

100 Series windows and doors

A better choice for your home

Whether you're replacing, remodeling or building new, Andersen® 100 Series windows and patio doors offer many advantages over vinyl.

- Available in a variety of rich dark colors with finishes that are made to last and designed to retain stability and rigidity in all climates.
- Environmentally responsible and energy efficient.
- Made of innovative Fibrex® composite material, which is 2X stronger and 12X thicker finish than painted vinyl* and can withstand temperatures up to 150°.

*When 100 Series products were tested against five leading competitors' painted vinyl products.
