Hi Tim

Due to the inherent stubbornness of DTE, the Expansion project had to unfortunately eliminate the bridge connection to the existing building. The dance academy projection will remain but the bridge connection between the existing and new building is eliminated.

Subject: 350 Madison fire escape and windows

Good morning,

I was hoping you could check my measurements on this. If you look at the attached sketch, the red box represents where I think the penetration for the bridge would be. Since this has already been approved, your proposal would really only need to alter four openings, not five. Unless my interpretation is wrong. Or is your proposal to alter all five openings as an interim condition, until the new building and bridge are completed? Please let me know.

Thank you,

Timothy Boscarino, AICP
