March 7, 2022

During our investigation we noted this roof to be in poor condition. The slate is well beyond its lifespan and repairs to it most likely will not help eliminate the multiple leak issues. We recommend a complete removal of the existing slate roof system and underlayments. Followed by a new slate or shingle roof system.

As requested, please find budget numbers to install a new Vermont Slate Company slate roof system at the above-mentioned residence.

Our proposal includes the removal of the existing slate roof system followed by the installation of a new Vermont Slate Company unfading gray/green or unfading gray slate roof to match the existing slate as close as possible. We will be installing all new 16oz copper valleys, flashings, drip edge, and ridge cap.

BUDGET NUMBERS:

Vermont Slate Company slate roof system (Approx. 2,400 S.F)

Two Hundred Sixty-Four Thousand Dollars..... \$264,000.00

Please note, the numbers are for budgeting purposes only. Accurate numbers will be provided upon request.

Thank you for the opportunity to be of service.
