### BRIEF PROJECT DESCRIPTION:

We had an exterior paint proposal and window replacement approved by the historic commission for 2285 Longfellow in Boston Edison. As we prepare to paint we have realized that the current aluminum siding is in disrepair and is falling off the home in areas. The siding is primarily on the second floor and is currently painted white with barbie-pink trim (windows) and a purple door. We would like to remove the aluminum siding (not original) and replace it with a faux cedar siding that better approximates the original cedar shingle (we have found evidence of cedar shingle that has been removed in our attic). We have also found that the original soffits have been removed and replaced with aluminum soffits. Since the aluminum soffits are also falling off we would like to replace these with a vinyl soffit that better approximates the original soffit and meets the color

## APPLICANT IDENTIFICATION

**TYPE OF APPLICANT:** Property Owner/Homeowner

**NAME:** Lauren Kalman

**COMPANY NAME:** N/A

**ADDRESS:** 2285 Longfellow St

**CITY:** Detroit

**STATE:** MI

**ZIP:** 48206

**PHONE:** +1 (216) 536-7935

**EMAIL:** laurenkalman@gmail.com

## I AGREE TO AND AFFIRM THE FOLLOWING:

- I understand that the failure to upload all required documentation may result in extended review times for my project and/or a denied application.
- I understand that the review of this application by the Historic District Commission does not waive my responsibility to comply with any other applicable ordinances including obtaining appropriate permits (building, sign, etc.) or other department approvals prior to beginning the work.
- I hereby certify that I am the legal owner and occupant of the subject property and that the information on this application is true and correct.

**NOTE: Based on the scope of work, additional documentation may be required. See [www.detroitmi.gov/hdc](http://www.detroitmi.gov/hdc) for scope-specific requirements.**

## PROJECT DETAILS – TELL US ABOUT YOUR PROJECT

**Instructions: Add project details using the text box in each section. If your details exceed the space provided, attach the details via the attachment icon for that section.**

### ePLANS PERMIT NUMBER:

(only applicable if you've already applied for permits through ePLANS)

N/A

## GENERAL

### 1. DESCRIPTION OF EXISTING CONDITION

*Please tell us about the current appearance and conditions of the areas you want to change. You may use a few sentences or attach a separate prepared document on the right. (For example, "existing roof on my garage is covered in gray asphalt shingles in poor condition.")*

The siding is primarily on the second floor. The original cedar shingles were removed and replaced with white aluminum siding with barbie-pink trim (windows) and a purple door. The original soffits have been removed and replaced with white aluminum. The siding and soffits have begun to fall off and some of the siding is already gone. Our gutter are also in disrepair and water is beginning to damage the brick and wood.

### 2. PHOTOGRAPHS

*Help us understand your project. Please attach photographs of all areas where work is proposed.*

### 3. DESCRIPTION OF PROJECT

*In this box, tell us about what you want to do at the areas described above in box #1. (For example, "Install new asphalt shingle roofing at garage.")*

We would like to remove the aluminum siding (not original) and replace it with a faux cedar siding that better approximates the original cedar shingle (we have found evidence of cedar shingle that has been removed in our attic). We have also found that the original soffits have been removed and replaced with aluminum soffits. Since the aluminum soffits are also falling off we would like to replace these with vinyl soffits. The gutters are damaged and no longer functioning. These would be replaces with vinyl gutters.

### 4. DETAILED SCOPE OF WORK

*In this box, please describe all steps necessary to complete the work described in box #3. (For example, "remove existing shingles, replace wood deck as necessary, replace wood eaves, install roof vents, replace rotted fascia boards, paint, clean worksite.")*

Remove aluminum siding, soffits, and gutters replace with vinyl faux cedar shingles and soffits that match historic colors in our original color proposal. Repair any damaged or rotten wood (if any is revealed) under the existing siding/soffits.

### 5. BROCHURES/CUT SHEETS

*Please provide information on the products or materials you are proposing to install. For example, a brochure on the brand and color of the shingles proposed.*

**RE: Application Number 17-5386; 2285 Longfellow; Boston Edison Historic District**

Dear Mr. Kalamán:

At the regular scheduled meeting held on 10/11/2017, the Detroit Historic District Commission reviewed the above-referenced application for building permit. Pursuant to Section 5(10) of the Michigan Local Historic District Act, as amended, being MCL 399.205(10), MSA 5-3407(5)(10); Section 25-2-57(b) of the 1984 Detroit City Code; Detroit Historic District Commission Resolution 97-01 (adopted August 13, 1997); Detroit Historic District Commission Resolution 97-02 (adopted October 8, 1997); and Detroit Historic District Commission Resolution 98-01 (adopted February 11, 1998), the staff of the Detroit Historic District Commission has reviewed the above-referenced application for building permit and hereby issues a Certificate of Appropriateness, which is effective as of August 9, 2017.

The painting of the wood elements at the house as per the attached meets the Secretary of the Interior's Standards for Rehabilitation Standard Secretary of the Interior's Standards for Rehabilitation standard number 10). *New additions and adjacent or related new construction shall be undertaken in such a manner that if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired*

Please retain this Certificate of Appropriateness for your files. You should now proceed to the City of Detroit Building, Safety, Engineering and Environmental Department. The Detroit Historic District Commission's approval and issuance of a Certificate of Appropriateness does not waive the applicant's responsibility to comply with any other applicable ordinances or statutes. If you have any questions regarding this letter, please contact me at (313) 224-8907.

**RE: Application Number 18-5998; 2285 Longfellow; Boston Edison Historic District**

Dear Mr. Kalamán:

The Detroit Historic District Commission reviewed the above-referenced application for building permit. Pursuant to Section 5(10) of the Michigan Local Historic District Act, as amended, being MCL 399.205(10), MSA 5-3407(5)(10); Section 25-2-57(b) of the 1984 Detroit City Code; Detroit Historic District Commission Resolution 97-01 (adopted August 13, 1997); Detroit Historic District Commission Resolution 97-02 (adopted October 8, 1997); and Detroit Historic District Commission Resolution 98-01 (adopted February 11, 1998), the staff of the Detroit Historic District Commission has reviewed the above-referenced application for building permit and hereby issues a Certificate of Appropriateness, which is effective as of 12/3/2018.

The following work items meet the Secretary of the Interior's Standards for Rehabilitation, standard number 6) *Deteriorated historic features shall be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and other visual qualities and, where possible, materials. Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence:*

- Replace 9 wood windows (3 at the west elevation and 6 at the rear elevation as per attached signed photos) with 9 new wood, aluminum-clad wood windows with 6/1 light configuration (simulated divided light/grid applied to the exterior surface of the glass). Wood trim/brickmould (to include sills and mullions) to be replaced at the 9 new windows with new wood trim to match existing exactly in detailing, materials, and dimension where necessary or repair wood trim/brickmould (to include sills and mullions) where possible to match existing

Please retain this Certificate of Appropriateness for your files. You should now proceed to the City of Detroit Building, Safety, Engineering and Environmental Department. The Detroit Historic District Commission's approval and issuance of a Certificate of Appropriateness does not waive the applicant's responsibility to comply with any other applicable ordinances or statutes. If you have any questions regarding this letter, please contact me at (313) 224-8907.

## WORK SPECIFICATION

Unless specifically excluded, all workmanship and materials are to fully comply with all applicable building codes and meet the minimum standards set forth in the City of Detroit Housing And Revitalization Department's Contractor's Performance Standards, November, 2008 (or most current version). The Contractor shall make no claims for additional cost due to the existing conditions at the site, which could have been ascertained by the Contractor in his examination of the site. All measurements and quantities will be field verified by the Contractor. Costs for all necessary trade permits (Electrical, Plumbing, Heating) must be included in the line item price. The execution of this work shall comply with all applicable state, federal and local laws, rules, regulations and guidelines. These standards include but are not limited to the following: 29 CFR 1926 - Construction Industry Standards; 29 CFR 1926.62 - Construction Industry Lead Standard, 29 CFR 1910.1200 - Hazard Communication, 40 CFR Part 261 and 40 CFR Part 745 - EPA Regulations; NCLSH-HUD Lead Paint Guidelines, Evaluation Protocols (most current version).

**This Dwelling has been Designated Historic. Work Specification to be reviewed and approved by the Historic Commission prior to the Bid Invitation. Exterior color and element design choices to be approved by Historic before Notice to Proceed.**

All line items identified by LHR are Lead Hazard Remediation items and should be bid accordingly.

	LHR	EXTERIOR
9.900		PAINT EXTERIOR
9.901	LHR	Paint Stabilize all previously painted wood exterior surfaces of the dwelling (window components, door jambs, lintels, cellar window jambs, sashes, rear porch wall (wood), wall A door lintel & awning support. Color to be approved by historic commission. According to homeowner, a variance/exception has been granted.
8.500		WINDOWS
	LHR	Replace 9 double hung wood window units on dwelling with new aluminum clad solid wood replacement windows with Low-E insulated glass, screens and tilt-in cleaning feature. Replace rotted wood window trim, sills, and mullions. Components milled to exact match of original components. Location (6) windows at rear elevation, west side (1st & 2nd Floor) & (3) windows west elevation (1st floor rear). Match existing window profile. Muntins to be permanently affixed to glass. Note: See current Contractor Performance Standards re: Energy Star. Total (9)
9.930		PAINT EXTERIOR (GARAGE)
9.931	LHR	Paint stabilize all previously painted exterior surfaces of the garage. Include: Walls A & B roof soffit; Wall D window sash; Walls C & D door casings & panels; Wall B window sash & jamb. Color to be approved by historic commission. According to homeowner, a variance/exception has been granted.
		INTERIOR
16.100		ELECTRICAL

16.104		Remove all exposed knob and tube wiring throughout. Remove illegal wiring at cellar and update outlets and switches as needed in basement and attic. Restore plaster penetrations related to repairs.
16.139		Install battery-operated smoke detectors & carbon monoxide detectors to code.
15.200		<b>HEATING &amp; COOLING</b>
15.211		Existing boiler supply lines in cellar are covered with what appears to be asbestos containing material. All disturbed asbestos containing material shall be removed and disposed according to law. Approx 10LF. Include air monitoring costs of \$300.
9.950		<b>PAINT INTERIOR</b>
9.951	<b>LHIR</b>	Paint stabilize previously painted interior surfaces of the dwelling at the following locations: BATHROOM 2: Wall A door stop. BEDROOM 2: Wall D window sash & sill; Wall A window stop. STAIRWELL 4: Stair riser & tread.

## The Power of Color

Approximately 80% of what we absorb through the senses is visual, and color has the ability to distinctly influence our feelings and emotions in a unique way.

### Interior color decisions are far easier than exterior color decisions

# 60%

consumers are highly confident in picking interior colors

# 40%

consumers are highly confident in picking exterior colors

### When making exterior color decisions...

50% say "I trust my own visual instincts, my #1 influence."

40% say "Magazines, TV shows and design websites are one of my biggest influences."

10% say "Neighbors, contractors, architects and other sources are influences."

### Today's intelligent homeowners

- Understand that colors must work with neighborhood style and architectural style of the home
- Want small "pops" of color to lend personality and exhibit their style
- Want color coordination with hardscapes and landscapes
- Want to stand out "tastefully"
- Seek a "cohesive character" for their home, **but are often perplexed on how to achieve it**

**Choosing your color should be fun, not intimidating.** See pages 23-24 for helpful guidelines.

Note: Colors throughout this brochure are simulated. Consult product samples before making final selection.

# Maximum character. Minimum care.

Low Maintenance

A home sided with natural cedar shingles has a character all its own. But, this character comes with a price for upkeep. Continual expenditures of time and money will be necessary as wood ages and weathers. With Cedar Impressions Shingles and Shakes maximum character is maintained with minimum care, retaining consistent color and resisting mold and mildew.

## Better than wood.

### REAL CEDAR SHINGLES WEATHER

A home's exterior walls will be affected by weather patterns coming from the north, south, east or west. This can cause cedar shingles to weather inconsistently from one side of a home to another.

### REAL CEDAR SHINGLES REQUIRE MAINTENANCE

Real cedar shingles must be stained or bleached to prevent discoloration. These treatments will need to be repeated over time. Cedar Impressions stays beautiful and consistent in color on all sides of the home and without continual maintenance.

## Lower Cost

Natural cedar is one of the most expensive siding materials and is costly to maintain and repair. Cedar Impressions offers an alternative that requires very little maintenance, significantly reducing long-term costs.

## Higher Durability

Over time, the effects of weather and age can cause wood to split, warp, buckle, crack and rot. Cedar Impressions is engineered to retain its like-new appearance and outstanding durability for years to come.

## Pest-Free

Wood is a natural attraction for insects and other pests that can cause damage to cedar siding and become a nuisance around the home. Cedar Impressions offers a solution to this problem.

CEDAR IMPRESSIONS SHINGLES RETAIN  
CONSISTENT COLOR AND RESIST MOLD AND MILDEW.

# Cedar Impressions is better...

## ...for lasting quality.

The Cedar Impressions family of shingles and shakes is built to last. Extra thick siding panels have reinforced nail slots and molded locks to allow seamless and secure connections that withstand hurricane force winds. Ribs on the back of panels and shingles protect against warping, cupping or distortion. All Cedar Impressions products are manufactured from high-quality polymer materials in the U.S.A.

## Want More Ideas?

### No Place Like Home Brochure

This brochure helps inspire ideas (pub. no. 04-00-78-US-EN).

Go online for the PDF version or call 800-782-8777 for the brochure.

**1** Look for color palette ideas in your surroundings, including landscaping, trees and gardens in your neighborhood and the larger area where you live. The colors you pick for your interior walls can also influence your exterior walls.

**2** You may be inspired by your neighbors' color schemes, but it is a good idea to avoid copying them exactly and best to create your own unique combination that sets your home apart. In most cases, you want your home to fit in but not clash with nearby buildings.

**3** You need to first consider the appearance of any features on the home that will remain unchanged and harmonize your siding color with them. This includes roofing, masonry, stone, stairways, doors, etc.

**4** If your home's architectural style is very distinct (Colonial, Greek Revival, etc.) you will get best results if your color selection and treatment complements its original design.

## The Power of Color

Approximately 80% of what we absorb through the senses is visual, and color has the ability to distinctly influence our feelings and emotions in a unique way.

### Interior color decisions are far easier than exterior color decisions

# 60%

consumers are highly confident in picking interior colors

# 40%

consumers are highly confident in picking exterior colors

### When making exterior color decisions...

50% say "I trust my own visual instincts, my #1 influence."

40% say "Magazines, TV shows and design websites are one of my biggest influences."

10% say "Neighbors, contractors, architects and other sources are influences."

### Today's intelligent homeowners

- Understand that colors must work with neighborhood style and architectural style of the home
- Want small "pops" of color to lend personality and exhibit their style
- Want color coordination with hardscapes and landscapes
- Want to stand out "tastefully"
- Seek a "cohesive character" for their home, **but are often perplexed on how to achieve it**

**Choosing your color should be fun, not intimidating.** See pages 23-24 for helpful guidelines.

Note: Colors throughout this brochure are simulated. Consult product samples before making final selection.

# Maximum character. Minimum care.

Low Maintenance

A home sided with natural cedar shingles has a character all its own. But, this character comes with a price for upkeep. Continual expenditures of time and money will be necessary as wood ages and weathers. With Cedar Impressions Shingles and Shakes maximum character is maintained with minimum care, retaining consistent color and resisting mold and mildew.

## Better than wood.

### REAL CEDAR SHINGLES WEATHER

A home's exterior walls will be affected by weather patterns coming from the north, south, east or west. This can cause cedar shingles to weather inconsistently from one side of a home to another.

### REAL CEDAR SHINGLES REQUIRE MAINTENANCE

Real cedar shingles must be stained or bleached to prevent discoloration. These treatments will need to be repeated over time. Cedar Impressions stays beautiful and consistent in color on all sides of the home and without continual maintenance.

## Lower Cost

Natural cedar is one of the most expensive siding materials and is costly to maintain and repair. Cedar Impressions offers an alternative that requires very little maintenance, significantly reducing long-term costs.

## Higher Durability

Over time, the effects of weather and age can cause wood to split, warp, buckle, crack and rot. Cedar Impressions is engineered to retain its like-new appearance and outstanding durability for years to come.

## Pest-Free

Wood is a natural attraction for insects and other pests that can cause damage to cedar siding and become a nuisance around the home. Cedar Impressions offers a solution to this problem.
