## REQUESTED INFORMATION

We have received your application, but it is not yet complete for review. Please provide additional details based on the comments and questions listed below. Should you need to attach additional files per this request, use the paperclip icons at the end of this form. You may attach up to (5) files per icon up to 25MB:

This application is not completed. Please provide the following:

- Product information with the specific material, design, and paint color of the proposed new siding (screenshot of product information is OK, but website links are not)
- Product information with the specific material, design, and color of the proposed replacement screens (screenshot of product information is OK, but website links are not) — if it will be handmade screen frames, please described the specific material, design, and color of the proposed replacement screens
- The style/type of gutters
- Photo of house with location call outs of the downspouts proposed locations
- Confirmation that the project scope does not include the eaves (including soffits or fascia)

Thank you!

PSR: 250417LS

## APPLICANT RESPONSE

Response Date: 04/17/2025

The design remains the same as the photos that were sent except that instead of two large screens, we want three. This for safety as the other screens are very large and concerns that someone might lean on it and have a better chance of ripping screen and possible falling.

Material was describe in former request. The rotted wood would be replaced with new wood and the siding will be the same, T1-11 is what the proper name of material is called.

It will be painted white as was the former and the screens will be made to fit the frames with your typical screening material. They will be made of wood.

black seamless gutters with two/three downspouts to be determined on best locations for them.

The eaves and soffit will be painted white like rest of trim
