

FROM THE DESK OF

MATTHEW NAIMI

January 28, 2025

To: Garrick Landsberg
Detroit Historic Commission

Mr. Landsberg,

I received notice of a hearing for the work at 701 West Canfield. As a homeowner and resident of 635 W.Canfield for nearly 25 years, seeing 701 West Canfield being restored and occupied has been a dream for the entire street since I moved in. The work that has been done to date is beautiful and inspiring.

In my opinion, the rear porch design fits the overall building both in size and shape. In light of other approved projects in the neighborhood, I ask that you approve the design in question, which I understand has already been approved by the State Historic Preservation Office as well as the National Park Service using the Secretary of the Interior's standards for the treatment of historic properties.

The West Canfield Historic District is a wonderful street that will only be enhanced by the preservation and completion of 701 West Canfield.

Sincerely yours,

Matthew Naimi

635 West Canfield Street
