**Subject:** [EXTERNAL] Re: Follow up questions on additional documents - 14615 E. Jefferson  
**Attachments:** A-16.pdf

In response to your inquiry regarding additional materials submitted, we would like to make the clarifications as follows:

- The color of the awning is proposed to be BLACK
- We confirm that the color of the building and pole lights will be standard dark bronze finish
- The angle lines within the rectangular area of the pedestrian doors will be obscure glass.
- The dumpster enclosure will be Cyclone Fence with Plastic strips. We revised A-16 accordingly.
- The cladding will be horizontal 7" CERTAplank smooth siding. The piers will be smooth vertical fiber cement panels by the  
Certainteed custom cut on site.

Sincerely,

Adnan Al-Saati, P.E.
