[EXTERNAL] Lafayette Park Historic District Application from Detroit thermal

From JACQUELI BELL <kuumba@comcast.net>**Date** Wed 7/2/2025 2:52 PM**To** Historic District Commission (Staff) <hdc@detroitmi.gov>

As a resident of Detroit's LafayettePark Historic District,I oppose the project. My concerns are: this is not historically appropriate; it will irrevocably damage the landscape; despite promising to meet with the community after the May 14 meeting the Detroit Thermal developed and submitted new plans with no input from the neighborhood; we have no idea how deep the excavation will be and if it will affect any townhouse foundations; our landscape will become a construction zone and we have no idea for how long.

If we had an opportunity to meet prior to this meeting we could have discuss possible alternative for a route to heat 1300. This company is not working in good faith and have little regard for the impact on the community. I hope as an historical commission you will preserve the historic character of Lafayette Park. I believe that is your job.

Thank you for your time and commitment to preseving the city's historic places.
