Questions? Contact us at hdc@detroitmi.gov or (313)224-1762

NOTE: Based on the scope of work, additional documentation may be required. See <a href="http://www.detroitmi.gov/hdc">www.detroitmi.gov/hdc</a> for scope-specific requirements.

### **PROJECT DETAILS – TELL US ABOUT YOUR PROJECT**

Instructions: Add project details using the text box in each section. If your details exceed the space provided, attach the details via the attachment icon for that section.

### **ePLANS PERMIT NUMBER:**

(only applicable if you've already applied for permits through ePLANS)

N/A

### GENERAL

### 1. DESCRIPTION OF EXISTING CONDITION

Please tell us about the current appearance and conditions of the areas you want to change. You may use a few sentences or attach a separate prepared document on the right. (For example, "existing roof on my garage is covered in gray asphalt shingles in poor condition.")

Windows are old, inefficient, do not open, and show signs of rotting on exterior. Storm door is old aluminum, not custom sized, and blocks the look of the existing old historic entry door.

### 2. PHOTOGRAPHS

Help us understand your project. Please attach photographs of all areas where work is proposed.

### 3. DESCRIPTION OF PROJECT

In this box, tell us about what you want to do at the areas described above in box #1. (For example, Install new asphalt shingle roofing at garage.)

 Install new storm door on front of house, replace 7 basement windows with awning windows, replace 1 double hung on 2nd floor in kitchen, install 4 casement windows on third floor (leaving the existing interior shutter window in place), and replace 2 double hung windows on third floor in bedroom

### 4. DETAILED SCOPE OF WORK

In this box, please describe all steps necessary to complete the work described in box #3. (For example, "remove existing shingles, replace wood deck as necessary, replace wood eaves, install roof vents, replace rotted fascia boards, paint, clean worksite.")

 Install new storm door on front of house, replace 7 basement windows with awning windows, replace 1 double hung on 2nd floor in kitchen, install 4 casement windows on third floor (leaving the existing interior shutter window in place), and replace 2 double hung windows on third floor in bedroom

#### 5. BROCHURES/CUT SHEETS

Please provide information on the products or materials you are proposing to install. For example, a brochure on the brand and color of the shingles proposed.

### ADDITIONAL DETAILS

### 6. WINDOWS/DOORS

Detailed photographs of window(s) and/or door(s) proposed for replacement showing the condition of the interior and exterior of the window(s) and/or door(s)

## HISTORIC DISTRICT COMMISSION PROJECT REVIEW REQUEST

HUBBARD FARMS HISTORIC DISTRICT DETROIT Docusign Envelope ID: CA7B3D79-33BF-4B5D-AA9D-6DC9D72DCD08

Renewal by Andersen 37720 Amrhein Livonia, MI 48150

- Built in 1903
- Install new storm door on front of house (currently an aluminum storm door that covers the old original wood door) with a full view storm door
- Replace 7 basement windows with Renewal by Andersen awning windows (Exterior color is terratone)
- Replace one 1 double hung window on second floor (kitchen window) (Exterior color is white)
- Install 4 casement windows upstairs in bedrooms on third floor (the original hinged "window" that swings in will be left in place, our windows will be installed in the window pocket on the exterior) (exterior color is white)
- Replace 2 double hung windows on third floor in bedroom (exterior color is white)
- Windows are old, inefficient, do not open, and show signs of rotting on exterior.
- In total, 14 windows and 1 storm door

Unit 000 (Storm door) Exterior – custom sized FRONT OF HOUSE

# Front of house /

Unit 100 (basement) **Exterior** 

Unit 100 (basement) Interior

Unit 101 (basement) Exterior – Interior Window is missing and behind the HVAC

Unit 102 (basement) Exterior / Interior

Unit 103 (basement) Exterior / Interior

Unit 104 (basement) Exterior / Interior

Unit 106 (basement) Interior (could not get to exterior)

Unit 201 (kitchen) Interior / Exterior New grilles on interior only (3w x 2h) to match existing grille pattern

Unit 301 - 302 (3<sup>rd</sup> floor) Interior Interior "shutter" window stays in place and new window is installed outside

Unit 305 - 306 (3<sup>rd</sup> floor) Exterior / Interior (Front of house)

Unit 305 - 306 (3<sup>rd</sup> floor) Interior Interior "shutter" window stays in place and new window is installed outside

### **New Renewal by** Andersen window

## Window install example

- The window in this opening includes a single pane glass "shutter" window that swings open inside the house

- Outside storm window removed

- Leaving interior window in place (the wall cavity is deep enough for a new window to be installed inside the opening and won't interfere with the existing "interior" window

## **Existing "interior" window**

This is an example from a previous install we did in Detroit Historic that we were approved for

Unit 303 - 304 (3<sup>rd</sup> floor) Exterior Double Hung Windows

Unit 303 - 304 (3<sup>rd</sup> floor) Interior Double Hung Windows

Unit 303 - 304 (3<sup>rd</sup> floor) Interior Double Hung Windows

Unit 303 - 304 (3<sup>rd</sup> floor) Interior Double Hung Windows

## Double-Hung windows

This classic window style is an excellent choice no matter where you live. Choose gently curved Contemporary or squared Traditional Check Rails.

ELEGANT

Traditional look

of mortise-and-

tenon styling.

CONVENIENT Easy cleaning from the inside. ACCURATE Appropriate for restoration and renovation projects.

Double-Hung Windows / White Interior

FIBREX<sup>®</sup> MATERIAL: a better alternative, a better window

## Reinventing the window

Innovation has been a hallmark of Andersen Corporation since its founding in 1903. From implementing "mass production" techniques in 1904 (nine years before Henry Ford), to producing the first completely assembled window unit in the industry (1926), to becoming the world's largest specialized window frame factory in 1929, our guiding principle has always been to "make a product that is different and better." Each step of the way we have incorporated the latest technologies, fine precision, and high standards in our quest to be better.

## Introducing Fibrex® material

One of our most innovative ideas is Fibrex material. This revolutionary composite combines the strength and stability of wood with the low-maintenance features of vinyl. In fact, you might say it's an evolutionary product—Andersen scientists developed the first hollow vinyl window in the U.S. in 1959, and engineered composite window materials in the 1960s and 1970s. In 1992, Andersen perfected composite window technology, and patented Fibrex material. Today, Fibrex material is the perfect choice for your new replacement windows.

	Fibrex® Material	Other Materials
Strength	Because Fibrex® material is strong, we can make our sash and frames narrower. Narrower frames mean more glass, more view.	Vinyl frames are known to have a higher expansion/ contraction rate and can bow, breaking the glass seal.
Insulation	Fibrex material has superior thermal insulating properties. Combined with Andersen® High-Performance™ Low-E4® glass, this helps your home stay warmer in winter and cooler in summer. You can save money on your energy bills. Your home feels more comfortable.	Aluminum window frames conduct heat and cold. Heat leaks out of your house in the winter and into your house in the summer.
Low Maintenance	Fibrex material never needs scraping or painting. It won't rot, decay or mold:	Fiberglass frames are painted and may need regular maintenance.
Beauty	Renewal by Andersen replacement windows preserve the architectural beauty of your home. Frame and sash design reflect the shape and lines of your original windows. The unique extruded Fibrex material can be made into any kind of window— including curved specialty windows.	Most replacement windows have square profiles that may look artificial in your home. Vinyl frame material is often thicker, reducing glass area. Fiberglass can only be made into straight lineals.
Environmental Responsibility	40% of the raw material by weight used to make Fibrex material is clean, reclaimed wood fiber. Reclaimed materials in the manufacturing process can also be reground and reused. Renewal by Andersen <sup>®</sup> windows meet Green Seal's science-based environmental certification standards as well as being ENERGY STAR <sup>®</sup> qualified for meeting strict energy efficiency criteria set by the U.S. Department of Energy.	Andersen windows are the only windows with Green Seal certification. Fiberglass is a thermoset material and cannot be reformed into new profiles.
Warranty	A window is not just glass and some framing material. It's a precise combination of glass, frame and quality installation. We back it all with a 20/2/10 Limited Warranty* that is one of the best in the business.	More than half of all remodeling firms have been in business less than four years.** Installation is rarely covered in the written warranty.
