James Hardie HardiePanel Fiber Cement Smooth Siding 48"x120" Pearl Gray 1pc

You can't go wrong with this sleek, modern siding by industry leader James Hardie. Combine with HardieTrim boards for a rustic board-and-batten look. Or, go for the more minimalist look of simple vertical lines. Installed on over 8 million homes from coast to coast, James Hardie's fiber cement siding products are designed to resist the most extreme conditions while delivering long-term beauty and lower maintenance. We use the highest quality raw materials and proprietary additives for enhanced strength and moisture protection. Baked-on color delivers a beautiful finish that resists fading and makes a lasting impression.

Thickness: 0.31" Width: 48" Length: 10'

*Despite every effort to provide accurate images of each product, color may vary slightly due to photographic lighting sources or your monitor settings.

THE EASY CHOICE

Bold Design. Superior Functionality.

EasyTrim Reveals® is a complete two-piece, exterior aluminum trim system compatible with the most popular lap, siding and panel options on the market. EasyTrim Reveals® is the go-to for both residential and commercial projects across North America.

- ➔ UV / Fade Resistant
- ➔ Full-Edge Protection
- ➔ Anti-Corrosive
- ➔ Maintenance Free
- ➔ Moisture Management
- ➔ No-Sharp Edges

The Easiest Choice to Make

More than just a trim solution, EasyTrim Reveals® significantly reduces installation time and enhances the building's exterior performance, minimizing the need for ongoing maintenance. Our Fit and Finish™ system features overlapping trims that protect siding from moisture and harsh elements. This design not only preserves the aesthetics but also extends the life of your building exterior, making EasyTrim Reveals® the smart choice for long-lasting quality.

Multiple Colors and Finishes to Choose from

Full selection of color options available on our website.

8" Aluminum Box Gutter

Home / 8" Box Gutter & Accessories / 8" Aluminum Box Gutter

\$6.50

Minimum order 20'. Our 8" x .040" Aluminum Box Gutter can be shipped in lengths of 6, 10, 15 and 19 feet. Gutter can also be shipped at 20 & 26 foot lengths, but is considered and rated as excessive length by freight companies. (6' maximum lengths shipped via UPS)

Available in low gloss white, almond, dark bronze, and royal brown (see Aluminum Color Chart below).

Price shown is **per foot**, please enter the **total number of feet needed** in the Quantity box. **IMPORTANT:** When you're checking out, you'll have the opportunity to specify the quantity of each length of gutter you need. You'll enter this info in the "Order Notes" box at checkout.

Gutter orders LONGER than 6' will be shipped via truck and subject to a MINIMUM shipping fee of \$150.00

One to five pieces of gutter can be sent UPS in 6' sections. UPS charges will run in the \$100 range. Please indicate in the "Order Notes" area at checkout whether you want a UPS or freight quote.

Each gutter and downspout order is unique at Classic Gutter Systems. Once you've placed your order on this website, you'll be contacted within 48 hours with a complete, detailed quote including packaging and shipping costs.

4" x .024 Aluminum Corrugated Round Downspout, Select Colors

Home / 4" Round Downspout / 4" x .024 Aluminum Corrugated Round Downspout, Select Colors

We recommend corrugated downspout for areas of the country that experience snow and ice. Corrugation allows for expansion in the event of ice build-up in the downspout, and also helps hide nicks and dents from daily exposure.

Note: Select Color corrugated aluminum downspout, shown here in Grecian Green, is priced the same per 10-foot length as our Standard Colors (see Aluminum Color Chart below).

Due to the machine setup required to produce Select Color Corrugated Downspout and Elbows, there is a \$100.00 up charge (one up charge per color, per order).

Downspout sections are available in 10' pre-cut lengths. Each box holds 60 ft. of 4" downspout. Don't forget to order additional downspout for elbow offsets and future repairs.

You will need to reduce the size of the opening on the elbows and downspout.

Downspout orders LONGER than 6' will be shipped via truck and subject to a MINIMUM shipping fee of \$150.00

One to three pieces of downspout can be sent UPS. The 10' downspout will be cut into 6' & 4' sections. UPS charges will run in the \$100 range. Please indicate in the "Order Notes" area at checkout whether you want a UPS or freight quote.

To order Corrugated Select Color Downspout, please call us at 269.665.2700.

Pella® Lifestyle Series

Clad/Wood

7.

#1 performing wood window and patio door for the combination of energy, sound and value.¹

Triple-pane casement

Dual-pane casement

- **Performance redefined**

You don't have to compromise on any aspect of performance. Available performance solutions offer an unbeatable combination of energy efficiency, sound control and value.¹

- **ENERGY STAR® certified²**

Pella products offer energy-efficient options that will meet or exceed ENERGY STAR guidelines in all 50 states. Pella Lifestyle Series products with triple-pane glass have been awarded ENERGY STAR Most Efficient Mark in 2023.

- **Enhanced sound control**

Our patented, triple-pane design with Advanced Low-E glass allows for mixed glass thickness for enhanced sound dampening resulting in an average 52% noise reduction versus single-pane windows.³

- **Popular features and options**

Low-maintenance aluminum-clad exteriors. Factory prefinish with a choice of several paints and stains, or choose primed or unfinished. Several grille types and patterns and high-transparency screens are also available.

- **Intentional design for improved durability**

Intentional jamb/sill design helps seal the end grain of the wood and elevates it off the rough opening, reducing the potential for moisture.

- **Durable 3-way corner joint**

Three-way corner joints are made up of mortise-and-tenon, metal fasteners and commercial adhesive for added strength and durability.

- **Low-maintenance exteriors**

Aluminum-clad exteriors with EnduraClad® finish resists fading and chalking. It is applied in an overlapping fashion for exceptional protection.

- **Exclusive wood protection**

Pella's exclusive EnduraGuard® wood protection is applied after the pieces have been cut and milled, but prior to final assembly. It provides advanced protection against the effects of moisture, decay, stains from mold and mildew — as well as termite damage.

- **Best limited lifetime warranty⁴**

Pella Lifestyle Series products are covered by the best limited lifetime warranty in the industry for wood windows and patio doors.⁴

- **Testing beyond requirements**

At Pella, our products are tested beyond requirements to help ensure they have long-lasting performance and reduce call-backs for you.

Available in these window and patio door styles:⁵

Special shape windows also available.

^{1,2,3,4,5} See back cover for disclosures.

EXTRUDED ALUMINUM-CLAD EXTERIORS

For exceptional durability, Pella Reserve products are available with extruded aluminum-clad exteriors. Choose from a wide variety of exterior colors or create a custom color to match your design. Low-maintenance EnduraClad exterior finish provides long-lasting beauty. EnduraClad Plus is also available.

alumiLAST® Canopies/Sunshade Specifications

PRODUCT DESCRIPTION

An engineered aluminum canopy framing system designed for commercial and residential applications. The system is strong, lightweight, and maintenance free. The aluminum components have a durable powder coat finish, are saltwater resistant, and available in a wide choice of standard and custom colors. Endurable framing systems are fabricated to meet Uniform, BOCA, and National Building Code.

PART 1 GENERAL

1.1 WORK INCLUDED:

- A. Provide aluminum canopy framing system in prefabricated sections per approved engineering drawings.

1.2 REFERENCE STANDARDS:

- A. Uniform Building Code 1997
- B. BOCA National Building Code 1993
- C. IBC 2003, 2006, 2009 and 2015

1.3 SUBMITTALS:

- A. Provide shop drawings and product data.
- B. Within thirty calendar days after the contractor has received the owner's notice to proceed, submit shop drawings that indicate scope of project, component details, materials, finish, fasteners and anchorage methods, and the relationship to adjoining work
- C. Shop Drawings shall be signed and sealed by the professional engineer responsible for the design

1.4 QUALITY ASSURANCE:

- A. Framing systems are based upon Endurable alumiLAST deck framing system as the standard of quality. No substitutions will be accepted.
- B. Design criteria: decking assemblies shall be designed to conform to all applicable building codes and loading requirements.

1.5 WARRANTY:

- A. 25 year warranty covering material and workmanship *(See manufacturer's warranty statement for specific details)*

1.6 DELIVERY, STORAGE, AND HANDLING:

- A. Deliver materials to the job site in good condition. Purchaser to store in clean, dry location, properly protected against damage to finished surfaces.
- B. Store away from uncured concrete, masonry, or stucco

Product Description

alumiLAST® Canopies/Sunshade Specifications

PART 2 PRODUCTS

2.1 MATERIALS:

- A. Extrusion Alloy: 6005A-T6, 6061-T6, or other 6000 series aluminum alloy.
- B. Screws, bolts, washers, hardware shall be stainless steel or other corrosion resistant material.

2.2 FINISHES:

- A. TGIC polyester powder coating, electro-statically applied to 2-3 mil thickness. Color to be selected by the architect/owner from manufacturer's standard or custom colors

2.3 FRAME COMPONENTS:

- A. Joists
 - 1. 1-1/2" x 3", 4", 5", 6 7/8" x 1/8" aluminum tube
- B. Perimeter Framing*
 - 1. 6" C-Channel or 1 1/2"x 6" or 2" x 8" x 1/8" aluminum tube
- C. Posts
 - 1. 3", 4", 6" x 1/8" square aluminum tube or snap fit aluminum columns.
- D. Plate
 - 1. 1/2" aluminum mounting plate
- E. Frame Enclosures
 - 1. .100 alum flat sheet – top & bottom (top welded on, bottom screwed on after installation)

* Subject to change based on span

2.4 FABRICATION:

- A. Fabricate canopy assembly to design dimensions, details, and specified requirements for structural performance. Fabricate members and fittings to provide flush, smooth, joints
- B. Owners representative/contractor to verify dimensions on site prior to fabrication

PART 3 EXECUTION

3.1 INSTALLATION:

- A. Install work in accordance with final shop drawings and manufacturer's instructions
- B. Erect work plumb, square and level, free from distortion or defects detrimental to appearance or performance
- C. Anchor posts to footings with approved corrosion resistant fasteners

3.2 CLEANING:

- A. Wash framing using clean water and soap, rinse with water
- B. Do not use acid solution, steel wool, or other harsh abrasive

Standard Balconies

We fabricate our standard alumiLAST® balconies using aluminum tube construction. We can combine these balconies with our aluminum decking or composite decking. These balconies feature welded aluminum railing supports with a variety of panels, and we deliver it to your site with the decking already installed and the railing and panels or pickets cut to fit and ready for easy installation.

These all-aluminum balconies usually attach to the building with lag bolts and threaded rods. However, alternative designs such as cantilevering, bolt-on or attaching with only knifeplates are possible. We match the attachment technique to meet your plan requirements.

Product Description

ENDURABLE
Building Products

alumiLAST® Decking General Information

PRODUCT DESCRIPTION

Endurable Building Products, the manufacturer of alumiLAST® deck and balcony frames, introduces alumiLAST® Decking, a line of powder coated aluminum decking. alumiLAST® decking features interlocking boards designed to be virtually watertight, and with the addition of a custom gasket, the boards can be completely watertight. Custom engineered starter strips and edge trim pieces are also available.

alumiLAST® DECKING FEATURES AND BENEFITS

Non-slip textured powder coat finish.

- Light weight. Boards weigh approximately 1 pound per foot.
- Low maintenance. Boards will not crack or split.
- Non-combustible. Aluminum will not burn.
- Five standard colors: Bronze, Black, Light Gray, Storm Gray & Wheat
(Custom colors also available).
- Limited Lifetime Warranty.
- 5 year powder coat finish warranty.

PREMIER STEEL 4-CAR CARPORT/GAZEBO

The ChikoUSA Premier Steel 4-Car Carport / Gazebo is the most cost effective solar canopy solution in the market today! This elegant structure is designed with a beam and column configuration resulting in superior strength. Ease and speed of install are two important design benefits. This structure can accommodate a variety of panel sizes and configurations. The steel coating of Zinc-Aluminum-Magnesium (Zn-Al-Mg) or ZAM provides the best In class protection while delivering superior corrosion resistance.
