## **Description & Documents**

Owens Corning<sup>®</sup> WeatherLock<sup>®</sup> G granulated self-sealing barrier acts as a waterproof barrier in the most vulnerable sections of the roof to create a second line of defense. It allows for proper water flow, preventing damage from ice dams and ultimately protecting interiors under applied areas. WeatherLock<sup>®</sup> G is engineered with a tri-layer construction to provide excellent performance and peak protection.

**Dimensions:** 3' W x 66.7' L

## Brand Name: Owens Corning

- Ideal for all underlayment applications such as full roof deck coverage, eaves, rakes, and valleys
- Constructed with a top layer of granules to enable better traction for the installer
- Manufactured with a durable Fiberglas<sup>™</sup> mat to increase the tear strength
- Resists cracking and breaking during installation
- Features an easy-to-remove split-release liner for easy application and positioning on the roof deck
- When top shingles are applied, barrier will seal around the nail penetration, creating a water tight construction
