Re: Proposed Development at 808 Virginia Park, Detroit, MI 48202

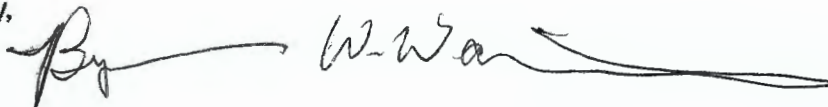

This letter is to support the request by Barr Properties LLC (aka Virginia Park Townes LLC) to develop townhome style dwellings at 808 Virginia Park per the design submitted to the Historic District Commission (HDC). I recognize these buildings are in a historic district and will preserve the city's history and heritage, which is important, while bringing in a modern touch.

As an active Virginia Park historic district resident, I believe that this project will benefit the neighborhood, without diminishing the integrity of our quaint historic community.

I support this request and ask that you do the same.

Sincerely,

Some development is better than an empty
lot, though I do wish it was more
similar in appearance to houses on the block.
