Project Description:

The design intention is to keep the original character of the church, restore the unique historic elements of the church to provide a Community Event Center which would be in keeping with the original assembly purpose of the church but in a secular manner

Proposed Work:

1. Restore wood windows where possible
2. Where wood windows are missing, restore with new wood windows
 - a. Remove any protective storm windows
 - b. Remove any steel grating over window openings
3. Restore/refinish the original entrance
4. Repair the damaged roof areas
5. Install stained glass in the (3) trilogy windows facing Beaubian Street
6. Remove the white paint applied everywhere in the Nave and expose the wood again
7. Install new Men's and Women's toilets in the basement level
8. Remove the ramp in the Nave
9. Double the size of the kitchen in the basement
10. Install new lighting throughout the interior of the church.
