GENERAL

1. DESCRIPTION OF EXISTING CONDITION

Please tell us about the current appearance and conditions of the areas you want to change. You may use a few sentences or attach a separate prepared document on the right. (For example, "existing roof on my garage is covered in gray asphalt shingles in poor condition.")

Part of DTE's tree trim maintenance includes trimming tree branches within 15' of the wires (measure concentrically from wire). As part of the program, we also offer to remove 'volunteer' trees that are within the easement. We can only cut these trees with permission from the property owners (there is a signature requirement). We are looking for DHC permission in Oakwood Blvd an Russell Woods to do so - so that individual property owners do not have to approach the commission for permission for each tree that they too would like DTE to cut fully.

2. PHOTOGRAPHS

Help us understand your project. Please attach photographs of all areas where work is proposed.

3. DESCRIPTION OF PROJECT

In this box, tell us about what you want to do at the areas described above in box #1. (For example, "Install new asphalt shingle roofing at garage.")

including maps and tree types in the attached

4. DETAILED SCOPE OF WORK

In this box, please describe all steps necessary to complete the work described in box #3. (For example, "remove existing shingles, replace wood deck as necessary, replace wood eaves, install roof vents, replace rotted fascia boards, paint, clean worksite.")
