Also, some of the pages in the document are all black, so I am assuming there may be some missing information.

I believe these were the documents in black.

Above is new photo demonstrating carpenter ant trying to re-enter. We're also trying to eliminate carpenter bees that enters the holes in the front 1st floor windows.

Sorry if I gave you documents that are duplicated. A bit exhausted mentally converting each image. I think this is all. Not sure what the blank images could possibly have been, and will try to figure that out.
