## ADMINISTRATIVE SUMMARY

Every 5 years the City of Detroit undergoes a process to update its Parks and Recreation Plan, we are currently in the first phase of an 18-month project to update the plan. As a supplement to this plan, the General Services Department (GSD) is conducting a focused study of East Riverfront parks and sites from Hart Plaza to St. Jean called the East Riverfront Assets Study (ERAS). The purpose of the study is to identify capital improvement needs and conceptual designs that will inform future capital budgeting and grant applications. To help inform the study, GSD will be hosting focus groups, open to the public, per area along the East Riverfront. Please visit the website for details. For more information on the parks plan, this project and ways to be involved, visit the website at [detroitmi.gov/parksplan](http://detroitmi.gov/parksplan)

Note: Funding for this study is \$996,850 and was allocated for comprehensive engineering assessments, operation assessments, design services and community engagement support.

Effective date: This study will be part of the Parks and Recreation Plan that will be submitted to City Council in early 2022 upon its completion.
