Please deny the permit for Detroit Thermal to work on land Lafayette Park's Mies van der Rohe historic neighborhood. The proposed plan is destructive and dangerous to our children, landscape and potentially our structures. Some of our Cooperative residents staked out the area to be affected with tape. When I saw the potential devastation, I wept.

I am certain that 1300 Lafayette can acquire steam heat without destroying our neighborhood.

Again, I ask that you deny Detroit Thermal access to our property.
Thank you.

Pauline Feltner

Pay attention. Be astonished. Tell about it.
