

A photograph showing the rear area of a brick building. On the left, a brick wall features a window with a satellite dish mounted on it. Below the window, a concrete foundation supports a set of concrete steps leading up to a porch with a black metal railing. In the foreground, a large, tan and black air conditioning unit sits on a concrete pad. A long wooden plank leans against the wall and the AC unit. To the right, a chain-link fence runs along the property. The ground is covered in fallen leaves, and a narrow concrete path leads away from the building. The sky is clear and blue.
