

DETROIT WATER AND SEWERAGE DEPARTMENT NOTICE

PUBLIC HEARING FOR WATER MAIN REPLACEMENT FY23 DRINKING WATER STATE REVOLVING FUND (DWSRF) PROJECT

The Detroit Water and Sewerage Department (DWSD) announces a Public Hearing regarding its Project Plan for proposed Water Main Replacement in the City of Detroit. DWSD will be seeking low interest Drinking Water State Revolving Fund (DWSRF) loan assistance for FY2023.

These projects are comprised of replacing aging water mains at select locations in the neighborhoods of Warrendale, McDowell, Brightmoor, Claytown, Springwells, Crary/St. Marys, Grandmont, Martin Park, Pilgrim Village, University District, Grixdale Farms, Greenfield Park, Mapleridge, East English Village, Yorkshire Woods, Denby, and Outer Drive-Hayes in the City of Detroit.

The projects are titled WS-732 (Project A) and WS-733 (Project B). Construction will include excavation of existing water mains, installation of new pipes, rehabilitation of pipes, replacement of Lead (Pb) water service lines of two inches diameter or less to connect the water main and the customer water meter, pressure testing, backfill of the excavation required for piping work, and restoration of each work site. All work to be performed within the existing road right-of-way. The impact of the project will be improved customer satisfaction and safe, reliable service delivery of potable water to customers.

The temporary impact of construction activities will be minimized through mitigation measures specified in the contract documents. Adverse impacts on historical, archaeological, geographic, or cultural areas are not expected. This project is necessary to ensure that DWSD will consistently and reliably provide high quality potable water to Detroit residents. The Project Plan describes water mains in critical need of replacement or rehabilitation. The total cost of this project is currently estimated at approximately \$11 million for Project A and \$11 Million for Project B; a total of \$22 million which is being sought through the DWSRF program. The Water Main Replacement/Rehabilitation inclusive of Lead water service line replacement work is eligible for participating under the State of Michigan low interest DWSRF loan program.

The Public Hearing will present a description of the recommended projects, estimated costs, noting no potential impact for customers. The current rate structure and lease agreement payments will cover the cost. The purpose of the hearing is not only to inform, but to seek and gather input from people that will be affected. Comments and viewpoints from the public are encouraged.
