re: Hearing 4/8/26

My residence at 1670 Leverette is in the Corktown Historic District and I have no objection to the work being done to the residence at 1833 Church to demolish the rear wing gable roof and erect a 2nd floor addition. This will enrich the residence and the neighborhood and preserve an older home in this area that is losing its identity to the newer buildings being erected that have no architectural style or character.
