Dear HDC,

I am very upset that the people from Mies lie so blatantly and don't get called on it. Specifically, I mean the drawing of the 4 steam vents in the playground. They photoshopped that and put it on a flier to denigrate everyone at 1300 Lafayette for burning babies. That was never in the plan and they knew it but kept pushing the falsehood. They hope to turn our own people against us as in an email from James Griffeon to us. Please ask them to explain their blatant incorrigible actions and apologize for lying.
