

# TILT-WASH DOUBLE-HUNG WINDOWS

## FEATURES

### Frame

- A** Exterior outer frame members are treated with water-repellent preservative and covered with a rigid vinyl cover, minimizing maintenance and providing an attractive appearance.
- B** Interior surfaces are unfinished pine. Low-maintenance prefinished white interiors are available.
- C** Full-perimeter installation flange makes installation easy and fast with little or no adjustment. It's fixed, seamless and integrated with the exterior frame.
- D** Flexible weatherstrip around all four sides is factory-installed and provides a tight seal between the sash and frame.

### Glass

- E** Choose Low-E, Low-E HeatLock<sup>®</sup>, Low-E SmartSun<sup>™</sup>, Low-E SmartSun HeatLock or dual-pane glass. Tempered glass and other glass options are available. Contact your Andersen supplier. A removable translucent film helps shield the glass from damage during delivery and construction and simplifies finishing at the jobsite.
- F** A rigid vinyl glazing bead, combined with high-grade silicone glazing bed, keeps the glass bonded firmly to the sash and helps minimize water and air infiltration.

### Sash

A convenient tilt-wash design makes it easy to clean the window from the inside. An in-sash balancer minimizes the view of the jamb liner, maximizing the amount of wood in the frame. Window can be secured through the side jambs to stud walls without hitting balancer.

## EXTERIOR

White Sandtone

## INTERIOR

Pine White

Naturally occurring variations in grain, color and texture of wood make each window one of a kind. All wood interiors are unfinished unless prefinished white is specified. Oil rubbed bronze is a "living" finish that will change with time and use.

## HARDWARE FINISHES

Antique Brass Black Bright Brass Gold Dust

Oil Rubbed Bronze Satin Nickel Stone White

## DOUBLE-HUNG HARDWARE

Lock & Keeper

Standard: **Stone** | White

\*\*Optional: Antique Brass | Black

Bright Brass | Gold Dust

Oil Rubbed Bronze | Satin Nickel

Stone finish is standard for pine interiors. White finish is standard for white interiors. Bold name denotes finish shown.

CLASSIC SERIES<sup>™</sup>

Optional Lift\*\*

Stone | **White**

\* Visit [andersenwindows.com/warranty](http://andersenwindows.com/warranty) for details.

\*\* Hardware sold separately.

Dimensions in parentheses are in millimeters.

Printing limitations prevent exact replication of colors and finishes. See your Andersen supplier for actual color and finish samples.

## ACCESSORIES Sold Separately

### Frame

#### Extension Jambs

Standard jamb depth is 3 1/4" (83). Extension jambs are available in unfinished pine or prefinished white. Some sizes may be veneered.

Factory-applied and non-applied extension jambs are available in 1/16" (1.5) increments between 4 3/16" (114) and 7 1/8" (181). Extension jambs can be factory-applied to either three sides (stool and apron) or four sides (picture frame casing).

#### Drywall Return

The 200 Series double-hung window is available with a narrow 3" (76) jamb depth with a flat interior surface for easy drywall return. Available in pine or prefinished white.

#### Two-Tone Option

200 Series tilt-wash double-hung windows are available with a two-tone color configuration, featuring a prefinished white interior and a Sandtone exterior. Some exterior components are visible from the interior. Corresponding picture and transom units, as well as grilles, are available to match.

#### Window Opening Control Device

A recessed window opening control device is available factory applied. It limits the sash travel to less than 4" (102) when the window is first opened. Available in stone and white. A field-applied window opening control device is also available.

### Security Sensors

#### Open/Closed Sensors

Wireless open/closed sensors are available in four colors. See page 6 for details.

### Insect Screens

#### Insect Screen Frames

Choose full insect screen or half insect screen. Half insect screen (shown above) allows ventilation without affecting the view from the upper sash. Frames are available in colors to match product exteriors.

#### TruScene<sup>®</sup> Insect Screen

Exclusive Andersen<sup>®</sup> TruScene insect screens provide over 50% more clarity than our conventional insect screens for a beautiful unobstructed view. They allow more fresh air and sunlight in, while doing a better job of keeping out small insects.

#### Conventional Insect Screen

Conventional insect screens have a long-lasting\* fiberglass screen mesh with a charcoal finish.

### Exterior Trim

This product is available with Andersen exterior trim. See pages 45-50 for details.

#### CAUTION:

- Painting and staining may cause damage to rigid vinyl and is not recommended.
- Andersen does not warrant the adhesion or performance of homeowner-applied paint over vinyl or other factory-coated surfaces.
- Do not paint weatherstrip.
- Creosote-based stains should not come in contact with Andersen products.
- Abrasive cleaners or solutions containing corrosive solvents should not be used on Andersen products.

For more information about **glass, grilles and insect screens**, see pages 8-9.
