Dear Commissioners,

We are longtime homeowners on this block who have seen the ugly, the bad, and the good over our 40 years of residence here. We see the proposed project at 1833 Church St. as very positive for the block and the neighborhood as a whole. It will preserve the historical structural elements of the home and lot, as well as further stabilize the primarily single-family residence character that is gradually disappearing here in Corktown because of current in-fill development plans.

Sincerely,

Carmen Solis-Crowley
