT SYSTEMS

- A. Support Systems: "ME-1000".
- B. Description: Portable, modular, staging support system with stable, wobble-free understructure.

Specifier Notes: Specify **one** of the following **two** styles of support system. Specify adjustable height range. Consult StageRight for availability of other adjustable height ranges by special order.

- C. Support System Style: Arena.
 - 1. Adjustable Height Range: [24 to 36 inches] [32 to 48 inches] [36 to 56 inches] [48 to 78 inches] [72 to 108 inches].
- D. Support System Style: All-Terrain.
 - 1. Adjustable Height Range: [24 to 36 inches] [32 to 48 inches] [36 to 56 inches] [48 to 78 inches].
 - 2. Each leg can be set at different coarse heights to accommodate variable contours or uneven surfaces.
- E. Certified Uniformly Distributed Live-Load Capacity: 4,000 pounds per 4-foot by 8-foot section (125 pounds per square foot).
- F. Storage: Supports store compactly.
- G. Setup: Assembled without tools by a minimum of 2 people.
- H. Locator Nodes:
 - Conical Nodes on Locator Plates: Guide decks into location and proper alignment, securing them in place without tools, clamps, or clips.

- 2. Decks: Fasten in place and stage sections interlock without tools, clamps, or separate processes.
- L Bridging:
 - Alternating Sections of Staging (both front-to-back and side-to-side): Composed of decks that suspend, or "bridge", between support assemblies.
- J. Adjustable Height:
 - Height: Adjust in increments of 2 inches without tools.
 - Adjustments: Executed from standing position by raising or lowering inner column of supports.
- K. Construction:
 - 1. Vertical Columns: 2-1/2-inch IPS aluminum pipe, Schedule 40.
 - 2. Telescopic Inner Legs: 2-inch IPS aluminum pipe, Schedule 80.
 - 3. Horizontal and Diagonal Braces:
 - a. 2-inch OD aluminum hollow bar.
 - Attach to frame with self-locking hooks that encircle nearly 70 percent of tube and require manual release.
 - Locator plates with welded-on nodes.
 - Screw Feet:
 - a. At base of each column.

Specifier Notes: Provide a range of fine-adjustment leveling. Consult StageRight for more information.

- b. Adjustment: _____-inch range of fine-adjustment leveling.
- c. Diameter: Minimum of 3/4 inches.
- d. Threads: Zinc-plated Acme.
- e. Bottom of Feet: Molded urethane pads, minimum of 2-7/8-inch diameter.
- 6. Velcro Dots: Prevent metal-to-metal contact between inner and outer columns.
- L. Finish: Non-glare, black, baked-on powder coat.

2.4 DECKS

- A. Material: Composite structure with skins of 1/8-inch, exterior-grade, Douglas fir plywood, laminated to 0.35-inch surfaces and bonded to 2-1/4-inch-thick honeycomb-core material with waterproof urethane adhesive.
- B. Performance Surfaces:

Specifier Notes: Specify two performance surfaces for the decks, one for each side. Delete surfaces not required. Consult StageRight for information regarding custom performance surfaces.

- 1. "TechStage", 0.095-inch surface of fiberglass-reinforced polymeric with black texture.
- 2. "PolyTrac", black, slip-resistant ABS.
- 3. Commercial-grade polyolefin carpet.
- 4. Tempered hardboard prepared as a paintable surface.

C. Edging:

- 1. Material: Aluminum alloy 6005-T5.
- Enclose deck.
- 3. Extruded Interlock Track: Receive accessories.
- 4. Attach to Deck: Adhesives and riveted corner brackets.
- 5. Finish: Silver anodize or black powder coat paint.
- D. Relationship with Support Systems: Not permanently part of a given support system, but function with several support structures available from manufacturer.

E. Loads:

- 1. Design decks to support a load of 125 pounds per square foot and a point load of 600 pounds on a 1-inch-square area on honeycomb core with 3/8-inch cell.
- 2. Carpeted Surface: Support a point load of 300 pounds on a 1-inch-square area on honeycomb core with 3/8-inch cell.
- F. Construction: No bolts or welded joining of deck components.
- G. Honeycomb Core Design: Absorbs drum-head effect and distracting foot noise.
- H. Decks Not Acceptable: Single-sided frame-style decks with sound-absorbing material added to bottom.

2.5 ACCESSORIES

Specifier Notes: Specify required accessories. Delete accessories not required.

A. Skirting:

- 1. Material: Noncombustible, 100 percent PolyTwill.
- 2. Conformance: Local fire codes.
- 3. Skirt Attachment Clips:
 - a. Material: Semi-rigid vinyl.
 - b. Sewn into top hem of skirt at regular intervals along its entire length.
 - c. Engage into deck interlock track for attachment to stage.
- 4. Skirt Height Adjustment: Velcro strips sewn into reverse side of skirt.
- 5. Skirting Valence: Knife or box pleated with a fullness of 50 percent.

B. Transport Carts:

- Transport stage extension platform systems.
- 2. Material: Welded steel tubing.
- 3. Fork Truck Access: 4 sides.
- Casters: Minimum of 4 heavy-duty swivel casters.
- 5. Contain their intended load in a secure and organized manner.

PART 3 EXECUTION

3.1 TRAINING

- A. Provide instruction and training of Owner's personnel in the operation and maintenance of stage extension platform systems.
- B. Provide instruction and training by factory-trained and certified representative of manufacturer.

END OF SECTION

Wahl Tents 44550 North Groesbeck Highway Clinton Township, MI 48036 Attn: Stephanie King

Eureka 60' Clearspan Peer Review CRE Project #: 18.1101.03

Dear Stephanie,

We have completed our peer review for the above referenced project for conformance to the structural provisions of the 2015 International Building Code.

A peer review has been performed on the Eureka 60' clearspan tent, as seen on the attached drawing page. Tent frames are located approximately 15' on center. Original engineering documentation has been provided in Appendix A. The tent has been designed as a temporary structure to be installed no greater than 180days. The wind exposure used in calculations is exposure C and represents a flat open field or similar conditions excluding exposure to large bodies of water.

It should be known that the tent did not include any snow loading and that any and all snow accumulations shall be removed immediately. Drawings include base reactions that earth anchors, or ballast, must be adequate to resist.

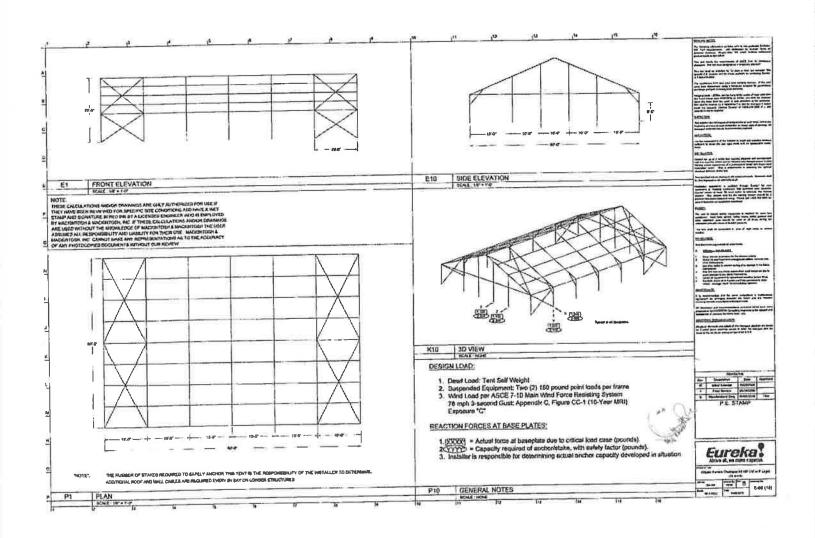

To the best of our knowledge the attached original engineering conforms with the requirements of the 2015 International Building Code.

We trust this information is suitable for your needs at this time. If you have any questions, please do not hesitate to contact our office.

Regards, Clark-Reder Engineering, Inc.

Jeffrey M. Reder, P.E.

MI Registration No.: 6201056952

Contract #: 10442 Quicken Loans Community Investment Fund

Wahl Tents TERMS AND CONDITIONS

This contract contains important terms and conditions including Wahl Tents LLC disclaimer from all liability for injury or damage and details of the customer's obligations. These terms and conditions are a part of this contract — PLEASE READ!

Reservation policy: When equipment is reserved, Wahl Tents immediately schedules a crew and removes those items from the inventory for the reserved date(s).

An order is not considered confirmed until the non-refundable deposit of 50% of the total amount is made and this signed contract is returned to Wahl Tents.

Commercial customers may be billed with a PO arrangement at the discretion of Wahl Tents.

Residential customers must be paid in full 2 weeks prior to the scheduled event.

Refunda

Refunds on cancelled items are as follows (this applies to each and every item cancelled, even if it is the entire order. This does not include the deposit, as the deposit is nonrefundable):

Canceling 30+ days prior to delivery date- 100% refund on cancelled item(s).

Canceling within 14-29 days prior to delivery date- 75% refund on cancelled item(s)

Canceling within 8-13 days prior to delivery- 50% refund on cancelled item(s)

7 days or less---No refund given on any items

CUSTOMER RESPONSIBLITES:

Permits: Customer shall provide all necessary permits, licenses, and /or/ consent at the customer's expense prior to installation.

It is the customer's responsibility to check into building permit and fire department requirements prior to the installation date to confirm the possible requirement of permits. We will assist you in any way possible, but obtaining these permits does remain the responsibility of the customer.

Property Preparation: Refunds will not be issued if the tent ordered does not fit the property due to incorrect measurements done by the customer. Wahl Tents offers a measurement service of \$25 to ensure correct tent sixing for the property in question.

The area of installation should be prepped 2-3 days before tent install in the event of schedule shifting. (I.e. cutting the lawn, treating area for insects, etc)

I am aware that it is the law to call MSDIGG 48 hrs prior to the tent stakes going into the ground, MI 1-800-482-717! (This does not pertain to graduation or backyard events). Wall Tents LLC will not be responsible for septic field or septic tank damage.

All underground irrigation, sprinkler systems need to be marked and pointed out to the delivery crew before installation. If any underground systems are not communicated to Wahl Tents personnel via clear visual markers or if incorrect information is given. Wahl Tents will not be held responsible for any underground damages. The premises upon which equipment is to be delivered shall be accessible to delivery by trucks. Rates do not include excessive carry of objects. Premises and /or/ tent shall be clear of all obstructions, impediments and decorations before Wahl Tents begins installation or breakdown. Any delays, obstructions, or excessive carrying causing the delay of delivery/ installation or pick up/breakdown of equipment will incur additional clurges of \$25.00/Hour/Man.

Delivery/Setup & Pickup/Strike: Any repositioning or moving of the tent once installation begins shall be charged at the aforementioned rate of \$25.00/Hour/Man. If the event is being held in a location requiring a pass or charge for entry and exit (i.e. parks, clubs, ferry fee's, etc.), the customer is responsible for all charges/fee's involved.

Rental fees for table and chairs do not include set up or broakdown, unless previous arrangements have been made. Customer is responsible for breaking down and stacking furniture in one sheltered area for pick up. If furniture is not broken down and stacked when crew arrives, a fee of \$1.25 per table and \$.75 per chair will be assessed. Should time constraints not permit us to breakdown furniture at this time, one additional rental may incur, as well as breakdown charges.

All decorations and non-leased equipment shall be removed from the tent before the time of breakdown. All staples and /or/ tape must be removed from tables, chairs, and tent poles. Failure to remove attachments will result in repair/ removal charges.

An adult representative is recommended to be present to show exact location of installation. This representative is also recommended to count and sign off on all items, otherwise it is to be agreed that the counts performed by Wahl Tents will be considered accurate.

Lost and damaged: Customer is solely responsible for all reutal items during the rental period from installation through take down. The customer assumes responsibility for any and all damages due to negligence, theft, vandalism, misuse, or other avoidable occurrences during this rental period. This responsibility of the customer includes paying the full replacement charge of any and all lost or damaged items.

If any equipment is missing or does not function properly, I understand and agree to notify Wahl Tent's office or emergency line within 30 minutes of occurrence otherwise no refund or allowance will be made. An emergency number is available on the answering service at 586-493-0563 for after-hours occurrences. It is still the responsibility of the customer to contact the office to report an occurrence of items not functioning properly, even if the matter was reported to a Wahl Tents crew member onsite.

Customer Plekup: A driver's license as well as a credit card is required to be on file for customer pickups. Wahl Tents warehouse staff may help, but is not responsible for loading the customer's vehicle and are held harmless of any damages.

Any equipment returned after the date/time items are due back is subject to additional charges

Additional Responsibilities: It is the customer's responsibility to have a detailed evacuation plan in the event of high winds and/or severe weather. Tents are a temporary shelter and must be evacuated in the event of high winds and/or severe weather.

During snow conditions, customer shall at their sole expense be responsible for eliminating the buildup of snow and ice on all winter tent installations, through beating or other effective method unless prior arrangements have been made. Customer assumes all responsibility for damages due to any accumulated buildup.

Customer shall assume risk of, and compensation, and hold Wahl Tents LLC harmless from and against any and all property damage and personal injury resulting from:

- (1) People or property coming in contact with or falling over ropes, straps, poles, stakes, or other supports of the above mentioned equipment, while in or about said property.
- (2) Contact with pipes, wires, or other obstructions, such as but not limited to, gas pipes, irrigations, electrical wires, trees, flowers, bushes planters, buildings, or gutters, while delivering, loading, unloading, creeding, dismantling, and /or/ use of said equipment.
- (3) Injuries or damages caused by fire, rain, hail, sleet, anow, storms, high winds, tornadoes, floods, or other disturbances of nature, or by equipment falling or falling by reason thereof upon any persons, materials, or exhibits, while under or about said property.

STATEMENT:

Wahl Tents LLC will not be liable for the erection of tents or structures on stated date in case of forecast, storms or excessive winds that might cause damage to said property. Wahl Tents LLC shall be released hereunder for conditions brought about by acts of God, strikes, boycotts, civil insurrections or commotions, invasions by a common enemy, or other conditions beyond our control.

I, the customer, agree that if I fail to make a payment or if I am responsible for any additional charges due to any of the possible occurrences described in this contract, I the customer authorize to allow Wahl Tents to charge my credit card on file.

Delinquent accounts (30 or more days old) may, at the sole discretion of Wahl Tens LLC be charged 1.5% per month interest charge. Customer also agrees to pay all reasonable collection fees, including but not limited to: attorney fees, court costs, and collection service charges.

certify that that parend and agree to all terms of this contract.	Date: 9/12/18
Signature:	Date:
certify that the variety and agree to all terms of this contract. Signature: Customer name (printed): Section 6.1.	

21

Quicken Loans INC. agrees to pay for any damages to the tenting & equipment that are cause by Quicken Loans Inc. attenders. Quicken Loans Inc. will not be responsibly however, for ordinary wear and tear or for damages that was caused by persons ofner than Quicken Loans & its wind attenders. If the tent Company is notified of damages during event, The Tent Company will notify Quicken Loans Inc., in writing, of any damage and any related charges within 24 hours. The tent company will also provide photographic evidence with a written discription if any such damage occur The tent Company Allthur agrees to repair any damages in a commercialist reasonable manner

Load Case #4 - C, on windward roof acts outward; combine w/ internal suction

Windward Wall = 83 pounds per foot inward Windward Roof = -4 pounds per foot outward Leeward Roof = 32 pounds per foot outward Leeward Wall = 24 pounds per foot outward

Load Case #5 - C, on windward roof acts inward; combine w/ internal suction

Windward Wall = 83 pounds per foot inward Windward Roof = 43 pounds per foot inward Leeward Roof = 32 pounds per foot autward Leeward Wall = 24 pounds per foot outward

Load Case #6 - Wind acting normal to End Wall:

Windward Woll = $2 (q_xGC_pA) = 2 (10.93) (0.8) (195) = 3,410$ pounds inward Leaward Wall = $2 (q_xGC_pA) = 2 (10.68) (-0.5) (195) = 2,082$ pounds outward

	Client: Johnson Outdoors

Suspended Equipment Loads

Load Case #7 - Two Point Loads of P = 150 pounds Load Case #8 - One Point Load of P = 150 pounds

Ream Dead Weight

Load Case #19 - Beam self-weight will be edded in computer analysis

Combine Loads per Paragraph 2.4.1:

Notes: Load combination including Wind #2 & #5 are more critical using suspended equipment Load combinations including Wind #1, #3 & #4 are more critical using 0.60 + W

```
(0.6) Wind #1 + (0.6) Dead
Load Combination #1
                      (0.6) Wind #3 + (0.6) Dead
Lood Combination #2
                      (0.6) Wind #4 + (0.6) Dead
Load Cambination #3
                      (0.6) Wind #2 + Suspended Equipment + Dead
Load Combination #4
                      (0.6) Wind #5 + Suspended Equipment + Dead
Load Combination #5
                      (0.6) Wind #2 + Unbalanced Suspanded Equipment + Dead
Lond Combination #6
                      (0.6) Wind #5 + Unbelanced Suspended Equipment + Dead
Load Combination #7
                      (0.6) Wind #6 + Dead Load
Load Combination #8
Load Combination #8
                      Suspended Equipment + Dead
                      Unbalanced Suspended Equipment + Dead
Load Combination #9
```

MAYOR'S OFFICE DPW - CITY ENGINEERING DIVISION PLANNING AND DEVELOPMENT DEPARTMENT DEPARTMENT

FIRE DEPARTMENT BUSINESS LICENSE CENTER

COLEMAN A. YOUNG MUNICIPAL CENTER 2 WOODWARD AVENUE, SUITE 601 DETROIT, MI 48226 PHONE: (313) 224-3949 · TTY: 711 FAX: (313) 224-3471 WWW.DETROITMI.GOV

September 11, 2018

Honorable City Council:

Petition No. 1761 Detroit Real Estate LLC, request to vacate various streets, alleys and rights-of-way in order to support a large 313,000 square foot project.

Petition No. 1761 of Detroit Real Estate LLC request to outright vacate Newhall Street, variable width, from Mt Elliott, 66 feet wide eastward to a dead end near New York Central Railroad, also the north-south alley, 20 feet wide, and the east-west alley, 20 feet wide, in the block of Newhall Street, Georgia Avenue, 60 feet wide, Mt Elliott Avenue, and New York Central Railroad; also to outright vacate Heintz Avenue, 50 feet wide, from Mt Elliott, 66 feet wide eastward to New York Central Railroad, also the two (2) north-south alleys, both 18 feet wide, and the east-west alley, 18 feet wide, in the block of Heintz Avenue, Miller Avenue, 66 feet wide, Mt Elliott Avenue, and New York Central Railroad.

The petition was referred to the City Engineering Division - DPW for investigation (utility review) and report. This is our report.

City Engineering Division - DPW previously submitted a report and a resolution to your Honorable Body for petition no. 1761; however the resolution has been amended to include Heintz Avenue and the alleys in the block of Miller Avenue, Heintz Avenue, Mt Elliott and the railroad. The amended resolution also provides for two (2) easements for water mains one each in Heintz Avenue and Newhall Street, and pavement encroachments over the water main easements.

The request is being made to facilitate a warehouse renovation for Arcelormittal who will operate a new manufacturing facility serving automakers and creating new job opportunities. The resolution as amended herein will encompass the entire development area for Arcelormittal.

Detroit Water and Sewerage Department (DWSD) has no objection to the vacation provided certain provisions are met. DWSD will abandon all sewers in the subject area, and has agreed to accept the water main easements as included in the amended resolution. The DWSD provisions are a part of the attached amended resolution. Detroit Fire Department (DFD) has conditions that are made a part of the amended resolution.

DTE - Electric has already received payment for relocation of their facilities. AT&T will also relocate their facilities at project cost. Provisions for both DTE and AT&T are a part of the amended resolution.

ENTERED SEP 2 4 2018 Mare To New Brown - M (30)

All other involved City departments and privately owned utility companies have reported no objections to the vacations. Provisions for relocation of the utilities and for City services are a part of this amended resolution.

I am recommending adoption of the attached amended resolution.

Respectfully submitted,

Richard Doherty, P.E. City Engineer City Engineering Division – DPW RESOLVED, that all of vacate Newhall Street, variable width, from Mt Elliott, 66 feet wide eastward to a dead end near New York Central Railroad, also the north-south alley, 20 feet wide, and the east-west alley, 20 feet wide, in the block of Newhall Street, Georgia Avenue, 60 feet wide, Mt Elliott Avenue, and New York Central Railroad; also to outright vacate Heintz Avenue, 50 feet wide, from Mt Elliott, 66 feet wide eastward to New York Central Railroad, also the two (2) north-south alleys, both 18 feet wide, and the east-west alley, 18 feet wide, in the block of Heintz Avenue, Miller Avenue, 66 feet wide, Mt Elliott Avenue, and New York Central Railroad, all being land in the City of Detroit, Wayne County Michigan; and described as follows:

- 1) Newhall Street, variable width, lying south of and adjoining the south line of Lots 23 through 37, both inclusive and the alley between said Lots 36 and 37; also lying north of and adjoining the north line of Lots 4 through 18, both inclusive, also lying north of and adjoining that part of Newhall Street and the "U" shaped alley previously vacated on April 9, 1935, all in the "Howe's Subdivision of part of the E½ of the SW¼ of Section 21, T.1S,R.12E. and the S. part of Out Lot G of the J. Dunn Farm, Wayne County, Michigan" as recorded in Liber 13, page 24 of Plats, Wayne County Records; EXCEPTING therefrom the west 20.00 feet of the north 40.00 feet of Newhall Street lying south of and adjoining the west 20.00 feet on the south line of said Lot 37 of the aforementioned subdivision; said exception to be used as a part of Mt. Elliott Avenue.
- 2) North-south alley, 20 feet wide, lying east of and adjoining the east line of Lots 37 through 44, both inclusive; also lying west of and adjoining the west line of Lots 36 and 45 and the alley between said Lots, all in the "Howe's Subdivision of part of the E ½ of the SW ¼ of Section 21, T.1S,R.12E. and the S. part of Out Lot G of the J. Dunn Farm, Wayne County, Michigan" as recorded in Liber 13, page 24 of Plats, Wayne County Records; EXCEPTING therefrom the north 15.00 feet of said alley lying west of and adjoining the north 15 feet of Lot 45 and lying east of and adjoining the north 15 feet of Lot 44, all of the aforementioned subdivision; said exception to be used as a part of Georgia Avenue.
- 3) East-west alley, 20 feet wide, lying north of and adjoining the north line of Lots 24 through 36, both inclusive; and lying south of and adjoining the south line of Lots 45 through 57, both inclusive, all in the "Howe's Subdivision of part of the E ½ of the SW ¼ of Section 21, T.1S,R.12E. and the S. part of Out Lot G of the J. Dunn Farm, Wayne County, Michigan" as recorded in Liber 13, page 24 of Plats, Wayne County Records.
- 4) Heintz Avenue, 50 feet wide, lying south of and adjoining the south line of Lot 8 and Lots 43 through 58, both inclusive and the alley between said Lots 8 and 43; also lying north of and adjoining the north line of Lot 7 and Lots 27 through 42, both inclusive, also lying north of and adjoining the alley between said Lots 7 and 42 and the alley opened being the west 18 feet of Lot 29 all in the "Charles Heintz Subdivision of part of the Southeast ¼ of the southwest ¼ of Section 21, T1S.,R.12E. Hamtramck Township, Wayne County, Michigan" as recorded in Liber 29, page 5 of Plats, Wayne County Records; EXCEPTING therefrom the west 20.00 feet of the south 30.00 feet of Heintz Avenue lying north of and adjoining the west 20.00 feet on the north line of said Lot 7 of the aforementioned subdivision; said exception to be used as a part of Mt. Elliott Avenue.

- 5) North-south alley, 18 feet wide, lying east of and adjoining the east line of Lots 1 through 7, both inclusive; also lying west of and adjoining the west line of Lots 9 and 42 and the alley between said Lots, all in the "Charles Heintz Subdivision of part of the Southeast ¼ of the southwest ¼ of Section 21, T1S.,R.12E. Hamtramck Township, Wayne County, Michigan" as recorded in Liber 29, page 5 of Plats, Wayne County Records; EXCEPTING therefrom the south 15.00 feet thereof lying east of and adjoining the south 15.00 feet on the east line of said Lot 1, and lying west of and adjoining the south 15.00 feet of Lot 9, all of the aforementioned subdivision; said exception to be used as a part of Miller Avenue.
- 6) East-west alley, 18 feet wide, lying north of and adjoining the north line of Lots 9 through 21, both inclusive and the west 18 feet of Lot 22; and lying south of and adjoining the south line of Lots 30 through 42, both inclusive and the west 18 feet of Lot 29, all in the "the "Charles Heintz Subdivision of part of the Southeast ¼ of the southwest ¼ of Section 21, T1S.,R.12E. Hamtramck Township, Wayne County, Michigan" as recorded in Liber 29, page 5 of Plats, Wayne County Records.
- 7) North-south alley, 18 feet wide, as deeded to the City of Detroit on December 21,1920: being the West 18 feet of Lots 22 and 29 "Charles Heintz Subdivision of part of the Southeast ¼ of the southwest ¼ of Section 21, T1S.,R.12E. Hamtramck Township, Wayne County, Michigan" as recorded in Liber 29, page 5 of Plats, Wayne County Records.

Be and the same is hereby vacated (outright) as public rights-of-way to become part and parcel of the abutting property, subject to the following provisions:

PROVIDED, that petitioner/property owner make satisfactory arrangements with any and all utility companies for cost and arrangements for the removing and/or relocating of the utility companies and city departments services or granting of easements if necessary, and further

PROVIDED, that the petitioner/property owner make satisfactory arrangements with DTE Energy – Electric division for the removal and relocation of their facilities in the area of the vacations, and further

PROVIDED, that the petitioner/property owner make satisfactory arrangements with AT&T for the removal and relocation of their facilities in the area of the vacations by contacting the Custom Work Group at 888-901-2799, and further

PROVIDED, that Detroit Fire Department (DFD) have vehicle access at all times, also that the fire hydrant on the property be kept free and clear from any obstruction, also that the petitioner or owner provide DFD with a knox-box and manual gate key, and further

PROVIDED, that the petitioner shall design and construct proposed sewers and water mains and to make connections to the existing public sewers and water mains as required by the Detroit Water and Sewerage Department (DWSD) prior to the construction of the proposed sewers and water mains; and further

PROVIDED, that the plans for the sewers and water mains shall be prepared by a registered engineer; and further

PROVIDED, that DWSD be and is hereby authorized to review the drawings for the proposed sewers and water mains and to issue permits for the construction of the sewers and water mains; and further

PROVIDED, that the entire work is to be performed in accordance with plans and specifications approved by DWSD and constructed under the inspection and approval of DWSD; and further

PROVIDED, that the entire cost of the proposed sewers and water mains construction, including inspection, survey and engineering shall be borne by the petitioner; and further

PROVIDED, that the petitioner shall deposit with DWSD, in advance of engineering, inspection and survey, such amounts as the department deems necessary to cover the costs of these services; and further

PROVIDED, that the petitioner shall grant to the City a satisfactory easement for the sewers and water mains; and further

PROVIDED, that the Board of Water Commissioners shall accept and execute the easement grant on behalf of the City; and further

PROVIDED, that the petitioner/property owner shall provide DWSD with as-built drawings on the proposed sewers and water mains; and further

PROVIDED, that the petitioner shall provide a (1) one year warranty for the proposed sewers and water mains; and further

PROVIDED, that upon satisfactory completion, the sewers and water mains shall become City property and become part of the City system. Any exiting sewers and water mains that were abandoned shall belong to the petitioner and will no longer be the responsibility of the City; and further

PROVIDED, that the City of Detroit retains the following described 20 foot wide Water main easements subject to the terms and conditions of the Board of Water Commissioners, who shall accept and execute the easement grant on behalf of the City. The water main easements in Newhall Street and Heintz Avenue on land in the City of Detroit, Wayne County Michigan; and described as follows:

1) Public water main easement which lies within the vacated Newhall Street, 60 feet wide as platted, being the most westerly 465 feet of the northerly 20 feet of the southerly 31 feet, also the westerly 20 feet of the most westerly 465 feet of the northerly 10 feet of the southerly 41 of above said vacated Newhall Street, 60 feet wide as platted, said vacated right-of-way being adjacent Lots 4 through 37, both inclusive "Howe's Subdivision of part of the E ½ of the SW ¼ of Section 21, T.1S,R.12E. and the S. part of Out Lot G of

- the J. Dunn Farm, Wayne County, Michigan" as recorded in Liber 13, page 24 of Plats, Wayne County Records.
- 2) Public water main easement which lies within the vacated Heintz Avenue, 50 feet wide, being the southerly 20 feet of the northerly 31 feet of above said vacated Heintz Avenue and being bounded by the east right-of-way line of Mt. Elliott Avenue, and the west right-of-way line of Michigan Central Railroad, said area also being adjacent to Lots 7, 8 and Lots 27 through 58, both inclusive "Charles Heintz Subdivision of part of the Southeast ¼ of the southwest ¼ of Section 21, T1S.,R.12E. Hamtramck Township, Wayne County, Michigan" as recorded in Liber 29, page 5 of Plats, Wayne County Records.

PROVIDED, that any construction in the public rights-of-way such as removal and construction of new pavement, driveways, curbs and sidewalks shall be done under city permit and inspection according to City Engineering Division – DPW specifications with all costs borne by the abutting owner(s), their heir or assigns; and further

BE IT ALSO RESOLVED, that the Department of Public Works, City Engineering Division is hereby authorized and directed to issue permits to Detroit Real Estate LLC or their assigns to install and maintain encroachments with pavement over two (2) public water main easements, 20 feet wide, in Newhall Street, 60 feet wide as platted, from Mt Elliott, 66 feet wide, eastward to a dead end near New York Central Railroad, also in Heintz Avenue, 50 feet wide, from Mt Elliott, 66 feet wide, eastward to New York Central Railroad, on land in the City of Detroit, Wayne County, Michigan further described as:

- 1) Pavement encroachment in Newhall Street over a 20 foot wide public water main easement (the full area of the easement) which lies within the vacated Newhall Street, 60 feet wide as platted, being the most westerly 465 feet of the northerly 20 feet of the southerly 31 feet, also the westerly 20 feet of the most westerly 465 feet of the northerly 10 feet of the southerly 41 of above said vacated Newhall Street, 60 feet wide as platted, said vacated right-of-way being adjacent Lots 4 through 37, both inclusive "Howe's Subdivision of part of the E ½ of the SW ¼ of Section 21, T.1S,R.12E. and the S. part of Out Lot G of the J. Dunn Farm, Wayne County, Michigan" as recorded in Liber 13, page 24 of Plats, Wayne County Records.
- 2) Pavement encroachment in Heintz Avenue, over a part of a 20 foot wide public water main easement which lies within the vacated Heintz Avenue, 50 feet wide, being the easterly 210 feet of above said water main easement and lying adjacent to Lots 27 through 33, both inclusive and Lots 52 through 58, both inclusive "Charles Heintz Subdivision of part of the Southeast ¼ of the southwest ¼ of Section 21, T1S.,R.12E. Hamtramck Township, Wayne County, Michigan" as recorded in Liber 29, page 5 of Plats, Wayne County Records.

PROVIDED, that if there is any cost for the removing and/or rerouting of any utility facilities, it shall be done at the expense of the petitioner and/or property owner; and be it further

PROVIDED, that by approval of this petition the Detroit Water and Sewerage Department (DWSD) does not waive any of its rights to its facilities located in the right-of-way, and at all times, DWSD, its agents or employees, shall have the right to enter upon the right-of-way to

maintain, repair, alter, service, inspect, or install its facilities. All costs incident to the damaging, dismantling, demolishing, removal and replacement of structures or other improvements herein permitted and incurred in gaining access to DWSD's facilities for maintenance, repairing, alteration, servicing or inspection caused by the encroachment shall be borne by the petitioner. All costs associated with gaining access to DWSD's facilities, which could normally be expected had the petitioner not encroached into the right-of-way, shall be borne by DWSD; and be it further

PROVIDED, that the petitioner maintain the DWSD required clearance of 18 feet above grade for maintenance access and repair, and be it further

PROVIDED, that all construction performed under this petition shall not be commenced until after (5) days written notice to DWSD. Seventy-two (72) hours' notice shall also be provided in accordance with P.A. 53 1974, as amended, utilizing the MISS DIG one call system; and be it further

PROVIDED, that construction under this petition is subject to inspection and approval by DWSD forces. The cost of such inspection shall, at the discretion of DWSD, be borne by the petitioner; and be it further

PROVIDED, that if DWSD facilities located within the right-of-way shall break or be damaged as the result of any action on the part of the petitioner, then in such event the petitioner agrees to be liable for all costs incident to the repair, replacement or relocation of such broken or damaged DWSD facilities; and be it further

PROVIDED, that the petitioner shall hold DWSD harmless for any damages to the encroaching device constructed or installed under this petition which may be caused by the failure of DWSD's facilities; and be it further

PROVIDED, Detroit Real Estate LLC or their assigns shall apply to the Buildings and Safety Engineering Department for a building permit prior to any construction. Also, if it becomes necessary to open cut public streets, bore, jack, occupy or barricade city rights-of-way for maintenance of encroachments such work shall be according to detail permit application drawings submitted to the City Engineering Division – DPW prior to any public right-of-way construction; and further

PROVIDED, that the necessary permits shall be obtained from the City Engineering Division – DPW and the Buildings and Safety Engineering Department. The encroachments shall be constructed and maintained under their rules and regulations; and further

PROVIDED, that all cost for the construction, maintenance, permits and use of the encroachments shall be borne by Detroit Real Estate LLC or their assigns, and further

PROVIDED, that all costs incurred by privately owned utility companies and/or city departments to alter, adjust, and/or relocate their existing utility facilities located in close proximity to the encroachments shall be borne by Detroit Real Estate LLC or their assigns. Should damages to

utilities occur Detroit Real Estate LLC or their assigns shall be liable for all incidental repair costs and waives all claims for damages to the encroaching installations; and further

PROVIDED, that no other rights in the public streets, alleys or other public place shall be considered waived by this permission which is granted expressly on the condition that said encroachments shall be removed at any time when so directed by the City Council, and the public property affected shall be restored to a condition satisfactory to the City Engineering Division – DPW; and further

PROVIDED, that Detroit Real Estate LLC or their assigns shall file with the Department of Public Works – City Engineering Division an indemnity agreement in form approved by the Law Department. The agreement shall save and protect the City of Detroit from any and all claims, damages or expenses that may arise by reason of the issuance of the permits and the faithful or unfaithful performance of Detroit Real Estate LLC or their assigns of the terms thereof. Further, Detroit Real Estate LLC or their assigns shall agree to pay all claims, damages or expenses that may arise out of the use, repair and maintenance of the proposed encroachments; and further

PROVIDED, that construction of the encroachments shall constitute acceptance of the terms and conditions as set forth in this resolution; and be it further

PROVIDED, that the encroachment potion of this resolution is revocable at the will, whim or caprice of the City Council, and Detroit Real Estate LLC acquires no implied or other privileges hereunder not expressly stated herein; and further

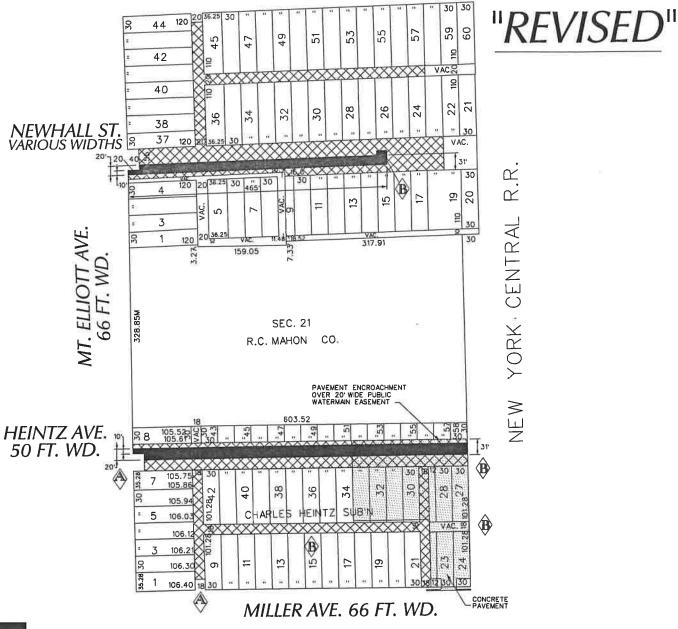

PROVIDED, that the encroachment permits shall not be assigned or transferred without the written approval of the City Council; and be it further

PROVIDED, That the City Clerk shall within 30 days record a certified copy of this resolution with the Wayne County Register of Deeds.

RE: Authorization to submit a grant application to the Michigan State Police, Office of Highway Safety Planning for the FY 2018 405h Nonmotorized Safety Program

The Planning and Development Department is hereby requesting authorization from Detroit City Council to submit a grant application to the Michigan State Police, Office of Highway Safety Planning, for the FY 2018 405h Nonmotorized Safety Program. The amount being sought is \$100,000.00. The Federal share is \$100,000.00 of the approved amount, and there is an in-kind match of \$25,000.00. The total project cost is \$125,000.00.

The 405h Nonmotorized Safety Program will enable the department to:

- Provide Safety Ambassador educational classroom activities for grade school and high school students
- Support Safety Ambassador participation at neighborhood and outreach meetings and events.
- Purchase materials associated with the Safety Ambassador Program
- Allow City Staff to participate and manage the initiative

If the application is approved, the in-kind match will be provided via PDD Staff wages and fringe benefits.

We respectfully request your approval to submit the grant application by adopting the attached resolution.

Sincerely.

Ryan Friedrichs

#### BY COUNCIL PRESIDENT BRENDA JONES:

### RESOLUTION IN SUPPORT OF HB 4124: SAFE DRINKING WATER IN SCHOOLS AND CHILD CARE CENTERS

- WHEREAS, House Bill 4124, as drafted, is designed to amend Michigan's Safe Drinking Water Act to establish a program to assist schools and child care centers to test for and remedy lead contamination in their drinking water; and
- WHEREAS, The amendments, if approved, would require the Michigan Department of Environmental Quality ("MDEQ") or its authorized agent to create a program that target the elimination of lead contaminants in drinking fountains, water coolers or other sources under the control of the schools or child care centers. Additionally, the program will require the school or child care centers to repair, replace, remove or disable a drinking water cooler that is the source of lead contamination; and
- WHEREAS, Our educational institutions, such as our public schools and day-care providers, m, act as safe havens for the children under their tutelage. These amendments work to make sure that these institutions are not inadvertently causing harm in contradiction to the general goal of providing an environment that is both healthy and happy for these developing young minds and bodies; and
- WHEREAS, According to the Michigan Department of Health and Human Services, Detroit children has the highest percentage of lead poisoning cases in the State of Michigan. This is even behind the City of Flint, which has documented high levels of lead contamination throughout its water system. Under these circumstances, we must be vigilant to address all potential sources of lead contamination including the drinking water in our schools and day care centers.

  NOW THEREFORE BE IT
- RESOLVED, That the Detroit City Council wholeheartedly support House Bill 4124 to require MDEQ to establish a testing program for schools and day care centers; BE IT FINALLY
- **RESOLVED,** That a copy is resolution be transmitted the Committees on Natural Resources in both the Michigan House and Senate and to the Detroit Delegation in the Michigan Legislature.

Resolution In Support of HB 4124 - Safe Drinking Water in

Schools and Child Care Centers

The Legislative Policy Division was requested to draft a resolution supporting House Bill 4124 which establishes a program to assist schools and child care centers to test for and remedy lead contamination in their drinking water. A draft is attached for your review and consideration.

### BY COUNCIL PRESIDENT BRENDA JONES:

## RESOLUTION IN OPPOSITION TO THE CONFIRMATION OF BRETT KAVANAUGH TO THE UNITED STATES SUPREME COURT

WHEREAS, President Donald Trump's nomination of Brett Kavanaugh to the United States Supreme Court presents a troublesome, potentially dangerous, point of departure from traditional notions of judicial neutrality and, if approved by Congress, his lifetime appointment to the highest court in the land could well subvert the fundamental principles of democracy; and

WHEREAS, Mr. Kavanaugh advocates in his 2009 Minnesota Law Review article, Separation of Powers During the Forty-Fourth Presidency and Beyond, for exempting a sitting U.S. President from not only civil litigation, but also "criminal prosecution and investigation, including from questioning by criminal prosecutors or defense counsel." This belief that a sitting President neither be indicted nor criminally investigated under any circumstances should be very alarming to every citizen regardless of political ideology or religious belief, particularly in today's climate where increasing numbers of the President's close confidantes and appointees are being indicted, convicted, or pleading guilty to criminal charges directly related to the Administration and/or the President; and

WHEREAS, Not only does Mr. Kavanaugh appear to believe that the President should be above the legal constraints that bind every other American, he also supports the notion that control of the Federal Reserve and other vital independent agencies should be ceded to the President. One merely needs to reflect on the current erratic state of this presidency to appreciate how dangerous and foolhardy such an action would be; and

WHEREAS, Mr. Kavanaugh's long judicial record on decisions in the area of executive power illustrates his willingness to ignore precedent in favor of an ahistorical and extreme theory of presidential power. His confirmation is a threat not only to the Federal Reserve, but also to the Department of Justice Special Counsel's Office, the Federal Trade Commission and other protection agencies that serve as important regulatory counter-balances within the federal government to safeguard the interests of the public; and

WHEREAS, It is equally concerning that Mr. Kavanaugh's nomination is being rapidly advanced without adequate investigation of multiple claims of sexual impropriety made against him by a variety of credible sources; and

WHEREAS, It is expected that if Mr. Kavanaugh is confirmed, the 5-member majority of conservative, Republican-appointed justices will dominate the Supreme Court and set the nation's legal standards for decades to come. Over the past century, hard fought but gradual victories for the freedom and equality of all citizens, and particularly the marginalized among us, have been won in the courts. Demographers project that the country is growing ever more diverse, from religious preference to sexual orientation to racial and ethnic composition. The

conservative extreme on the Supreme Court has demonstrated its resistance to those gains and promises to radically undermine a century of judicially achieved progress toward equality with the addition of Mr. Kavanaugh, a jurist with well-documented extreme views – out of step with mainstream America; and

WHEREAS, Perhaps most significantly, the Affordable Care Act with its protections for preexisting conditions would likely be decimated if Mr. Kavanaugh is seated. He has written a 65page dissenting opinion that all but declared the Act unconstitutional, further indicating (not surprisingly) that the President did not have to uphold the law; NOW THEREFORE BE IT

**RESOLVED,** Mr. Kavanaugh's staunch beliefs that a sitting president is above the law, his vehement support for unfettered presidential powers, along with his willingness to remove hard fought legal protections for human (non-corporate) citizens provide weighty reasons for the Detroit City Council's vehement opposition to confirmation of the appointment of Brett Kavanaugh to the United States Supreme Court; **BE IT FINALLY** 

**RESOLVED,** That a copy of this resolution be transmitted to the U.S. Senate Judiciary Committee and the Michigan delegations in both houses of the U.S. Congress.

#### RESOLUTION BY COUNCIL MEMBER GABE LELAND

### RESOLUTION IN SUPPORT OF A \$15 PER HOUR MINIMUM WAGE FOR CITY EMPLOYEES

- WHEREAS, The mission of the Detroit City Council is to promote the economic, cultural and physical welfare of Detroit's citizens and residents through Charter-mandated legislative functions; and
- WHEREAS, While the US poverty rate stands at 14 percent, correspondingly it stands at 36 percent in Detroit, the highest among the 20 largest cities in America. In 2017, the United Way of Michigan released a study that found 52 percent of Wayne County families were either under the poverty line or were what it identified as "ALICE" families asset-limited, income-constrained, employed, or the working poor; which represents those in our communities who are working and yet still are struggling to make ends meet; and
- WHEREAS, In its 2017 resolution to its national convention, the AFL-CIO stated, "We must rewrite the rules of the labor market to ensure working people share in the wealth we help create and (that) our incomes rise as we become more productive. Rewriting the rules must include putting full employment back at the center of our economic policies and increasing the minimum wage to \$15 per hour;" and
- WHEREAS, According to a study by the City of Detroit's own Office of the Chief Financial Officer (OCFO), the City of Detroit has over one thousand budgeted positions which pay a wage under \$15 an hour. The Detroit City Council is in agreement in principle with the AFL-CIO, with the belief that in order to rewrite the rules for working people and to ensure that incomes rise as Detroit becomes more productive, the City needs both fiscal and monetary policy in place for its workers to match Detroit's resurgence; and
- WHEREAS, Pursuant to OCFO directive 2018-101-030, in order to achieve the goal of implementing \$15 per hour as a minimum wage for City workers, the Detroit City Council hereby suggests that the City reduces a financially comparable number of vacant City positions from the City budget in order to accommodate the corresponding financial amount required to implement this policy change; and
- WHEREAS, The OCFO has indicated that in order to implement a City of Detroit Employee \$15 minimum wage, it would require at least an \$11 million adjustment to the City's annual budget. To execute this policy the City would simply need to identify the funds to make a \$15 an hour minimum wage for City workers a reality. Therefore, it is the Detroit City Council's contention that the City should proceed to implement a minimum wage threshold of \$15 an hour for City of Detroit employees; NOW THEREFORE, BE IT
- **RESOLVED** That the Detroit City Council strongly urges the Mayor and the City's Chief Financial Officer to make implementing a \$15 an hour minimum wage for Detroit City workers a priority and to identify the funds for the upcoming fiscal year and beyond.

### BY COUNCIL PRESIDENT PRO TEM MARY SHEFFIELD

# RESOLUTION ENDORSING THE RETENTION AND IMPROVEMENT OF THE ARETHA LOUISE FRANKLIN AMPHITHEATER FORMERLY NAMED THE CHENE PARK AMPHITHEATER

WHEREAS, In the mid-1970s under then Mayor Coleman A. Young, the City of Detroit developed a vision for a system of three linked riverfront parks providing public access to Detroit's near east riverfront between Downtown and Belle Isle; and

WHEREAS, The first of these parks was conceived as an urban amphitheater celebrating the arts and providing a concert venue and unique setting throughout the United States; and

WHEREAS, On June 16, 1982, the City held a groundbreaking ceremony for that first park, which was to complement the private sector investment in mixed use residential developments undertaken by Stroh Brewery, American Natural Resources and Michigan Consolidated Gas, in the near east riverfront; and

**WHEREAS**, On August 10, 1984, following a soft opening on July 23rd, the City dedicated the open air stage, promenade and bike path, supportive pavilion, 25 foot tall hillside and pond including the fountain that comprise the newly constructed Chene Park; and

WHEREAS, Chene Park became an instant success providing the venue for many concerts, civic events and an artist in residence program, as well as a passive place to view vessels navigating the international water way; and

WHEREAS, Over the succeeding years, Chene Park would undergo various phases of improvement, including the addition of a canopy for the stage and later the seating area, fixed seating for 5000 patrons, an expanded pavilion, offices and support facilities for staff and performers and more landscaping for the grounds; and

WHEREAS, Chene Park has entertained more than 800 events over the course of its 34 year history, hosting concerts, high school graduations, Youth Day with the Detroit Police Department, Senior Day, health fairs, comedy shows, live theater, film screenings, live broadcasts of the Detroit Pistons, the Tour de Fat Festival and many private events; and

WHEREAS, Notable among these events is the jazz series which has offered low cost entertainment to Metropolitan Detroit for over 30 years, the Concert of Colors, the US premiere for Techno Music with the Detroit Symphony Orchestra and the Aretha Franklin Tribute Concert; and

WHEREAS, In 2005, the stage of the Chene Park Amphitheater was dedicated to the memory of playwright Ron Millner; and

WHEREAS, The list of performers to have graced the Chene Park stage is a Who's Who of entertainment, including Aretha Franklin, Diana Ross, Smokey Robinson, Fela, James Brown, Ray Charles, Miles Davis, The White Stripes, Wynton Marsalis, Brandford Marsalis, Earth Wind and Fire, the Music & Mastery Holistic Festival with Deepak Chopra and India Arie; and

WHEREAS, Pollstar, an entertainment industry publication, currently rates the venue 63rd highest in worldwide amphitheater ticket sales; and

WHEREAS, On August 31, 2018, during the funeral for Ms. Aretha Louise Franklin, Mayor Duggan, and City Council President Brenda Jones acknowledged a proposal to permanently change the name of Chene Park to the Aretha Louise Franklin Amphitheater (ALFA) in honor of Aretha Franklin; the internationally acclaimed vocalist known the world over as the "Queen of Soul"; and

**WHEREAS**, On September 4, 2018, during City Council Formal Session, the entire City Council, unanimously approved a resolution to permanently change the name of Chene Park, to the Aretha Louise Franklin Amphitheater; and

WHEREAS, Also on September 4, 2018, Council President Pro Tem Mary Sheffield inquired about the future of the amphitheater, amidst reports that the amphitheater could possibly be closed and/or moved downtown to Hart Plaza. Mayor Duggan responded to Council President Pro Tem Mary Sheffield and enthusiastically stated, "that the Aretha Franklin Amphitheater is not moving as long as I'm the mayor"; and

**WHEREAS,** Mayor Duggan acknowledged that physical improvements are needed to the 34-year-old park. Entertainers as well as patrons have strongly suggested improvements in acoustics, parking and infrastructure, in addition to addressing a number of deferred maintenance items; and

WHEREAS, The ALFA has new and unrealized potential to be the jewel that it was originally envisioned to be and more. The City must promptly pursue sufficient capital improvements to the facility in order to improve the overall physical condition and address functional and operational needs in order to encourage related investment and to increase stakeholder satisfaction before the proposed renaming and dedication ceremony tentatively scheduled for late spring of 2019; and

WHEREAS, The opportunity is before us to revisit past proposals and explore new options for expanded programs and activities at the ALFA, including those that could be done on a year round basis; and

WHEREAS, The City's east riverfront is dotted with proposed development projects to address the increase in demand for residential and commercial land uses in this area. It only

stands to reason that the appropriate alterations and improvement to the Aretha Louise Franklin Amphitheater and its host community, would complement existing and future development plans and enhance the aesthetics, mobility and livability in this area; and

WHEREAS, There are a number of examples around the world where sports, entertainment and recreational facilities are fostered along with residential development. We are pursuing it here in Detroit with The District development being pursued around Little Caesars Arena. The same can be done intentionally around the ALFA, to ensure the peaceful coexistence of mixed uses in a vibrant and diverse setting; and

WHEREAS, The mission of the Detroit City Council is to promote the economic, cultural and physical welfare of Detroit's citizens through Charter-mandated legislative functions; NOW, THEREFORE BE IT

**RESOLVED,** That Detroit City Council hereby concurs with the strong commitment that the Mayor has expressed in maintaining the ALFA in its present location and strongly encourages the City to fund all the necessary improvements to the facility in order to ensure its status as a treasured institution within our community and as a dynamic driver of economic development and improved quality of life for residents on the lower east side of the City of Detroit as well as the greater metropolitan area; **NOW, THEREFORE BE IT ALSO** 

**RESOLVED**, That the Detroit City Council urges the City to adopt an approach to the east riverfront visioning that is supportive of the ALFA in both short and longer term planning projections, seeks to expand upon the parks utilization throughout the year by exploring options such as ice skating in the pond, and considers the creation of node around the ALFA by encouraging the establishment of complementary entertainment and commercial recreation uses, with appropriate parking and other supportive infrastructure; **NOW**, **THEREFORE BE IT FINALLY** 

**RESOLVED**, That copies of this resolution shall be delivered to the Mayor's Offices, the Recreation Department, the management of the Aretha Franklin Foundation, Ms. Shahida Mausi, president of The Right Productions and to applicable community stakeholders and various media outlets.

9/18/18 (Formal Session) - Postpone I week Muls (Formal Sassian) - Postpone I week

### BY COUNCIL PRESIDENT PRO TEM MARY SHEFFIELD

RESOLUTION ENDORSING THE RETENTION AND TO IMPROVE OPERATION OF THE ARETHA LOUISE FRANKLIN AMPHITHEATER FORMERLY NAMED THE CHENE PARK AMPHITHEATER

WHEREAS, The mission of the Detroit City Council is to promote the economic, cultural and physical welfare of Detroit's citizens through Charter-mandated legislative functions; and

WHEREAS, On August 31, 2018, during the funeral for Ms. Aretha Louise Franklin, Mayor Duggan, announced a proposal to permanently change the name of Chene Park to the Aretha Louise Franklin Amphitheater (AFLA) in honor of Aretha Franklin; the internationally acclaimed vocalist known the world over as the "Queen of Soul"; and

WHEREAS, On September 4, 2018, during City Council Formal Session, the entire City Council unanimously approved a resolution to permanently change the name of Chene Park, to the Aretha Louise Franklin Amphitheater; and

WHEREAS, Also on September 4, 2018, Council President Pro Tem Mary Sheffield inquired about the future of the amphitheater, amidst reports that the amphitheater could possibly be moved downtown to Hart Plaza. Mayor Duggan responded to Council President Pro Tem Mary Sheffield and enthusiastically stated, "that the Aretha Franklin Amphitheater is not moving as long as I'm the mayor"; and

WHEREAS, The City's east riverfront is dotted with proposed economic development projects to address the increase in demand for residential and commercial land uses in this area. It only stands to reason that retaining and improving the Aretha Louise Franklin Amphitheater would complement proposed future development plans to increase the aesthetics and walkability in this area; and

**WHEREAS**, Mayor Duggan acknowledged that physical improvements are needed to the 30-year-old park. Entertainers as well as park goers have strongly suggested improvements in acoustics, parking and infrastructure, in addition to addressing a number of deferred maintenance items; and

WHEREAS, In order for ALFA to reach its potential as the jewel that it was envisioned to be, the City must promptly invest sufficient capital dollars in this facility to improve the overall physical character in order to encourage investment and increase stakeholder satisfaction before the proposed renaming and dedication ceremony tentatively scheduled for late spring of 2019; and

**NOW, THEREFORE BE IT RESOLVED,** That Detroit City Council hereby supports the strong commitment that the Mayor has expressed in maintaining the ALFA in its present location and strongly encourage the City to fund all the necessary improvements to the facility in order to continue as a treasured institution within our community and as a dynamic

driver of economic development and improved quality of life for residents on the lower east side of the City of Detroit; and

**BE IT FURTHER RESOLVED**, That copies of this resolution shall be delivered to the Mayor's Offices, to the management of the Aretha Franklin Foundation, Ms. Shahida Mausi, president of The Right Productions and to applicable community stakeholders and various media outlets.
