Hello Scott

As a follow-up to our recent discussion, please see the following, which can be shared with the HDC. Please let me know if you have any questions or need any additional information.

Best regards

Paul

TO: Garrick Landsberg
Director of Historic Preservation
Detroit Historic District Council

We received notice of a hearing for the work at 701 West Canfield. The work that has been done is truly above and beyond what we could have expected as neighbors. As a neighbor that is interested in maintaining the beauty of this historic district, we are happy that this building has been restored as it has been derelict for many years. We are excited to see the renovation of these beautiful structures and are confident that add to the beauty of our street. In my opinion, the rear porch design fits the overall building both in size and shape. I particularly appreciate the effort matching the existing roof lines. In light of other approved projects in the neighborhood, I ask that you approve the design in question, which I understand has already been approved by the State Historic Preservation Office as well as the National Park Service.

Our family has owned property on this street (627 W Canfield) for seven (7) years. We greatly appreciate the efforts of the HDC and our mutual goal of ensuring

the preservation of historically and culturally significant areas of the of the City.

We hope this information is helpful. Please let me know if you have any questions or would like additional information from us.

Best regards

Paul
